Hudaco Industries is a South African group specialising in the importation and distribution of high-quality branded automotive, industrial and electrical consumable products, mainly in the southern African region Hudaco businesses serve markets that fall into two primary categories:

- The automotive aftermarket, power tool, security and communication equipment businesses supply products into markets with a bias towards consumer spending. The mechanical and electrical power transmission, diesel engine, hydraulics and pneumatics, steel, thermoplastic fittings and bearings businesses supply engineering consumables mainly to mining and
- manufacturing customers.

Value added includes product specification, technical advice, application and installation training and troubleshooting, combined with availability at a fair price.

A strong close to the year enabled us to finish with comparable earnings slightly up on 2015, which had been a record year for Hudaco. This is a pleasing result given a decline of almost 20% at mid-year and the fact that there was neither a large communication contract nor a load-shedding boost in 2016. We consider these results to be excellent, considering the challenging conditions under which they were achieved

CEPS at half year were down 19,7%, with 2015's good first half results having been boosted by approximately REFS at failing year were down 19,7 %, with 2013 your mist fail results having deen loads as gipponinted. REFS million in profits from the sales of alternative energy products due to load shedding and a large contract for communication equipment. We mentioned at the time that "we would be hard pressed to catch up the deficit and match last year's results" so we are very pleased to have been able to achieve that.

Annual sales were up 6% to R5,5 billion whilst operating profit rose 6% to R639 million. Headline earnings per share were up 5% to 1 222 cents with comparable earnings per share marginally up from 1 169 to 1 171 cents. The return on equity was a very respectable 20,5%.

The final dividend has been increased by 10 cents per share to 355 cents to bring the total dividend for the year to 525 cents, the same as in 2015.

Consumer-related products

ed products segment comprises ten businesses. In 2016 it made up 51% of Hudaco's sales and 61% of operating profit. The automotive businesses of Partquip and Abes had a very good year. There was good growth from our security businesses. Elvey Security Technologies had a significantly better year but the main increase was in the project business through Pentagon. MiRO, a distributor of wireless connectivity products, had a very good first seven months in the group and we look forward to its contribution in the years ahead as it has significant potential for growth. Rutherford, the second largest business in this segment which distributes Makita power tools and garden equipment had a difficult year, partly attributable to delays at the National Regulator for Compulsory Specifications in issuing authority letters to launch new products. The segment increased sales by 7,6% to R2,8 billion and operating profit by 6,6% to R405 million.

The 20 businesses that constitute engineering consumables made up the other 49% of sales and 39% of operating profit. This was yet another difficult year for the businesses in this segment serving the depressed mining and manufacturing industries. The severe drought that gripped the southern African region also had a negative effect on our sales. Nevertheless, most of the businesses in this segment performed satisfactorily considering the economic conditions. The second half results were very promising with a 12% increase in operating profit over the second half of 2015. We were particularly encouraged by the growth in operating profit from Bearings International, Astore Keymak, Bosworth and our specialised steel businesses. There were three companies in this segment with significant declines in sales and operating profit. Our filter business, FHS, whilst companies in this segment with significant declines in sales and operating profit. Our Inter business, FHS, Whist still yielding an excellent return on sales, saw a significant decline in revenue due to depressed opencast mining and construction sectors. In the gear pump business, GPM, where we opened a USA located warehouse to take advantage of growing demand for our product, sales plummeted as customers reduced their own inventories because we could deliver on much shorter lead times. This is a once-off issue and customer take-up has already started to normalise. Deutz Dieselpower, our diesel engine business, did not have the benefit of the sales of genset engines that it enjoyed in the previous year due to load shedding. The segment increased sales by 4,0% to R2,7 billion whilst operating profit declined slightly to R255 million.

We have taken steps over the last two years to right size certain businesses to the lower levels of activity being experienced. They will be better placed when mining and manufacturing activity improves. The second half of 2016 has shown signs that lead us to believe that prospects are turning.

ur financial position remains healthy and Hudaco's operations remain strongly cash generative. The group had R905 million in net borrowings at year-end, down from R1 016 million, notwithstanding R168 million spent on acquisitions, representing gearing of 42%. More importantly, interest payments were covered eight times by EBITDA against our internal covenant of at least five times. Inventories have been well managed considering the volatility of the Rand against our basket of currencies. At R1 508 million, they are up only 4,5%, excluding take-on

Notwithstanding the challenges that are bound to arise from the economic and political environment both nationally and internationally, we are optimistic that earnings in 2017 will be impacted positively by a combination of factors

- · we ended the year strongly and several businesses have come into the year with much healthier order books;
- there are signs of improvement in certain sectors in which we operate, strengthening in commodity prices since
 June last year should positively affect mining and manufacturing activity;
- the strengthening Rand should allow us to release cash from inventories • we are seeing relief from the crippling drought of the past two years; and
- we have made high potential growth acquisitions in recent months.

Lawsuit against Bravura and certain associatesThe legal case against Bravura and certain of its associates for up to R490 million is continuing slowly. Hudaco has brought the action to recover, *inter alia*, secret profits made on the financing arrangements around the Hudaco BEE transaction that ran from August 2007 to February 2013.

Final dividend number 60 of 355 cents per share (2015: 345 cents per share) is declared payable on Monday, 6 March 2017 to ordinary shareholders recorded in the register at the close of business on Friday 3 March 2017.

Declaration of final dividend no 60

The timetable for the payment of the dividend is as follows: Tuesday, 28 February 2017 Last day to trade cum dividend

Trading ex dividend commences Friday, 3 March 2017 Record date Monday, 6 March 2017 Payment date Share certificates may not be dematerialised or rematerialised between Wednesday, 1 March 2017 and Friday, 3 March 2017, both days inclusive. The certificated register will be closed for this period.

In terms of the Listings Requirements of the JSE Limited regarding the Dividends Tax, the following additional

- nformation is disclosed: • The dividend has been declared from income reserves;
- The dividend withholding tax rate is 15%;
- The net local dividend amount is 301,75 cents per share for shareholders liable to pay the Dividend Tax and 355 cents per share for shareholders exempt from the Dividend Tax;
- Hudaco Industries Limited has 34 153 531 shares in issue (which includes 2 507 828 treasury shares); and Hudaco Industries Limited's income tax reference number is 9400/159/71/2

Results presentation and annual general meeting

Hudaco will host presentations on the financial results in Johannesburg and Cape Town on Friday, 3 February 2017 and Monday, 6 February 2017, respectively. Anyone wishing to attend should contact Rika Wessels-Bouwer at +27 11 657 5000.

The slides which form part of the presentation will be available on the company's website from Friday

The company's 32nd annual general meeting will be held at Building 9, Greenstone Hill Office Park, Emerald Boulevard, Greenstone Hill, Edenvale at 15:00 on Wednesday, 29 March 2017. The notice and proxy form for the company's annual general meeting will be posted to the shareholders by 17 February 2017 and will be included in the integrated report that will be published on Hudaco's website during February 2017.

Approval of financial statements

The financial statements have been approved by the board and abridged for purposes of this report. Grant Thornton has signed an unqualified audit opinion on the annual financial statements. Both the financial statements and the auditors' report are available for inspection at the company's registered office. This abridged report is extracted from audited information, but is not itself audited.

The auditors' report does not necessarily cover all of the information contained in this announcement Shareholders are therefore advised that in order to obtain a full understanding of the nature of the auditors' work they should obtain a copy of the report together with the accompanying financial information from the registered research. office of the company.

Acquisition of businesses

On 1 December 2015 the group acquired 100% of the business of HERS, on 1 January 2016 100% of the business of All-Trade Distributors, on 1 May 2016 100% of the business of MiRO and on 1 June $2016\ 100\%\ of\ the\ business\ of\ Brewtech\ Engineering,\ each\ for\ a\ consideration\ based\ on\ future\ profits$ and which are subject to a combined maximum of R525 million

R57 million, trade and other payables of R32 million, cash of R4 million, taxation of R17 million, intangible assets of R23 million and goodwill of R242 million were recognised at dates of acquisition. These values approximate the fair values as determined under IFRS 3. Had these acquisitions been made at the beginning of the year, additional turnover of R152 million

and profit after interest and tax of R6 million would have been included in the group results and the turnover and profit after interest and tax for the group would have been R5 686 million and R416 million, respectively.

Plant and equipment of R7 million, inventories of R79 million, trade and other receivables of

Events after reporting date

On 1 December 2016 the group acquired 100% of the businesses of SS Telecoms and Commercial ICT for a combined consideration based on future profits and which is subject to a maximum of R111 million.

Plant and equipment of R1 million, inventories of R7 million, trade and other receivables of R6 million, trade and other payables of R7 million, cash of R1 million, taxation of R4 million, intangible assets of R7 million and goodwill of R50 million will be recognised at date of acquisition. These values approximate the fair values as provisionally determined under IFRS 3.

Had these acquisitions been made at the beginning of the year, turnover of R53 million and loss after amortisation of intangible assets, interest and tax of R3 million would have been included in the group results and the turnover and profit after interest and tax for the group would have been R5 587 million and R407 million, respectively.
