## COMMENTS

1. ACCOUNTING POLICIES The interim report is prepared in accordance with the recognition and measurement principles of International Financial Reporting Standards (IFRS), IAS 34: Interim Financial Reporting, the requirements of the South African Companies Act, Act 61 of 1973, as amended, and the Listings Requirements of the JSE Limited (JSE).

These financial statements incorporate accounting policies that are consistent with those of the previous financial periods, with the exception of the change in the accounting treatment of joint ventures. Refer to the section on prior year adjustments below.

During the period under review various new accounting standards, interpretations and amendments to IFRS became effective. The adoption of these new accounting standards, interpretations and amendments to IFRS had no impact on the results of either the current or prior periods.

During July 2007 the South African Institute of Chartered Accountants issued a new accounting guideline on headline earnings, i.e. Circular 08/07. The effective date of this circular is for all financial periods ending on or after 31 August 2007. The circular requires comparative headline earnings to be restated in accordance with the new prescribed formula if needed. Previously headline earnings was calculated in terms of Circular 07/02.

Attention is drawn to the fact that certain associated companies are not in a position to provide Remgro with the necessary information in order to restate its headline earnings for the comparative periods. This relates to associated companies that will only implement Circular 08/07 in later financial periods, e.g. FirstRand Limited and RMB Holdings Limited in respect of their interim reporting to 31 December 2007.

The JSE has granted Remgro dispensation from complying with Circular 08/07 in respect of listed associated companies that have not yet published their restated headline earnings prior to Remgro releasing its interim results. The results of those companies included in this interim report are based on their results prepared in terms of Circular 07/02.

Any restatement of Remgro's headline earnings that may result from the later restatement of associated companies' results, will be reported with the release of the audited consolidated results for the year ended 31 March 2008.

### 2. PRIOR YEAR ADJUSTMENTS

In terms of IAS 31: Interests in Joint Ventures, such entities can be accounted for by using proportionate consolidation or alternatively by using the equity method. Previously Remgro proportionately consolidated its interests in jointly controlled ventures and thereby accounted for its share of each of the assets, liabilities, income and expenses of the jointly controlled ventures on a line-by-line basis in its financial statements.

With effect from 1 April 2007 Remgro changed its accounting policy for the accounting treatment of jointly controlled ventures from proportionate consolidation to the equity method as it will result in more appropriate presentation of investments in joint ventures. This change in accounting policy had no effect on Remgro's net asset value, earnings or headline earnings for the comparative periods. Certain line items in the comparative balance sheets and income statements have been restated accordingly. The effect was immaterial.

#### COMMENTS (continued)

#### Comparison with prior periods

With effect from 31 March 2007 Business Partners Limited (Business Partners) was reclassified as an investment in an associated company, while previously it was accounted for under "Investments - Other".

For the period under review Business Partners was thus accounted for according to the equity method, while only dividend income was previously accounted for. Certain income statement items are therefore not directly comparable with those of prior periods.

#### 3. RESULTS

#### Headline earnings

Headline earnings increased by 24.3% from R3 232 million to R4 016 million. Headline earnings per share, however, increased by 25.5% from 678.1 cents to 851.0 cents due to the favourable impact of the share repurchase programme in the comparative period.

The contribution of the tobacco interests, which represented 45.8% (2006: 45.9%) of headline earnings, increased by 24.0%.

Currency movements had a greater impact on the Group's earnings than in the comparative period. Due to the weaker rand, the currency impact on R&R Holdings SA, Luxembourg's (R&R) contribution to headline earnings increased from R104 million in 2006 to R207 million as set out in the table below.

In sterling terms, R&R's contribution increased by 10.2%.

The combined contribution of FirstRand and RMBH to Remgro's headline earnings amounted to R1 065 million (2006: R772 million). The increase of 38.0% can be attributed mainly to good performances in the retail, corporate and investment banking segments.

The contribution of the industrial interests increased by 16.6% to R850 million (2006: R729 million). Medi-Clinic and Distell produced good results with contributions amounting to R153 million and R102 million respectively (2006: R131 million and R74 million). Rainbow's contribution to Remgro's headline earnings increased from R107 million in 2006 to R142 million. This increase can be attributed mainly to Remgro's increased shareholding in Rainbow resulting from the offer to Rainbow minorities concluded during June 2007. BAT has a 31 December year-end and reports to its shareholders on a quarterly basis. The following commentary is condensed from BAT's financial report for the nine months ended 30 September 2007. More complete information in respect of BAT, including copies of the annual and quarterly reports, is available from the BAT website at <u>www.bat.com</u>.

The reported profit from BAT was 19% higher at £2 304 million or 8% higher if non-recurring items are excluded. However, profits from operations at comparable rates of exchange and excluding non-recurring items would have been 14% higher, with all regions contributing to this result.

BAT's share of the post-tax results of its associates decreased by £13 million to £335 million. Excluding the exceptional item in 2006, its share of the post-tax results of associates was slightly up at £335 million but would have been 8% higher at comparable rates of exchange. The contribution from Reynolds American, excluding the benefit from the favourable resolution of tax matters in 2006, was £10 million lower due to the impact of the weaker US dollar. BAT's associate in India, ITC, continued its strong growth and its contribution rose by £12 million to £77 million.

BAT's adjusted, diluted earnings per share for the nine-month period rose 9% to 82.00 pence, principally as a result of the strong operating profit performance, partly offset by the adverse impact from foreign exchange movements. Some 38 million shares were repurchased in the nine months at a cost of £612 million and at an average of 1 630 pence per share.

Further information is available on the website and will be included in the report that will be mailed to shareholders.

#### 6. OTHER INVESTMENTS

The most important changes to Remgro's other investments during the period under review were as follows:

#### Rainbow Chicken Limited (Rainbow)

During March 2007 Remgro made an offer by way of a scheme of arrangement to acquire the entire issued share capital of Rainbow not already owned by Remgro. The initial offer was for a cash consideration of R16.00 per Rainbow share or 9 Remgro ordinary shares for every 100 shares held in Rainbow, or a combination of the aforementioned. On 5 June 2007 Rainbow shareholders voted against the scheme of arrangement.

An alternative offer, consisting of a cash consideration of R16.00 per Rainbow share or 8.1 Remgro ordinary shares for every 100 shares held in Rainbow, or a combination thereof, became effective on 6 June 2007.

In terms of the abovementioned offer Remgro acquired 30 236 876 

The Remgro Share Trust purchased 150 566 Remgro ordinary shares during the period under review at an average price of R189.19 for a total amount of R28.5 million, while 56 618 shares were delivered to participants against payment of the subscription price.

#### Subsequent to 30 September 2007:

Medi-Clinic Corporation Limited (Medi-Clinic) On 26 October 2007 Medi-Clinic announced that all conditions precedent for the acquisition of Hirslanden Finanz AG (Hirslanden) for an amount of CHF 2 556 million, had been fulfilled. Hirslanden is the holding company of the largest private hospital group in Switzerland. Medi-Clinic will finance CHF 1 114 million of the purchase consideration with own funds and obtained a fixed interest loan from Barclays Capital for the remainder.

Concurrently Medi-Clinic proposed a rights offer of 198 675 497 of its shares at an issue price of R22.65 per share. Remgro gave an irrevocable commitment to participate in the rights offer and will take up 86 217 868 Medi-Clinic shares amounting to R1 952.8 million.

#### FirstRand Limited (FirstRand) and RMB Holdings Limited (RMBH)

On 7 November 2007 FirstRand shareholders approved its proposed unbundling of its shareholding in Discovery Holdings Limited (Discovery). The transaction involves the disposal of 21 569 301 Discovery shares to Discovery's senior management, the Discovery share trust as well as RMBH. On 26 November 2007 FirstRand will distribute the remainder of its Discovery shareholding in the ratio of 5.61343 Discovery shares for every 100 FirstRand shares to its shareholders.

In terms of a separate agreement with Remgro, RMBH has agreed to acquire the 27 008 590 Discovery shares received by Remgro pursuant to the unbundling described above, by issuing 21 302 886 RMBH shares at R33.94 per share for a total amount of R723 million.

During the period under review Remgro also acquired 30 000 RMBH shares in the open market at R33.49 per share for a total amount of R1.0 million. Following these transactions, Remgro's interest in RMBH will be 25.0% (31 March 2007: 23.7%).

Unilever Bestfoods Robertsons (Holdings) Limited L.L.C. (UBR) Until October 2007 Remgro held a 41% interest in UBR, which in turn owned 100% of the Unilever South Africa Foods (SA Foods) and Unilever Israel Foods businesses. The UBR venture had no interest in the Unilever South Africa Home and Personal Care (SA HPC) businesses.

Globally, Unilever has reorganised by simplifying its organisational structure that, amongst others, entail the merging of the SA Foods and SA HPC businesses into a single leadership and operating framework under the "One Unilever" programme.

During October 2007 Remgro and Unilever agreed that Remgro will divest from its 41% interest in UBR in exchange for a 25.75% interest in the total South African Unilever business, consisting of the combined SA Foods and SA HPC businesses. This restructuring had no effect on the results for the period under review.

#### CAUTIONARY ANNOUNCEMENT

Shareholders are referred to the cautionary announcement dated 19 November 2007 and are accordingly advised to continue to exercise caution when dealing in their shares.

#### DECLARATION OF CASH DIVIDEND Declaration of Dividend No 15

Notice is hereby given that an interim dividend of 180 cents (2006: 153 cents) per share has been declared in respect of both the ordinary shares of one cent each and the unlisted B ordinary shares of ten cents each, for the half year to 30 September 2007.

#### Dates of importance:

Last day to trade in order to participate in

growth with contributions to headline earnings amounting to R121 million and R77 million respectively (2006: R92 million and R55 million).

The total contribution of the mining interests increased by 131.6% to R176 million (2006: R76 million). Dividends received from Implats amounted to R187 million (2006: R73 million). Trans Hex reported a headline loss of R32 million for the period (2006: R8 million profit). Remgro's share of this loss amounted to R11 million (2006: R3 million profit).

The central treasury division's contribution to Remgro's headline earnings decreased from R196 million to R100 million. This decrease can be attributed mainly to the non-recurrence of foreign currency profits amounting to R74 million relating to outstanding intergroup balances accounted for in the comparative period, as well as lower average cash balances compared to 2006.

#### Earnings

Total earnings increased by 38.6% to R4 347 million (2006: R3 136 million), mainly as a result of favourable non-recurring and capital items of associated companies during the period under review.

#### 4. INTRINSIC VALUE

Remgro's intrinsic value per share increased by 3.3% from R221.00 at 31 March 2007 to R228.33 at 30 September 2007.

#### 5. BRITISH AMERICAN TOBACCO PLC (BAT)

Remgro's interest in BAT is represented by its one-third holding of the ordinary shares and all of the "2005" participation securities, issued by R&R. This gives Remgro an effective interest of 10.6% in BAT at 30 September 2007 (2006: 10.4%). The balance of the ordinary share capital of R&R is held by Compagnie Financière Richemont SA.

There was no change in the number of BAT shares held by R&R. However, due to the positive effect of BAT's continuing share buy-back programme, R&R's interest in BAT increased to 29.8% at 30 September 2007 (2006: 29.2%).

Remgro's share of R&R's headline earnings consists of 35.46% of R&R's share of the attributable profit of BAT and its share of R&R's non-BAT income (including income attributable to its investment in the "2006" participation securities issued by R&R during March 2006).
