FOR THE PERIOD ENDED 31 MARCH 2021

1. BASIS OF PREPARATION

The condensed consolidated interim financial statements have been prepared in accordance with and containing the information required by IAS 34: Interim Financial Reporting as well as the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, the JSE Listings Requirements and Companies Act of South Africa. The condensed consolidated interim financial statements have been prepared using accounting policies that comply with International Financial Reporting Standards ("IFRS") which are consistent with those applied in the financial statements for the year ended 30 September 2020, except for the adoption of the new and amended standards as set out below. The condensed consolidated interim financial statements were prepared under the supervision of the chief financial officer, H Karrim CA(SA).

The Group has taken into account the JSE COVID-19-related guidance notes, as well as the related educational documents prepared by SAICA regarding the impact of COVID-19 on the application of IFRS, in the preparation of these condensed consolidated interim financial statements.

The results have not been audited or reviewed by the Group's auditors, PricewaterhouseCoopers Inc.

2. ADOPTION OF NEW ACCOUNTING STANDARDS

The Group has adopted the following amendments to accounting standards, including any consequential amendments to other standards, in the preparation of these interim results. None of the amendments below had a material impact and all became effective to the Group from 1 October 2020:

- Amendments to References to the Conceptual Framework in IFRS Standards
- Amendments to IAS 1 and 8 Definition of Material

3. PRIOR PERIOD RESTATEMENT

As part of the Group's continued compliance assessment it was identified that some items were incorrectly classified in the statement of financial position. The prior period comparatives have been restated to reflect the correct classifications.

- In the March 2020 period, "Short-term borrowing facilities" were netted off "Cash and cash equivalents" and are now separately disclosed in current liabilities as they do not meet the criteria for offset in terms of IAS 1 Presentation of Financial Statements.
- In March 2020, current "Taxation" liabilities were netted off "Taxation" assets which does not meet the disclosure criteria in terms of IAS 12 Income Taxes and IAS 1 Presentation of Financial Statements.
- In both comparative reporting periods, certain rebates and trade allowances balances owing to customers were reflected as part of the 'Accounts payable and provisions' balance as opposed to offsetting these against the 'Accounts receivable' as required by the accounting standard.

The disclosure errors have been restated for each of the affected financial statement line items for the prior periods as follows:

6. FOREIGN CURRENCY TRANSLATION

The foreign currency translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations, being mainly the USA Fishmeal and fish oil business. The movement of the rand against the United States dollar from a closing rate of R17,03 at 30 September 2020 (September 2019: R15,22) to R14,96 as at 31 March 2021 (March 2020: R17,85) resulted in a foreign currency translation loss of R666.5 million (March 2020: R813.2 million gain) in the current period .

 $The foreign currency translation loss includes R628.3 \,million \,(March 2020; R803.8 \,million of the \,gain) \,attributable \,to \,the \,translation of the \,goodwill \,and \,intangible \,assets. \,The \,remaining \,movement \,in \,goodwill \,and \,intangible \,assets of \,R11.4 \,million \,(March 2020; R19.6 \,million) \,is \,amortisation.$

FOR THE PERIOD ENDED 31 MARCH 2021

Non-current assets	1 051 684	- 6	367 677	-	_	_	7 419 361

The segments have been identified based on both the geographic region of primary Group operations and region where the different products $are sold \ and \ services \ are \ rendered \ by \ the \ Group. \ Non-current \ assets \ per \ region \ is \ allocated \ based \ on \ where \ the \ subsidiary \ is \ located \ and \ includes$ $property, plant \ and \ equipment, right-of-use \ assets, goodwill \ and \ intangible \ assets \ and \ excludes \ assets \ held \ for \ sale.$

Aggregation has been applied where the geographic regions of the primary operations have similar economic characteristics with regards to the nature of the products and services, production process, methods used to distribute products or render services, and are managed as a single segment.

Revenue excludes inter-segmental revenues in South Africa and Namibia which are eliminated on consolidation as follows: Horse mackerel, hake, lobster and squid R24.7 million (March 2020: R26.8 million) and commercial cold storage and logistics R30.3 million (March 2020: R50.9 million).

¹ Restated to correct for offsetting of current taxation assets and liabilities and offsetting of cash and cash equivalents and short-term borrowing facilities in the prior interim period. The prior year has been restated to reclassify customer discounts and rebates from accounts payable to accounts receivable.

Financing includes cash and cash equivalents, loans receivable and payable, short-term borrowing facilities and deferred taxation.

FOR THE PERIOD ENDED 31 MARCH 2021

8. FAIR VAI UF

Items carried at fair value are classified according to the fair value hierarchy, by valuation method. The different levels have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable inputs, which reflect the market conditions, including that of COVID-19 in their expectations of future cash flows related to the asset or liability, either directly (that is, as prices) or indirectly (that is derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Interest rate swaps recorded in the cash flow hedging reserve and derivative liabilities are regarded as level 2 financial instruments. Foreign exchange contracts entered into by the Group for the purpose of minimising exposure to foreign currency volatility are regarded as level 2 financial instruments.

The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves.

The fair value of the foreign exchange contracts incorporates various inputs, including the nominal amount of foreign currency as well as foreign exchange spot and forward rates.

The Group only has level 2 instruments and there have been no transfers between Levels 1, 2 or 3 of the fair value hierarchy during the six months ended 31 March 2021.

9. NET CASH AND CASH EQUIVALENTS

	Unaudited six months ended 31 Mar 2021 R'000	Restated Unaudited six months ended 31 Mar 2020 R'000	Audited year ended 30 Sep 2020 R'000
Cash and cash equivalents	1 543 102	766 576	1 212 697
Short-term borrowing facilities utilised	503 487	442 000	_
Net cash and cash equivalents	1 039 615	324 576	1 212 697

The Group has total working capital facilities available of R1 100 million which is assessed and renewed annually, of which R597 million (March 2020: R658 million) is unutilised as at 31 March. In terms of the company's Memorandum of Incorporation, the company's borrowing powers are unlimited. For cash flow purposes, cash and cash equivalents are reflected on a net basis after short-term borrowing facilities utilised.

Included in the cash and cash equivalents balance at 31 March 2021 is cash of R378.8 million due to beneficiaries of the Oceana Empowerment Trust following their election to dispose of their shares following the expiry of the lock-in period. There is a corresponding liability in accounts payable as the funds were only settled in full to beneficiaries in April 2021.

The cash and cash equivalents balance at 30 September 2020 included restricted cash of R20.4 million relating to Daybrook's 2006 Deepwater Horizon oil spill lawsuit. In terms of the 2015 stock purchase agreement entered into with the selling Daybrook stockholders, all risks and rewards relating to the Deepwater Horizon oil spill lawsuit were excluded from the transaction and the purchase consideration. The funds were settled in full to the Stockholder Representative on 12 November 2020.

10. ASSETS HELD FOR SALE

The Bayhead cold storage facility operated by the Commercial Cold Storage and Logistics division was designated as a held for sale asset in the prior year following the conclusion of an agreement for the sale of the business. The sale was concluded in February 2021 for a consideration of R39.8 million. R3.8 million of the consideration was not yet payable at 31 March 2021.

In the prior year, Oceana entered into an agreement to dispose of its interest in Oceana Boa Pesca Limitada to its joint venture partner following the 2019 impairment of the Group's investment in Oceana Boa Pesca Limitada as a result of the decline in the Sardinella resource in Angola and the mothballing of the Angolan operations.

Accordingly the investment and long-term interest in Oceana Boa Pesca Limitada were designated as held for sale assets at the end of the prior financial year. The carrying amount of the investment and long-term interest in Oceana Boa Pesca Limitada of R11.9 million was recovered through the purchase of its fishmeal plant in February 2021 as part of a set-off agreement and it is anticipated that the transaction to complete the full disposal of the investment will be concluded before September 2021. The agreement concluded for the acquisition of the plant was aligned with the need to enhance operational capacity of South African operations.

FOR THE PERIOD ENDED 31 MARCH 2021

11. LONG-TERM LOANS

The South African rand-denominated term loans of R1 481.6 million (March 2020: R1 568.3 million) bear interest at a rate of JIBAR plus margin of 1.7% to 1.85% and are repayable through semi-annual instalments and single payments with the final principal payment due on 20 July 2023. The loans are secured by intercompany, cross guarantees and indemnities provided by Oceana Group Limited, Lucky Star Limited, Blue Continent Products Proprietary Limited, Commercial Cold Storage (Namibia) Proprietary Limited, Erongo Marine Enterprises Proprietary Limited, Amawandle Pelagic Proprietary Limited and Amawandle Hake Proprietary Limited. The current portion of long-term loans includes semi-annual installments of R50.0 million payable in June 2021 and December 2021 along with principal payments of R182.3 million repayable in July 2021 and R300.0 million repayable in December 2021. Given the Group's low gearing levels, management is in the process of reviewing the Group's debt maturity profile and intends refinancing the R300.0 million loan payable in December 2021, before 30 September 2021.

The US dollar-denominated term loan of R1 645.2 million (March 2020: R2 048.5 million) bears interest at a rate of LIBOR plus applicable margin of 3.0% which varies with the total leverage ratio at the pricing date. The facility is structured as an amortisation payment facility repayable in quarterly instalments with the final payment due on 30 September 2024. The loan is secured by a first-priority perfected security interest in substantially all of the tangible and intangible assets of the Oceana US Holdings Incorporated, Daybrook Investors Incorporated, Daybrook Holdings Incorporated and Daybrook Fisheries Incorporated.

Debt covenants, which exist on long-term loans, are monitored by management on an ongoing basis and are being met.

The Oceana Empowerment Trust lock-in period expired in January 2021 and the trust commenced with its unwinding process in terms of the trust deed. The participation rights of employee beneficiaries in the Oceana Empowerment Trust represent restricted equity instruments given that employee beneficiaries cannot freely dispose of these rights until the expiration of the lock-in period and submission by beneficiaries of their respective distribution notices.

In terms of the unwind process, beneficiaries holding 11 187 544 of the 13 302 373 treasury shares held by the Oceana Empowerment Trust elected to sell shares in return for cash, beneficiaries holding 326 017 elected to retain shares and beneficiaries holding the remaining shares have not yet elected to be settled resulting in these shares remaining held by the trust at 31 March 2021.

With respect to the beneficiaries that elected to sell shares in return for cash, Oceana Group repurchased 8 478 067 of the shares held by the Oceana Empowerment Trust for R67,90 per share on 19 March 2021 in terms of the approval granted by shareholders at the general meeting held on 23 February 2021. These repurchased shares were subsequently cancelled and delisted from the JSE on 23 March 2021. A further 2 709 477 shares were sold on the open market at R65,51 per share on 24 March 2021 resulting in an average settlement price of R67,32 per share to beneficiaries that elected to sell shares in return for cash. The cash received by the Oceana Empowerment Trust from the sale of the shares was distributed to the beneficiaries in April 2021 after deducting relevant taxation, costs and the outstanding portion of the capital contributions payable to the Oceana Group.

At the general meeting held on 23 February 2021, shareholders also approved a new BEE transaction to broaden equity ownership among both employees and strategic black partners. In terms of this approval, Oceana Group issued 7 825 908 new shares at 1 cent each to the Oceana Empowerment Trust 2 and 652 159 new shares at 1 cent each to the Oceana Stakeholder Empowerment Trust on 19 March 2021. The shares were listed on the JSE effective 23 March 2021.

A total of 288 400 shares were repurchased on the open market, in the prior period by Lucky Star Limited, for the purposes of the Group's forfeitable share plan allocation. The shares were repurchased at an average price of R58.52 per share.

16. RELATED-PARTY TRANSACTIONS

The Group entered into various transactions with related parties in the normal course of business. The nature of these related-party transactions is consistent with those reported previously, other than the purchase of the Oceana Boa Pesca Limitada fishmeal plant that was acquired as part of the exit from the Angolan operation (refer to note 10).

17. CONTINGENT LIABILITIES AND FINANCIAL GUARANTEES

Oceana Group Limited ("the company") and its subsidiaries have given cross suretyships in support of short-term borrowing facilities of certain subsidiaries and the company. Further, the company and six of the Group subsidiaries have guaranteed rand-denominated term loans of R1 481.6 million (March 2020: R1 568.3 million). Refer to note 11.

18. EVENTS AFTER THE REPORTING DATE

At the date of this report, the COVID-19 pandemic has had no further significant effect on the operations of the Group. The Group continues to monitor the potential outcomes of the COVID-19 pandemic and maintains sufficient liquidity to withstand any foreseeable disruptions. Other than the dividend that has been declared (refer to Note 13) after the reporting period, no further events occurred after the reporting date that may have an impact on the Group's reported position at 31 March 2021 or require separate disclosure in these condensed consolidated financial statements.

COMMENTS

GROUP OVERVIEW

The business environment for the first half of the 2021 financial year continued to be shaped by the on-going uncertainties brought on by the Covid-19 pandemic on economies across the globe, impacting both the pace of economic recoveries as well as consumer spending patterns. As a designated essential service provider, all Oceana locations across countries in which we are present, continue to operate with rigorous monitoring and evaluation of Covid-19 protocols to safeguard our employees, customers and suppliers and to ensure food security through continuity of production and supply.

While demand for our core products remained strong, the Group's supply chain and operations were hampered by temporary disruptions brought on by lockdown regulations and restrictions in key supply territories.

In the context of the strong performance delivered in the midst of a market downturn in 2020, Oceana delivered a satisfactory performance for the six months ended 31 March 2021. Positive trading conditions for fishmeal, fish oil and horse mackerel were muted by supply chain and operations disruptions in canned fish. As expected, Group revenue for the period was weighed down by the performance of the fishmeal and fish oil segment in the United States of America (USA) on the back of the significantly lower prior season catch. Revenue from African operations grew 1% and overall revenues declined 2% to R3 568 million (March 2020: R3 627 million).

Group operating profit declined 4% to R583 million (March 2020: R605 million) with operating profits from African operations declining 1% and Daybrook's operating profit declining 16%. Included in these results is the net effect of R31 million profit on disposal of the Bayhead cold storage facility as well as R10 million transaction costs for the launch of the new employee and strategic partner trusts.

Net interest expense decreased by 32% to R94 million (March 2020: R139 million) primarily due to continued debt repayments, higher cash balances and lower interest rates in South Africa. The average interest rate for all debt as at the end of March is 5.3% (March 2020: 7.2%).

The taxation expense of R140 million (March 2020: R153 million) includes capital gains tax of R3.3 million (2020: R nil), a prior year tax benefit in the US of R4.9 million as well as lower dividends withholding tax from lower foreign dividends declared.

Strong cost management discipline coupled with the lower net interest expense contributed to Group profit after tax increasing by 11% to R348 million (March 2020: R313 million).

Earnings per share and headline earnings per share increased by 13% and 4% respectively.

COVID-19 IMPACT

The uncertainties and disruptions brought on by Covid-19 lockdown restrictions across main raw fish supply geographies together with the gradual resumption of trade activities under pandemic restricted protocols, resulted in port, logistics and supply impediments which hampered the Group's ability to secure adequate levels of fish supply to maintain production levels and to fully service canned fish demand. These factors also had the effect of delaying shipment of export sales as well as reducing both Group and third-party occupancy levels in the cold storage business. Shipping and port delays resulted in a c60% supply shortfall compared to the comparative period with a resulting reduction in production and consequently lower inventory levels.

 $We estimate revenue \ lost as a consequence of these \ disruptions \ at R73 \ million \ and \ a corresponding \ operating \ profit \ reduction \ amounting \ to \ R34 \ million.$

CASH FLOW AND FINANCIAL POSITION

 $Management continues to \ maintain a conservative \ cash \ management posture \ in view of the pandemic induced uncertainties, while retaining measures to strengthen the balance sheet and optimise cash flow, including on-going re-assessments of planned capital expenditure.$

Overall cash on hand improved by R715 million to R1 040 million (March 2020: R325 million). Strong cash generation, frozen fish procurement delays, lower inventory levels and improved supplier terms contributed to improved cash balances. Included in the closing cash balance is R378.8 million due to beneficiaries of the Oceana Empowerment Trust being the net proceeds from the sale of shares on behalf of those beneficiaries.

DIVIDENDS

After due consideration and evaluation of our prospects and liquidity for the immediate future, the Board declared an interim dividend of 110.0 cents (March 2020: 100.0 cents) per share.

COMMENTS (CONTINUED)

REVIEW OF OPERATIONS

		Revenue		Operating profit

Commercial cold storage and logistics	189 489	190 841	(1)	84 164	52 115	62
	3 567 974	3 626 514	(2)	583 391	605 120	(4)

CANNED FISH AND FISHMEAL (AFRICA)

Canned fish demand has remained positive with market share growth from the high base of the previous period, in an environment where the disposable income of consumers has come under pressure. Canned fish sales demonstrated resilience for most of the trading period but was negatively impacted by low 'stokvel' volumes in December and exacerbated by lower supply service levels in March due to lower frozen fish availability. The combined effect of Covid-19 lockdown restrictions, global container shortages and port delays in Cape Town resulted in a 60% decline in frozen fish imports, reducing production levels and canned fish inventory available for sale. Overall volume decline of 5% has been positively offset by the effect of a 4% price increase effected in November. Operating margins in the canned fish segment remain strong, supported by ongoing procurement and production efficiencies.

Improved global demand for fish meal has been reflected in improved pricing for the African fishmeal and fish oil business. Profitability came under pressure from early season by-catch limitations which constrained catch levels for the industry to 37% of the prior period. This, together with the port and freight logistics challenges which impacted export sales, has materially offset the benefit from favourable fish meal pricing.

The 24% decline in operating profit for this division is primarily attributed to lost production days, lower fixed cost absorption and lower fish meal volumes.

FISHMEAL AND FISH OIL (USA)

As previously reported, landings in the 2020 fishing season were severely hampered by a combination of Covid-19 disruptions and an abnormally active hurricane season contributing to a 36% reduction in inventory available for sale during the off-season period to March 2021.

Positively, fishmeal offtake volumes performed better than expected with continued demand from the USA pet food manufacturers, while overall pricing for fishmeal and fish oil has increased by 1% and 13% respectively over the prior period.

Operating profit for the period reduced to R76 million (March 2020: R91 million) with US Dollar earnings having been converted at an average exchange rate of R15.11/US Dollar compared to R16.61/US Dollar for the comparative period.

The 2021 fishing season commenced on 19 April 2021 and will run until the end of October 2021. Early season indicators are positive with oil yield in excess of 10%, notwithstanding a slow start due to inclement weather.

HORSE MACKEREL, HAKE, LOBSTER AND SQUID

This segment delivered 9% growth in revenue and 13% growth in operating profit driven by strong performances from the horse mackerel, lobster, and squid businesses.

Horse mackerel operations remained resilient during the half with quota levels in both SA and Namibia materially unchanged. Strong demand across traditional African markets coupled with supply shortages drove favourable pricing and compensated for reduced Namibian catch rates. The effect of higher fuel prices and a stronger Rand were mitigated by favourable fuel cover arrangements which remain in place until September 2021. Notwithstanding a 9% reduction in landings largely as a result of lost sea days due to vessel maintenance, this segment delivered significantly increased revenues and improved operating profit for the period.

The 2021 Hake TAC decreased 5% relative to the prior year. This, together with lower industry-wide catch rates and 2 statutory vessel dry-docks, saw sea days and landings reduce by 9% and 25% respectively. A slow recovery in the European food services sector has placed hake prices under short term pressure offsetting the benefit derived from a 10% improvement in the Euro exchange rate. As a result, revenue and operating profit for the hake business declined against the comparative period.

Profitability in the lobster segment improved following the reopening of the Chinese market for live lobster which drove up prices. Squid landings improved significantly by 82% due to good catch rates.

COMMENTS (CONTINUED)

REVIEW OF OPERATIONS (CONTINUED)

COMMERCIAL COLD STORAGE AND LOGISTICS (CCS)

The CCS business delivered a 62% improvement in operating profit, benefitting from the profit on disposal of the Bayhead cold storage facility concluded in February, as well as cost savings achieved through optimisation of storage capacity. Overall occupancy levels declined as a direct result of reduced imports brought on by the global container shortage. The port logistic challenges also negatively impacted Lucky Star's utilisation of space for frozen fish. Positively, revenue per pallet improved 4% supported by Namibian occupancy levels.

DIRECTORATE CHANGES

Thoko Mokgosi-Mwantembe and Peter John Golesworthy were appointed as independent non-executive directors on 7 April 2021. The Oceana Board welcomes Thoko and Peter and looks forward to their contributions in assisting the Company in achieving its strategic objectives.

CHANGE TO TRANSFER SECRETARY

Shareholders are advised, that in terms of paragraph 11.39 of the JSE Listings Requirements, JSE Investor Services (Pty) Limited will replace Computerhsare Investor Services (Pty) Limited as transfer secretaries to Oceana, effective 1 June 2021.

Contact details for JSE Investor Services (Pty) Limited are as follows:

13th Floor, 19 Ameshoff Street Braamfontein Johannesburg 2000 P.O. Box 4844, Johannesburg, 2000, South Africa

Telephone: 0861 546572

PROSPECTS

We remain cautious about the effects of Covid-19 for the remainder of the year. The stringent and proactive protocols adopted in 2020 to address Covid-19 risks for the safety of our workforce to sound management of financial risks remain a primary focus area for us.

The Group's core product offerings remain in demand and our diversified global customer base offers protection from the economic stress being experienced by SA consumers.

In South Africa we expect our canned fish segment to remain under volume pressure due to a constrained consumer environment and potential supply chain disruptions. However, we will look to deliver growth bolstered by the effect of a stronger Rand on the cost of imported frozen fish and on-going production efficiencies. In the rest of Africa our fresh fish offerings continue to show strong demand supported by consistent landings across our segments.

Our USA operations are well positioned for volume growth with the addition of a 12th vessel and the introduction of a run-boat for the 2021 fishing season. Growth in pet food and global aquaculture continues to drive positive pricing for fishmeal and fish oil in all geographies.

The 2021 FRAP process has commenced with the publishing of draft economic impact assessments and appointment of service providers to bolster capacity. The DEFF Ministry remains committed to a transparent and accountable process that concludes by December 2021.

Any forward-looking statements set out in this announcement have not been reviewed or reported on by the auditors.

On behalf of the board

MA Brey Chairman (non-executive) Cape Town 02 June 2021 l Soomra Chief executive officer

COMMENTS (CONTINUED)
