COMMENTARY

Introduction

The Board of SOH announces its Annual Financial Results for the year ended 31 December 2025 ("the year").

SOH is an investment holding company, comprising four operating subsidiaries namely: SOEW, Icembu Cables Proprietary Limited, Icembu Services Proprietary Limited, manufacturers of low voltage electrical cables and accessories, and Anchor Park, a property holding company. In addition, it also has a foreign procurement company and a dormant company.

Financial overview

The Group retained its market share by the increased distribution of stock through its network of associates and the expansion of its customer base. The retention of market share come at a cost of reduced margins due to the continued significant level of finished goods imported since 2023. The significant level of finished goods imports had a substantial negative impact on the cable manufacturing industry as a whole during the 2024 and especially the 2025 years. In 2025 the landed cost of imported goods reduced by approximately 10% compared to the 2024. In contrast to the local industry experience an increase in the cost of material, labour cost, electricity costs, and other costs which includes South African Bureau of Standards ("SABS") and National Regulator for Compulsory Specifications South Africa ("NRCS") costs. The Group's results were negatively impacted by these factors. Through its profitability improvement plan the Group controlled expenses which contributed to the results.

In an attempt to block finished and semi-finished goods imports, the Group contributed to a Safeguarding Application which was submitted to the International Trade Administration Commission ("ITAC") by a third party through the cable association. The outcome of this application is still pending. The Group also lobbied the Department of Trade Industry and Competition ("DTIC") in an attempt to stop these imports, which are considered "dumping".

The Group remains vigilant in maintaining all protocols for the safety of its staff members, and business partners alike, whilst continuing to produce and trade during this time.

Earnings

Group revenue for the year ended 31 December 2025 decreased marginally by 3% (2024: 9% increase) to R2.502 billion (2024: R2.568 billion). The decrease in gross profit relates to a more competitive market which is mainly caused by imported finished goods.

Group profit before tax decreased by 158% (2024: 62%, decrease) to a loss of R26.3 million (2024: R45.3 million profit) compared to the prior year. Basic earnings per share reduced by 70% (2024: 62% decrease) to a profit of 6.81 cents (2024: 16.64 cents) with headline earnings per share reduced by 70% (2024: 62% decrease) to 6.81 cents (2024: 22.56 cents) compared to the prior year.
