2.	INVESTMENT PROPERTIES				
	Investment properties consist of:				
	Bare dominiums	24 459	25 235		
	Other investment properties	173 840	129 000		
	Investment properties are stated at fair value. The latest external valuations, of the bare dominiums, were at 31 January 2006. Bonds are registered over the bare dominiums. The fair value of the other investment properties at 31 March 2007 has been arrived at on the basis of a valuation carried out on 2 March 2006 by Mr Conrad Penny, an independent valuer not connected to the Group. This valuation was arrived at by reference to market evidence of transaction prices for similar properties. The property rental income earned by the Group from its investment property, all of which leased out under operating leases, amounted to R20,2 million. Direct operating expenses arising on the investment property in the period amounted to R0,7 million.	198 299	154 235		
	Details of investment properties are available at the registered office of the company.

	At end of year	908 642	82 683		

Goodwill relates primarily to the Group's casino and hotel interests. The Group performs an annual group valuation for purposes of valuing the shares that form part of the long term incentive plans (note 24). This valuation method is the basis for valuing the Group's cash-generating units to which goodwill is allocated. This valuation represents the recoverable amounts for these groups. The carrying values of these groups are then deducted from their respective recoverable amounts to determine whether the allocated goodwill is impaired or not.

The annual valuation is based on an "Earning Before Interest, Tax, Depreciation and Amortisation" approach which utilises a multiple determined by two independent audit firms ("the experts") to determine the Group's enterprise value. This enterprise value is adjusted to equity value through adding the market value of cash less the market value of interest bearing debt. The multiple determined by the experts is based on comparative companies' trading on the JSE Limited, and is considered to represent a fair multiple that the Group would achieve were it to list.

The value of other CGU's to which goodwill has been allocated has been determined based on value in use calculations using management generated cash flow projections. The net present value has been calculated to be in excess of the current carrying value and therefore no impairment is required.

The finance lease receivables comprise debt purchased from third parties. The average term of these loans is 54 months and the average interest rate is 2.45% above prime. These receivables are secured by means of the motor vehicles that are financed. The provision for impairment of finance lease receivables is estimated after evaluating the finance lease receivables and after taking securities into account.

12. NON-CURRENT RECEIVABLES

Loans to minority shareholders

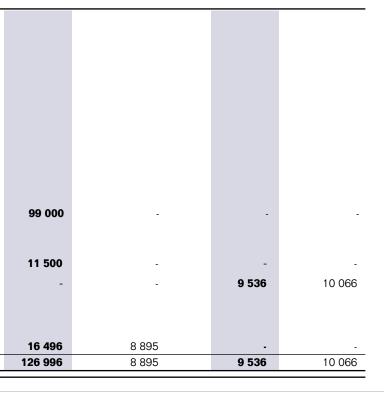

These loans are repayable on the earlier of 31 May 2011 or as agreed to by all shareholders of Tsogo Sun KwaZulu-Natal (Pty) Ltd, a subsidiary of the Group. Interest is charged at rates linked to the three month Johannesburg Inter-Bank Agreed Rate (JIBAR) and settlement occurs bi-annually on the last day of March and September. These loans are secured by a cession of claims by these minority shareholders of loan accounts in Ripple Effect 31 (Pty) Ltd, a subsidiary of the Group.

Loans to development trusts

These unsecured loans are interest free

Loan to HCl Employee Share Trust (2001) Other loans

These loans are due within 1 to 6 years and bear interest at rates ranging from 0% to 5% per annum.

23. RETIREMENT BENEFIT INFORMATION

23.1 Pension

Certain subsidiaries of the Group operate pension funds. These are defined contribution funds, governed by the Pension Funds Act, 1956, which provide retirement and death benefits for all permanent, full time employees who are not members of any other approved pension or provident fund.

23.2 Medical aid

23.2.1 A subsidiary operates a defined benefit plan for a portion of its medical aid members. The assets of the funded plans are held independently of the Group's assets. This fund is valued by independent actuaries every year using the projected unit credit method.

Present value of funded obligations	38 042	-
Fair value of plan assets	(18 286)	-
-	19 756	-
Unrecognised actuarial gains	3 446	-
Unrecognised past service costs	(1 448)	-
Liability per the balance sheet	21 754	-

	Group
	2007
	%
The principal actuarial assumptions used	
for the valuation were:	
Discount rate	7.75
Health care cost inflation	6.75
Expected return on plan assets	8.75
Remuneration inflation	6.25

for the year ended 31 March 2007

23.2.2 A subsidiary pays a monthly grant to the Golden Arrow Employees' Medical Benefit Fund (MBF or "the Fund"). The Fund uses the grant to cover the outgoings not financed from member contributions. The administrators of MBF are the Metropolitan Health Group. The subsidiary also makes contributions to Discovery Health.

The calculation of accrued service liability in respect of post-retirement healthcare was performed by Fifth Quadrant Actuaries and Consultants as at 31 March 2007.			
		Group	
	2007	2006	
The principal actuarial assumptions used			
for the valuation were:			
Discount rate	8.5%	7.5%	
Medical aid subsidy increase rate	5.5% to 7%	4.5% to 6%	
Normal retirement age	65 years	65 years	
Continuation of membership at retirement	55%	55%	

24. LONG TERM INCENTIVE LIABILITIES

Certain subsidiaries of the Group operate cash settled long term incentive plans. Liabilities equal to the current fair values are recognised at each balance sheet date. The movements in the fair value of these liabilities are expensed.

The fair value is expensed over the period as services are rendered by the employees. In terms of the rules, the fair values of the payments are determined using the application of an Earnings Before Interest, Tax, Depreciation and Amortisation (EBITDA) based formula as described in note 3 above.

The Group has two long term cash settled incentive payment plans:

24.1 The Tsogo Sun Group Share Incentive Plan is a long term incentive plan whereby participants receive a cash settlement on exercise and delivery of options. Share options were granted at the fair value price of the shares on the date of the grant less a discount of 2%, and are exercisable at that price. Options only begin to vest from three years after they were allocated. After three years 25% vest, an additional 25% vest after four years, and after five years the remaining options fully vest. Options expire after a maximum period of eight years. The charge is not reversed if the options are exercised where the market value of the shares is lower than the option price at the date of the grant. When an option is exercised the option holder receives the differential between the strike/grant price and the fair value of the underlying shares in cash which fair value is determined by reference to a pre-determined formula, as noted in 24 above.

At 31 March 2007 the Group has recorded liabilities of R326 million in respect of this long term incentive plan. The current portion of this liability is R125,4 million.

Movements in the number of share options outstanding and their related weighted average exercise prices are as follows:

Group

Outstanding at year end Exercisable at year end

24.2 The Tsogo Sun Share Appreciation Bonus Plan is a bonus scheme whereby participants receive cash bonuses, the amounts of which are determined with reference to the notional growth in the Group's share price. Participants under this bonus appreciation plan are not entitled to take up shares or options whatsoever. 25% of the bonus appreciation plan vests from three years after date of allocation, an additional 25% vests after four years, and the balance after five years.

The Group has recorded liabilities of R13,9 million in respect of this plan. The current portion of this liability is R nil (2006: R nil).

Envirogas preferred stock

The Envirogas provision relates to preferred stock in Envirogas Recovery Incorporated, one of the subsidiaries of the Montauk Group. The preferred stock comprises 10 shares at R726 490 (US\$100 000) per share. Currently there are no operations or assets in this entity and these shares may be redeemed at any time after 2018 at par value.

Repurchase of service

This is a provision raised in respect of costs that will be payable to employees on completion of the restructuring of the bus industry by the Department of Transport.

Third party claims

Third party claims are legal claims resulting from traffic accidents.Claims that are insured are excluded from this provision.

40. HCI EMPLOYEE SHARE OPTION SCHEME

In terms of the option scheme, share are offered on a combined share option and deferred sale basis. Participants can take up shares in tranches over a period of seven years from the date of grant at the exercise price, provided that they remain in the group's employ until the options vest.

Options must be exercised within ten years of being granted, whereafter the options lapse. Options vest as follows: 25% after 1 year, 25% after 3 years, 25% after 5 years and 25% after seven years. These vesting periods may be varied by the trustees. Participants have ten years from date of the scheme grant to pay for the shares.

Number of shares

Share options granted to eligible participants that have

been exercised but have not yet become unconditional:

	2007	2006
Balance at beginning of the year	1 324 474	3 424 474
Options granted and exercised	1 134 460	5 727 777

44. RELATED PARTY TRANSACTIONS

Related parties include:

- 44.1 The group entered into transactions in the ordinary course of business with various partly owned subsidiaries and associated companies. These transactions are conducted on an arms length basis and relate to funding and administrative services. Details of loans to these entities are set out in note 4 and annexure A.
- 44.2 The Company repurchased three hundred thousand shares from The Bevin Trust for an aggregate purchase consideration of eleven million seven hundred thousand rand. A former director of a subsidiary, Gavin Chamberlain, is a beneficiary of The Bevin Trust.
- 44.3 The Company acquired a 15% interest in Catwalk Investments 167 (Pty) Ltd (Catwalk), which company holds a 4.6% interest in Tsogo Investment Holding Company (Pty) Ltd, for an aggregate consideration of twenty six million five hundred thousand rand from Mr JA Mabuza, a director of the Company.

44.4 Key management compensation was paid as follows:	2007	2006
	R'000	R'000
Salaries and other short-term employees benefits	28 213	21 299

Details of directors' remuneration are disclosed in note 41 to the financial statements.

45 CONTINGENT LIABILITIES

Group

As part of its provision of funding and investment services, FI Funding and Investments Holdco (Pty) Ltd subsidiaries enter into various guarantees, pledges, options and cessions as security arrangements with client companies. These should not result in any net exposure to the Group.

There are existing claims of R181million against certain FI Funding and Investments Holdco (Pty) Ltd subsidiaries. The directors of these companies are confident that the claims will be successfully defended.

The South African Revenue Service ("SARS") is challenging the deductibility of pre-opening expenditure incurred prior to the opening of new casinos in the gaming industry. These expenses consist in the main of payroll, training, marketing and other operating costs incurred prior to opening and have historically been allowed as a deduction for income tax purposes. The Group is engaging with SARS on this issue. Based on legal opinion obtained the Group believes that these expenses are deductible. Not withstanding the opinions it should be noted that the potential exposure could amount to a tax charge of up to R 8 million across the Group.

Certain subsidiaries of the Group have entered into structured finance arrangements in relation to intellectual property sale and lease back transactions with Nedbank. SARS is currently assessing these financial structures, the outcome of which remains uncertain. This could have an adverse effect on the Group. The Group has taken advice on the matter and based on this advice believe that the Group will be able to defend any actions.

Company

The company has issued guarantees and suretyships to Investec Bank Limited and First Rand Bank Limited for the Ioan facilities and preference share debt granted to HCI Treasury (Pty) Ltd and Mercanto Investments (Pty) Ltd, subsidiaries. At 31 March 2007 the total amount owing in respect of these Ioans facilities and preference share debt amounted to R616 million (2006: R581 million).

for the year ended 31 March 2007

46 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

46.1 FOREIGN EXCHANGE RISK

The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US Dollar.

Entities in the Group use forward contracts to manage their foreign exchange risk arising from the future commercial transactions for recognised assets and liabilities. Foreign exchange risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the entity's functional currency.

46.2 CASH FLOW AND FAIR VALUE INTEREST RATE RISK MANAGEMENT

The Group's cash flow interest rate risk arises from the trading in and holding of floating rates assets, debt instruments and cash balances.

Interest rate risk exposures are reviewed regularly.

Certain of the Group's debt facilities are linked to the JIBAR rate with the yield on related receivables being linked to the prime rate. Any shift in the JIBAR versus Prime rates will not significantly impact the Group, as there is a high degree of correlation.

Where appropriate the Group manages its cash flow interest rate risk by using floating-to-fixed interest rate swaps. Such interest rate swaps have the economic effect of converting floating rate borrowings to fixed rates. Under the interest rate swaps, the Group agrees with other parties to exchange, at specified intervals, the difference between fixed contract rates and floating rate interest amounts calculated by reference to an agreed reference interest rate calculated on agreed notional principal amounts.

46.3 CREDIT RISK MANAGEMENT

Potential concentrations of credit risk include cash balances, loan, trade and other payables and finance lease receivables.

The group maintains cash, cash equivalents and short term investments with various financial institutions. The group's policy is designed to limit exposure with any one financial institution and a high credit standing is necessary for the financial institutions with which transactions are executed.

Trade and other receivables and finance lease receivables comprise a large number of customers, dispersed across different industries and geographical areas. Senior management conducts ongoing credit evaluations on the financial condition of counter parties within set credit limits. Debtors are presented net of the allowance for doubtful debts.

46.4 MARKET / PRICE RISK MANAGEMENT

Market risk arises from the group's trading activities and holding of fixed income securities, derivatives and equity instruments, and the possible adverse price movements thereof. A range of statistical models are utilised in order to address these risks and maintain an acceptable risk profile.

Risk limits are set taking into account the risk characteristics of the instruments and markets, the average risk exposure, volatility, maximum potential changes over a specified period in the underlying price determinants, level of reserves and the experience and qualification of the dealers.

46.5 LIQUIDITY RISK

The group manages liquidity risk by monitoring forecast cash flows and ensuring that adequate cash resources and unutilised borrowing facilities are maintained.

46.6 LEGAL RISK MANAGEMENT

Legal risk includes the risk of non-compliance with applicable legal and regulatory requirements and the risk that a counterparty's performance obligation will be unenforceable. Risk management procedures ensure compliance with applicable statutory and regulatory requirements.

48. BUSINESS COMBINATIONS AND DISPOSALS

48.1 THE ACQUISITION OF AN ADDITIONAL 19% OF TSOGO SUN INVESTMENT HOLDING COMPANY (PROPRIETARY) LIMITED

During the year the group increased its interest in Tsogo Sun Investment Holding Company (Proprietary) Limited from 51% to 74%. The group acquired effective control on 1 December 2006. The acquired business contributed revenues of R1 677 million and profit after tax of R331 million to the group for the period from the date of effective control to 31 March 2007.

If the acquisition had occurred on 1 April 2006 the contribution to group revenue would have been R4 474 million and the contribution to profit after tax would have been R750 million.

At the date of finalisation of these financial statements the necessary market valuation of Tsogo Sun Holdings' identifiable assets, liabilities and contingent liabilities had not been finalised. Accordingly the initial accounting for the acquisition of Tsogo Sun Holdings has only been provisionally determined at balance sheet date.

48.2 THE ACQUISITION OF 100% OF BLUE WOLF ENERGY HOLDINGS

During the year the group acquired a 100 % interest in Blue Energy Holdings LLC (Blue Wolf). The group acquired effective control on 29 December 2006. The acquired business contributed revenues of R43.7 million and a loss after tax of R30.8 million to the group for the period from the date of effective control to 31 March 2007.

Prior to the acquisition the various subsidiaries of Blue Wolf had not operated as a group for financial reporting purposes. Accordingly it is impracticable to disclose what the contribution to revenue and profit after tax would have been, had the

acquisition occurred on 1 April 2006.

Goodwill included in the cost of the acquisition is primarily attributable to the assembled workforce.

48.3 OTHER BUSINESS COMBINATIONS AND DISPOSALS

Other business combinations and disposals are as follows:

- Acquisition of 100% of C&A Associated Consultants (Pty) Ltd, effective 1 April 2006
- Increasing the groups' interest in 21 Impala Road Properties (Pty) Ltd to 100%, effective 1 April 2006
- Acquisition of a 51% interest Lendcor (Pty) Ltd.

The acquired businesses contributed revenues of R82,7 million and profit after tax of R13,6 million to the group for the period from the dates of effective control to 31 March 2006.

If the acquisitions had occurred on 1 April 2005 the contribution to group revenue would have been R195,9 million and the contribution to profit after tax would have been R31,8 million.

The goodwill is attributable to the underlying business units in each on the investees acquired.
