COMMENTARY

Introduction and review

Nu-World is a company incorporated and domiciled in South Africa with subsidiaries in Australia, Brazil, Dubai, Hong Kong and Lesotho. The main business of Nu-World and its subsidiaries includes the importing, assembling, marketing and distribution of branded consumer goods.

The Board presents the Nu-World summary results for the six months ended 29 February 2020. The period under review has been characterised by falling business confidence and deteriorating business-trading conditions. The combination of weaker volume growth, subdued selling price inflation and rising input costs resulted in overall profitability coming under pressure.

Accounting policies and basis of preparation

The condensed consolidated interim results are prepared in accordance with the requirements of the JSE Limited Listings Requirements for preliminary reports and the requirements of the Companies Act of South Africa. The Listings Requirements require preliminary reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS) and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 Interim Financial Reporting. The accounting policies applied in the preparation of the condensed consolidated financial statements are in terms of IFRS and are consistent with those applied in the previous consolidated annual financial statements.

The condensed consolidated interim results are presented in Rand rounded to the nearest thousand ('000).

The condensed consolidated interim results have been prepared under the supervision of Graham Hindle CA (SA) in his capacity as Financial Director.

COMMENTARY

Operating review

Nu-World's interim results should be considered within the context of the exceptionally difficult trading conditions, which have persisted in South Africa for a number of years. South African consumers are experiencing an increasing squeeze on their disposable income at this time due to unprecedented global and local events.

Nu-World has made progress in internationalising the Group over the last number of years and this strategy is to continue.

The Group increased the net asset value per share by 14,1% to R 60,26 and generated cash from operations of R 262,8 million.

South Africa

Within the Group, the South African operation came under the most trading pressure for the period under review. Revenue decreased by 11,1%. The economy is in recession and consumer spend is under renewed pressure. Attributable income as a percentage of turnover at 3,2%, came under pressure due to the economic environment.

Sales

Consumer electronics

Visual Consumer Electronics came under immense pressure during this period, however Audio showed strong growth resulting from the new ranges and models. Retaining market share in this competitive environment is crucial.

Seasonal products

The summer season showed strong revenue growth resulting from the additional seasonal product line-up, together with the increased market share in the air conditioner sector.

Appliances – Small domestic appliances (SDA) and white goods

The Company continues to introduce new cost effective product ranges, with focus on overall improvement in quality and "ease of use". The refrigeration offering has been substantially increased.

Offshore operations

Australia

Tough economic conditions persist in the Australian market. The decrease in returns resulted mainly from the decline in revenue and margins compounded by the devaluation of the AUD against the USD.

Other Offshore Markets

The other countries in which we operate in all performed well showing strong growth in both revenue and profit. Operating margins as a percentage of turnover exceeded 10%.

The Group is working towards increasing market share and opportunities in these markets.

Additional brands and product categories are being offered to the various distributors.

Nu-World, however, remains positive for future growth.

FINANCIAL PERFORMANCE

STATEMENT OF COMPREHENSIVE INCOME

Group revenue decreased by 11,1% to R 1 530,9 million (February 2019 – R 1 721,4 million).
Attributable income to equity holders of the company decreased by 19,3% to R 75,9 million (February 2019 – R 94,1 million)

STATEMENT OF FINANCIAL POSITION

The balance sheet strengthened considerably during the year under review, mainly due to the increase in trade and other payables and the resultant generation of cash from operations of R 262,8 million.

Inventory levels (including stock in transit) of R 629,7 million decreased by 27,1% from August 2019 (R 863,5 million). Directors and management remain focused on maintaining and improving working capital management and stock turn rates further.

The increase in fixed assets to R 88,4 million (August 2019 – R 22,7 million) arose due to capitalization of the leased assets in terms of IFRS 16.

Net asset value per share has increased by 14,1% to 6 025,8 cents (February 2019 – 5 278,9 cents).

SEGMENT REPORTING

The South African business operations contributed 74,8% of the Group's revenue and 47,9% of the Group's attributable income. Offshore operations account for 25,2% of turnover and 52,1% of income.

BOARD OF DIRECTORS

There were no changes during the period under review.

CORPORATE ACTIVITIES

There were no corporate activities during the period under review.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE ASPECTS

The Group complies with the Code on Corporate Governance Practices and Conduct as contained in the King IV Report on Corporate Governance. Nu-World is committed to transparent and integrated reporting in the spirit of King IV and the Global Reporting Initiative (GRI).

Nu-World continues its community support and corporate social investment.

PROSPECTS

The World Health Organization declared the outbreak of the Coronavirus – COVID-19, a global pandemic on 11 March 2020. Since then, in a worldwide response to curb the spread of the virus, South Africa and almost all countries across the world have imposed travel restrictions and implemented social distancing and self-quarantining until further notice. Furthermore, in line with many other countries, President Ramaphosa implemented a total lockdown from Friday, 27 March for 3 weeks, which total lockdown was extended for a further two weeks on 9 April 2020. South Africa, in line with the global economy, will be severely negatively impacted in these unprecedented times.

Consumer demand will probably remain constrained and trading conditions challenging, in the immediate future. The focus of management is to grow offshore market share in the consumer electronics and branded consumer durables sectors. This, coupled with the expanded offshore territories that the Group trades in, should increase the contribution from these businesses in future years. The Groups local project's division continues to explore business opportunities that could increase profitability. The Group is exploring new markets for their products as well as introducing new lines into their existing markets, including a range of Corona Covid-19 preventative products under the brand of NW PPE.

The Group continues to focus its target market on recognized International brands for consumer electronics and consumer durables, both locally and offshore.

SUBSEQUENT EVENTS

No events material to the understanding of this report have occurred during the period between 29 February 2020 and the date of this report.

NEW ACCOUNTING STANDARDS ADOPTED BY THE GROUP

IFRS 16 – Leases

The Group has adopted IFRS 16 from 01 September 2019 and has elected the modified retrospective approach.

IFRS 9 – Financial Instruments

The Group has applied IFRS 9 from 01 September 2018.

IFRS 15 – Revenue from contracts with customers

The application of IFRS 15 did not have a significant impact on the Group's results.

Changes to the Group's accounting policies

IFRS 15 did not have any impact on the amounts recognised in the prior periods and does not affect the current period in terms of revenue recognition.
