COMMENTARY

On 14 April 2014 Reunert announced that its subsidiary, Nashua Mobile, had entered into separate and distinct agreements with MTN and Vodacom to dispose of its subscriber bases. As a consequence of this announcement, Nashua Mobile has been presented as a discontinuing operation in these results.

Normalised headline earnings per share from the group, including Nashua Mobile, has decreased by 8% from 256,5 cents to 237,2 cents.

Revenue from continuing operations increased by 14% to R3,7 billion, whilst operating profit increased from R449,2 million to R477,2 million. Basic earnings per share and headline earnings per share from continuing operations increased by 3% to 200,9 cents and 201,3 cents respectively.

Normalised headline earnings per share from continuing operations increased by 3% from 194,0 cents to 200,0 cents.

REVIEW OF OPERATIONS

CBI-ELECTRIC

Revenue from the electrical businesses increased by 12% to R1,8 billion, mainly as a result of increased sales by the energy cables business. Although revenue increased, operating profit decreased by 8% to R214,6 million as a result of margin pressure and change in product mix.

The low voltage business delivered stable revenue from its local market, but offshore operations remained under pressure. Further, higher material input costs due to the weaker rand resulted in lower margins. The solutions' business was awarded a number of contracts in the renewable energy sector, which increased revenues, although the work was performed at relatively lower margins.

In the energy cable business the continued delays in infrastructure projects had a negative impact on the activity levels of the power installation division. The tragic accident at the Ingula Pump Station site resulted in a halt in construction, which further affected this operation. The energy cable manufacturing operation was negatively affected by industrial action, which delayed certain sales. Pleasingly, the contribution from revenues recorded from the renewable energy sector more than offset the above adverse effects, although margin pressure continues to be experienced by the business.

The telecommunications cables operation had another slow six months with revenue and operating profit remaining flat.

NASHUA

Revenue increased by 3% to R3,4 billion for the Nashua segment as a whole. However, excluding Nashua Mobile, revenue increased by 10% to R1,6 billion. Operating profit from continuing operations increased by 11% to R204,4 million, whilst operating profit, including Nashua Mobile, decreased by 8% to R290 million.

Nashua Office Automation reported an increase of 19% in revenue, which was principally due to the acquisition of Nashua North and Prodoc Svenska AB, our acquisition in Sweden. Nashua Office Automation managed to limit the impact of the weakening Rand on its margins.

COMMENTARY CONTINUED

Revenue for Nashua Mobile decreased by 5%, as a result of continued price deflation in the mobile industry, as well as the impact of the reduced incentives received from the service providers.

Nashua Communications reported a marginal decrease in revenue. The sales and installations of our VoIP solution continue to strengthen, while the Siemens/Unify business remains subdued. The business of Nashua Communications was right-sized in October 2013, which resulted in once-off restructuring costs being incurred. As a consequence of these costs, operating profits were slightly down on the prior year.

Pansolution's revenue and operating profit declined marginally as the market remained highly competitive.

Quince, the segment's financing operation, delivered a strong performance with increased revenue and operating profits. The rental book increased to R1,9 billion over the prior reporting period due in the main to the rental book acquired from Nashua North.

REUTECH

Reutech revenues increased by 28% over the prior period from R380,5 million to R487,7 million. This growth was delivered by all operations in the segment, with the exception of Fuchs. Operating profit increased by 58% to R77,9 million, due to the higher revenues as well as the once-off integration costs associated with the SAAB Grintek acquisition in 2013 not being repeated.

PROSPECTS

Looking forward, Reunert will continue to pursue earnings growth, both organically and through synergistic acquisitions. However, given the sluggish economy, organic growth is expected to remain challenging. Consequently, the group will also retain its focus on rigorous cost control, effective cash management and the extraction of efficiencies from its businesses.

The financial information on which the above is based has not been reviewed or reported on by the company's external auditors.

DIRECTORATE

With effect from 21 November 2013 Messrs Alan Dickson and Mark Taylor were appointed to the board as executive directors.

With effect from 26 November 2013 Ms Sarita Martin was appointed to the board and the audit and risk committees.

Mr Johannes van der Horst retired from the board on 17 February 2014, having reached mandatory retirement age. The board extends its sincere appreciation to him for his exemplary service over the years and wishes him and his wife all the best in their retirement.

Ms Louisa Mojela did not make herself available for re-election to the board at the AGM on 17 February 2014.

CASH DIVIDEND

Notice is hereby given that a gross interim cash dividend No 176 of 95 cents per ordinary share (2013: 95 cents per share) has been declared by the directors for the six months ended 31 March 2014.

The issued share capital at the declaration date is 187 256 746 ordinary shares. Reunert's income taxation reference number is 9100/101/71/7P.

As announced on the JSE Securities Exchange News Service on 14 April 2014, Nashua Mobile, a wholly-owned subsidiary of Reunert, has entered into separate and distinct sale agreements with each of Mobile Telephone Networks Proprietary Limited (MTN) and Vodacom Proprietary Limited (Vodacom), on 11 April 2014, in terms of which, inter alia, Nashua Mobile will dispose of its MTN and Vodacom subscriber bases to MTN and Vodacom respectively. The culmination of these transactions will result in the disposal of the business of Nashua Mobile and its operations. It is anticipated that the disposal will be completed within the next six months. Nashua Mobile is presented in the Nashua segment of the segmental analysis.

Arising out of this the summarised group income statement and related notes have been restated to exclude the results of Nashua Mobile.

10. BASIS OF PREPARATION

These summarised consolidated financial statements have been prepared in accordance with the framework concepts and the recognition and measurement criteria of IFRS and its interpretations adopted by the International Accounting Standards Boards (IASB) in issue and effective for the group at 30 September 2013 and the SAICA Financial Reporting Guides, as issued by the Accounting Practices Committees and Financial Reporting pronouncements as issued by the Financial Reporting Standards Council. This summarised consolidated information has been prepared using the information as required by IAS 34 – Interim Financial Reporting, and complies with the Listings Requirements of the JSE Limited and the requirements of the Companies Act, No 71 of 2008, of South Africa. This report was compiled under the supervision of MC Krog (Chief Financial Officer).

The group's accounting policies, as per the audited annual financial statements for the year ended 30 September 2013, have been consistently applied except where the group adopted new or revised accounting standards. These accounting policies comply with IFRS.

11. CHANGES IN ACCOUNTING POLICIES

The group has adopted the new, revised or amended accounting pronouncements as issued by the IASB which became effective to the group on 1 October 2013, including some of the more significant changes listed below:

IFRS 10 – CONSOLIDATED FINANCIAL STATEMENTS

IFRS 10 replaces IAS 27 – Consolidated and Separate Financial Statements, that addresses the accounting for consolidated financial statements and SIC 12 – Consolidation – Special Purpose Entities. IFRS 10 provides a single basis for consolidation with new criteria to determine whether entities, in which the group has an interest, should be consolidated.

The adoption of IFRS 10 has resulted in the groups' interest in insurance cell captives being recognised as long term investments instead of consolidated special purpose entities of the group. The change from full consolidation to accounting for investments at fair value is not considered material. No other material subsidiaries within the group were affected.

As the majority of the insurance cell captives' assets consist of cash and cash equivalents the carrying amounts approximate fair value because of the short-term nature of these instruments.

IFRS 11 – JOINT ARRANGEMENTS

IFRS 11 replaces IAS 31 – Interests in Joint Ventures and SIC 13 – Jointly-controlled Entities – Non-monetary Contributions by Ventures and changes the classification for joint operations.

Under IFRS 11, a joint arrangement is classified as either a joint operation or a joint venture based on the rights and obligations of the parties to the arrangement, the legal form of the joint arrangement and when relevant, other facts and circumstances. IFRS 11 removes the option to proportionately consolidate joint ventures and instead, all interests in joint arrangements that meet the definition of a joint venture under IFRS 11 must be accounted for using the equity method.

The application of IFRS 11 has resulted in changes in accounting for the group's jointly controlled entities previously accounted for using the proportionate consolidation method and now will be accounted for using the equity method under IFRS 11.

Both these accounting standards have to be applied retrospectively in terms of their transitional provisions and accordingly the reported results of both comparative periods were restated.

11. CHANGES IN ACCOUNTING POLICIES CONTINUED

12. RESTATEMENT OF SUMMARISED GROUP CASH FLOW STATEMENT

It is the group's view that rental and finance leases provided to customers are investing activities due to the long-term nature of these advances.

Accordingly the summarised group cash flow statement for the six months ended 31 March 2013 was restated to reflect the movement in these amounts from operating activities to investing activities.

The impact of the restatement is R146,7 million and is detailed below:

	Previously reported*	Restated
(Increase)/decrease in net working capital	(33,5)	113,2
Cash generated from operations	614,7	761,4
Net cash (outflow)/inflow from operating activities	(16,3)	130,4
Movement in total rental and finance lease receivables	–	(146,7)
Net cash outflow from investing activities	(44,9)	(191,6)

* Cash flow as previously reported taking into account amendments arising from the adoption of IFRS 10 and 11.
Refer to notes 10 and 11.

The 30 September 2013 financial statements were reported on the above basis and therefore do not require restatement.

13. UNCONSOLIDATED SUBSIDIARY

The financial results of Cafca Limited (Cafca), a subsidiary incorporated in Zimbabwe, have not been consolidated in the group results as the group does not have management control. The amounts involved are not material to the group's results.

At 31 March 2014 Cafca's retained earnings amounted to US\$10,9 million.

14. OTHER MATTERS

In our annual financial statements for the year ended 30 September 2013, note 24 we referred to a formal complaint initiated against the cables' industry and that ATC (Pty) Ltd was included as a named party.

The allegations contained in the complaint are legacy issues that relate to tenders and contracts awarded in periods before December 2009. ATC (Pty) Ltd is co-operating fully with the Competition Commission on this matter. Since the date of our annual financial statements we have engaged in settlement negotiations with the Competition Commission, which are expected to be finalised in due course.

15. RELATED PARTY TRANSACTIONS

The group entered into various transactions with related parties, which occurred in the ordinary course of business and under terms that are no more favourable than those arranged with independent third parties.

16. EVENTS AFTER BALANCE SHEET DATE

No events have occurred after the balance sheet date that require additional disclosure or adjustment to the results presented.
