The Board of Directors oversees the Group's activities and holds management accountable for adhering to the risk governance framework. To do so, directors review reports prepared by the businesses, risk, and others. They exercise sound independent judgement, and probe and challenge recommendations, as well as decisions made by management.

Finance is responsible for establishing a strong control environment over the Group's financial reporting processes and serves as an independent control function advising business management, escalating identified risks and establishing policies or processes to manage risk.

Finance is led by the Financial Director who reports directly to the Chief Executive Officer. The Financial Director has regular and unrestricted access to the Board of Directors (Board) as well as to the Group Audit Compliance Committee (GACC).

Together with the GACC, the Board has reviewed and approved the summary consolidated financial results including the reporting changes contained in the announcements released on the Stock Exchange News Services (SENS) on 11 March 2020.

The GACC and the Board are satisfied that the changes disclosed in the SENS result in the fair presentation of the summary consolidated financial statements and comply, in all material respects, with the relevant provisions of the Companies Act, IFRS and interpretations of IFRS, and SAICA's Reporting Guides.

Absa Group Limited

Summary consolidated annual financial results for the reporting period ended 31 December 2019

Authorised financial services and registered credit provider (NCRCP7)
Registration number: 1986/003934/06
Incorporated in the Republic of South Africa
JSE share code: ABG
ISIN: ZAE000255915

These summary consolidated annual financial results were prepared by Absa Group Financial Control under the direction and supervision of the Financial Director, J P Quinn CA(SA).

The financial information (the summary consolidated financial results and the consolidated and separate financial statements for the year ended 31 December 2019) is available for inspection at the Company's registered office on weekdays from 09:00 to 16:00.

The consolidated and separate financial statements and full audit opinion, including any key audit matters, will be available at <https://www.absa.africa/absafrica/investor-relations/financial-results/> when the Group's consolidated and separate financial statements are released on or about 31 March 2020.

Profit and dividend announcement

for the reporting period ended 31 December

The numbers in the profit commentary represent IFRS results, unless specifically indicated as normalised.

Salient features

Absa Group Limited (the Group) discloses International Financial Reporting Standards (IFRS) financial results and a normalised view, which adjusts for the financial consequences of separating from Barclays PLC.

IFRS basis

- Headline earnings per share (HEPS) increased by 3% to 1 750.1 cents from 1 703.7 cents.
- The Group declared a 1% higher full-year dividend per share of 1 125 cents.
- Diluted HEPS grew 3% to 1 747.6 cents from 1 700.4 cents
- RBB South Africa headline earnings declined 2% to R9.5bn, CIB South Africa declined 6% to R3.2bn and Absa Regional Operations rose 16% to R3.6bn.
- Return on equity (RoE) decreased to 13.1% from 13.4%.
- Revenue increased 5% to R80.1bn and operating expenses rose 4% to R48.8bn, resulting in a 60.9% cost-to-income ratio.
- Pre-provision profit increased 6% to R31.4bn.
- Credit impairments grew 24% to R7.8bn, resulting in a 0.80% credit loss ratio from 0.73%.
- Absa Group's Common Equity Tier 1 (CET 1) ratio of 12.1% remains above regulatory requirements and at the top end of the Board's target range.
- Net asset value (NAV) per share rose 3% to 13 669 cents.

Normalised basis

- Diluted normalised HEPS grew 1% to 1 923.3 cents from 1 910 cents.
- RoE decreased to 15.8% from 16.8%.
- Revenue increased 6% to R80.0bn and operating expenses rose 6% to R46.4bn, resulting in a 58.0% cost-to-income ratio.
- Pre-provision profit increased 5% to R33.6bn.
- Absa Group's normalised CET 1 ratio of 11.8% remains above regulatory requirements and at the top end of the Board's target range.
- NAV per share rose 5% to 12 605 cents.

Normalised reporting

Given the process of separating from Barclays PLC, Absa Group continues to report IFRS-compliant financial results and a normalised view. The latter adjusts for the consequences of the separation and better reflects its underlying performance. The Group will present normalised results for future periods where the financial impact of separation is considered material.

Normalisation adjusts for the following items: R195m of interest earned on Barclays PLC's separation contribution (2018: R330m); hedging revenue linked to separation activities of R36m (2018: R525m); operating expenses of R2 410m (2018: R3 161m) and R113m of other expenses (2018: R194m), plus a R538m tax impact of the aforementioned (2018: R484m) items. In total, these adjustments added R 1 739m to the Group's normalised headline earnings during the period (2018: R1 986m). Since normalisation occurs at a Group level, it does not affect divisional disclosures.

Constant currency

Constant currency (CCY) pro forma financial information has been presented to illustrate the impact of changes in the Group's major foreign currencies, namely the Botswana Pula, Ghanaian Cedi, Kenyan Shilling, Mauritius Rupee, Mozambique Metical, Seychelles Rupee, Tanzanian Shilling, Uganda Shilling, United States Dollar and Zambia Kwacha. The constant currency pro forma financial information has been prepared for illustrative purposes only and, because of its nature, the CCY pro forma financial information may not fairly present the Group's financial position, changes in equity, results of operations or cash flows. In determining the CCY pro forma financial information, amounts denoted in the above listed currencies for the current period and prior period have been converted to the presentation currency using the spot exchange rate as at 31 December 2018. The CCY pro forma financial information is the responsibility of the Directors.

Overview of results

Absa Group's headline earnings grew 3% to R14 526m from R14 142m and diluted HEPS rose 3% to 1 747.6 cents from 1 700.4 cents. The Group's RoE was 13.1% from 13.4% and its return on assets was 1.07% from 1.17%. Revenue grew 5% to R80 120bn, with net interest income and non-interest income rising 6% and 3% respectively. The Group's net interest margin (on average interest-bearing assets) decreased to 4.50% from 4.65%, largely due to lower deposit margins. Gross loans and advances to customers grew 9% to R947bn, while deposits due to customers rose 12% to R826bn. With operating expenses growing 4%, the cost-to-income ratio decreased to 60.9% from 61.2%, and pre-provision profit grew 6% to R31.4bn. In CCY, pre-provision profit increased 4%. Credit impairments grew 24% to R7.8bn, resulting in a 0.80% credit loss ratio from 0.73%. The Group's NAV per share increased 3% to 13 669 cents and it has declared a 1% higher full year dividends per share of 1 125 cents.

Profit and dividend announcement

for the reporting period ended 31 December

RBB South Africa's headline earnings declined 2% to R9 510m primarily due to 38% higher credit impairments. CIB South Africa's earnings fell 6% to R3 230m, given 4% lower revenue. Total CIB headline earnings increased 3% to R5 946m, largely due to 48% lower credit impairments. Absa Regional Operations' headline earnings grew 16% to R3 635m, or 12% in CCY, with RBB and CIB increasing 22% and 15% respectively.

South African earnings declined 3% to R12 657m, while Africa Regions (includes RBB ARO, CIB ARO, Head Office ARO and Insurance ARO) rose 17% to R3 608m, or 13% in CCY, to account for 22% of Group earnings.

Operating environment

The global economy slowed in the current year, driven by weakness in global trade and investment. The International Monetary Fund (IMF) estimated global growth at 2.9% in 2019, marking the slowest growth since the global financial crisis. Inflation was generally low across advanced and emerging economies due to weak economic activity. The combination of low inflation and slowing economic growth prompted major central banks to cut interest rates and monetary policy is likely to remain accommodative.

South Africa's economy contracted in the third and fourth quarters by 0.8% and 1.4%, respectively, the second recession in two years. The economy has been hit by short-term shocks, persistently weak business sentiment and periods of load shedding. GDP growth for full-year 2019 slowed to 0.2%, the weakest outcome since the 2009 recession. Despite stagnant growth and challenging labour market conditions, household credit extension picked up gradually through the year, reaching 6.1% YoY in December.

Headline inflation surprised on the downside in 2019 and reached a nine-year low of 3.6% YoY in November, reflecting weak demand and persistent slack in the economy, but picked up to 4.0% in December. The South African Reserve Bank (SARB) reduced the repo rate by 25 bps in July 2019, citing the improved inflation outlook. The rand spent much of 2019 trading weaker, but recovered towards the end of the year to finish slightly higher as a favourable turn in global risk appetite helped offset a generally downbeat assessment of South Africa's risks.

Beyond South Africa, economic growth in our Africa Region presence countries slowed to a forecast 5.0% in the current year, compared to 5.6% the previous year. This economic slowdown was mostly in Botswana, Mozambique, Uganda and Zambia, due to a weaker global backdrop and significant weather-related challenges.

Group performance

Statement of financial position

Total assets increased 9% to R1 399bn as at 31 December 2019, largely due to 9% growth in loans and advances to customers.

Gross loans and advances to customers

Gross loans and advances to customers increased 9% to R947bn. RBB South Africa loans rose 7% to R506bn, reflecting 10% growth in instalment credit agreements, 4% higher mortgages, 5% growth in credit cards and a 20% increase in personal and term loans. CIB South Africa's gross loans grew 9% to R300bn, including 27% growth in mortgages and 47% higher reverse repurchase agreements, while term loans rose 2%. Absa Regional Operations' gross loans increased 15% to R116bn (+CCY 21%).

Funding

The Group's liquidity position remains strong, with liquid assets and other sources of liquidity growing 7% to R233bn, which equates to 28% of customer deposits. Its average liquidity coverage ratio for the fourth quarter was 134% from 110%, comfortably above the minimum regulatory hurdle of 100% during the current period. Deposits due to customers grew 12% to R826bn. Loans to deposit and debt securities ratio decreased to 93.0% from 93.8%. Deposits due to customers constituted 75% of total funding from 72%. RBB South Africa's deposits grew 10% to R373bn, with savings and transmission deposits up 11% and fixed deposits up 15%. CIB South Africa's deposits increased 19% to R207bn. Absa Regional Operations' deposits increased 13% to R150bn (+CCY 19%).

Net asset value

The Group's NAV rose 3% to R113bn and its NAV per share grew 3% to 13 669 cents. During the year it generated retained earnings of R14.2bn, from which it paid R9.4bn in ordinary dividends. Its foreign currency translation reserve decreased by R1.3bn.

Capital to risk-weighted assets

Group risk-weighted assets (RWAs) increased 6% to R870bn at 31 December 2019, largely due to 7% higher credit RWAs. The Group remains well capitalised, comfortably above minimum regulatory capital requirements. Its normalised CET 1 and total capital adequacy ratios were 12.1% and 15.8% respectively (from 12.8% and 16.1%). The Group generated 1.8% of CET 1 capital internally during the year. Declaring a 1% higher full-year DPS of 1 125 cents on a dividend cover of 1.6 times took into account the operating environment, the Group's strong capital position, internal capital generation, strategy and growth plans.

Profit and dividend announcement

for the reporting period ended 31 December

Group performance (continued)

Statement of comprehensive income

Net interest income

IFRS net interest income increased 6% to R46 501m from R43 755m (normalised: increased 7% to R43 306m from R43 425m). On a CCY basis, the growth was 6%. Average interest-bearing assets grew 10%. The Group's net interest margin (to average interest-bearing assets) declined to 4.50% from 4.64%, mostly due to a lower deposit margin. Loan pricing decreased 7 bps, primarily due to the Investment Bank and Relationship Banking in SA. Slower growth in Home Loans than overall loans had a positive loan composition impact. Deposit margins decreased, mainly in RBB South Africa, reflecting competitive pricing in Relationship and Everyday Banking. Increased reliance on wholesale funding had an adverse composition effect. Endowment on equity and liabilities after hedging contributed 4 bps less as they grew slower than overall interest-bearing assets. The structural hedge released R595m to the income statement, or 6 bps, from R518m. The after tax cash flow hedging reserve for the programme was R1.1bn, from R0.4bn in 2018. Absa Regional Operations had a negative 1 bps impact due to lower interest rates in a number of markets. IFRS 16 reduced the net interest margin by 3 bps, with an equal reduction in operating expenses. The increased basis differential between prime and JIBAR in SA added 2 bps, while lower average high quality liquid assets increased the margin by 5 bps.

Non-interest income

Non-interest income increased 3% to R33 619m from R32 760m (normalised: increased 3% to R33 655m from R32 235m) to account for 42% of total revenue from 43%. On a CCY basis, the growth was 4%. Net fee and commission income grew 5% to R23 606m, representing 70% of total non-interest income. Within this, cheque account fees increased 2% to R5 497m, electronic banking grew 3% to R5 510m, while credit cards and merchant income rose by 6% and 11% respectively. Net trading excluding hedge accounting fell 4% to R4 980m, reflecting Markets in South Africa decreasing 28%, while Absa Regional Operations increased 25%.

RBB South Africa's non-interest income grew 6% to R23 381m, as Transactional and Deposits rose 9% to R8.9bn, reflecting growth in the active cheque account base. Also within RBB SA, Relationship Banking increased 3% to R6.3bn, Card grew 4% to R3.0bn and the Insurance Cluster rose 7% to R3.2bn. CIB South Africa decreased 18% to R3 762m, due to lower Markets revenue in the Investment Bank. Absa's Regional Operations non-interest income grew 17% to R6 041m (CCY 14%), as CIB increased 22% and RBB 13%.

Impairment losses on loans and advances

Credit impairments rose 24% to R7 816m from R6 324m, which increased the Group's credit loss ratio on gross loans and advances to customers and banks to 0.80% from 0.73%. However, this was at the bottom end of the expected through-the-cycle charge of 0.75% to 1.0%. RBB South Africa's credit impairments increased 38% to R6 253m, resulting in a 1.18% credit loss ratio from 0.92%. Home Loans' charge grew 61% to R182m resulting in a 0.08% credit loss ratio from 0.05%. Vehicle and Asset Finance credit impairments grew 8% to R1 099m, improving its credit loss ratio to 1.34% from 1.37%. Card's credit loss ratio increased to 5.46% from 3.47%, given 72% higher credit impairments of R2 536m, while Personal Loans' charge rose 46% to R1 610m increasing its credit loss ratio to 7.16% from 5.51%. Both reflected new business strain under IFRS 9 and higher stage 3 coverage. Relationship Banking's credit impairments grew 16% to R322m, increasing its credit loss ratio to 0.26% from 0.25%. CIB South Africa's credit impairments decreased 63% to R367m from R998m, due to a large single name exposure in the base. Its credit loss ratio improved to 0.11% from 0.36%. Absa Regional Operations' credit charge increased 53% to R1 213m from R794m, increasing its credit loss ratio to 0.98% from 0.78%. Within this, RBB's charge increased 37% to R1 120m, a 2.10% credit loss ratio, while CIB's grew materially to R173m or a 0.30% credit loss ratio.

Operating expenses

Operating expenses grew 4% to R48 767m from R46 803m, resulting in a 60.9% cost-to-income ratio from 61.2%. Staff costs grew 6% and accounted for 53.9% of total operating expenses. Salaries rose 8% and total incentives fell 5%. Headcount decreased 6% to 38 472, largely due to reductions in South Africa. Non-staff costs grew 5%. Professional fees reduced 9%, while telephone and postage increased 13% and printing and stationary decreased 5%. Operating leases on properties decreased 89%, while depreciation increased 55%, both due to the impact of IFRS 16. Property costs were flat, given optimisation of the real estate portfolio. Marketing costs decreased 11% reflecting lower product campaign and advertising spend. Total IT-related spend grew 18% to R9 323m and constituted 19% of Group operating expenses. Amortisation of intangible assets rose 62%, while cash transportation increased 3%.

RBB South Africa costs grew 4% to R28 581m, reflecting a multi-year transformation plan leveraging digital capabilities. CIB South Africa expenses grew 6% to R6 503m, due to investment in systems and technology after separating from Barclays PLC. Absa Regional Operations' expenses increased 12% (+CCY 8%) to R10 753m given incremental costs following separation from Barclays PLC partially offset by optimising its branch network. CIB ARO increased 20% and RBB Regional Operations grew 9%.

Taxation

The Group's taxation expense decreased 8% to R5 772m, resulting in a 26.5% effective tax rate from 29.2%.

Profit and dividend announcement

for the reporting period ended 31 December

Segment performance

RBB South Africa

Headline earnings declined 2% to R9 510m, due to 38% higher credit impairments as pre-provision profits increased 7%. Revenue grew 5% to R49 572m, with non-interest income increasing 6%. Costs rose 4% to R28 581m, resulting in a decrease of its cost-to-income ratio from 58.4% to 57.7%. Credit loss ratio increased to 1.18% from 0.92%. RBB South Africa generated a return on regulatory capital (RoRC) of 21.4% and constituted 58% of total normalised headline earnings excluding the Group centre.

Relationship Banking headline earnings grew 7% to R3 672m, reflecting 6% pre-provision profit growth, partially offset by 16% higher credit impairments. Despite 9% growth in pre-provision profit, Everyday Banking headline earnings fell 13% to R3 500m, given 50% higher credit impairments. Within this, Transactional and Deposits headline earnings grew 9%, while Card and Personal Loans fell 40% and 25% respectively due to higher credit impairments. Home Loans headline earnings rose 1% to R1 588m, largely due to 5% higher pre-provision profits. Insurance Cluster earnings increased 10% to R1 273m, with Life Insurance up 11% and short-term insurance growing 6%. Vehicle and Asset Finance headline earnings rose 41% on 12% higher pre-provision profits.

CIB South Africa

Headline earnings decreased 6% to R3 230m, as pre-provision profits fell 15% as 6% higher costs exceeded 4% lower revenue, resulting in a 58.9% cost-to-income ratio. Credit impairments fell 63%, given a large single name in the base. Corporate earnings grew 2% to R1 223m, given 6% higher pre-provision profits and flat credit impairments. Investment Bank earnings decreased 10% to R2 007m, due to 12% lower revenue. CIB South Africa contributed 19.7% of total normalised headline earnings excluding the Group centre and generated a 13.4% RoRC.

Total CIB earnings, including CIB Absa Regional Operations, increased 3% (+CCY1%) to R5 946m. Pre-provision profits declined 4%, as revenue grew 3% and costs 10%. Credit impairments fell 48%, resulting in a 0.14% credit loss ratio. Total CIB contributed 37% of headline earnings excluding the Group centre and produced an 18.2% RoRC.

Absa Regional Operations

Headline earnings grew 16%, or 12% in CCY, to R3 635m, largely due to 17% higher pre-provision profits. Revenue grew 14% to R18 605m, including 17% higher non-interest income. Costs rose 12% to R10 753m, resulting in a 57.8% cost-to-income ratio. RBB earnings increased 22% to R798m, or 19% in CCY, as higher pre-provision profits rose 26% to outweigh 37% higher credit impairments. CIB earnings grew 15%, or 10% in CCY, to R2 716m due to 15% revenue growth. Absa Regional Operations accounted for 22% of total headline earnings excluding the Group centre and produced a 19.0% RoE.

Prospects

The Group projects 0.9% real growth for South Africa in 2020. We expect a continued difficult environment for the consumer, while heightened uncertainty will continue to dampen business confidence and investment. Downside risks are significant and include the risk of protracted load shedding, a sharper global slowdown due to the coronavirus outbreak and the impact of a potential sovereign credit rating downgrade from Moody's. The South African Reserve Bank decreased the repo rate by 25 bps in January and financial markets are currently pricing in a high probability of two further 25 bps rate cuts during 2020.

In our Africa regions markets, we see real GDP growth improving to 5.6% during 2020. Continued infrastructure investment, improved mining output and agriculture should help support growth, although there is risk to the downside, including negative country-specific and idiosyncratic shocks, as well as the potential for a coronavirus-led deterioration in the global outlook dampening Africa's economic outlook.

On the basis described above our current assumptions, and excluding any major unforeseen political, macroeconomic or regulatory developments, we forecast reasonably similar balance sheet growth, although loans could grow faster than deposits, particularly in CIB. The Group continues to expect better loan growth from ARO in CCY than from South Africa. Our net interest margin is expected to be similar to 2019, given positive mix impacts from higher growth in retail unsecured lending and ARO, partially offset by low margin deposit growth and slightly lower policy rates. Costs will remain well controlled and we are targeting positive operating Jaws, in part due to non-recurring costs in the base. The Group's credit loss ratio is expected to increase slightly, but remain in the bottom half of our through-the-cycle target range. There is increased risk of further strain in our SA retail portfolios. Our RoE is likely to be similar to 2019. We still believe that an RoE target of 18% to 20% is appropriate for our Group, although we do not envisage achieving it until 2022 at the earliest, which is heavily dependent on the state of SA's economy. However, we expect to see consistent progression on our cost-to-income ratio. Lastly, our CET 1 ratio should remain at the top end of our Board target range and we remain comfortable with our dividend cover at current levels.

Profit and dividend announcement

for the reporting period ended 31 December

Declaration of ordinary dividend number 67

Shareholders are advised that a final ordinary dividend of 620 cents per ordinary share was declared on 11 March 2020, for the period ended 31 December 2019. The ordinary dividend is payable to shareholders recorded in the register of members of the Company at the close of business on 17 April 2020. The directors of Absa Group Limited confirm that the Group will satisfy the solvency and liquidity test immediately after completion of the dividend distribution.

The dividend will be subject to local dividends withholding tax at a rate of 20%. In accordance with paragraphs 11.17 (a) (i) to (ix) and 11.17 (c) of the JSE Listings Requirements, the following additional information is disclosed:

- › The dividend has been declared out of income reserves.
- › The local dividend tax rate is twenty per cent (20%).
- › The gross local dividend amount is 620 cents per ordinary share for shareholders exempt from the dividend tax.
- › The net local dividend amount is 496 cents per ordinary share for shareholders liable to pay the dividend tax.
- › Absa Group Limited currently has 847 750 679 ordinary shares in issue (includes 19 122 853¹ treasury shares).
- › Absa Group Limited's income tax reference number is 9150116714.

In compliance with the requirements of Strate, the electronic settlement and custody system used by the JSE Limited, the following salient dates for the payment of the dividend are applicable:

Last day to trade cum dividend	Tuesday, 14 April 2020
Shares commence trading ex-dividend	Wednesday, 15 April 2020
Record date	Friday, 17 April 2020
Payment date	Monday, 20 April 2020

Share certificates may not be dematerialised or rematerialised between Wednesday, 15 April 2020 and Friday, 17 April 2020, both dates inclusive. On Monday, 20 April 2020, the dividend will be electronically transferred to the bank accounts of certificated shareholders. The accounts of those shareholders who have dematerialised their shares (which are held at their participant or broker) will also be credited on Monday, 20 April 2020.

On behalf of the Board

N R Drutman

Group Company Secretary

Absa Group Limited is a company domiciled in South Africa. Its registered office is 7th Floor, Absa Towers West, 15 Troye Street, Johannesburg, 2001.

⁽¹⁾ Includes shares to be utilised when establishing a BBBEE structure.

IFRS summary consolidated financial results

for the reporting period ended 31 December

IFRS financial results

The Group's summary consolidated financial results have been prepared in accordance with the recognition and measurement requirements of International Financial Reporting Standards (IFRS), interpretations issued by the IFRS Interpretations Committee (IFRS-IC), the South African Institute of Chartered Accountants' Financial Reporting Guides as issued by the Accounting Practices Committee, Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, the JSE Limited Listings Requirements and the requirements of the Companies Act.

The information disclosed in the SENS is derived from the information contained in the audited annual consolidated financial statements which include the audit report detailing the key audit matters and does not contain full or complete disclosure details. Any investment decisions by shareholders should be based on consideration of the audited annual consolidated financial statements, which is available on request. The presentation and disclosures of the summary consolidated financial results comply with IAS 34 Interim Financial Reporting (IAS 34).

The preparation of financial information requires the use of estimates and assumptions about future conditions. Use of available information and application of judgement are inherent in the formation of estimates. The accounting policies that are deemed critical to the Group's results and financial position, in terms of the materiality of the items to which the policies are applied, and which involve a high degree of judgement including the use of assumptions and estimation, are impairment of financial assets measured at amortised cost, capitalisation, amortisation and impairment of internally generated intangible assets, fair value measurements, consolidation of structured or sponsored entities, post-retirement benefits, provisions, income taxes, share-based payments, liabilities arising from claims made under short-term and long-term insurance contracts and offsetting of financial assets and liabilities.

The Directors assess the Group's future performance and financial position on an ongoing basis and have no reason to believe that the Group will not be a going concern in the foreseeable future. For this reason, the information in this report has been prepared on a going concern basis.

Accounting policies

The accounting policies applied in preparing the summary consolidated financial statements are the same as those in place for the Group's annual consolidated financial statements for the reporting period ended 31 December 2018 except for:

- › Changes of the Group's operating segments and business portfolios, which have been presented in the report overview note 14;
- › Adoption of new IFRS, specifically IFRS 16 Leases (IFRS 16) and IFRIC 23 Uncertainty over Income Tax Treatments (IFRIC 23);
- › Amendments to IAS 19 Employment Benefit (IAS 19); and
- › Change in presentation of interest expense in the statement of comprehensive income (SOC).

Standards issued not yet effective

IFRS 17 - Insurance contracts

IFRS 17 Insurance Contracts establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts issued. It also requires similar principles for reinsurance contracts held and issued investment contracts with discretionary participation features. The standard brings a greater degree of comparability and transparency about an insurer's financial health and the profitability of new and in-force insurance business.

In June 2019, the IASB proposed targeted amendments to IFRS 17 which aim to support implementation of the standard. The amendments include a proposed deferral of the effective date of the standard to reporting periods beginning on or after 1 January 2023. The Board will consider the recommendation on the effective date of IFRS 17, and recommendation to extend the temporary exemption from applying IFRS 9, during its meeting in the week of 16 March 2020.

During 2018, the Group's joint insurance programme focused on interpreting the requirements of the new accounting standard, solution design, model prototyping as well as the commencement of an impact assessment. During 2019, the solution design was approved and development activities have commenced.

Planning work on the financial reporting and disclosure implications has been completed and related development activities are scheduled for 2020. The programme is on track to commence with end-to-end solution testing in the second half of 2020 in preparation for parallel run activities that are planned to commence in 2021.

IFRS summary consolidated financial results

for the reporting period ended 31 December

Auditors' report

Ernst & Young Inc. (EY), the Group's independent auditor, has audited the annual consolidated financial statements of the Group from which management prepared the summary consolidated financial results. The auditor has expressed an unmodified audit opinion on the consolidated annual financial statements. The summary consolidated financial results comprise: the summary consolidated statement of financial position at 31 December 2019, summary consolidated statement of comprehensive income, summary consolidated statement of changes in equity and summary consolidated statement of cash flows for the reporting period then ended and selected explanatory notes (on pages 10 to 45). The audit report on the consolidated annual financial statements as well as the independent reporting accountants' report on the normalised financial results and the constant currency pro forma financial information is available for inspection at the Group's registered office.

The summary consolidated statements (on pages 10 to 45) for the year ended 31 December 2019 have been audited by EY, who expressed an unmodified opinion thereon. A copy of the auditor's report on the summary consolidated financial statements is available for inspection at the Group's registered office.

Events after the reporting period

The Group has announced the appointment of Daniel Mminele as its new Group Chief Executive, effective 15 January 2020.

Absa Group Limited entered into an agreement in October 2019 to sell its Edcon loan book. The conditions precedent to this sale were fulfilled in January 2020, with the effective date of transfer being 1 February 2020.

The estimates and judgements applied to determine the financial position at 31 December 2019 have been included as part of the accounting policies of the Group. The estimates applied, most specifically as they relate to the calculation of impairment of loans and advances, were based on a range of forecast economic conditions as at that date. The outbreak of the coronavirus has resulted in disruption to business activity globally and recent market volatility, since mid-January 2020. The impact of the coronavirus will be closely monitored and assessed for its impact on the business.

The directors are not aware of any other events (as defined per IAS 10 Events after the Reporting Period) after the reporting date of 31 December 2019 and the date of authorisation of these audited summary consolidated financial results.

On behalf of the Board

W E Lucas-Bull
Group Chairman

Johannesburg
11 March 2020

J P Quinn
Financial Director

Summary consolidated IFRS salient features

Absa Group Limited	15.8	16.1
Absa Bank Limited	16.7	16.5
Common Equity Tier 1 (%)		
Absa Group Limited	12.1	12.8
Absa Bank Limited	11.9	12.3

⁽¹⁾ After allowing for R352m (2018: R351m) profit attributable to preference equity holders and R435m (2018: R190m) profit attributable to Additional Tier 1 capital holders.

⁽²⁾ The average loans to deposit and debt securities in issue ratio has been added. The ratio is based on loans and advances to customers, loans and advances to banks and deposits due to customers, deposits from banks and debt securities, and is calculated on a daily weighted average instead of the balances at reporting date. This ratio will be applied going forward.

Profit attributable to:			
Ordinary equity holders		14 256	13 917
Non-controlling interest – ordinary shares		937	801
Non-controlling interest – preference shares		352	351
Non-controlling interest – Additional Tier 1 capital		435	190
		15 980	15 259
Earnings per share:			
Basic earnings per share (cents)		1 717.6	1 676.5
Diluted earnings per share (cents)		1 715.1	1 673.3

⁽¹⁾ The Group has elected to change its accounting policy to no longer present other interest expense and similar charges separately from interest expense calculated using the effective interest method. This results in more relevant information as in this manner, the Group achieves consistency with its peers. There is no impact on the 2018 comparative SOCI, as total other interest expense and similar charges was nil.

Cash and cash equivalents at the end of the reporting period	2	18 288	18 494

Notes to the summary consolidated statement of cash flows

1. Cash and cash equivalents at the beginning of the reporting period

Cash, cash balances and balances with central banks ⁽²⁾	14 252	13 518
Loans and advances to banks ⁽³⁾	4 242	3 802
	18 494	17 320

2. Cash and cash equivalents at the end of the reporting period

Cash, cash balances and balances with central banks ⁽²⁾	14 033	14 252
Loans and advances to banks ⁽²⁾	4 255	4 242
	18 288	18 494

⁽¹⁾ In order to provide more transparent disclosures, the summary consolidated statement of cash flows has been expanded to include the purchase of intangible assets separately rather than including it in the total net cash utilised in other investing activities. Comparatives have been restated accordingly.

⁽²⁾ Includes coins and bank notes.

⁽³⁾ Includes call advances, which are used as working capital by the Group.

Notes to the summary consolidated financial results

for the reporting period ended 31 December

1. Non-current assets and non-current liabilities held for sale

The following movements in non-current assets and non-current liabilities held for sale occurred during the current reporting period:

- RBB South Africa disposed of investment property with a carrying amount of **R32m**.
- RBB South Africa transferred a loan book with a carrying amount of **R3 829m** to non-current assets held for sale.
- ARO disposed of property and equipment with a carrying amount of **R2m**.
- Head Office, Treasury and other operations in South Africa disposed of property and equipment with a carrying amount of **R50m**.
- Head Office, Treasury and other operations in South Africa transferred property and equipment with a carrying amount of **R21m** to non-current assets held for sale.
- Some movements occurred on the underlying assets and liabilities of a non-core subsidiary held for sale in Head Office, Treasury and other operations in South Africa: loans and advances to banks (increase of **R5m**), deferred tax assets (increase of **R1m**), investment securities (increase of **R1m**), reinsurance assets (decrease of **R15m**), property and equipment (decrease of **R1m**), other assets (decrease of **R4m**), other liabilities (increase of **R1m**) and policyholder liabilities under insurance contracts (decrease of **R13m**).

The following movements in non-current assets and non-current liabilities held for sale occurred during the previous reporting period:

- RBB South Africa disposed of a loan book as well as property and equipment with carrying amounts of R1 118m and R1m, respectively.
- ARO disposed of investment property with a carrying amount of R2m and transferred property and equipment with a carrying value of R11m into non-current assets held for sale.
- Head Office, Treasury and other operations in South Africa, transferred property and equipment with a carrying value of R50m to non-current assets held for sale.
- The following disposals and transfers occurred in the legacy WIMI segment. Following the restructuring of the business segments during the current reporting period, these are disclosed under the Head Office, Treasury and other operations in South Africa:
 - o Disposal of a subsidiary with assets of R139m and liabilities of R34m.
 - o Disposal of a business line with assets of R14m and liabilities of R14m.
 - o Transfer of an entity with a net asset value of R20m to non-current assets and non-current liabilities held for sale. This transfer comprised of loans and advances to banks (R22m), reinsurance assets (R73m), investment securities (R8m), property and equipment (R3m), deferred tax assets (R11m), other assets (R27m), policyholder liabilities under insurance contracts (R92m) and other liabilities (R32m).

⁽¹⁾ The dividends paid on treasury shares are calculated on payment date.

⁽²⁾ In order to provide more transparent disclosures, the distributions declared and paid to Additional Tier 1 capital holders have been expanded to separately disclose the amount declared/paid at each date rather than including the total for each period. Comparatives have been restated accordingly

Notes to the summary consolidated financial results

for the reporting period ended 31 December

8. Acquisitions and disposals of businesses and other similar transactions

8.1.1 Acquisitions of businesses during the current reporting period

There were no acquisitions of businesses during the current reporting period.

8.1.2 Disposals of businesses during the current reporting period

There were no disposals of businesses that were finalised during the current reporting period.

8.2.1 Acquisitions of businesses during the previous reporting period

During the prior period, the Group acquired the remaining 50% in a non-core investment, which was previously held as an investment in associate at fair value. The acquisition of the investment had an effective acquisition date of 16 March 2018 and was a business combination within the scope of IFRS 3. The acquisition date fair value of the consideration transferred amounted to R198m.

A summary of the total net cash outflow and cash and cash equivalents related to acquisitions and disposals of businesses and other similar transactions is included below:

	2019 Rm	2018 Rm
Summary of net cash outflow due to acquisitions	—	30

8.2.2 Disposals of businesses during the previous reporting period

During the prior reporting period apart from the businesses classified as non-current assets/liabilities held for sale and disposed of (refer to note 1) there were no other disposals of businesses that were finalised during the prior reporting period. The cash consideration received on disposal of subsidiary included in non-current assets/liabilities held for sale was R1 398m.

9. Related parties

Maria Ramos announced her retirement as the CEO of Absa Group Limited from 28 February 2019. The Board appointed René van Wyk as Absa's Chief Executive Officer, with effect from 1 March 2019.

There were no significant transactions with related parties of Absa Group Limited during the previous reporting period.

Later than one year and no later than five years	—	3 905
Later than five years	—	707
	—	6 020

Notes to the summary consolidated financial results

for the reporting period ended 31 December

10. Contingencies, commitments and similar items (continued)

The operating lease commitments in respect of prior periods comprise a number of separate operating leases in relation to property and equipment, none of which is individually significant to the Group. Leases are negotiated for an average term of three to five years. Following the implementation of IFRS 16 from 1 January 2019, the disclosure relating to 'Operating lease payments due' will no longer be disclosed.

Guarantees include performance guarantee contracts and financial guarantee contracts.

Financial guarantee contracts represent contracts where the Group undertakes to make specified payments to a counterparty, should the counterparty suffer a loss as a result of a specified debtor failing to make payment when due in accordance with the terms of a debt instrument. This amount represents the maximum off-statement of financial position exposure.

Irrevocable facilities are commitments to extend credit where the Group does not have the right to terminate the facilities by written notice. Irrevocable debt facilities do not include other lending facilities which are revocable but for which an impairment provision has been raised (ie revolving products). The value of these other lending facilities is included in the credit risk disclosure, whereas the above table presents only those gross loan commitments that are contractually committed and are legally irrevocable.

Commitments generally have fixed expiry dates. Since commitments may expire without being drawn upon, the total contract amounts do not necessarily represent future cash requirements.

Legal matters

The Group has been party to proceedings against it during the reporting period. As at reporting date the material cases are disclosed below:

- ▶ MyRoof: During 2015, Absa terminated an agreement in terms of which MyRoof provided to Absa an online electronic system that facilitated the advertising and sale of distressed Home Loans properties. A dispute subsequently arose, with MyRoof contending that Absa owed to it certain commission-based fee revenue. This resulted in the institution of arbitration proceedings in which MyRoof claims a statement and debatement of account. Absa is disputing both the substance and the quantum of the claim.
- ▶ Absa has received a claim under a guarantee issued by it to secure the obligations of a subsidiary, in the amount of US\$64m. Absa is defending the matter.

The Group is engaged in various other legal, competition and regulatory matters both in South Africa and a number of other jurisdictions. It is involved in legal proceedings which arise in the ordinary course of business from time to time, including (but not limited to) disputes in relation to contracts, securities, debt collection, consumer credit, fraud, trusts, client assets, competition, data protection, money laundering, employment, environmental and other statutory and common law issues.

The Group is also subject to enquiries and examinations, requests for information, audits, investigations and legal and other proceedings by regulators, governmental and other public bodies in connection with (but not limited to) consumer protection measures, compliance with legislation and regulation, wholesale trading activity and other areas of banking and business activities in which the Group is or has been engaged.

At the present time, the Group does not expect the ultimate resolution of any of these other matters to have a material adverse effect on its financial position. However, in light of the uncertainties involved in such matters and the matters specifically described in this note, there can be no assurance that the outcome of a particular matter or matters will not be material to the Group's results of operations or cash flow for a particular period, depending on, amongst other things, the amount of the loss resulting from the matter(s) and the amount of income otherwise reported for the reporting period.

The Group has not disclosed the contingent liabilities associated with these matters either because they cannot reasonably be estimated or because such disclosure could be prejudicial to the outcome of the matter. Provision is made for all liabilities which are expected to materialise.

In terms of the requirements of IFRS, the Group has, in 2019, reassessed any possible obligation regarding the Pinnacle Point Holdings case to be remote. The case relating to the Ayanda Collective Investment Scheme was amicably resolved during the year under review.

Notes to the summary consolidated financial results

for the reporting period ended 31 December

10. Contingencies, commitments and similar items (continued)

Regulatory matters

The scale of regulatory change remains challenging and the global financial crisis has resulted in a significant tightening of regulation and changes to regulatory structures globally and locally, especially for companies that are deemed to be of systemic importance. Concurrently, there is continuing political and regulatory scrutiny of the operation of the banking and consumer credit industries globally which, in some cases, is leading to increased regulation.

The nature and impact of future changes in the legal framework, policies and regulatory action especially in the areas of financial crime, banking and insurance regulation, cannot currently be fully predicted and are beyond the Group's control. Some of these are likely to have an impact on the Group's businesses, systems and earnings.

The Group is continuously evaluating its programmes and controls in general relating to compliance with regulation. The Group undertakes monitoring, review and assurance activities, and the Group has also adopted appropriate remedial and/or mitigating steps, where necessary or advisable, and has made disclosures on material findings as and when appropriate.

The Group's possible obligation with regards to the matter previously disclosed relating to the SACC seeking sanction against Barclays/Absa has, in the current reporting period, been reassessed to be remote.

Income taxes

The Group is subject to income taxes in numerous jurisdictions and the calculation of the Group's tax charge and provisions for income taxes necessarily involves a degree of estimation and judgement. There are many transactions and calculations for which the ultimate tax treatment is uncertain or in respect of which the relevant tax authorities may indicate disagreement with the Group's treatment and accordingly the final tax charge cannot be determined until resolution has been reached with the relevant tax authority.

The Group recognises provisions for anticipated tax audit issues based on estimates of whether additional taxes will be due after taking into account external advice where appropriate. The carrying amount of any resulting provisions will be sensitive to the manner in which tax matters are expected to be resolved, and the stage of negotiations or discussion with the relevant tax authorities. There may be significant uncertainty around the final outcome of tax proceedings, which in many instances, will only be concluded after a number of years. Management estimates are informed by a number of factors including, inter alia, the progress made in discussions or negotiations with the tax authorities, the advice of expert legal counsel, precedent set by the outcome of any previous claims, as well as the nature of the relevant tax environment.

Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the reporting period in which such determination is made. These risks are managed in accordance with the Group's Tax Risk Framework.

Notes to the summary consolidated financial results

for the reporting period ended 31 December

13. Assets and liabilities held at fair value

13.1 Fair value measurement and valuation processes

Financial assets and financial liabilities

The Group has an established control framework with respect to the measurement of fair values. The framework includes a Traded Risk and Valuations Committee and an Independent Valuation Control (IVC) team, which is independent from the front office.

The Traded Risk and Valuations Committee, which comprises representatives from senior management, will formally approve valuation policies and any changes to valuation methodologies. Significant valuation issues are reported to the Absa Group Audit and Compliance Committee.

The Traded Risk and Valuations Committee is responsible for overseeing the valuation control process and will therefore consider the appropriateness of valuation techniques and inputs for fair value measurement.

The IVC team independently verifies the results of trading and investment operations and all significant fair value measurements. They source independent data from external independent parties, as well as internal risk areas when performing independent price verification for all financial instruments held at fair value. They also assess and document the inputs obtained from external independent sources to measure the fair value which supports conclusions that valuations are performed in accordance with IFRS and internal valuation policies.

Investment properties

The fair value of investment properties is determined based on the most appropriate methodology applicable to the specific property. Methodologies include the market comparable approach that reflects recent transaction prices for similar properties, discounted cash flows and income capitalisation methodologies. In estimating the fair value of the properties, the highest and best use of the properties is taken into account.

Where possible the fair value of the Group's investment properties is determined through valuations performed by external independent valuers.

When the Group's internal valuations are different to that of the external independent valuers, detailed procedures are performed to substantiate the differences, whereby the IVC team verifies the procedures performed by the front office and considers the appropriateness of any differences to external independent valuations.

13.2 Fair value measurements

Valuation inputs

IFRS 13 requires an entity to classify fair values measured and/or disclosed according to a hierarchy that reflects the significance of observable market inputs. The three levels of the fair value hierarchy are defined as follows:

Quoted market prices – Level 1

Fair values are classified as Level 1 if they have been determined using observable prices in an active market. Such fair values are determined with reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available, and the price represents actual and regularly occurring market transactions on an arm's length basis. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an ongoing basis.

Valuation technique using observable inputs – Level 2

Fair values are classified as Level 2 if they have been determined using models for which inputs are observable in an active market.

A valuation input is considered observable if it can be directly observed from transactions in an active market, or if there is compelling external evidence demonstrating an executable exit price.

Valuation technique using significant unobservable inputs – Level 3

Fair values are classified as Level 3 if their determination incorporates significant inputs that are not based on observable market data (unobservable inputs). An input is deemed significant if it is shown to contribute more than 10% to the fair value of an item. Unobservable input levels are generally determined based on observable inputs of a similar nature, historical observations or other analytical techniques.

Notes to the summary consolidated financial results

for the reporting period ended 31 December

13. Assets and liabilities held at fair value (continued)

13.2 Fair value measurements (continued)

Judgemental inputs on valuation of principal instruments

The following summary sets out the principal instruments whose valuation may involve judgemental inputs:

Debt securities and treasury and other eligible bills

These instruments are valued, based on quoted market prices from an exchange, dealer, broker, industry group or pricing service, where available. Where unavailable, fair value is determined by reference to quoted market prices for similar instruments or, in the case of certain mortgage-backed securities, valuation techniques using inputs derived from observable market data, and, where relevant, assumptions in respect of unobservable inputs.

Equity instruments

Equity instruments are valued, based on quoted market prices from an exchange, dealer, broker, industry group or pricing service, where available. Where unavailable, fair value is determined by reference to quoted market prices for similar instruments or by using valuation techniques using inputs derived from observable market data, and, where relevant, assumptions in respect of unobservable inputs.

Also included in equity instruments are non-public investments, which include investments in venture capital organisations. The fair value of these investments is determined using appropriate valuation methodologies which, dependent on the nature of the investment, may include discounted cash flow analysis, enterprise value comparisons with similar companies and price earnings comparisons. For each investment, the relevant methodology is applied consistently over time.

Derivatives

Derivative contracts can be exchange-traded or traded over-the-counter (OTC). OTC derivative contracts include forward, swap and option contracts related to interest rates, bonds, foreign currencies, credit spreads, equity prices and commodity prices or indices on these instruments. Fair values of derivatives are obtained from quoted market prices, dealer price quotations, discounted cash flow and option pricing models.

Loans and advances

The disclosed fair value of loans and advances to banks and customers is determined by discounting contractual cash flows. Discount factors are determined using the relevant forward base rates (as at valuation date) plus the originally priced spread. Where a significant change in credit risk has occurred, an updated spread is used to reflect valuation date pricing. Behavioural cash flow profiles, instead of contractual cash flow profiles, are used to determine expected cash flows where contractual cash flow profiles would provide an inaccurate fair value.

Deposits, debt securities in issue and borrowed funds

Deposits, debt securities in issue and borrowed funds are valued using discounted cash flow models, applying rates currently offered for issuances with similar characteristics. Where these instruments include embedded derivatives, the embedded derivative component is valued using the methodology for derivatives as detailed above.

The fair value of amortised cost deposits repayable on demand is considered to be equal to their carrying value. For other financial liabilities at amortised cost the disclosed fair value approximates the carrying value because the instruments are short term in nature or have interest rates that reprice frequently.

13.3 Fair value adjustments

The main valuation adjustments required to arrive at a fair value are described below:

Bid-offer valuation adjustments

For assets and liabilities where the Group is not a market maker, mid prices are adjusted to bid and offer prices respectively. Bid-offer adjustments reflect expected close out strategy and, for derivatives, the fact that they are managed on a portfolio basis. The methodology for determining the bid-offer adjustment for a derivative portfolio will generally involve netting between long and short positions and the bucketing of risk by strike and term in accordance with hedging strategy. Bid-offer levels are derived from market sources, such as broker data. For those assets and liabilities where the firm is a market maker and has the ability to transact at, or better than, mid-price (which is the case for certain equity, bond and vanilla derivative markets), the mid-price is used, since the bid-offer spread does not represent a transaction cost.

Uncollateralised derivative adjustments

A fair value adjustment is incorporated into uncollateralised derivative valuations to reflect the impact on fair value of counterparty credit risk, the Group's own credit quality, as well as the cost of funding across all asset classes.

Model valuation adjustments

Valuation models are reviewed under the Group's model governance framework. This process identifies the assumptions used and any model limitations (for example, if the model does not incorporate volatility skew). Where necessary, fair value adjustments will be applied to take these factors into account. Model valuation adjustments are dependent on the size of portfolio, complexity of the model, whether the model is market standard and to what extent it incorporates all known risk factors. All models and model valuation adjustments are subject to review on at least an annual basis.

Notes to the summary consolidated financial results

for the reporting period ended 31 December

13. Assets and liabilities held at fair value (continued)

13.5 Measurement of assets and liabilities categorised at Level 2

The following table presents information about the valuation techniques and significant observable inputs used in measuring assets and liabilities categorised as Level 2 in the fair value hierarchy:

Category of asset/liability	Valuation techniques applied	Significant observable inputs
Cash, cash balances and balances with central banks	Discounted cash flow models	Underlying price of market traded instruments and/or interest rates
Loans and advances to banks	Future cash flows are discounted using market-related interest rates, adjusted for credit inputs, over the contractual period of the instruments (that is, discounted cash flow)	Interest rates and/or money market curves, as well as credit spreads
Trading and hedging portfolio assets and liabilities		
Debt instruments	Discounted cash flow models	Underlying price of market instruments and/or interest rates
Derivatives		
Commodity derivatives	Discounted cash flow techniques, option pricing models, futures pricing models and/or Exchange Traded Fund (ETF) models	Spot price of physical or futures, market interest rates and/or volatilities
Credit derivatives	Discounted cash flow techniques and/or market standard credit derivative pricing	Interest rate, recovery rate and credit spread and/or quanto ratio
Equity derivatives	Discounted cash flow models, option pricing models and/or futures pricing models	Spot price, interest rate, volatility and/or dividend stream
Foreign exchange derivatives	Discounted cash flow techniques and/or option pricing models	Interest rate curves, basis curves and/or volatilities
Interest rate derivatives	Discounted cash flow and/or swaption pricing models	Interest rate curves, repurchase agreement curves, money market curves and/or volatilities
Money market assets	Discounted cash flow models	Money market curves and/or interest rates
Loans and advances to customers	Discounted cash flow models	Interest rate curves, money market curves and/or credit spreads
Investment securities and investments linked to investment contracts	Discounted cash flow models	Underlying price of market traded instruments and/or interest rates
Deposits from banks	Discounted cash flow models	Interest rate curve, money market curves and/or credit spreads
Deposits due to customers	Discounted cash flow models	Interest rate curve, money market curves and/or credit spreads
Debt securities in issue and other liabilities	Discounted cash flow models	Underlying price of market traded instruments, interest rate curves and/or credit spreads

13.6.1 Significant transfers between levels

During the 2019 and 2018 reporting periods, transfers between levels occurred because of changes in the observability of valuation inputs, in some instances owing to changes in the level of market activity. Transfers have been reflected as if they had taken place at the beginning of the year.

13.7 Unrealised gains and losses on Level 3 assets and liabilities

The total unrealised gains and losses for the reporting period on Level 3 positions held at the reporting date are set out below:

	2019						
	Trading and hedging portfolio assets Rm	Loans and advances to customers Rm	Investment securities Rm	Total assets at fair value Rm	Trading and hedging portfolio liabilities Rm	Deposits due to customers Rm	Total liabilities at fair value Rm
Gains and (losses) from banking and trading activities	3 197	539	220	3 956	(520)	163	(357)

	2018						
	Trading and hedging portfolio assets Rm	Loans and advances to customers Rm	Investment securities Rm	Total assets at fair value Rm	Trading and hedging portfolio liabilities Rm	Deposits due to customers Rm	Total liabilities at fair value Rm
Gains and (losses) from banking and trading activities	2 589	1 027	233	3 849	(174)	134	(40)

13. Assets and liabilities held at fair value (continued)

13.8 Sensitivity analysis of valuations using unobservable inputs

As part of the Group's risk management processes, we perform a sensitivity analysis on the significant unobservable parameters, in order to determine the impact of reasonably possible alternative assumptions on the valuation of level 3 financial assets and liabilities. The assets and liabilities that most impact this sensitivity analysis are those with more illiquid and/or structured portfolios. The alternative assumptions are applied independently and do not take account of any cross correlation between assumptions that would reduce the overall effect on the valuations.

The following tables reflect the reasonable possible variances applied to significant parameters utilised in our valuations:

Significant unobservable parameter	Positive/(negative) variance applied to parameters
Credit spreads	100/(100) bps
Volatilities	10/(10)%
Basis curves	100/(100) bps
Yield curves and repo curves	100/(100) bps
Future earnings and marketability discounts	15/(15)%
Funding spreads	100/(100) bps

A significant parameter has been deemed to be one which may result in a charge to profit or loss, or a change in the fair value of the asset or liability by more than 10% of the underlying value of the affected item. This is demonstrated by the following sensitivity analysis which includes a reasonable range of possible outcomes:

		2019	
	Significant unobservable parameters	Potential effect recorded in profit or loss	Potential effect recorded directly in equity
		Favourable/(Unfavourable) Rm	Favourable/(Unfavourable) Rm
Deposits due to customers	Absa Group Limited /Absa funding spread	349/(395)	—/—
Investment securities and investments linked to investment contracts	Risk adjustment yield curves, future earnings and marketability discounts	—/—	(303)/313
Loans and advances to customers	Credit spreads	(692)/760	—/—
Trading and hedging portfolio assets	Volatility, credit spreads, basis curves, yield curves, repo curves, funding spreads	177/(174)	—/—
Trading and hedging portfolio liabilities	Volatility, credit spreads, basis curves, yield curves, repo curves, funding spreads	(261)/261	—/—

		2018	
	Significant unobservable parameters	Potential effect recorded in profit or loss	Potential effect recorded directly in equity
		Favourable/(Unfavourable) Rm	Favourable/(Unfavourable) Rm
Deposits due to customers	Absa Group Limited /Absa funding spread	178/(178)	—/—
Investment securities and investments linked to investment contracts	Risk adjustment yield curves, future earnings and marketability discounts	—/—	(20)/20
Loans and advances to customers	Credit spreads	(323)/323	—/—
Trading and hedging portfolio assets	Volatility, credit spreads, basis curves, yield curves, repo curves, funding spreads	162/(162)	—/—
Trading and hedging portfolio liabilities	Volatility, credit spreads, basis curves, yield curves, repo curves, funding spreads	(224)/224	—/—

Notes to the summary consolidated financial results

for the reporting period ended 31 December

13. Assets and liabilities held at fair value (continued)

13.9 Measurement of assets and liabilities at Level 3

The following table presents information about the valuation techniques and significant unobservable inputs used in measuring assets and liabilities categorised as Level 3 in the fair value hierarchy:

Category of asset/liability	Valuation techniques applied	Significant unobservable inputs	2019	2018
			Range of estimates utilised for the unobservable inputs	
Loans and advances to banks and customers	Discounted cash flow and/or dividend yield models	Credit spreads	0.1% to 2.9%	0.513% to 3.235%
Investment securities and investments linked to investment contracts	Discounted cash flow models, third-party valuations, earnings multiples and/or income capitalisation valuations	Risk adjusted yield curves, future earnings, marketability discounts and/or competitor multiples	Discount rate of 7.75% to 8%	Discount rate of 7.75% to 8%
Trading and hedging portfolio assets and liabilities				
Debt instruments	Discounted cash flow models	Credit spreads	0.5% to 12.8%	0.15% to 8.2%
Derivative assets				
Credit derivatives	Discounted cash flow and/or credit default swap (hazard rate) models	Credit spreads, recovery rates and/or quanto ratio	0.02% to 26%, 15% to 93.2%, 60% to 90%	0.03% to 14%, 15% to 76%, 60% to 90%
Equity derivatives	Discounted cash flow, option pricing and/or futures pricing models	Volatility and/or dividend streams (greater than 3 years)	9.3% to 67.3%	14.91% to 53.2%
Foreign exchange derivatives	Discounted cash flow and/or option pricing models	African basis curves (greater than 1 year)	1.4% to 26%	(4.48%) to 24.7%
Interest rate derivatives	Discounted cash flow and/or option pricing models	Real yield curves (greater than 1 year), repurchase agreement curves (greater than 1 year), funding spreads	0.3% to 8.5%	0.20% to 9.34%
Deposits due to customers	Discounted cash flow models	Absa Group Limited's funding spreads (greater than 5 years)	1.13% to 1.7%	1.3% to 1.8%
Debt securities in issue	Discounted cash flow models	Funding curves (greater than 5 years)	1.13% to 1.7%	1.3% to 1.8%
Investment properties	Discounted cash flow models	Estimates of periods in which rental units will be disposed of Annual selling price escalations Annual rental escalations Expense ratios Vacancy rates Income capitalisation rates Risk adjusted discount rates	1 to 6 years 6% 6% n/a n/a 7.5% to 8% 10% to 15%	1 to 6 years 6% 6% n/a n/a 7.5% to 8% 10% to 15%

For assets or liabilities held at amortised cost and disclosed in levels 2 or 3 of the fair value hierarchy, the discounted cash flow valuation technique is used. Interest rates and money market curves are considered unobservable inputs for items which mature after 5 years. However, if the items mature in less than 5 years, these inputs are considered to be observable, depending on other facts and circumstances.

For debt securities in issue held at amortised cost, a further significant input would be the underlying price of the market traded instrument.

The sensitivity of the fair value measure is dependent on the unobservable inputs. Significant changes to the unobservable inputs in isolation will have either a positive or negative impact on fair values.

Notes to the summary consolidated financial results

for the reporting period ended 31 December

13. Assets and liabilities held at fair value (continued)

13.10 Unrecognised (gains) as a result of the use of valuation models using unobservable inputs

The amount that is yet to be recognised in the statement of comprehensive income that relates to the difference between the transaction price and the amount that would have arisen had valuation models using unobservable inputs been used on initial recognition, less amounts subsequently recognised, is as follows:

	2019 Rm	2018 Rm
Opening balance at the beginning of the reporting period	(428)	(134)
New transactions	(52)	(367)
Amounts recognised in profit or loss during the reporting period	73	73
Closing balance at the end of the reporting period	(407)	(428)

13.11 Third-party credit enhancements

There were no significant liabilities measured at fair value and issued with inseparable third-party credit enhancements.

14. Reporting changes overview

The Group effected the following financial reporting changes during the current reporting period:

- 14.1 Implementation of IFRS 16 Leases (IFRS 16)
- 14.2 Changes to reportable segments and business portfolios
- 14.3 Changes to loans and advances

14.1 Implementation of IFRS 16 Leases

IFRS 16 sets out principles for the recognition, measurement, presentation and disclosure of leases, and it replaces IAS 17 Leases (IAS 17), IFRIC 4 *Determining whether an arrangement contains a lease (IFRIC 4)*, SIC-15 *Operating Leases – Incentives (SIC-15)* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease (SIC-27)*.

The key change of IFRS 16 is the introduction of a single lessee accounting model which requires a lessee to recognise assets and liabilities, for lease contracts with a term of more than 12 months, unless the underlying asset is of low value, eliminating the classification of leases as either operating leases or finance leases. As a result, a depreciation charge for the right-of-use assets and interest expense on lease liabilities is recognised as opposed to a straight-line operating lease expense. Lessor accounting remains similar to the previous standard (IAS 17) in which lessors continue to classify leases as finance or operating leases.

The Group has applied IFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1 January 2019 with no restatement of comparatives.

The Group elected the practical expedient to apply IFRS 16 only to contracts that were previously identified as leases, and to apply a single discount rate to a portfolio of leases with similar characteristics. Judgement was applied in determining the appropriate incremental borrowing rate to use. The rates used consider the tenor of the lease, currency of the lease, credit risk of the specific lessee and the economic environment. The Group determined incremental borrowing rates for each entity, for each currency in which they had lease contracts at the various tenors. The weighted average incremental rate, determined as at 1 January 2019, was between 5% and 23%. For leases that were classified as finance leases under IAS 17, the carrying amount of the right-of-use asset and the lease liability at initial application was determined as the carrying amount of the leased asset and lease liability under IAS 17 at 31 December 2018.

In the application of this model the Group has recognised the following at the date of initial application (unless the lease term is shorter than 12 months or the underlying asset is of low value):

- (a) A lease liability for all leases previously classified as operating leases, measured at the present value of the remaining lease payments, discounted using the applicable entity's incremental borrowing rate at the date of initial application; and
- (b) A right-of-use asset, measured retrospectively, using the applicable entity's incremental borrowing rate at the date of initial application.

In impracticable cases, the Group measured the right-of-use asset at an amount equal to the lease liability, adjusted for any existing prepaid or accrued rentals.

Notes to the summary consolidated financial results

for the reporting period ended 31 December

14. Reporting changes overview (continued)

14.1 Implementation of IFRS 16 Leases (continued)

14.1.1 The table below summarises the total impact of IFRS 16 on the Group's statement of changes in equity:

	Share capital and share premium Rm	Retained earnings Rm	Other reserves Rm	Capital and reserves attributable to ordinary equity holders Rm	Non-controlling interest – ordinary shares Rm	Non-controlling interest – preference shares Rm	Non-controlling interest – Additional Tier 1 capital Rm	Total equity Rm
Balance reported as at 31 December 2018	11 860	91 237	6 387	109 484	4 737	4 644	2 741	121 606
Impact of adopting IFRS 16	—	(243)	—	(243)	(13)	—	—	(256)
Adjusted balance as at 1 January 2019	11 860	90 994	6 387	109 241	4 724	4 644	2 741	121 350

14.1.2 The following table summarises the total impact of IFRS 16 on the Group's statement of financial position as at 1 January 2019:

	31 December 2018 Rm	Impact of initial adoption of IFRS 16 Rm	1 January 2019 Rm
Assets			
Property and equipment	15 835	3 390	19 225
Other assets	30 642	(9)	30 633
Deferred tax assets	3 431	88	3 519
Total assets	1 288 744	3 469	1 292 213
Liabilities			
Other liabilities ⁽¹⁾	36 662	3 728	40 390
Deferred tax liabilities	360	(3)	357
Total liabilities	1 167 138	3 725	1 170 863
Equity			
Capital and reserves			
Retained earnings	91 237	(243)	90 994
Non-controlling interest – ordinary shares	4 737	(13)	4 724
Total equity	121 606	(256)	121 350
Total liabilities and equity	1 288 744	3 469	1 292 213

14.1.3 The table below reconciles the previously disclosed operating lease commitments to the lease liabilities recognised on 1 January 2019:

	Rm
Operating lease commitments at 31 December 2018	6 020
Discounted using the incremental borrowing rate at 1 January 2019	(1 502)
Lease liabilities recognised	4 518
Reconciling items:	
Previously disclosed commitments subject to recognition exemption	(375)
Lease liabilities recognised at 1 January 2019	4 143

⁽¹⁾ Includes an amount of R4 143m relating to the IFRS 16 lease liability, which is offset by the release of the IAS 17 straight-lining lease liability of R415m.

Notes to the summary consolidated financial results

for the reporting period ended 31 December

14. Reporting changes overview (continued)

14.2 Changes to reportable segments and business portfolios

The following changes to reportable segments and business portfolios occurred during the reporting period:

- 14.2.1 Rest of Africa (RoA) Banking was renamed to Absa Regional Operations to align to the Absa Group brand.
- 14.2.2 Wealth, Investment Management and Insurance (WIMI) has been removed from the Group's segmental disclosures to align with how the operations are now managed:
 - › Life Insurance and Short-term Insurance are disclosed as the Insurance Cluster in RBB South Africa.
 - › Wealth, Distribution and Fiduciary services have moved to the Relationship Banking segment in RBB South Africa.
 - › WIMI Other is part of Retail and Business Banking Other in RBB South Africa.
 - › Investment Management is reported in Head Office, Treasury and other operations in South Africa.
 - › Terminating lines are reported in Head Office, Treasury and other operations in South Africa.
- 14.2.3 Software projects and other assets, liabilities (together with the funding provided by Treasury) and associated income and expenses which were previously centrally maintained, have been moved from Head Office in South Africa to the various responsible segments to ensure end-to-end accountability of business activities.
- 14.2.4 The Absa Namibia representative office, which was previously reported in ARO, has been moved to CIB South Africa to support its regional expansion strategy.
- 14.2.5 RBB South Africa has aligned its operating model to enable a more customer-centric approach which will offer more holistic product offerings. The business has now been arranged into the following units:
 - › **Home Loans** – offers residential property-related finance solutions direct to customers through personalised services, a range of electronic channels, and intermediaries such as estate agents and mortgage originators.
 - › **Vehicle and Asset Finance (VAF)** – offers funding solutions for passenger and light commercial vehicles to individual customers through the branch network, approved dealerships, and preferred suppliers. VAF's Joint Venture with Ford Financial Services is an extension of the business and reinforces the strategic intent of establishing and harnessing relationships with dealers and customers.
 - › **Everyday Banking** – offers the day-to-day banking services for the retail customer and includes:
 - o **Card** – offers credit cards via a mix of Absa-branded and co-branded offerings including British Airways, Avios and Virgin Money. Included in this portfolio are partnerships with Edcon, which offers in-store cards and Woolworths Financial Services, which offers in-store cards, credit cards, personal loans and short-term insurance products.
 - o **Personal Loans** – offers unsecured instalment loans through face-to-face engagements, call centre agents as well as electronic and mobile channels.
 - o **Transactions and Deposits** – offers a full range of transactional banking, savings and investment products, rewards programme and services through a variety of channels. These include the branch network, digital channels, ATMs, priority suites, call centres as well as through a third-party retailer PEP (part of the PEPKOR Group).
 - › **Relationship Banking** – offers a full range of banking and financial advisory products and services to all customers where a named relationship exists. Relationship Banking also includes an Equity portfolio which is being reduced in an orderly manner.
 - › **Insurance Cluster:**
 - o **Life Insurance** – offers life insurance, covering death, disability and retrenchment, as well as funeral and investment products.
 - o **Short-term Insurance** – provides short-term insurance solutions to the retail and commercial market segments. A direct-to-client short-term solution, Absa direct, is also available to the retail market.
 - › **RBB Other** – includes distribution channel costs not recovered from business area as well as the insurance's shareholder investment portfolios, holding companies and related consolidation entries and allocated shareholder overhead expenses.

Summary consolidated normalised results

for the reporting period ended 31 December

Normalised financial results (normalised results) as a consequence of Barclays PLC separation

On 1 March 2016, Barclays PLC announced its intention to sell down its 62.3% interest in the Group. A comprehensive separation programme was initiated by Barclays PLC and the Group to determine possible interactions between the companies to ensure that the Group can operate as an independent and sustainable group without the involvement of Barclays PLC.

Barclays PLC currently holds 14.9% in the Group.

As part of its divestment Barclays PLC contributed £765m to the Group, primarily in recognition of the investments required for the Group to separate from Barclays PLC. Investments will be made primarily in rebranding, technology and separation-related projects and it is expected that these will neutralise the capital and cash flow impact of separation investments on the Group over time.

The separation process has impacted the Group's financial results, most notably as it has had an increase in the capital base and generated endowment revenue thereon. International Financial Reporting Standards (IFRS) required that the Barclays PLC contribution be recognised directly in equity, while the subsequent investment expenditure (including the depreciation or amortisation of capitalised assets), has been and will continue to be recognised in profit or loss. The aforementioned results in a disconnect between underlying business performance and the IFRS financial results during the separation period. Normalised results have therefore been disclosed and will continue to be disclosed while the underlying business performance is materially different from the IFRS financial results. Refer to page 1 for the IFRS results.

The following presents the items which have been excluded from the normalised results:

- › Barclays PLC contribution (including the endowment benefit)
- › Hedging linked to separation activities
- › Technology and brand separation projects
- › Depreciation and amortisation on the aforementioned projects
- › Transitional service payments to Barclays PLC
- › Employee cost and benefits linked to separation activities
- › Separation project execution and support cost.

Basis of presentation

Normalised results

The summary consolidated normalised results have been prepared to illustrate the impact of the separation from Barclays PLC and adjust for the interest income on Barclays PLC's separation contribution, hedging linked to the separating activities, operating expenses and other expenses, as well as the tax impact of the aforementioned items (collectively the "separation"). The Group will present normalised results for future periods where the financial impact of separation is considered material. Normalisation does not affect divisional disclosures.

Normalised results have been prepared for illustrative purposes only and because of their nature may not fairly present the Group's financial position, changes in equity, cash flows and results of operations.

The normalised results have not been prepared using the accounting policies of the Group and do not comply with IFRS. These results are considered to be pro forma financial information and have been presented in accordance with the JSE Limited listings requirements which require that pro forma financial information be compiled in terms of the JSE Limited's listings requirements, the SAICA Guide on Pro Forma Financial Information and any relevant guidance issued by the IRBA. The normalised results are the responsibility of the Group's Board of Directors.
