about this report

AVI's Integrated Annual Report covers the economic, environmental and social activities of the Group for the period 1 July 2022 to 30 June 2023 and aims to provide AVI's stakeholders with a transparent, balanced and holistic view of the Group's performance. In addition, where it is informative to add information post 30 June 2023, this has been included and noted.

This report covers the entire Group, comprising Entyce Beverages, Snackworks, I&J and Fashion brands.

In compiling the report, AVI has considered the Companies Act No. 71 of 2008, as amended; the Listings Requirements of the JSE Limited; the King Report on Corporate Governance for South Africa 2016 ("King IV") and the International Financial Reporting Standards ("IFRS") in respect to the annual financial statements.

board responsibility

The Board of directors ("the Board") acknowledges its responsibility to ensure the integrity of the Integrated Annual Report. The Board has accordingly applied its mind to the Integrated Annual Report and in their opinion the Integrated Annual Report addresses all material issues, and presents fairly the integrated performance of the organisation and its impacts.

Any questions or comments on the report can be forwarded to info@avi.co.za.

our business

GROWING GREAT BRANDS

With a primary listing on the Johannesburg Stock Exchange in the food products sector, and a secondary listing on A2X, AVI Limited's extensive brand portfolio includes more than 50 brands.

AVI's lifeblood is its portfolio of remarkable brands, many of which carry a heritage and pedigree built up over decades and some of which occupy a place in our national character. It would not be a stretch to claim that the vast majority of South Africa's population has at some time or another been conscious of, consumed or aspired to own, one of our brands.

AVI's brands that have grown into great South African favourites include:

 Five Roses, Freshpak, House of Coffees, Frisco, Koffiehuis, Ellis Brown, Ciro and Lavazza in the Beverages category;

- Bakers, Pyotts, Provita, Baumann's and Willards in the Biscuits and Snacks category;
- I&J in the Frozen category;
- Yardley, Lenthéric, Exclamation, Gravity, East West, and Whisper in Personal Care; and
- Spitz, Carvela, Green Cross, GX&Co, Kurt Geiger, Lacoste, Tosoni and Gant in our Footwear and Apparel portfolio.

We have 120 branded retail outlets under the Spitz, Kurt Geiger, Green Cross, GX&Co and Gant brands.

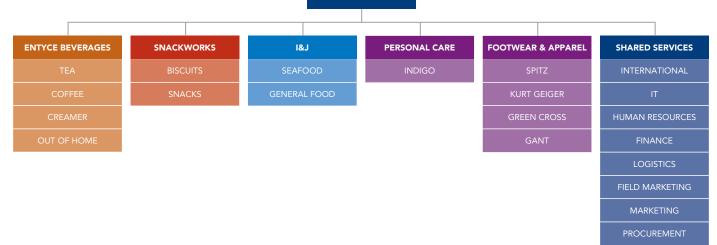

This privileged position carries with it an obligation to develop and manage each brand to its fullest potential. We have structured our business to best suit this end. We have four business units taking care of beverages, including out-of-home solutions, sweet and savoury snacks, frozen foods, and fashion brands which are separated into Personal Care brands and Footwear and Apparel.

We also have a well-developed shared services structure spanning: International, Information Technology ("IT"), Finance, Human Resources, Logistics, Marketing, Field Marketing and Procurement that allows us to take advantage of our scale and deliver more for less.

With a turnover of R14,92 billion in this last financial year, AVI's brands are a household name in South Africa and growing every day.

operating structure

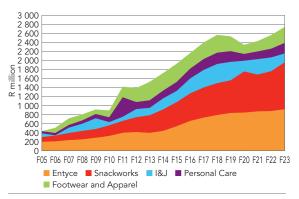

AVI

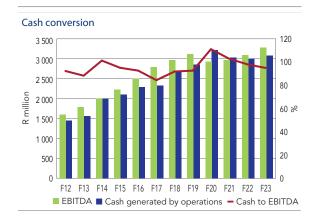

our business highlights

Key features

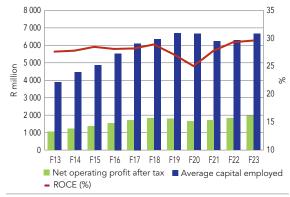

- Challenging macroeconomic environment
- Increased levels of load-shedding disrupted operations
 - Direct operating cost of R58,5 million
 - Significant indirect costs
- I&J's profitability impacted by higher fuel prices, poor catch-rates, load-shedding costs and lockdown affected abalone sales mix in the first semester
- Group revenue increased by 7,8%
- Price increases in all categories to offset the weaker Rand and rising raw material costs
- Stable gross margins despite cost pressures
- Operating profit in the second semester improved by 14,5%
- Operating profit for the year increased by 6,9%
- Operating profit for the year, excluding I&J, increased by 12,7%
- R9,4 million benefit from lower corporate tax rate
- Headline earnings per share up 4,3% to 553,6 cents
- Strong cash generation supported by reduction in working capital through second half
- Final dividend of 310 cents per share, ordinary dividend up 4,3%

objectives & strategies

To be recognised as South Africa's leading consumer brands manager.

Brands are AVI's lifeblood and we are endowed with a portfolio of remarkable brands, many of which carry a heritage and pedigree built up over decades and some of which occupy a place in our national character. It would not be a stretch to claim that the vast majority of South Africa's population has at some time or another been conscious of, consumed or aspired to own a product carrying one of our brands. Coupled with this privileged position is an obligation to develop and manage each brand to its fullest potential.

The strength of our brands is a function of the value they deliver to our consumers which is underpinned by their quality, price and inventiveness. We strive to constantly improve this value by making our products more valuable, more accessible and more desirable and we are committed to supporting the long-term competitiveness of our brands with appropriate investments behind marketing, research and new product development. We view our role not merely in terms of enhancing the position of our brands within a category, but of being a material contributor to the development of the categories themselves. It is not our objective to serve all potential customers, but to service those whose needs are aligned with our business objectives better than anyone else by providing them with the most rewarding consumption experience. A happy consumer is the foundation of the growing volumes, market shares, profit margins and brand loyalty, which drive success in the consumer products space.

To consistently outperform our peer group, both operationally and in shareholder returns.

AVI's financial success is measured first and foremost by the adequacy of returns generated for our shareholder community. Our twin return objectives reflect our goal of being an attractive investment vehicle over the long term, both relative to our peer set, and on an absolute basis. Our relative performance target is to earn top quartile total shareholder returns over successive rolling three-year periods, while our absolute performance target is to deliver real combined dividend and share price appreciation annually. The achievement of these targets will depend crucially on AVI's ability to service its customers and communities efficiently and effectively and will reflect the value added by our organisation and be a key underpin of the ongoing sustainability thereof.

To build sustainable and defensible positions in each of our priority markets and categories.

We do not view legacy as an inhibitor of opportunity and are committed to operating in any market or category where our brands, products and organisational competencies endow us with a sustainable advantage over our competitors. We believe that long-term continuing success is a function of focus and the discipline required to recognise where we can and cannot compete effectively.

Practically this perspective demands that we regularly reappraise the extent of our current activities and consider exiting areas where growth or profitability are deemed poor in the long run or where the competitive landscape is changing in ways that inhibit our ongoing success. It also materially shapes the development of our organic and acquisitive growth initiatives by ensuring that the imperative for growth are tempered by a true assessment of any new opportunity and our ability to sustain and enhance our competitiveness in the new market or category over the long term.

To maintain and develop a corporate structure that adds material value to our underlying business portfolio.

Our corporate and shared services structures play a meaningful role in defining and enhancing our competitiveness and are capable of supporting heightened long-term earnings growth. While we operate in many distinct categories our corporate ethos and enabling structures embrace a "one company" philosophy. They are an effective mechanism for leveraging the strength of our brands and exploiting the efficiency and productivity improvement, process simplification and cost reduction opportunities inherent in their combined scale. They allow us to serve more consumers in more markets more efficiently and to strengthen our importance to our key national retail partners

To enhance our absolute and relative competitiveness in each core category every year.

The global consumer product environment is a vibrant space and one in which sustaining the saliency of one's brands has become increasingly challenging. Rapid technological development, increased access to information and the relentless pace of innovation globally have all contributed to the most fluid consumer environment in history. Better informed consumers have ever more demanding expectations from their brands and are faced with a wider portfolio of choices when making their consumption decision.

Our response to new opportunities, changing consumer preferences and lifestyles, and competitor activity will need to be quicker and more flexible than ever before in the years to come. Ongoing success in this increasingly "winner-takes-all" environment demands a strong commitment to continuous improvement in all areas of our operations.

To sustain and develop an impeccable corporate reputation with all stakeholders.

AVI's ongoing standing as a leading South African corporate requires continued focus on ethical management practices to ensure its sustainability. Beyond integrity and transparency in our dealings with our shareholders, customers, consumers, employees and other stakeholders, this also encompasses a commitment to ensuring that AVI plays its role as a corporate citizen to minimise any adverse environmental impact, and to improve living standards and address the ongoing need for transformation in the society in which we operate.

To attract, develop and retain the best talent in the industry.

In the fierce competition for skills and talent AVI actively seeks to recruit, nurture and retain exceptional people recognising that they remain our strongest differentiator in developing our leading brand-centric culture. We believe that our scale and opportunity

reinforce our ability to attract and retain the talented individuals necessary to execute our strategies and cement the quality of functional leadership in an environment characterised by increasing skills shortages and intense competition for human capital.

Reinforce business returns with a prudent but nimble corporate capital allocation philosophy.

The strength of our brand portfolio has resulted in AVI generating robust cash flows which often exceed the supply of investment opportunities that meet our strategic, risk and return criteria. While we have strong ambitions for organic and value-adding acquisitive growth, this paradigm of cash generation in excess of reinvestment need is likely to persist in future. AVI will seek to supplement underlying shareholder return generation through the prudent use of corporate capital management strategies including share repurchases, leverage and special dividends, where appropriate.

chairman and ceo's review

MICHAEL JOHN WATTERS
Chairman

Overview

AVI weathered a financial year fraught with cost pressures driven materially by circumstances we cannot control. Global events conspired to substantially lift soft commodity and energy prices, both of which are material drivers of our manufacturing costs or indirectly, the cost of imported finished goods. Domestically the continued deterioration of the economy, driven by myriad factors, compounded our cost pressures and constrained our consumers.

The financial performance under these circumstances was credible but reflective of the requirement that our businesses focused on pricing to ensure we protected the long-term value of our market-leading brands. Our long-established practice of hedging physical commodity pricing and Rand exchange rate exposure materially assisted in constraining price increases, but the extent of inflation was unprecedented, requiring multiple price increases in some categories to ensure that the Group's gross margin ended in line with the prior years.

We recognise that in an inflationary environment the risk of not recovering permanent cost pressures quickly erodes the value of your company. Most importantly this is a discipline that requires that we must be willing to risk near-term volume losses to secure price increases to protect our long-term gross profit margins. We take considerable care in producing high-quality,

market-leading brands which we believe are loved by our customers and whose loyalty is supported by our decades-long commitment to use the best ingredients. We cannot keep this promise unless our selling prices reflect the changing cost of these ingredients.

The first semester of the financial year was especially challenging with volumes impacted by price increases and category declines as hard-pressed consumers re-evaluated their "baskets". In some cases, we lost share to competitors, who were slower to respond to the same cost pressures. The second semester provided an opportunity for our brands to recover volumes and this recovery underpinned a stronger financial performance.

Operationally it was a challenging financial year for our production facilities. Load-shedding, aside from its direct costs of R58,4 million, was disruptive, notwithstanding our long-dated investment in back-up power. The quality of electricity we receive post load-shedding impacted our sophisticated process technologies adding to down-time and affecting yields in some facilities. At I&J our value-added plant experienced a fire due to the cumulative but unanticipated impact of load-shedding on process equipment. Cost containment, a long-dated focus of all our businesses, was notable in the year and despite substantial inflation, sales and administrative costs were extremely well controlled. The notable exception being the impact of materially higher diesel costs on primary and secondary distribution.

Aside from I&J all our businesses reported profit growth for the financial year. In I&J poor fishing, materially higher fossil fuel prices for the fishing fleet and the direct cost of sustaining production facilities through load-shedding substantially impacted profitability. The abalone businesses had a poor first semester constrained by the ongoing impact of China's lockdowns on the sales mix and was further impacted by the cost of running the generator cluster during load-shedding.

Financial review

Significant inflation, rising interest rates and continued load-shedding all constrained consumer demand for the financial year. Some categories required price increases in the second semester to protect margins with cost increases partially mitigated by ongoing currency and raw material hedging. Volume declines slowed from those recorded in the first semester, supporting a 14,5% improvement in Group operating profit for the second semester.

Group revenue increased by 7,8% on last year with growth achieved across all categories. Revenue growth in Snackworks and Entyce was largely due to selling price increases required to offset the effect of a weaker Rand exchange rate and rising raw material costs. Sales volumes ended lower across most of the food and beverage categories with demand constrained by consumers' ability to absorb significant price increases. I&J's revenue was marginally better with benefits from material price increases and a weaker Rand largely offset by the impact of lower volumes from reduced quotas and value-added product availability challenges. Personal Care revenue improved with growth from

the aerosol and fragrance categories partly offset by reduced Coty manufacturing revenues because of the acquisition of the Exclamation and Gravity trademarks from Coty at the end of the last financial year. Revenue from the footwear and apparel business grew 12,3% due largely to higher selling prices, an improved sales mix and continued focus on improving like-for-like sales in Green Cross. Sales volumes were marginally lower with the strong first semester performance offset by lower second semester volumes, with price increases implemented early in the second half to recover input cost pressures and protect margins.

Consolidated gross profit increased 9,1%, better than the revenue performance, reflecting the benefit from the non-recurrence of prior year write-offs following the July 2021 unrest, sound cost control, the benefits of the trademarks acquired from Coty, a strong performance from the biscuit brands and improved footwear and apparel profitability. I&J's gross margins were constrained by materially higher diesel costs for the fishing fleet that were not fully recovered through selling price increases or fuel usage reduction initiatives, as well as the unfavourable abalone sales mix.

Selling and administrative costs increased at rates above inflation, partially due to the impact of substantially higher fuel prices on distribution costs, increased marketing and innovation investment and the non-recurrence of insurance proceeds recognised last year. Consolidated operating profit increased 6,9%, with the operating profit margin largely maintained at 18,2%, reflecting an improved second semester performance with only I&J's earnings declining for the year. The Group's branded consumer businesses, excluding I&J, improved year on year operating profit by 12,7%.

Net finance costs for the year were higher than last year in line with higher interest rates and higher average borrowing levels, with an investment in inventory to support service levels and combat supply chain disruptions. Headline earnings grew 4,4% and headline earnings per share increased by 4,3% from 530,6 to 553,6 cents per share, with a marginal increase in the weighted average number of shares in issue, due to the vesting of employee share schemes.

Cash generated by operations was strong through the second half, partly supported by a reduction in working capital, with full year operating cash flows better than last year. For the full year cash generated by operations increased 2,7% due to higher adjustments $\dot{\text{o}}$ ron-cash items in operating profit, mainly fair value adjustments to I&J's abalone stock, the markto-market of forward exchange and fuel contracts and the non-recurrence of the prior year settlement of I&J's Black Staff Scheme partly offset by an overall increase in working capital. Higher interest paid and increased taxation paid resulted in a 2,3% reduction in cash from operating activities. Capital investment amounted to R482,2 million and was well above last year with some post-COVID-19 catch-up in project activity. Other material cash flows during the year were ordinary dividends paid of R1,54 billion. Net debt at the end of June 2023 was R1,75 billion compared to R1,68 billion last year with debt levels remaining within our target range.

Dividend

The Group produced a credible result for the year and, again, was strongly cash generative. A final dividend of 310 cents per share has been declared. This brings the total ordinary dividend for the year to 482 cents, an increase of 4,3% on F22.

Capital expenditure

Capital expenditure for the year amounted to R482,2 million. Significant items of expenditure included R21,6 million on the Durban tea factory, R23,2 million to increase creamer capacity, R51,9 million on biscuit line upgrades, R10,9 million on snack line upgrades, R77,4 million on vessel upgrades, R54,9 million on upgrades to the I&J plants and R57,7 million on opening, relocating and refurbishing Spitz stores.

As has been the case for several years, we have carefully considered the level of capital investment to reflect the difficult economic environment and reduced growth opportunities. Capital expenditure is focused on driving efficiencies and maintaining capacity, and in the case of expansionary investments, is carefully evaluated with a strict focus of the merits of the risk-adjusted case for the investment. This year several projects that were delayed by the COVID-19 pandemic were partially completed and will be completed in the coming financial year.

Budgeted capital expenditure for the next financial year is R462 million, in line with this reporting year. We continue to monitor the environment and, consistent with our focus on capital allocation, expenditure will be curtailed should the risk-adjusted returns not justify the investment.

Corporate governance

AVI's Board is committed to ensuring that the Group operates in a manner that clearly recognises the nature of the relationships the Company has with different stakeholders, and the need to manage those relationships appropriately, while generating returns in a sustainable manner. Our efforts in this regard are detailed throughout this report, and particularly in the sustainable development section.

The recommendations of the King Report ("King IV") have been integrated into our Board and sub-committee charters, where appropriate, as have the applicable provisions of the Companies Act and the JSE Listings Requirements. The corporate governance section of this report describes our approach to corporate governance and our compliance with King IV.

Board

On 1 July 2023 Gavin Tipper stepped down as Chairman following his acceptance of an executive position outside of AVI in August 2022. Gavin joined the Board in 2007 as a non-executive director and was appointed Chairman in July 2012. In addition, in June 2023, James Hersov resigned as a non-executive director, recognising his extended tenure on the Board, and Busi Silwanyana resigned as a non-executive director to enable her to pursue her other business interests. We thank all three for their outstanding service to AVI and vital contribution to AVI's success over many years.

We continue to work on Board and executive succession

chairman and ceo's review continued

plans and will recruit additional directors where we find individuals with the ability to contribute to the Board's current and future deliberations.

The performances of the Board and individual directors are regularly evaluated, however the fees paid to non-executive directors do not reflect their differing levels of skill and experience, or their contribution. At the last AGM we were unable to persuade shareholders of a revised approach to non-executive fees that recognises these factors but continue to believe that in South Africa's thin pool of talent it remains in the best interests of shareholders and accordingly will re-table a proposal with amendments at the forthcoming Annual General Meeting.

As always, our thanks to our colleagues for their support and counsel.

Outlook

The financial prospects for the Group depend on the domestic economy's performance in the next year. The environment remains particularly challenging with the impact of load-shedding, the financial state of South Africa's consumers, including high unemployment, and continuing infrastructure failures adding layers of complexity to our business operations. Load-shedding is likely to persist and while we can manage the disruption, there are costs associated with doing so. The commercial feasibility of renewable power solutions will continue to be evaluated in parts of the Group where appropriate.

Volumes in many of our categories remain challenged by the high level of inflation and we will need to remain cognisant of the volume-value dynamic that has been so carefully managed in the past. Our consistent hedging of currency and commodities will provide some certainty for the first semester of the new financial year. We have secured exchange rates at better than current levels but not at levels as favourable as last year's hedged levels. Our focus on cost management is expected to deliver benefits and, together with factory efficiencies and procurement savings, should provide a partial offset to the impact of a weaker Rand. Should the current Rand weakness persist, further selling price increases will be required to protect margins.

The loss of the Coty contract is expected to detract from Indigo's performance but will reduce some of the working capital requirements and could support an improvement in overall gross profit margins given the lower margins attributable to the Coty business. Cost structures, including the simplification of the business model, will continue to receive focus to ensure we right-size the cost base to protect profitability and return on capital.

Capital projects that underpin our manufacturing capabilities, product quality and customer service levels will continue to be supported. Investments approved to expand the Marie Biscuit line, a new potato chip frying line and additional creamer capacity are expected to come online in the next financial year.

I&J's prospects are materially dependent on fishing

SIMON CRUTCHLEY
Chief Executive Officer

performance, fuel prices, exchange rates and the realisation of further selling price increases. The 5% increase in the 2023 total allowable catch ("TAC") was announced earlier in the year and, together with a weaker Rand, a portion of which has been secured through our hedging programme, may provide some upside. Load-shedding and fire related disruptions experienced at I&J's value-added plant during the current financial year are not expected to continue, with the installation of a new generator at the facility during July 2023 expected to improve production capacity during load-shedding. Demand for abalone was negatively impacted during the first semester by Chinese lockdowns with improved Asian demand seen following the relaxation of restrictions. If the post-COVID-19 recovery is sustained in key markets this may provide an improved outlook for volume and mix over the next financial year.

The hake long-term rights allocation process was concluded on 28 February 2022 with the allocations published for review and appeal by applicants. The outcome of the appeals process is still outstanding.

AVI International, supported by our South African manufacturing capabilities, remains focused on building our brands' share in export markets whilst sustaining strong profit margins.

Acknowledgements

The energy and integrity of our people are critical to our success, and we thank our staff for their contribution. Despite a very challenging environment, our people kept our factories and retail outlets running, and enabled us to service our retail partners and customers.

The continued support of our suppliers, service providers, retail partners and customers, most of whom face similar challenges, is fundamental to what we are, and our thanks go to all of those parties.

Finally, the ongoing support from our shareholders is acknowledged and appreciated.

MIKE WATTERS

Revenue of R4,25 billion was 6,8% higher than last year with growth largely underpinned by selling price increases to ameliorate increased commodity input cost inflation. High levels of inflation were not easily absorbed by consumers and, together with aggressive competitor activity, constrained sales volumes which declined in most categories. The Ciro out-of-home business continued to recover delivering a pleasing performance for the year with improved demand across hospitality, leisure and corporate customer channels.

Gross profit margins declined marginally with selling price increases not fully recovering the impact of significantly higher input costs and the deleveraging impact of lower volumes. This partly offset the benefit of higher revenue with gross profit increasing 5,6% on last year.

Selling and administrative costs increased by 7,2% with above inflationary increases attributable to higher distribution costs from fuel price increases and increased levels of activity in the Ciro business. The restructuring undertaken within the Ciro business during the COVID-19 lockdown has continued to support improved efficiencies with operating profits and operating profit margins well ahead of pre-COVID-19 levels.

Operating profit increased 4,5% from R880,6 million to R920,2 million with an improvement in Coffee and Ciro partially offset by declines in Tea and Creamer, however the operating profit margin decreased from 22,1% to 21,6%.

Tea

Tea revenue finished in line with last year with a stronger second semester performance recovering the first half shortfall. In aggregate market share positions were well protected with the overall category volume declining as consumers struggled to absorb higher selling prices taken to counter commodity input cost inflation and protect margins. Rooibos revenue increased by 2,0% due to higher selling prices partly offset by volume declines across Freshpak branded products. Black tea revenue declined by 1,3% with our premium Five Roses Ceylon offering facing pressure at higher price points while Trinco, our value branded offering, delivered growth as consumers trade down.

Gross profit margins declined marginally, but remain at healthy levels, with selling price increases largely mitigating the impact of high commodity input costs, a weaker Rand, factory cost inflation and the deleveraging impact of lower volumes.

Selling and administrative costs increased due to the impact of higher fuel prices on distribution costs. Marketing spend continued to be carefully considered throughout the year with the strength of our brands maintained and return on investment ensured.

Operating profit for the tea category declined by 4,8% and the operating profit margin also reduced slightly in line with the reduction in gross profit margins.

Coffee

Coffee revenue increased by 6,6% compared to last year due primarily to selling price increases taken across all segments partly offset by volume declines in the mixed instant, affordable brewed and premium coffee categories. Mixed instant volume declines related predominantly to higher priced tin offerings with growth in our relatively lower priced gusset pack range providing a partial offset. Affordable brewed price increases placed pressure on affordability with volumes declining despite benefits from regional advertising and distribution campaigns over the last quarter. Premium volumes were lower reflecting the impact of reduced Hug in a Mug volumes due to aggressive competitor activity and price-index challenges driven by our relative pack size partly offset by an improved performance from our retail House of Coffee bean formats. A lower priced 8-stick format, which aligns more closely with competitors, was launched during the last quarter, which together with other flavour innovations, is expected to support some volume recovery going forward.

Gross profit margins improved on last year, supported by selling price increases, a sales mix improvement and an improved factory performance, which was underpinned by labour restructuring activities, partially offset by the impact of higher commodity input costs, a weaker Rand and the volume deleverage.

Selling and administrative costs grew ahead of inflation for the year due to increased distribution costs from higher fuel prices and additional advertising costs incurred to support the affordable brewed campaign.

Operating profit increased by 18,0% with an improved operating profit margin compared to last year driven by benefits from labour restructurings within the mixed instant production process. Competitor pressures and the constrained consumer environment limited value realisation across other segments and the concomitant margin achievements.

Creamer

Creamer revenue grew 7,9% due to selling price increases taken last year and in September 2022, as well as lower discounts in the first semester, required to ameliorate the acute impact of rising commodity input costs. Significant inflation and the constrained consumer environment tempered demand and made balancing volume and value challenging with promotional activity increased through the second semester to support volume. This slowed the volume decline but placed pressure on gross profit margins with input costs not fully recovered.

The revenue performance was largely offset by reduced gross profit margins with gross profit finishing marginally better. Selling and administrative costs were tightly controlled with increases contained below inflation. Operating profit declined 0,8% with the operating profit margin lower.

Ciro

Ciro delivered a pleasing result with revenue increasing 28,1% driven by a combination of volume growth across all channels as well as higher selling prices. The performance across the business continued to improve with increased demand evident across hospitality, leisure and corporate customer channels. Corporate customer channels benefitted from the re-opening of offices and

employees returning to work with forecourts also seeing improved demand from new business and a continued post-COVID-19 recovery.

Gross profit margins were better with higher realised prices, benefits from volume leverage and continued focus on improving customer service and maintenance profitability, partially offset by increased input costs. Selling and administrative costs increased ahead of inflation due to higher distribution costs from increased fuel prices as well as increased levels of activity which impacted variable costs. Operating profit growth was supported by the topline performance and strong cost control which was underpinned by restructuring initiatives implemented during the COVID-19 lockdown period. Overall the profit and operating margin achievement was well ahead of pre-COVID-19 levels.

Capital expenditure

Capital expenditure of R109,3 million was primarily focused on essential replacement and infrastructure items, R14,1 million for Ciro dispensing equipment and R23,2 million toward the creamer packing capacity expansion in the Isando Coffee/Creamer factory. A total investment of R77,7 million has been approved to expand our creamer packing capacity. This project will be commissioned in F24 and aligns with our long-term growth expectations within this category and is expected to provide improved production line efficiencies.

Revenue of R5,26 billion was 11,9% higher than last year with growth achieved across both the biscuit and snacks categories. Both categories benefitted from higher selling prices and reduced discounting required to ameliorate significant input cost pressures and protect margins. High levels of selling price inflation and aggressive competitor discounting placed pressure on volumes but demand remained resilient for our lower priced biscuit formats. Gross profit margins were well managed and improved compared to last year, with a strong performance in biscuits partially offset by a modest decline in Snacks.

Selling and administrative costs increased above inflation due to higher distribution costs and the

non-recurrence of prior year insurance income for raw material write-offs related to July's unrest. Operating profit increased by 17,8% supported by a strong biscuit performance partially offset by a decline in Snacks, while the operating profit margin of 19,7% improved.

Biscuits

Biscuit revenue of R4,01 billion increased 14,3% on last year as a result of higher realised prices partially offset by a 1,1% decline in volume. The significant increase in underlying raw material commodity costs and factory cost escalations resulted in inflationary pressure, which required price increases in September 2022 and April 2023 to protect gross profit margins.

Price inflation placed pressure on demand with sales volumes ending lower despite strong demand for our lower priced format as well as Baker Choice Assorted through the festive season.

The sales volume performance over the last quarter was positive with the new Tennis Rusk launch and the integrated Bakers "A Bite Above the Rest" campaign providing support for our key Tennis, Blue Label Marie and Eet Sum Mor brands.

Gross profit and margins improved with the benefit from selling price increases, better factory performances and the non-recurrence of R11,7 million of prior year raw material write-offs related to the July unrest partly offset by significant increases in commodity input costs.

Selling and administrative increased ahead of inflation due to the impact of increased fuel prices on distribution and the non-recurrence of prior year insurance recoveries. Marketing costs were carefully considered in conjunction with brand strength and return on investment with activity predominantly focused in-store at point of purchase. Overall marketing investment increased above inflation with support for the "A Bite Above the Rest" campaign, the Tennis rusk launch and the Bakers Choice Assorted Festive season activation.

Operating profit for the year was 21,5% higher than last year, with a strong topline performance supported by improved margins as a result of good cost control.

Snacks

Snacks revenue was 4,8% better than last year due mainly to selling price increases taken last year, in September 2022 and in April 2023 to protect margins against considerable input cost increases in palm oil, maize, potato and energy. Sales volumes were lower with the impact of aggressive competitor activity, higher selling prices and reduced levels of discounting

negatively impacting demand. From a product perspective our potato chip offerings were negatively impacted by aggressive competitor pricing, inconsistent potato supply and issues related to the transition from the 125g to 120g pack size to align with competitors. Sales volumes on our soft extrude offerings were lower with aggressive competitor pricing, reduced promotional activity and high levels of inflation resulting in consumers downtrading to lower priced formats. Innovation remains important in creating excitement in the category with the launch of flavour extensions and the continued release of our new ridged cut "Crinkle Cut" offering over the year providing some support.

Gross profit improved but margins declined with the impact of higher commodity input costs and the deleveraging impact of lower volume not fully recovered through price increases in a competitive environment. Selling and administrative costs were well managed and increased in line with inflation partially offsetting the higher gross profit and resulting in operating profit of R124,5 million declining 3,6% compared to last year.

Capital expenditure

Capital expenditure of R135,3 million was primarily focused on essential replacement items, including infrastructure upgrades across all factories as well as R32,3 million to replace the Bakers Blue Label Marie oven and R10,9 million for the essential replacement and capacity upgrade of our potato chip fryer at the Rosslyn snacks factory. The total approved spend for these projects amounts to R42,3 million and R43,5 million respectively and both are planned for commissioning in the first semester of F24.

AVI INTERNATIONAL

Macro-economic headwinds have persisted in many of our key markets, with the high levels of inflation required to recover rising input costs constraining demand. Nonetheless AVI International delivered a solid operating profit growth for F23, underpinned by better performances across our key subsidiary markets with some support from a strengthening of the Botswana and Zambian local currencies relative to the South African Rand. Performances across export markets were mixed with Mozambique showing some recovery, with the prior year disrupted by supply chain challenges, and local exporter demand constrained by the high levels of selling price inflation which weighed on demand. In line with our domestic business, selling price increases were implemented to protect margins with volumes lower across most categories.

Revenue growth of 4,6% was driven predominantly through our subsidiary markets, underpinned by selling price increases with volumes across most categories lower, as well as a better than expected recovery from Mozambique. Botswana and Namibia delivered a pleasing topline growth with increased economic activity supported by tourism whilst Zambia benefitted from improved demand for rooibos and biscuit offerings. Demand across local distributors and other key export markets were constrained by high selling prices and stock supply challenges with service levels on some of our affordable biscuit lines constrained by high domestic demand.

Gross profit margins were well protected through focused discount management and selling price increases required to ameliorate the impact of input cost inflation as well as the benefit from the foreign currency appreciation in Zambia and Botswana. Selling and administrative costs were fastidiously managed but increased due to higher distribution costs from the sharp increase in fuel prices. This partly offset the improved gross profit and resulted in operating profit growth of 10,2% with operating profit margins also increasing.

From a category perspective, profit growth was realised across all categories, with the exception of Creamer where operating profits declined. Biscuits was the star

performer with significant growth in Botswana, Mozambique, Zambia and Namibia partly offset by declines across export markets. The Personal Care portfolio benefitted from some recovery across key markets with the prior year impacted by affordability, competitor activity and COVID-19 related demand shifts. In aggregate Tea grew with an improved performance from rooibos in Botswana, Zambia and some key export markets partially offset by declines in black tea across Namibia and Mozambique. Significant levels of inflation negatively impacted demand for Creamer with most markets declining and reduced discounts in Botswana and Zambia required to protect volumes against aggressive competitor activity.

OVERVIEW

USINESS REVIEW

GOVERNANCE

ANNUAL FINANCIAL STATEMENTS

SHAREHOLDER INFORMATION

Revenue increased by 0,5% to R2,49 billion, mainly due to higher pricing and the benefit of a weaker Rand, largely offset by a decline in sales volumes, most notably whole fish sales (hake and bycatch) due to a reduction in quota and domestic value added products, with production capacity negatively impacted by load-shedding and a fire in April 2023. Competition in the domestic and export markets was aggressive with high levels of inflation impacting demand and limiting the recovery of cost pressures. Abalone sales value benefitted from higher prices and the weaker Rand, resulting in a 7,1% increase despite a slight reduction in volume and less favourable sales mix due to Chinese lockdown restrictions that were only lifted in December 2022.

The fishing performance was negatively impacted by lower average catch rates compared to the prior year, and a slight reduction in freezer vessel utilisation due to timing of planned maintenance. Fishing cost per kilogram increased significantly due to the lower catch rates and most notably a substantial increase in the average fuel price, partly offset by lower repairs and maintenance expenditure in the year. Processing costs per kilogram were negatively impacted by the increased raw material fish input cost and the deleveraging effect of lower volumes at both processing plants. The Value Added Processing plant production volume was particularly impacted by load-shedding disruptions and then a fire at the site in April 2023, which stopped production for more than a month. The site returned to full operation during June 2023, but operating profit was negatively impacted with the insurance proceeds not recognised in the year.

A combination of the volume decline and cost inflation was not fully absorbed by sales price increases and the benefit of the weaker Rand, and as such the gross margin from fishing operations declined.

The Danger Point abalone farm gross profit declined compared to the prior year, due to an unfavourable sales mix, with less demand for dried abalone during in the first half, driven by sustained COVID-19 lockdown restrictions in China which were only relaxed in December 2022. Further sales price increases, albeit limited, were achieved in most product categories following the prior year pricing recovery. Operating costs were well contained, but the farm experienced a significant increase in diesel expenditure to operate backup generators during load-shedding. This increased cost, together with a relatively smaller average size abalone biomass on hand at year end resulted in an unfavourable effect on the biological asset fair value adjustment compared to the prior year.

Selling and administrative costs were well contained, with below inflation increases against prior year achieved.

Operating profit decreased from R306,2 million to R196,8 million, and the operating profit margin decreased from 12,4% to 7,9%.

Joint venture

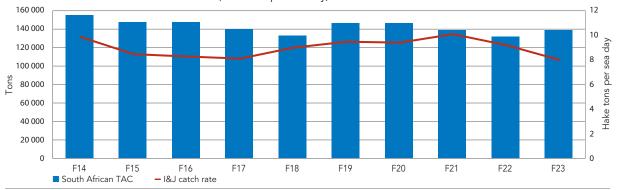

In addition to the operating profit reflected above, I&J's joint venture delivered after tax equity earnings of R2,1 million, compared to a loss of R0,8 million in F22. The improved result was largely attributable to favourable prices and the weaker Rand against the Euro, with the squid catch performance remaining subdued.

Capital expenditure

Capital expenditure of R134,5 million included R77,4 million on vessel maintenance and upgrades, R20,0 million towards backup power generators and electrical infrastructure upgrades at the Value Added Processing plant, R27,7 million on replacement of aged processing equipment at the Woodstock and Value Added Processing plants and R3,6 million at the Danger Point abalone farm.

I&J Minority Shareholding

AVI and Irvin & Johnson Holding Company (Pty) Ltd ("I&J HoldCo") entered into a board-based black economic empowerment transaction with Main Street 198 (Pty) Ltd in 2004, in terms of which Main Street held a 20% shareholding in I&J HoldCo. After being extended in 2012, 2018 and 2022, the BBBEE Transaction came to maturity on 1 July 2023 and was terminated in accordance with the agreements. AVI and I&J are proud to have successfully partnered with Main Street over a 19-year relationship which generated significant value for all parties, including over R202,0 million in net cash flows for Main Street.

In line with the Group's commitment to transformation in South Africa a new broad-based black economic empowerment transaction was implemented on 1 July 2023. In terms of the new transaction, Twincitiesworld (Pty) Ltd, a 100% black-owned company, acquired 18,75% of the issued share capital in I&J Limited. The structure of the new transaction aligns with that previously in place and provides Twincitiesworld with the opportunity to participate in the economic benefits of I&J Limited through a material ownership stake.

Together with the 6,25% shareholding owned by the I&J employees, 25% of the issued share capital of I&J Limited is held by black shareholders, thus promoting an equitable and sustainable economic participation through a broad-based sharing of value creation.

RSA hake resource

The South African hake total allowable catch ("TAC") increased by 5% to 138 772 tons for the 2023 calendar

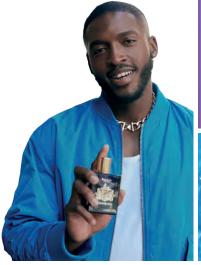

year, from 132 163 tons in 2022. Following the conclusion of the Fishing Rights Allocation Process in February 2022, which is still subject to appeal, I&J's allocation reduced from 27,0% to 25,8% of the TAC, resulting in I&J's hake quota of 35 850 tons in 2023.

Changes in the TAC are made annually by the Department of Forestry, Fisheries and Environment, ("DFFE") in accordance with a well-established management programme based on research voyages and catch data recorded by quota holders. During 2021 the Marine Stewardship Council ("MSC") recertified that the South African hake resource met the requisite environmental standards for sustainable fishing for a further five years. This certification gives assurance to buyers and consumers that the seafood comes from a well-managed and sustainable resource, which is increasingly relevant to customers in I&J's export markets. The South African Deep Sea Trawling Association continues to work closely with the DFFE to maintain a sustainable fishery into the future, including activities such as research voyages, the on-board observer programme and effective patrolling of the

The Hake Deep Sea Trawl Fishing Rights Allocation Process, which was deferred by 12 months, was concluded in February 2022. Following this process, which is still subject to appeal, I&J was awarded a 15-year right to 29,6% of the Deep Sea Trawl TAC.

I&J's catch rate (hake tons per sea day) decreased from 9,2 in F22 to 8,4 in F23, with lower catch rates achieved on both the wet and freezer fleets, due to increased variability in catch performance, and unfavourable weather conditions.

Personal Care

Indigo's revenue of R1,22 billion was 4,0% higher than last year primarily due to selling price increases taken in response to rising input costs, partly offset by reduced manufacturing revenue due to the acquisition of the Exclamation and Gravity trademarks from Coty in the prior year. Excluding the impact of the trademark acquisition, revenue would have increased by 7,7%. Revenue growth was primarily led by the aerosol and fragrance categories with a better performance in the second semester, and growth in colour supported by sell-in to facilitate the transfer of the Coty business to a new distributor from 1 July 2023. Constrained consumers and a competitive environment placed pressure on demand with sales volumes for the year lower. The effective management of selling prices to protect margins received attention with careful portfolio management and balanced trading ensuring market share positions were largely maintained.

Price points, cost and margin enhancement initiatives were all managed to protect, and in places grow, gross profit margins. Consequently, gross profit margins improved with further benefits from the acquired trademarks partly offset by costs attributable to the rationalisation of certain non-critical product lines.

The increase in selling and administrative costs was higher than inflation due to targeted investment in brands, with higher marketing spend, as well as increased distribution costs from higher fuel prices. Operating profit improved from R193,4 million to

R233,1 million, with an increase in the operating profit margin from 16,4% to 19,1%.

Coty relationship

Indigo's longstanding relationship with Coty through various agreements has allowed Indigo to purchase, manufacture and sell the Coty portfolio of personal care, mass colour and fragrance products domestically for a distributor margin and fee. During the year the decision was taken, in line with Coty's aim to consolidate their local interests, to not renew the current agreement and as a result terminating the longstanding relationship with Coty on 30 June 2023. Indigo's reliance on Coty was reduced with the acquisition of the Exclamation and Gravity trademarks at the end of last year. The contribution to operating profit from Coty-related activities, including the benefit of sell-in to facilitate the transition, amounted to approximately R50,0 million for the year. As part of the termination Coty will acquire all directly attributable property, plant and equipment and inventories. Whilst the non-renewal of the Coty contract is expected to detract from Indigo's performance going forward continued focus on cost structures and the simplification of the operating model will provide some offset.

Capital expenditure

R16,8 million was spent on normal replacement expenditure, the largest portion being on permanent merchandising and site infrastructure upgrades.

YARDLEY

LENTHÉRIC

Footwear and Apparel

Revenue growth of 12,3% was achieved despite the tough trading environment, benefitting from improved stock availability, the non-recurrence of last year's civil unrest and a particularly strong December performance, with sales ahead of pre-COVID-19 levels. The growth in revenue is largely due higher selling prices which were increased to protect margins, partly offset by lower clothing volumes, with footwear volumes in line with last year reflecting the resilience of our brands. Record levels of load-shedding were partly mitigated through store back-up power solutions, but nonetheless lost trading hours increased with footfall also negatively impacted during higher stages of load-shedding with the negative impact on consumer spending hard to quantify. Green Cross continued to reflect the benefit of rationalising unprofitable stores, with revenue growth of 5,0%, and like-for-like revenue growth of 13,8%.

The gross profit margin improved largely due to higher selling prices, to mitigate the impact of rising product costs, a favourable sales mix as well as the nonrecurrence of stock written off during last year's civil unrest. The increase in selling and administrative costs

was higher than inflation due to increased variable costs associated with the improved trading performance, increased investment in brand building and the nonrecurrence of insurance proceeds relating to losses incurred during last year's civil unrest. The continued investment behind our brands across various platforms and through numerous initiatives has resonated with consumers supporting the overall performance. Operating profit improved from R302,5 million to R354,8 million, with the operating profit margin increasing from 20,0% to 20,9%.

Our fastidious approach toward managing profitability resulted in three under-performing stores being closed during the year. Continued focus on cost efficiencies and effectively managing our store base further supported an improvement in trading densities across all brands.

Capital Expenditure

Capital expenditure of R75,0 million included R52,2 million for the refurbishment and relocation of stores and R10,1 million for the implementation of back-up power solutions at stores.

financial review

The trading environment has remained difficult with increasingly weak macroeconomic conditions. Significant inflation, rising interest rates and continued load-shedding all constrained consumer demand for the financial year. Some categories required price increases in the second semester to protect margins with cost increases partially mitigated by ongoing currency and raw material hedging. Volume declines slowed from those recorded in the first semester, supporting a 14,5% improvement in Group operating profit for the second semester.

Load-shedding provided an additional challenge, with high levels of load reduction negatively affecting our manufacturing, distribution and retail operations. The impact was mitigated across most of our sites through back-up power solutions but nonetheless added R58,5 million of direct operating cost. We have invested in back-up power solutions for a number of years and continue to do so, there is however a material cost to this.

Group revenue increased by 7,8% on last year with growth achieved across all categories. Revenue growth in Snackworks and Entyce was largely due to selling price increases required to offset the effect of a weaker Rand exchange rate and rising raw material costs. Sales volumes ended lower across most of the food and beverage categories with demand constrained by consumers' ability to absorb significant price increases. I&J's revenue was marginally better with benefits from material price increases and a weaker Rand largely offset by the impact of lower volumes from reduced quotas and value-added product availability challenges. Personal Care revenue improved with growth from the aerosol and fragrance categories partly offset by reduced Coty manufacturing revenues; this, as a result of the acquisition of the Exclamation and Gravity trademarks from Coty at the end of the last financial year. Revenue from the footwear and apparel business

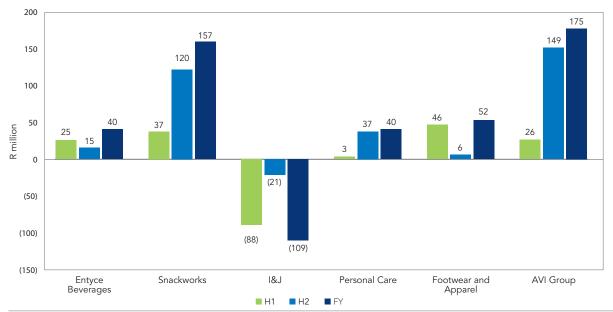

grew 12,3% due largely to higher selling prices, an improved sales mix and continued focus on improving like-for-like sales in Green Cross. Sales volumes were marginally lower with the strong first semester performance offset by lower second semester volumes, with price increases implemented early in the second half to recover input cost pressures and protect margins.

Consolidated gross profit increased 9,1%, better than the revenue performance, reflecting the benefit from the non-recurrence of prior year write-offs following the July 2021 unrest, sound cost control, the benefits of the trademarks acquired from Coty, a strong performance from the biscuit brands and improved footwear and apparel profitability. I&J's gross margins were constrained by materially higher diesel costs for the fishing fleet that were not fully recovered through selling price increases or fuel usage reduction initiatives, as well as the unfavourable abalone sales mix.

Selling and administrative costs increased at rates above inflation, partially due to the impact of substantially higher fuel prices on distribution costs, increased marketing and innovation investment and the non-recurrence of insurance proceeds recognised last year. Consolidated operating profit increased 6,9%, with the operating profit margin largely maintained at 18,2%, reflecting an improved second semester performance with only I&J's earnings declining for the year. The Group's branded consumer businesses, excluding I&J, improved year-on-year operating profit by 12,7%.

Net finance costs for the year were higher than last year in line with higher interest rates and higher average borrowing levels, with an investment in inventory to support service levels and combat supply chain disruptions. Headline earnings grew 4,4% and headline earnings per share increased by 4,3% from

530,6 to 553,6 cents per share, with a marginal increase in the weighted average number of shares in issue, due to the vesting of employee share schemes.

Cash generated by operations was strong through the second half, partly supported by a reduction in working capital, with full year operating cash flows better than last year. Cash generated by operations increased 2,7% due to higher adjustments for non-cash items in operating profit, mainly fair value adjustments to I&J's abalone stock, the mark-tomarket of forward exchange and fuel contracts and the non-recurrence of the prior year settlement of I&J's Black Staff Scheme partly offset by an overall increase in working capital. Higher interest paid and increased taxation paid resulted in a 2,3% reduction in cash from operating activities. Capital investment amounted to R482,2 million and was well above last year with some post-COVID-19 catch-up in project activity. Other material cash flows during the year were ordinary dividends paid of R1,54 billion. Net debt at the end of June 2023 was R1,75 billion compared to R1,68 billion last year with debt levels remaining within our target range.

The shareholder arrangement with Main Street 198 (Pty) Ltd ("Main Street"), the minority shareholder at 1&J Holding Company (Pty) Ltd, matured on 1 July 2023. The 19-year relationship between Main Street and the Group generated significant value, including over R202,0 million in net cash to Main Street. In line with our commitment to sustainable transformation, a broad-based sharing of economic value and the BBBEE codes, AVI and I&J implemented a new broad-based black economic empowerment transaction with effect from 1 July 2023 in terms of which Twincitiesworld (Pty) Ltd, a 100% black-owned company, acquired an 18,75% interest in I&J Limited. I&J's employees own 6,25% of I&J Limited resulting in 25% of the issued share capital of I&J Limited being held by previously disadvantaged shareholders.

Definitions

Number of ordinary shares in issue

Total issued ordinary share capital.

Weighted average number of ordinary shares in issue

The time weighted average number of ordinary shares in issue, excluding shares held by AVI share trusts and subsidiaries.

Earnings per ordinary share

- Earnings and headline earnings respectively for the year in cents divided by the weighted average number of ordinary shares in issue.
- Diluted earnings and diluted headline earnings per ordinary share are calculated taking account of the unexercised share options as disclosed in Note 32 of the annual financial statements on pages 160 and 164, duly adjusted to take account of the shares to be issued at fair value calculated in accordance with IAS 33. Calculations are presented in Note 29 of the annual financial statements.

Dividend cover

Diluted headline earnings per share from continuing operations divided by the ordinary dividends declared to shareholders of the Company in respect of the results for the year.

Financial ratios

Operating margin

Operating profit as a percentage of revenue.

Return on capital employed

Operating profit before capital items and after taxation from continuing operations, as a percentage of average capital employed. Capital employed is total equity plus net interest-bearing debt.

Net working capital

Inventories and trade receivables, less trade payables.

Free cash flow

Cash available from operating activities and investments, less net capital expenditure.

Free cash flow per ordinary share

Free cash flow for the year in cents divided by the weighted average number of ordinary shares in issue.

EBITD/

Operating profit before capital items and depreciation and amortisation.

Net debt/(cash)

Financial liabilities and borrowings and current borrowings, less cash and cash equivalents.

Interest cover ratio

EBITDA divided by net finance costs.

Net debt/capital employed

Net debt divided by capital employed.

sustainable development report

Introduction and overview

Sustainable development enables corporate citizens to prosper in a responsible manner and within a framework that safeguards both their and future generations' long-term sustainability. It requires the identification and active management of those issues that could materially affect the long-term successful existence of the enterprise in the context of all stakeholders - including, not exhaustively, shareholders and institutional investors, consumers, employees, customers, suppliers, government, unions, and local communities.

AVI Limited ("the Company") has a well-constructed governance framework that enables it to identify and manage material sustainability issues. The Company operates in a manner that ensures that the needs of the present generation of stakeholders are met without compromising future generations. Sustainability matters are monitored and managed, for example, by the appropriate diversity committee, health and safety committee, internal review committee, audit and risk committee, or social and ethics committee, while the overarching responsibility for matters before these committees remains vested with the Company's board of directors ("Board"). Sustainability matters that are deemed to be of a material nature, or that require heightened focus, are

elevated to the Board. Executives within the Company remain responsible for specific matters and are held accountable for their successful implementation and management.

The Company considers its sustainability responsibilities under three broad categories:

- Ethics ethics are the foundation of an effective and sustainable organisation that must operate without censure or compromise over the long term. Proper ethics and appropriate values are central to the Company's culture and therefore to the behaviour of its employees. They assist in establishing a willingness to accept and respond to broader issues in our society, forming the basis of the Company's interactions with its stakeholders.
- Scarce resources, biodiversity, and environmental in order to ensure that future generations have access to the resources on which the Company is reliant, and that the Company's viability is not compromised in the long term, the Company is intent on carefully managing those scarce resources relevant to its operations, where practical, and ensuring that its operations do not detrimentally impact vulnerable and/or endangered natural habitats, wildlife, or local communities. The Company is committed to the application of sustainable practices across its operations.

• Transformation and good corporate citizenship – the Company recognises the moral, social, and economic imperatives to embrace and support transformation in South Africa and to be regarded as a valuable participant in the South African economy and society. The Company also recognises the need to be, and to be seen as, a good corporate and socially responsible citizen that is desirable to do business with.

Guiding framework

The following guidelines and/or standards were consulted when compiling this report:

- The King IV Report on Corporate Governance for South Africa, 2016 ("King IV report");
- The Listings Requirements of the JSE Limited ("Listings Requirements");
- The JSE Responsible Investment Index criteria; and
- The Global Reporting Initiative ("GRI") framework.

While the King IV report and Listings Requirements require the Company to prepare an integrated report, various other reporting frameworks deal with sustainability reporting criteria. The GRI framework and JSE Responsible Investment Index have been identified by the Company as appropriate frameworks for reporting on these issues based on the Company's specific needs, its areas of operation, and stakeholder concerns.

During the year the Company identified material Group-wide issues for reporting purposes and an index indicating where these issues are referenced throughout this annual report can be found on page 68. While these issues have been categorised according to the GRI framework, the Company has not undertaken a detailed self-assessment nor been formally assessed, and the decision to use the GRI and JSE Responsible Investment Index frameworks for guidance in compiling this report is not intended to declare compliance as understood in either framework.

The Company remains committed to ongoing review and re-assessment of the scope of its reporting, as well as to regular consideration of the advisability and need for formal reporting or assessment against the accepted frameworks.

Disclosures on the Company's approach to managing the matters relating to the Company's sustainability can be found throughout the report either as an introduction to the relevant sections or as specific disclosures on relevant issues.

Social and Ethics Committee

The Social and Ethics Committee was constituted in August 2011 in terms of the Companies Act No. 71 of 2008, as amended, and the Regulations thereto ("the Companies Act 2008"), and adopted formal terms of reference, delegated to it by the Board, as its charter. The charter is subject to the provisions of the Companies Act 2008 (in particular Section 72 as read with Regulation 43). The committee has discharged its functions in terms of its charter, and in particular reviewed the Company's activities, having regard to relevant legislation and other legal requirements and best practice, relating to:

- Social and economic development;
- · Good corporate citizenship;
- The environment, health, and public safety;
- Consumer relationships;
- Labour and employment; and
- The Company's ethics codes and performance.

The committee has unrestricted access to all Company information, employees, and directors and is authorised, after discussion with the Chairman of the Board where necessary, to investigate any matters within its terms of reference; seek external professional advice; secure the attendance of relevant consultants at its meetings; and implement policies approved by the Board. In addition, the committee has the mandate to bring matters within its remit to the attention of the Board and to report back to shareholders at the Annual General Meeting.

For further details regarding the composition and meetings of the committee, shareholders are referred to the Corporate Governance Report on page 87.

sustainable development report continued

Stakeholder engagement

Stakeholder engagement is an important aspect of the Company's sustainability responsibilities and it formally identifies and recognises material stakeholders with legitimate interests with whom it engages on relevant issues. Engagement with these stakeholders takes a variety of forms, depending on the matter at hand, and may vary in frequency. Where key topics and concerns are raised through such stakeholder engagements, the Company responds to the relevant stakeholders in a variety of ways, including directly or through its annual reporting. The table below lists the more obvious stakeholders and provides examples of the nature of the engagements that the Company has with them.

| Stakeholder type | Nature of the engagement |
|---|---|
| Shareholders, analysts and media | Annual General Meeting at which shareholders have an opportunity to vote on material resolutions, including the appointment and remuneration of directors Distribution of information via the website, including financial, brand, governance, social, ethics, and sustainability matters Press releases and SENS announcements Formal presentation of the half year and final financial results to the investment community Integrated Annual Report Interviews and media briefings Scheduled bi-annual meetings with analysts Ad hoc meetings with analysts and investors, both locally and overseas, as required Meetings to resolve queries on specific matters as required |
| Customers and consumers | Daily contact in own and customers' stores Meetings Consumer and product research Marketing campaigns Websites and social media platforms Customer care and complaint lines Customer audits |
| Employees and employee representative bodies (including unions) | Intranet and published newsletters or notices Bi-annual presentations by the Chief Executive Officer to the executive community Presentations and written communication (e.g. newsletters and posters) on material issues and regulations affecting employees Conferences and general staff meetings Performance appraisals Union representative forums Workplace forums such as the employment equity and learning and development forums Industry relevant Sector Education and Training Authorities Independent anonymous reporting hotline Intranet-based incident reporting system Ad hoc events |
| Suppliers | Product conferences Visits and meetings Participation in manufacturing improvement projects and waste legislation compliance teams Supplier audits Senior operational and procurement staff day-to-day interactions |
| Communities and non- profit organisations | Corporate social investment programmes Workplace learning and development programmes for unemployed learners AVI graduate development programme Partnerships and sponsorships Ad hoc community engagements in surrounding communities, including Company-sponsored employee volunteer days |

| Stakeholder type | Nature of the engagement |
|--------------------------|--|
| Business associations | Participation in or membership of numerous associations such as the South African Chamber of Commerce and Industry; Accelerate Cape Town; the Consumer Goods Council of South Africa; a number of fishing industry associations including the South African Deep-Sea Trawling Industry Association; the Responsible Fisheries Alliance; the World Wildlife Fund's Southern African Sustainable Seafood Initiative; the Abalone Farmers' Association of South Africa; the South African Midwater Trawling Association; the South African Association for Food Science & Technology; the Restaurant Association; the Speciality Coffee Association of South Africa; the Cosmetic, Toiletry & Fragrance Association of South Africa; the Aerosol Manufacturers' Association; the Institute of Packaging SA; the South African Rooibos Council; and the Responsible Packaging Management Association initiatives Participation in association initiatives |
| Government or regulators | Regular contact with significant industry regulators directly or through business associations Participation in crisis management teams |

Ethics and Compliance

The Company has a well-established and comprehensive Code of Conduct and Ethics ("the code") that applies to all directors and employees and provides clear guidance on what is considered to be acceptable conduct. The code requires all directors and employees to maintain the highest ethical standards and ensure that the Company's affairs are conducted in a manner which is beyond reproach. The code is communicated to all new employees as part of their induction training, is published on the intranet for access at all times by employees, and is published on the external Company website for public access (https://www.avi.co.za/code-of-conductethics/). The code is aligned with the recommendations in the King IV report and is regularly reviewed to ensure that it remains up to date and relevant.

In order to monitor ongoing compliance with the code, the Company has a formal governance framework. Within the governance framework, material issues are highlighted in management reports that are reviewed by the operating executives. If appropriate, matters are elevated to the Company's Board or Audit and Risk Committee. This formal framework is supported by the Company's internal audit function, which is responsible for investigating identified areas of concern and reporting its findings to the Company's Chief Financial Officer and the Audit and Risk Committee. The Company subscribes to an independent, professional hotline disclosure service as an important component of an ethical environment. This service facilitates confidential reporting on corrupt activities and other unethical conduct. Communication drives are undertaken from time to time to remind employees of this "whistleblowing" service. In addition, the Company has implemented an in-house intranet-based incident reporting service that requires employees to report incidents, or potential incidents, which have caused or could have caused harm to the Company's property, or people on the Company's premises.

A senior employee actively manages the incident management reporting system and also engages with the ethics hotline service providers. All anonymous reports and other reported incidents are reviewed on a daily basis, and, if appropriate, thoroughly investigated. The Company has a proven track record of dealing appropriately with matters arising from the ethics hotline and incident management reporting systems. Investigations and disciplinary hearings have been held and, where appropriate, civil and criminal action has been taken. Over the 12 months under review, 34 incidents were reported to the anonymous reporting hotline. At time of writing of this report, 18 of these complaints were closed as unfounded (after thorough investigation) and 16 have resulted in disciplinary action being taken. Breaches of applicable laws or relevant codes by suppliers may result in termination of the business relationship with them, and/or civil and criminal action being taken.

The Company is compliant with the provisions of the Protection of Personal Information Act, 4 of 2013, in that all appropriate policies, consents, and security safeguards for the lawful processing of personal information are in place. The Group Chief Executive Officer is appointed as the Information Officer and registered with the Information Regulator. The Company's manual in terms of the Promotion of Access to Information Act, 2 of 2000, and privacy policies can be found on the AVI and all other Group company websites.

In accordance with amendments made to the Financial Intelligence Centre Act, 2001 ("FIC Act"), in 2021, the Company has published its Group Risk Management and Compliance Programme ("RMCP"), which is applicable to all Group companies meeting the requirements to be "accountable institutions". Ultimate responsibility and accountability for compliance with the FIC Act rests with the Company's Board but responsibility and accountability for implementation of and compliance with the RMCP is delegated to the managing directors of the Group companies.

The Finance Shared Services division has been appointed as the necessary compliance function, with the head of Finance Shared Services being the person with sufficient competence and seniority to ensure the effectiveness of the compliance function. The FIC Act seeks to combat money laundering activities, terrorist financing activities, and proliferation financing activities, and to impose certain duties on institutions and other persons who might be used for such purposes. The Group companies have done the required risk assessments, implemented enhanced risk mitigation and customer due diligence processes, and complied with Directive 8 of 2023 in respect of screening of employees for competence and integrity and scrutinising of employee information against targeted financial sanctions lists as a money laundering, terrorist financing and proliferation financing control measure. All affected Group companies have also registered with the Financial Intelligence Centre and filed their annual risk and compliance reports in terms of Directive 7 of 2023.

In addition to the formal ethics framework, it is imperative to promote a culture that is consistent with the ethical values that the Company aspires to. This is achieved through the example set by the Board and executive management, consistent enforcement of these values, and the careful selection of employees that display the desired attributes and values. The Company continues to communicate formally with suppliers and customers to secure their support for and compliance with its ethical standards and has a published Group Supplier Code of Conduct, which code is compulsory for all suppliers of goods or services to the Group (https://www.avi.co.za/).

The Company's approach to tax is to always ensure that it remains compliant with applicable tax laws in the jurisdictions in which the Company and its subsidiaries operate, while ensuring that the Company sustains shareholder returns. The Company's integrity and reputation as a good corporate citizen remains important and is embodied in the Company's approach to corporate tax compliance. The Company has a Group tax function which is overseen by the Group Chief Financial Officer and provides support to underlying subsidiary tax functions, is responsible for various aspects of tax compliance across the Group, and ensures that the Company remains abreast of the changing tax landscape. When necessary, external experts are consulted to support the Company's internal capabilities and address areas of concern. Adherence to tax requirements, the current status of submissions, and outcomes from revenue authority audits, together with other pertinent tax matters, are reported to subsidiary internal review committees and, if required, are escalated to the Group Audit and Risk Committee. The external auditors also conduct annual independent audits of the Company and subsidiary compliance. The Group's effective tax rate for 2023 is 27,6% compared to 27,8% in the previous year, with the reduction primarily the result of implementing a lower statutory tax rate of 27%.

Scarce resources, biodiversity and environmental Fishing resources

One of the Company's primary exposures to scarce resources that could materially impact its business is the sustainability of fishing resources (primarily deep water hake) in South African territorial waters.

1&J currently has long-term hake fishing rights at a level that can support economic returns provided that the resource remains at sustainable harvest levels.

I&J holds long-term fishing rights in the Hake Inshore Trawl, Patagonian Toothfish, and Horse Mackerel sectors, secured by means of the 2015 Fishing Rights Allocation Process and which remain in place until the and of 2031

I&J was also successful in securing 29,64% of the Hake Deep Sea Trawl Allowable Catch ("TAC") in the 2020/2021 Fishing Rights Allocation Process, representing a 4,3% reduction against the previously held rights. This, together with the Hake Inshore Trawl rights represents 25,8% of the total Hake TAC. I&J has appealed the outcome (particularly the fact that, despite being the highest scorer among its contemporaries, I&J still lost a percentage of its allocation, as well as the proposed increased apportionment to the Hake longline sector). The outcome of the appeals is, at this stage, expected by the end of September 2023.

Furthermore, I&J's Umsobomvu joint venture retained all but one of its rights in the Squid sector, while I&J was not awarded a right. Both Umsobomvu (in its own name) and I&J have lodged appeals, but the outcome of the appeals (published on 12 June 2023) reinforced the decision and reduced the allocation of all rights holders in this sector by a further 10% in order to accommodate new entrants into the sector. I&J is considering launching a review application in the High Court to challenge this outcome, which application would have to be made by no later than 10 December 2023.

The health of the South African fishing resource is managed by the Department of Forestry, Fisheries and the Environment ("DFFE"). The DFFE sets an industry-wide annual TAC for each species under management, and for certain species, also sets a "total allowable effort" in which a limit is placed on the number of boats, number of men, and the number of days per year that each boat is licensed to fish. In addition to the TAC, hake trawling sector effort limitations apply which seek to ensure that the capacity of the deep-sea trawling fleet does not grow too big for the available resources.

The TAC level is managed conservatively based on scientific modelling of catch data recorded by fishing companies and annual resource survey voyages conducted by the DFFE using either their own or chartered vessels. The graph on the following page shows the I&J quota (representing a portion of the TAC) over an extended period, with movements tracking the performance of the hake resource over time. After a period of several years of decreases in

quota in line with resource performance, the TAC was increased by 10% in 2019, reflecting an expectation of an improvement in resource performance after a period of strong recruitment. The TAC was left unchanged in 2020 but was reduced by 5% in both 2021 and 2022. Owing to good recruitment and subsequent favourable industry surveys, which indicated stability in the resource biomass, DFFE increased the TAC by 5% in 2023.

In the past few years I&J has caught an increased proportion of smaller fish, negatively impacting freezer catch rates and land-based processing owing to an increase in the number of fish to be processed for an equivalent volume. This has been experienced previously and is part of the natural biomass cycle, which is influenced by various environmental factors. Although this proliferation of small fish negatively impacts performance in the short term, it is indicative of strong recruitment. This has been evidenced by an increase in larger fish more recently as these small fish mature.

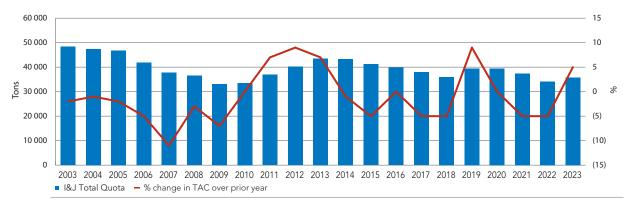

The strong recruitment is, in part, the reason for the increase in TAC. However, weather and oceanic conditions are intricately connected to fish availability and catch rates. Over the past two years more and more extreme weather records have been broken globally. Off the coast of South Africa there has not been a significant increase in storm frequency, but there has been an increase in intensity recorded, with increases in wave height and wind speeds. Although this change is not necessarily negative for resource biomass, it does negatively affect the fishing operations.

I&J strives to lead initiatives to manage fishing efforts and protect breeding areas off the South African coast to ensure a sustainable resource for future generations. Notable accreditations and initiatives are set out below:

 Certification by the Marine Stewardship Council ("MSC") since 2004: The MSC is a global organisation that works with fisheries, seafood

- companies, scientists, conservation groups, and the public to promote sustainable fishing. Its fishery certification programme recognises and rewards sustainable fishing. In 2021 the South African hake fishery was recertified for the fourth time, based on the latest certification standard released by the MSC, providing assurance to buyers and consumers that the fishery is well managed and sustainable, which is increasingly relevant to I&J's customers and consumers.
- Responsible Fisheries Alliance ("RFA"): In 2009 I&J joined the global conservation organisations WWF, BirdLife South Africa, and other local fishing companies to form the Responsible Fisheries Alliance. The objective of the RFA is to ensure that all stakeholders understand and support the implementation of an Ecosystem Approach to Fisheries ("EAF") management in South Africa's fisheries. EAF seeks to protect and enhance the health of marine ecosystems. The goals of the RFA include promoting responsible fisheries' practices, influencing policy on fisheries' governance, and supporting skills development and research in the industry.
- OMP and TAC: The South African Hake Trawl
 Fishery was one of the first in the world to
 implement Operational Management Practice
 ("OMP") for hake, which sets TAC and determines
 how it is calculated using scientific methods and
 data. This is achieved and enforced through
 partnering with the DFFE, which appoints a number
 of scientific working groups to formulate research
 advice.
- Ring Fence Initiative: In 2006 I&J and other members of the South African Deep-Sea Trawling Industry Association agreed to ring-fence areas in order to protect the seabed and preserve our natural resources by creating a natural refuge for hake and other fish species.
- Responsible By-Catch Management: During I&J's fishing operations there will be incidents where species with sustainability concerns are caught as unavoidable by-catch. I&J cannot completely avoid

I&J TAC 2003 to 2023

or exclude these species from its fishing operations but is committed to ensuring that these species are included in an effective By-Catch Management Plan and best practice solutions are proactively implemented to manage and mitigate the impact on these vulnerable species.

 Certification by the Aquaculture Stewardship Council: I&J's Aquaculture Division achieved recertification of the Farmed Abalone operation in 2022

Water

Water is, and always will be, a scarce resource throughout South Africa. Potential shortages, interruption of municipal supply, and quality of water have been identified as risks at many of the Company's facilities. The subsidiary companies have invested substantial time and money to mitigate these risks, which include using borehole water, installing water reservoirs, recycling condensate and effluent, installing a desalination processing plant at I&J, and taking action to measure and better manage water consumption.

I&J in particular is highly dependent on potable water to produce ice for fishing operations as well as for the processing of fish and the cleaning of both the Woodstock Primary Processing and the Paarden Island Value Added Processing facilities. I&J has implemented a number of water-saving initiatives, resulting in a reduction in usage of municipal water of approximately 80% since F16. In 2017/2018 and in view of the drought in the Western Cape and the risk of significant water supply restrictions in Cape Town, I&J engaged with both government and water specialists to assist in investigating alternatives with a view to securing a supply of water sufficient to maintain operations into the future. To this end, a substantial investment in producing potable water from non-potable ground water and a desalination process have been installed, both of which have assisted substantially in the reduction of I&J's dependence on municipal water.

Indigo Brands maintained its water-saving initiatives previously implemented, including water metering and monitoring, and a water-wise garden, and is in the process of installing a chlorine dosing system in the potable water reticulation system after tests showed a lack of chlorine in the municipal water supply. Indigo Brands will rely on potable water transported from the I&J water purification plant in the event of municipal supply interruptions.

The installation of a Borehole Treatment Plant at the Rosslyn Snacks factory is planned to take place in F24. Provision has been made for new, larger water storage tanks adequately sized for the site's water requirements (expected to meet more than 82% of the site's process water requirements). Water pumped from boreholes will be treated through cartridge filtration, reverse osmosis, and disinfection to meet SANS 241-1:2015 drinking water specifications and the same equipment will also have the ability to treat any out-of-specification municipal water. Additional water tanks were approved for the Isando Biscuit factory, with construction being done in F23. This is planned

to increase process water storage on site so that production can continue unhindered for more than 11 days should the municipal supply fail.

Owing to the generally deteriorating quality of municipal water, National Brands has embarked on a Water Quality Project and water specialist consultants are being engaged to ensure the sites remain capable of dealing with changing water quality. The immediate priority is disinfection of the water owing to low incoming free chlorine levels. This project is being run on an urgent basis to ensure that solutions are in place early in F24. The technology to be employed will consider the different water requirements of the various sites in respect of volume requirements and water usage, and it will ensure compliance to SANS 241-1:2015 drinking water specification.

The Isando area had a number of water outages in the second half of F23, mainly impacting the Isando Coffee and Creamer factory despite the site having three days' back-up water. National Brands had installed process water back-up tanks at its sites over recent years but owing to the further deterioration in water supply security as a result of municipal infrastructure failure, it is further increasing the back-up storage at some sites and investigating the feasibility of borehole water for the Isando Coffee and Creamer and Isando Biscuit factories.

Electricity

The extreme energy shortages experienced in South Africa highlight the need for the Company to be more self-sufficient and to make energy conservation a priority. Numerous energy-saving initiatives have been implemented by the subsidiary companies to manage energy usage and, at the same time, generators have been installed at most of the Company's facilities to ensure continuity of supply. The generator installations across the Group ran for a total of 10 898 hours in 2023, a significant increase from the 2 612 hours in 2022. This included the need for the I&J Abalone Culture Division to run its generators for 70 hours non-stop following a severe storm with gale force winds that resulted in four Eskom electricity poles being blown over and a total power outage of the Overstrand area. The generators help to sustain production throughput and customer service levels despite increasingly unpredictable supply and repeated load-shedding, albeit at an increased cost and increased diesel usage.

Details of specific energy-related projects implemented and planned throughout the Group are included later in this report under the section on environmental practices.

Biodiversity

South African biodiversity includes a wide variety of natural resources. Despite its relatively small land surface area, South Africa is home to 10% of the world's plant species, many of which are endangered and vulnerable. The loss and degradation of South Africa's biodiversity has serious implications for society and the economy. Large portions of the country's economy are dependent on biodiversity, including the fishing industry and agriculture based on indigenous species.

I&J's Danger Point abalone farm is situated immediately adjacent to the sea and is the Company's only property in or adjacent to an area of high biodiversity. South Africa's high energy coastline is generally unsuitable for offshore fish farming and land-based aquaculture allows for better control over environmental factors so that the impact on the environment can be limited. Although abalone aquaculture has a relatively low impact on the environment, in order to minimise any potential harm, the global abalone farming industry, including I&J, has, together with the WWF, developed a set of standards. The Danger Point abalone farm has adopted the Global Abalone Standards and has been audited by the Aquaculture Stewardship Council ("ASC"). Accreditation was granted in November 2015 and renewed in 2019 and 2022. This eco-label is used to quarantee that I&J's abalone products are and continue to be raised in an environmentally responsible manner. The abalone processing plant located on the Danger Point abalone farm complies with all ASC, DFFE, FDA, and National Regulator Compulsory Specifications and standards.

The Rooibos plant Aspalathus linearis is part of the Cape Floral Kingdom, commonly known as "fynbos". Rooibos is indigenous to the Cederberg Mountains around Clanwilliam. At the turn of the 19th century it was common practice for the inhabitants of the Cederberg region to harvest the wild-growing Rooibos plants. The leaves and fine stems were chopped, fermented, and dried to be used in a variety of ways. In 1904 a Russian immigrant and descendant of generations of tea traders, introduced Rooibos to the wider world. By 1930 a local medical doctor and botanist had discovered the secret of germinating Rooibos seeds and, together with a local farmer, developed new cultivation methods on a larger scale along the slopes of the Cederberg Mountains. This is still the only place in the world where Rooibos is grown and the European Commission has approved the registration of the designation "Rooibos/Red Bush" in its register of protected designations of origin and protected geographical indications. Rooibos is the first African food to receive the status of a protected designation of origin in the EU register. It is hoped that this registration will assist in sustaining the Rooibos industry and that higher consumption flowing from increased recognition will contribute to the preservation of traditional knowledge and further uplift small-scale farmers in the indigenous communities producing Rooibos.

The commercial farming and production of Rooibos has resulted in the establishment of a worldwide distribution network and medical science is starting to discover the many health benefits of Rooibos. In 2010 the South African San Council ("SASC") approached the DFFE requesting negotiations with the Rooibos industry in accordance with the National Environmental Management (Biodiversity) Act of 2004 ("NEMBA").

In 2012, they were joined by the National Khoi & San Council ("NKSC") in seeking recognition as joint traditional knowledge rights' holders. Under the facilitation of the DFFE, these two parties met with the South African Rooibos Council for the first time in 2012

to start the process of negotiating an Access and Benefit-Sharing ("ABS") agreement for Rooibos. One of the fundamental principles of an ABS agreement is the fair and equitable sharing of the benefits arising from the commercial utilisation of indigenous biological resources.

After a long process of negotiations, a historic, industry-wide, ABS agreement was signed in 2019 between the SASC, the NKSC, and the South African Rooibos industry. The ABS agreement seeks to balance the interests of the indigenous communities and the sustainability of the industry and forms the basis on which these communities will access a percentage contribution from the sale of Rooibos. The ABS agreement ensures the Rooibos industry's compliance with South Africa's bioprospecting laws and regulations. The benefits generated are paid to the communities through two community trusts. These trusts are overseen by trustees selected from within the traditional communities and the local farming communities. Additional members may include independent legal advisors and representatives of the DFFE, the Department of Cooperative Governance and Traditional Affairs, and the Department of Science and Technology. The trusts are under the oversight of the Master of the High Court.

In July 2022, the first round of benefit-sharing funds for 2019 volumes in the amount of R12,2 million was distributed to the National Khoi and San Council and the South African San Council as part of the ABS agreement. A further payment of R11,1 million for the 2020 and 2021 volumes was paid at the end of February 2023. The 2022 volumes are still being finalised for calculation of the levies payable.

On a global scale, natural forests are among the most biodiverse habitats and are home to many people who derive their livelihoods from forest biodiversity.

Large-scale industrial logging and monoculture plantations cause damage to natural forests. Protecting these and other biodiverse habitats must be a priority for all industries and the Company is committed to addressing the issue of corporate deforestation through the development and implementation of environmentally friendly, responsible, and sustainable procurement programmes. Details of such procurement programmes are set out in the environmental practices section below.

Environmental policy

The Company recognises that its use of natural resources has a socio-economic and physical impact on the environment, accepts responsibility for such impacts, and pursues responsible environmental and climate change practices. This involves:

- Reducing the Company's environmental impact and continually improving the Company's environmental performance as an integral part of the Company's business strategy and operating methods;
- Compliance with applicable environmental legislation and relevant standards;
- Responsible environmental management of inputs (material, energy, and water) and outputs (emissions, effluents, and waste);

- Independent annual environmental audits at each manufacturing site that measure the impact the particular operation has on the environment and that review compliance with legislation and Company policy;
- Providing a framework for setting and reviewing objectives and targets;
- Ensuring that all employees understand the environmental policy and conform to the standards it requires; and
- Reporting in the Company's annual report on performance against targets.

The Company's Board is responsible for the environmental policy and for ensuring that its principles are considered in formulating the Company's business plans. The Company's Chief Executive Officer and senior management are in turn responsible for the implementation of the business plans and communication of the policy. The Board has delegated the responsibility for monitoring compliance with the policy to the Company's Audit and Risk Committee, with responsibility for monitoring the Company's environmental activities and the impact thereof delegated to the Social and Ethics Committee.

The Company remains committed to responsible management of applicable environmental matters,

including those which impact on climate change and relate to responsible and sustainable environmental practices, such as greenhouse gas emissions; raw materials usage and recycling; resource usage and efficiency (including water and electricity); impacts on biodiversity; and emissions, effluents and waste management. In particular, the Company is aware that climate change will impact on natural resources and legislative changes that will affect the way the Company does business. The Company monitors relevant global and local legislation, regulations, and emission-reduction targets.

The Carbon Tax Act, 15 of 2019 came into effect on 1 June 2019. Carbon Tax is aimed at reducing greenhouse gas ("GHG") emissions in a sustainable, cost-effective, and affordable manner and gives effect to the polluter-pays-principle. The Company has licensed each of its affected facilities for environmental levy purposes and the relevant emissions are measured. Carbon Tax paid since implementation is reflected in the environmental data table below.

Environmental data

Since 2012 the Company has been measuring, managing and reporting on certain identified environmental impact areas and a comparison of the measurements for the last five years is set out below:

| | | | Carbon | | | Data | | |
|-----|---|---------------|------------|-------------|-------------|-------------|----------------|----------------|
| | Indicator | Unit | (kg) | F23 | F22 | F21 | F20 | F19 |
| 1 | Total water consumption by source | - | | | | | | |
| 1.1 | Municipal | Litres | 197 837 | 663 883 541 | 663 565 098 | 589 855 793 | 500 806 371 | 530 332 908 |
| 1.2 | Ground water (borehole) | Litres | 58 599 | 196 640 000 | 209 967 000 | 128 601 729 | 125 811 000 | 123 284 000 |
| 1.3 | Desalinated | Litres | 87 121 | 24 541 000 | 20 943 500 | 24 885 000 | 25 783 351 | 20 176 000 |
| 2 | Total energy consumption – | | | | | | | |
| 2.1 | Purchased electricity* | kWh | 86 369 093 | 83 853 489 | 95 391 743 | 101 639 745 | 102 393 633 | 105 411 043 |
| 2.2 | Coal | Tonnes | 40 767 966 | 14 271 | 14 668 | 14 532 | 14 444 | 14 384 |
| 2.3 | Petrol | Litres | 1 911 568 | 682 703 | 539 099 | 594 599 | 674 732 | 786 396 |
| 2.4 | Diesel | Litres | 64 430 897 | 21 735 034 | 21 657 784 | 20 093 935 | 12 363 446 | 8 214 665 |
| 2.5 | Liquified petroleum gas (LPG) | Litres | 2 046 390 | 2 101 519 | 2 063 795 | 2 017 449 | 1 927 767 | 1 885 807 |
| 2.6 | Natural gas | Cubic metres | 7 651 | 2 802 749 | 2 835 133 | 2 931 147 | 3 107 232 | 3 049 839 |
| 2.7 | Heavy marine fuel/Jet fuel | Litres | 1 541 445 | 513 815 | 502 912 | 856 046 | 7 742 419 | 12 097 912 |
| 2.8 | Paraffin | Litres | 3 458 798 | 343 832 | 411 389 | 518 920 | 570 662 | 610 803 |
| 3 | 3 Carbon emissions for above indicators 200 877 364 | | | | | | | |
| 3.1 | Total carbon emissions | Metric tonnes | 200 877 | 200 877 | 213 866 | 217 512 | 216 416 | 220 767 |
| 3.2 | Carbon emissions per employee | Metric tonnes | | 22,82 | 25 | 25 | 25 | 26 |
| 3.3 | Carbon tax paid | Rand | | 2 419 539 | 2 205 702 | 2 356 272 | Not applicable | Not applicable |

^{*} F22 purchased electricity restated from 104 403 575 as the reported figures reflected a Spitz capturing error.

In addition to the key areas referred to above, the Company considers, on an ongoing basis, further areas of environmental impact for possible measurement and reporting, as well as new initiatives to mitigate environmental impacts of products and services, where relevant.

Environmental practices

During the year, the subsidiary companies continued their measurement and mitigation of detrimental environmental impacts. Some of the Company's activities and achievements include:

- Environmental management systems All five of the National Brands' factories have both ISO 14001 Environmental Management System and ISO 45001 Occupational Health and Safety Management System accreditation and performed well in F23 in retaining certification and showing improvement. The ISO 14001 quality management system enables the factories to identify and control the environmental impact of their activities; continually improve their environmental performance; and implement a systematic approach to setting environmental objectives and targets, achieving these, and demonstrating that they have been achieved. I&J has the MSC's Chain of Custody Certification for sustainability in the fishing industry and the Aquaculture Stewardship Council Certification for sustainable abalone farming.
- Energy conservation The energy shortage, and global efforts to reduce greenhouse gas emissions, make conserving energy a priority for the Company. Projects in past years include: improving the efficiencies of production machinery, equipment and processes; installation of energy-efficient, lower power consumption, LED lighting solutions; installation of electricity meters for the measurement of electricity consumption and consumption patterns; Demand Site Management Surveys by Eskom to enable the formulation of improvement plans; electrical load shifting where possible; installation of photovoltaic arrays; louvres to passively control heat gain; installation of energy efficient compressors at I&J Woodstock; an upgrade of the power factor correction to optimise energy demand at the Indigo Brands factory; the use of timers to reduce unnecessary running time of air-conditioning units; motion detection for lights where feasible; and upgrading of the air compressors to include variable speed drive and heat recovery functionality in order to provide warm water for ancillary processes. National Brands, in particular, is formally defining its Energy Strategy, with specific initiatives at each site. Energy audits were done and actions plans to reduce energy usage were formulated and are being executed. There will be investment in F24 in energy measurement systems to determine real-time usage associated with different processes, inform energy usage reduction plans, and track progress. The Energy Strategy will also consider best technology for future energy needs, and determine opportunities for greener energy where possible.

Some F23 energy initiatives included:

Installation of a more energy efficient air

- conditioning system in the packing hall at the Westmead Biscuit factory;
- Further expansion of ongoing LED lighting initiatives to include the Isando, Redhill, and Spitz Isando distribution centres, with a view to reducing energy consumption by 1 151 MWh per annum, while still complying with the prescribed Occupational Health and Safety lux levels;
- The replacement of fluorescent lights with LED lights in the Indigo Brands aerosol store;
- The replacement of lead-acid material handling equipment batteries with more efficient lithiumion batteries:
- The upgrade of all major hot water piping reticulation and cleaning of the main water reticulation pipes at the I&J Aquaculture Danger Point farm to ensure maximum flow efficiency and to stop mussel growth limiting flow;
- At the I&J Woodstock factory: the installation of Variable Frequency Drives on compressor motors; the installation of "omni-panel" compressor controllers to better manage compressor usage; staggered defrost cycles across cold rooms to stabilise the load on the refrigeration plant; and other modifications in the refrigeration system to improve efficiency;
- The commissioning of power quality and electrical equipment assessments across all five National Brands' manufacturing sites. Reports identified varying severities of power dips, spikes, and harmonics at all sites, with notable impacts at the Westmead Biscuit and Rosslyn Snacks factories. In F24 investigations will look further into these issues and a comprehensive plan will be developed to address the findings. In the meantime, the server room UPS back-up power at all five National Brands' factories was upgraded to an improved industrial back-up power solution, consisting of surge protection, industrial inverters, and lithium-ion batteries; and
- The installation of a photovoltaic energy system at the Group head office in Illovo, Johannesburg.

Plans for F24 include:

- Replacement of old and inefficient air compressors at the Durban Tea factory with energy efficient units housed in a purpose-built compressor room, which is expected to be completed during the first half of F24;
- Installation of a boiler feed water preheat system at the Isando Coffee and Creamer factory, utilising heat from return condensate, which will reduce coal consumption and emissions; and
- An investigation into the expansion of the photovoltaic energy system at the Bryanston campus in Johannesburg to reduce reliance on municipal and generator power requirements.
- Water conservation Poor water quality and shortages remain significant potential risks to the Company and the subsidiaries take steps to minimise these risks. These steps include using borehole water where appropriate, reservoirs for storing water, recycling condensate produced during the heating processes back to the boilers, recycling production effluent with a view to reclaiming waste water, installing a desalination

processing plant at I&J, and adopting environmentally friendly storm water reticulation, while simultaneously taking measures to measure and manage water consumption. Towards the end of F22 a water measurement and monitoring system was installed at the Rosslyn Snacks factory, which provides visibility of water use in the various processes and enables the site to identify opportunities for the reduction of water usage. The site has made progress with utilising more waterefficient cleaning methods, such as scrubbers, high-pressure washers, and pressure nozzles, to reduce water usage. A replacement potato chips fryer was procured for the Rosslyn Snacks factory during F23, with installation and commissioning planned for mid-F24. This will include a water reticulation facility to reduce consumption by approximately 10%. With this, and the planned borehole facility in place, the Rosslyn Snacks factory will reduce dependency on the municipal water supply. The Westmead Biscuit factory has introduced new water-efficient spray nozzles in some production areas, which is reducing water usage. A new condensate return pump has been installed at the Isando Coffee and Creamer factory, which will increase the quantity of condensate return, which supplements boiler feed water and, in so doing, reduces the amount of municipal water that is required.

- Fuel consumption Within the distribution operations there is ongoing focus on optimisation of delivery routes and distribution networks through utilisation of routing and scheduling software, the deployment of on-board technology, advanced fuel management systems, more efficient engines and matching of loads to vehicles, the conversion of diesel forklift fleets to electric (which reduces both fuel consumption and harmful emissions), as well as driver training academies, which are all key issues in reducing fuel consumption and the Company's carbon footprint. During F23 the distribution centres outsourced part of their finished goods shuttling operation to contracted specialist performance-based standards vehicles. These vehicles have a 16% increase in carrying capacity, which will result in an estimated annual distance reduction of 65 340 kilometres and 109 tonnes of carbon emissions. I&J has been able to improve the fuel efficiency of its fishing fleet by between 3% and 5% through a number of initiatives, including the modernisation of fishing gear and sensors used, governance of speed when steaming to and from fishing grounds, increased monitoring of fuel usage, and regular engagement with skippers regarding fuel efficiency. The forklift truck fleet at the Durban Tea factory, previously powered by LPG, was replaced with electric lithium-ion battery-powered units in F23. This has significantly reduced the usage of LPG. Unfortunately, across most sites there was a significant increase in diesel usage to run back-up generators during times of load-shedding.
- Emissions, effluents and waste The Company is committed to a waste management strategy, reducing the use of raw materials, reducing waste, reusing waste wherever possible, and recycling

waste that cannot be eliminated or reused. Key to managing waste is the monitoring and analysis of waste volumes and component parts to provide the information needed to manage waste effectively. The Company recognises its responsibility in terms of the Air Quality Act, 2004, is committed to efficient and effective air quality management, and ensures that all ovens, boilers, and boiler stacks are correctly operated, well maintained and routinely inspected. In addition, the factories engage with approved inspection authorities and conduct air emission surveys. Some of the material initiatives over the years have been as follows:

- The International Maritime Organisation 2020 legislation required a significant reduction in sulphur emissions from maritime vessels from January 2020. I&J was able to comply with the requirements of the new standards within the timelines allowed by the South African Maritime Safety Authority.
- Effluent plant management has been outsourced to specialists at the Isando and Westmead Biscuit factories, and the Isando Coffee and Creamer factory. During the year the effluent treatment plant at the Rosslyn Snacks factory was upgraded in order to provide for future effluent quality compliance if more stringent municipal limits are implemented. At the distribution centres all vehicles are washed using biodegradable chemicals and grease traps are cleaned regularly to prevent contamination of the main sewer system. In general, waste materials are classified for possible reuse, recycling or disposal, and disposals are done through registered waste disposal and recycling companies.
- 1&J routinely recycles metal, corrugated cartons, used sunflower oil and used marine oil.
- National Brands reduced packaging waste by right-gauging flexible packaging and removing excess packaging. The business also encourages consumers to recycle and makes them aware of the recycling categorisation of the packaging.
- The phasing out of lead acid batteries and replacement with new generation lithium-ion batteries, which carry no risk of acid spills, corrosion, hazardous gas emissions, or any sort of contamination. In addition, lithium-ion batteries are 30% more energy efficient than lead acid batteries and virtually maintenance free.
- Waste to landfill A new waste management service provider was appointed in F21. This supplier created and fostered many alternative waste disposal streams, reducing waste to landfill. Some of the major initiatives include:
 - On-site sorting of boxes and diversion to recycling rather than landfill;
 - Spent coffee ground collection for recycling;
 - Improved waste segregation at sites resulting in less loads being sent to landfill;
 - The final implementation of the project for the use of shredded BOPP (Biaxially Oriented Polypropylene) packaging in brick-making;
 - Biscuit, biscuit fillings, jams, icings, and syrup being diverted from landfill to animal feed; and
 - Enhanced staff training on waste segregation to

reduce recyclables being placed in general waste for landfill.

- Raw materials (excluding packaging) -
 - The Company is a member of and has representation on the Board of the South African Rooibos Council, a non-profit organisation whose goal is to protect the Rooibos Industry and to ensure the sustainability of this raw material.
 - All yellow maize procured for the manufacture of liquid glucose is certified as non-genetically modified.
 - Ciro sells a range of Fairtrade, Organic, Rain Forest Alliance and UTZ (an international standard for sustainable farming of coffee, cocoa, and tea) certified products. A partnership with Mbokomu Rural Cooperative Society in Tanzania assists farmers and farming communities to improve the quality of their coffee and improve processing to reduce waste.
- Palm oil is a vegetable oil from the fruit of oil palm trees and is more solid than liquid at room temperature. This makes it ideal for cooking and it is an ingredient in many foods and beauty products. Palm oil has developed a poor reputation as a raw material owing to slash-andburn deforestation. A balance needs to be found between the demand for palm oil, the economic benefits of the product, and protecting forests, wildlife, and local communities. Therefore, the use of palm oil from ethical and sustainable sources as certified by bodies such as the Roundtable on Sustainable Palm Oil ("RSPO") is an integral part of the Company's environmental and sustainability policies and strategy. The RSPO is a not-for-profit association that works with stakeholders across the palm oil supply chain to make sustainable palm oil the norm. Members include plantations, processors and traders, consumer goods manufacturers and retailers, financial institutions, and non-governmental organisations. The RSPO has developed a set of environmental and social criteria which companies must meet in order to produce certified sustainable palm oil. When they are properly applied these criteria help to minimise the negative impact of palm oil cultivation on the environment, wildlife, and communities in palm oil-producing regions. According to the RSPO "although using other vegetable oils seems like a practical solution, it would actually create similar – if not even larger – environmental and social problems. Therefore, the best solution is to ensure you buy products that contain sustainable palm oil". To this end all the palm oil procured by the Company is from RSPO certified suppliers.
- The National Brands' factories are replacing current barcode and date code printing solutions with a new technology that eliminates the need for paper labels and glue. This also reduces the environmental exposure to Volatile Organic Compounds to just 1/10th of current systems and uses up to 80% less energy.
- Packaging
 - National Environmental Management: Waste Act, 2008 ("Waste Act") –

As required by the Act and corresponding regulations, the Company's trading subsidiaries have registered with the DFFE and have joined relevant Producer Responsibility Organisations ("PROs"), through which they will report on paper and packaging usage and pay the required levies, which will be used to improve collection and recycling rates of packaging material put into the market. The PROs in turn report to the DFFE. They also have the responsibility of managing the various Extended Producer Responsibility ("EPR") measures required to be implemented.

EPR requires manufacturers, users, and importers of affected products ("producers") to bear a degree of responsibility for these products and ensure that the products are either recycled or up-cycled, and that waste products diverted to landfill are kept to a minimum. The Company has also played a leading role in ensuring that the various participants in the packaging value chain are making a tangible contribution to environmental sustainability, while minimising the financial hardship to the end-consumer in an already challenging economic environment. To this end, the Company has engaged extensively, and continues to do so, with the DFFE, the Consumer Goods Council of South Africa, various PROs, various environment NPOs, recyclers of packaging waste, waste management companies, and raw material suppliers, such as the paper mills.

The Group companies ensure that they comply with relevant legislation through registration with appropriate PROs and submission of material usage declarations to enable the calculation and payment of EPR levies. For the period to the end of June 2023, based on declared volumes, the levies amount to R2,5 million.

- In June 2023, the Department of Forestry, Fisheries and the Environment published the Packaging Guideline: Recyclability by Design for Packaging and Paper in South Africa, under section 6(1)(a) of the National Environmental Management Waste Act, 2008. The Packaging Guideline covers four categories of packaging material streams, namely metals, glass, paper, and plastics and is intended to reduce the volume of packaging going to landfill sites by improving product design, increasing quality of production practices, and promoting waste prevention. One of the key objectives of the Packaging Guideline is to assist designers in all forms of packaging to gain a better understanding of the environmental implications of their design decisions, thus promoting good environmental practices without restricting choice. The Packaging Guideline will be used by the Group's marketing and procurement teams to provide guidance and direction on how to make responsible and sustainable packaging choices.
- The Sustainable Forestry Initiative ("SFI") and the Forestry Stewardship Council ("FSC") are the two most recognisable and legitimate certifications in paper packaging, with FSC being the most

demanding. Both the SFI and FSC certify forest management programmes according to their set principles and criteria, including sustainable harvest levels, conservation of biodiversity and old growth, protection of endangered species, protection of water quality, recognition of the rights of indigenous people, prompt reforestation, forest conversion, plantations, clear-cutting, chemical use, and genetically modified trees. The Company has implemented required FSC certification on all paper packaging. FSC has three product labels, namely FSC 100%, FSC Recycled, and FSC Mix. FSC 100% is wood that comes entirely from FSC-certified, wellmanaged forests; FSC Recycled is wood or paper that comes from reclaimed or reused material; and FSC Mix is wood that is from FSC-certified forests, recycled wood, or controlled wood. While not FSC-certified, controlled wood cannot be: (a) illegally harvested; (b) harvested in violation of traditional and civil rights; (c) harvested in forests where high conservation values are threatened; (d) harvested in forests being converted to plantations or non-forest use; or (e) harvested in forests where genetically modified trees are planted. As reflected in the table below, nearly 100% of the Company's paperboard spend is with FSC-certified suppliers, with the remaining 5 tonnes under review. In addition, all paperboard materials can be recycled multiple times.

 "Design 4 Recyclability" is a packaging development enabler to drive greater levels of both circular economy supportive solutions and as a continuing effort to reduce existing problematic materials. Following the successful development of components with locally available post-consumer recycled polypropylene, Indigo Brands continues increasing its usage across aerosol and roll-on caps. The driver to support greater levels of circular economy continues with ongoing development in alternative colours, as well as other potential formats.

- During the course of F23 the Company measured its use of various categories of packaging materials. Paper and board products were categorised according to the FSC categories.
 Plastics were categorised as follows:
 - Recyclable: plastics that are currently recyclable, e.g. single-layer films and most clear, unprinted films;
 - Potentially recyclable: plastics such as multimaterial laminates that require specialised facilities/infrastructure and supply chains for recycling;
 - Compostable: plastics that need to be managed separately in the waste stream, e.g. bio-polymers, and corn-starch based plastics; and
 - Non-recyclable: all other non-sustainable plastics such as PVC and polystyrene.
- The following tables reflect the annual tonnages of cartons, corrugates and plastics used by the Company in the categories described above, and the percentage of these materials against the total of such materials used:

| | Carto | ons | Corruç | gates | Filter paper | | Total | |
|---|-------------------|-------------|-------------------|-------------|-------------------|-------------|----------------|---------------|
| | Annual tonnage | % of annual | Annual tonnage | % of annual | Annual tonnage | % of annual | Annual tonnage | % of total |
| FSC 100% | 3 536 | 45 | _ | _ | _ | _ | 3 536 | 17 |
| FSC mix/recycled | 4 357 | 55 | 12 615 | 100 | 765 | 100 | 17 737 | 83 |
| Non-FSC/non- compliant | 5 | _ | _ | _ | _ | _ | 5 | _ |
| Total | 7 898 | | 12 615 | | 765 | | 21 278 | |
| % of total tonnage of all paper packaging (%) | 37 | | 59 | | 4 | | 100 | |

| | | Material component | | | | | | |
|--|-------------------|--------------------|----------------------|-------------|-------------------|---------------|--|--|
| | Contains recycle | ed material | Contains recycled ma | | Total | | | |
| Plastics | Annual tonnage | % of annual | Annual tonnage | % of annual | Annual tonnage | % of total | | |
| Recyclable | 256 | 98 | 1 455 | 22,0 | 1 711 | 25,0 | | |
| Potentially recyclable Compostable/ | 6 | 2 | 5 092 | 78,0 | 5 099 | 75,0 | | |
| biodegradable | _ | _ | _ | _ | _ | _ | | |
| Non-recyclable | | | | | | _ | | |
| Total | 262 | | 6 547 | | 6 810 | | | |
| Percentage of total tonnage all plastics (%) | 4 | | 96 | | 100 | | | |

- The use of non-FSC fibres in paper packaging was further reduced from F22, despite the myriad of supply challenges in sourcing board, in line with the goal to be 100% based on FSC or similarly approved fibre.
- There has been continued progress in the light-weighting of plastic packaging in both rigid and film packaging which means that less packaging is put into the market for the same amount of product.
- The Company continues to explore sustainable alternatives to conventional plastics while balancing the risks of additional costs to the consumer and supply availability due to the relatively small amount of sustainable sources available globally.
- Footwear and Clothing Footwear and clothing sustainability has become an area of increasing importance for the Company. This requires a comprehensive review of all processes, including design, development, manufacturing, distribution, and selling, with a view to identifying and managing relevant areas to minimise negative environmental impacts, conserve energy and natural resources, and ensure the safety of persons involved in these processes, the communities in which they live and work, and consumers, while at the same time ensuring that such practices are economically sound.

The tanneries in Italy from which Spitz's footwear manufacturers derive their leather, carry the prestigious Leather Working Group ("LWG") silver certification as proof of their commitment to good manufacturing and the environment. The LWG audit standard assesses the impact of leather production and, as an organisation, the LWG aims to have a positive impact on the environment and communities, through driving:

- Increased supply chain traceability and transparency
- Increased knowledge and access to data
- Improved resource efficiency in leather production
- Reduced waste generation and emissions to the environment
- Improved chemical management and increased use of non-hazardous chemicals
- Increased deforestation and animal welfare due diligence
- Improved working conditions and fair treatment of workers

Spitz's footwear manufacturers and other suppliers in the European Union are regularly subject to audits encompassing labour standards, health and safety, environment, and business ethics, from organisations such as SMETA (Sedex Members Ethical Trade Audit), which is the most widely used format for social audits in the world, enabling businesses to assess their sites and suppliers to understand working conditions in their supply chain. Suppliers are required to be able to show compliance with industry standards as well as their own social responsibility and environmental policies. Spitz strives to work with suppliers who

want to contribute to the well-being of their communities and environments.

For those products and/or components manufactured or supplied outside the European Union, Spitz closely monitors industry compliance and risk assessments and initiatives, including the Amfori Business Social Compliance Initiative ("BSCI"), which is an industry-driven movement that aims to monitor and assess workplace standards across the global supply chain, and the Foreign Trade Association. Factory production in China and other Asian countries plays a major role in the global footwear industry and it is a priority for Spitz to remain informed on potential trade and sustainability issues (including social and environmental issues) in these countries, and to assess the risks of doing business with these suppliers while also meeting stakeholder expectations.

Spitz measures the environmental impact areas set out in the table earlier in this report, and has registered with the Fibre Circle Producer Responsibility Organisation in accordance with the Waste Act.

Contraventions

During F23 I&J received a R225 000.00 environmental contravention fine from the South African Maritime Safety Authority for an accidental oil spill onto deck and overboard on the MFV Avro Warrior. Watchkeepers noticed oil in the save-all and indicated to the team to stop pumping. Unfortunately, owing to a slight roll of the vessel, some oil went overboard before the oil in the save-all could be recovered. Other environmental incidents at I&J for which no notices, fines, or non-monetary sanctions were imposed were:

- Two minor ammonia leaks at Cape Town Processing, the first caused by a plate freezer operator mistakenly opening a liquid pressure valve, and the second caused by constant pressure increases and decreases on the liquid pressure valve during load-shedding;
- Two spills of cooking oil at Value Added Processing of 15 litres and 200 litres respectively, caused during the pumping by an outsourced contractor of used cooking oil into 1 000 litre containers; and
- A minor ammonia leak at Auckland Cold Storage caused by the failure of the air conditioning system motor.

The Westmead Biscuits factory received an effluent non-compliance notice owing to a pH sample taken by the municipality not meeting specification. This was due to a pump failure, which was corrected. No fine was issued

Other than the notices and fines referred to above, no other fines or non-monetary sanctions for infringement of or non-compliance with environmental laws and regulations were recorded and/or levied against the Company, directors, officers, or employees during the period under review and the Company experienced no major environmental incidents. No formal requests or directives have been

issued by government agencies or local authorities for the reduction of air emissions.

Consumer and product legislation

The Company's internal legal advisers and regulatory departments keep the Company abreast of generic and industry specific consumer and product-related legislative and regulatory developments, both pending and apparent, and ensure that management and employees are informed and, where necessary, trained on these developments and the implementation thereof. In particular, the draft Regulations relating to Labelling and Advertising of Foodstuffs were published in April 2023, which incorporate substantial changes to the existing Regulations. The affected Group companies have carefully reviewed the draft and provided extensive input to the Consumer Goods Council of South Africa, which consolidated industry feedback and responded to the Department of Health. These draft Regulations seek to impose, inter alia, onerous front of pack warning labels; stringent nutrient cut-off values for total sugar, total sodium, total saturated fatty acids, and the addition of artificial sweeteners; an absolute ban on advertising to children and curtailment of the freedom of commercial speech; the expropriation of proprietary rights, more specifically brand rights and intellectual property rights; limitations on freedom of trade and freedom of association; and unrealistic prescribed letter sizing and languages that must appear on labels. There are also significant conflicts between the existing Regulations and the draft Regulations, with extremely short compliance periods.

Other developments being monitored are the drafting of standard operating procedures for the inspection of agricultural products; the legal challenge to the Department of Agriculture, Land Reform and Rural Development on the seizure of meat analogue products using product names prescribed for meat products; updates to compulsory standards and specifications through the SABS and NRCS; amendments to various European Union Regulations affecting, in particular, I&J; updates to the Advertising Code of Practice to align with EU changes; changes to skincare products, deodorants and antiperspirants export regulations for sub-Saharan African countries; and draft Regulations on the Labelling, Advertising and Composition of Cosmetics, which will change the self-regulatory environment of the Cosmetics Industry to a legislative one with strict requirements.

The Company works closely with relevant industry and government bodies, such as the Consumer Goods Council, Business Unity South Africa, the Department of Health, the Department of Trade and Industry, DFFE, and the Department of Employment and Labour, to contribute to the development of sensible and sustainable legislation and regulations.

The Company's central marketing and Group legal functions ensure that there is adherence to laws, standards, and relevant voluntary codes relating to marketing and communications, including advertising, promotions, competitions, and sponsorships.

All applicable labelling legislation is regularly reviewed and, where appropriate, changes to Company packaging are made. The research and development and regulatory managers in the subsidiary companies are responsible for ensuring applicable compliance.

The Company remains a member of a number of industry associations as set out in more detail in the stakeholder engagement table.

No judgments, damages, penalties, or fines for infringement of or non-compliance with consumer or product-related legislation were recorded and/or levied against the Company, directors, officers or employees during the period under review.

Major risks

The Company and its subsidiaries have well run governance processes and sound systems of internal control which are effective in managing the conventional key areas of business risk such as brand management, manufacturing, financial management, and information technology. Other risks that are often more challenging to manage, and pose a greater threat to business success, are summarised below and on the following pages:

Key risks and impact

- The potential for future lockdowns for epidemics or pandemics
- The loss of life and physical and emotional stress caused by epidemics or pandemics, including lockdowns, forced isolation and quarantine, illness, medical expenses, and the potential loss of employment and income
- Restructuring and retrenchments cannot be ruled out in an economy that is already under strain from social, financial, and political uncertainty
- Lost sales owing to changes in consumer demand
- Business interruption arising from infectious diseases and quarantine protocols and regulations
- Domestic and international restrictions on movements of persons and goods
- Delays in clearing of imported products, raw materials, parts and other supplies, as well as exported products, through customs
- Additional governance and compliance structures and costs
- Heightened risk of debtors, suppliers, and service providers going into business rescue or liquidation

Comments

- The AVI employee wellness programme offers counselling to employees and their extended families
- Specialist providers could be contracted to provide vaccines to employees on some of our bigger sites (as was done during the COVID epidemic)
- Ongoing management of costs in the areas of the business that would be most impacted by epidemics or pandemics, to ameliorate the impact of lower volumes and revenue
- Continuous consideration and management of potential logistics delays, including the potential need for the holding of additional buffer stocks
- The Company monitors supplier risk reports from a specialist service provider on a monthly basis, thus enabling the Company to timeously implement mitigating actions wherever possible

Failure to stay in touch with and react quickly to changing consumer perspectives and needs

- Lost growth opportunities or erosion of market share
- Pressure on margins in constrained categories
- Under or over-spend of marketing money without an economic imperative could lead to unsustainable or diminishing brand equity
- Product formats and price points are managed flexibly in different parts of the consumer cycle, in line with consumer needs
- Each business unit gives priority to understanding the risks and opportunities that South Africa's growing Black consumer base presents, and responding in a manner appropriate to each category
- Consumer trends in more developed markets are studied for relevance to local markets
- The characteristics of our African export geographies are studied carefully so that we can enhance the relevance of our offering in each geography
- New product development is aligned with the points above and actively pursued
- Brand investment is material and consistent, with ongoing efforts to improve the efficiency and effectiveness of this spend

Availability of experienced and commercially minded business leaders to seek improvement and grow profits

- This is an ongoing challenge, particularly given the diversity of AVI's operations. Considerable resources are expended in identifying people and, where appropriate, attracting them
- The difficulty in recruiting scarce skills creates, inter alia, poor management depth and limited succession planning with a risk of reduced business credibility and business effectiveness
- Inadequate progress on transformation would make it difficult to attract top equity candidates and reduce credibility with stakeholders and business partners
- The Company has a flexible operating model which provides high transparency to the centre and facilitates effective interaction on key matters when needed
- Remuneration and reward systems provide meaningful
 wealth generation opportunities for managers who
 excel but a low level of value in share option schemes
 in periods of low share price growth means a risk of
 loss of senior employees to more attractive
 opportunities, lower morale for senior employees in
 general, and an environment in which it is harder to
 attract the best people
- Various formal and informal internal learning and development initiatives are provided as developing in-house talent is becoming increasingly more important

Key risks and impact

Comments

Changing competitive landscape that negatively impacts profitability

- The growth of house brands, often based on imported product, means increased price competition, difficulty in getting fair representation on shelf, pressure to manufacture house brands, and changes in consumer perceptions of house brands, which could lead to increased support and investment in capacity for those brands
- There is the risk that additional capacity is created which generates surplus supply and inhibits the ability to generate economic returns on investment
- The Company's best protection in a changing competitive landscape is to continually work to keep our brands and products relevant to consumers, to improve efficiency so that margins can be sustained when prices are constrained, and to be diligent in managing the price / volume / margin equation flexibly as circumstances require
- A volatile currency with the risk of rapid and material weakening has traditionally been an effective protection against import competition
- A fairly small domestic market reduces the attractiveness of major green fields investment in South Africa
- New suppliers or customers entering the South African FMCG market can present both risks and opportunities. We believe that the Company has sufficient scale and relevance with its strong brand portfolio to be important to new entrants, and to be able to forge mutually beneficial trading relationships

Reliance on third-party brands and diminished profitability if licences are not renewed

- Most of the Company's core brands are owned
- Key third-party brands that the Company has access
 to are the Lacoste brand in Spitz and the Lavazza
 brand in Entyce Beverages. While we have a long
 history of strong and successful relationships with all
 of these parties and believe that our business units
 represent compelling opportunities to each licensor
 that will be difficult for other licensees to match, there
 is always a risk of disproportionate dependence on
 third-party brands and under-investment in owned
 brands
- During the year the decision was taken to not renew the Coty contract. With the acquisition of the Exclamation, Gravity, Whisper and East West brands last year we have reduced our dependency on this relationship

Key risks and impact

Inability to sustain and grow profit margins

- In a volume constrained environment this will lead to decline in profit and return on capital employed
- The current high inflation environment has seen margin pressure in parts of the business as input cost escalations have not been fully recovered through price increases. An easing of global commodity prices would present an opportunity to recover this lost margin

Comments

- Top line growth is a continual focus area for all of our businesses and brings with it the opportunity to leverage fixed costs and expand profit margins
- Many of the Company's Key Value Items ("KVI's")
 enjoy a brand premium because of their long legacy of
 delivery and quality. We seek to preserve this premium
 through retention of product intrinsics and high focus
 on product quality
- A failure to invest in manufacturing capacity and/or technology at the correct time may create a risk of market share erosion from both local sources and imports, and major capacity investment remains imperative
- The Company has extensive exposure to foreign exchange and commodity price volatility. These exposures are hedged in a manner that allows selling prices to be managed predictably and responsibly and historically our businesses with their strong brands have demonstrated the ability to recover lost profit margin fairly quickly after periods of pressure. The notable exception being I&J, which has little ability to compensate for the impact of a strong Rand on its material export revenues, but similarly also benefits materially when the Rand is weaker
- Significant cost inflation, most notably due to fuel prices, with an inability to fully recover through price inflation
- Over-reliance on the strength of core brands could lead to the retardation of key disciplines
- A failure to recognise the importance of product attributes in current or innovated products leading to a reliance on brand equity and/or marketing investment

Key risks and impact

Deteriorating social, political and operating environment

- Diminished capability of government departments and state owned entities, including the deterioration of public infrastructure (roads, railways, ports, etc.), impacts their delivery with concomitant impact on businesses
- Ongoing increases in administered charges for electricity, water, and property rates create additional cost pressure and reduce competitiveness relative to imports
- Increasingly inflexible labour legislation, including
 in particular the changes effected to the Labour
 Relations Act early in 2015, the interpretation of
 this legislation by the Courts in favour of
 permanent employment, and increasing demands
 and industrial action by labour unions, reduce
 competitiveness against imports, increase
 investment hurdles and create a growing disparity
 in wage costs between formal (unionised) and
 informal sectors
- The imposition of price controls pursuant to a populist political and social agenda could impact on parts of the Company's product portfolio
- Dissatisfaction with service delivery by government and municipalities could lead to civil disruption and strikes with a material adverse effect on volumes and profit
- The continued decline of educational standards erodes the supply of essential skills to maintain our medium-term competitiveness
- The emergence of new and ambitious social programmes that place too heavy a burden on organised business and taxpayers, to the extent that the availability of capital reduces in South Africa, and over time that compromises our ability to sustain our current asset base and competitiveness
- Compliance with increasing consumer facing legislation such as that in respect of labelling, advertising, genetically modified organisms ("GMOs"), salt, and sugar, and the increased focus on providing "healthy" alternatives to existing products, requiring increased work and placing pressure on research and development
- The outsourcing of government functions to private entities which results in the creation of additional layers of administration and costs to business, for example the appointment of external assignees in terms of the Agricultural Products Act
- Deterioration of public infrastructure (including roads, railways, and ports)

Comments

- Although the Fishing Rights Allocation Process has now been finalised it remains subject to various appeals (appeal outcome expected end of September 2023)
- Delays and the constant need for appeals in the Fishing Rights Application Process prolong uncertainty and delay long-term investment decisions
- In a two-tiered economy the Company increasingly competes against smaller operators that are not measured or monitored against increasingly onerous legislated requirements, where there is an increasing new entrant risk due to low barriers to entry technology and high margins
- Availability of utilities, such as power and water, necessary to run business can be mitigated at extra cost, but reduce competitiveness. The declining quality of municipal water in many areas forces increased dependence on borehole water (where available) or the installation of water filtering and purification plants, all at an extra cost to the businesses
- There is increasing financial demand on the private sector to fund the government's budget deficit and over-reliance on the private sector to address social issues
- Regulators such as the Competition Commission and the Department of Trade and Industry increasingly see their role as maintaining jobs without regard for the underlying economic merit of their decisions and proposals, such as through increasingly restrictive merger control to deal with employment, broadbased ownership, supplier development and localisation, investment, and downstream beneficiation, market enquiries, and changes to the Competition Act to include specific provisions to enable historically disadvantaged persons, and small and medium-sized businesses to participate effectively in the economy
- Changes to the Broad Based Black Economic Empowerment Codes of Good Practice with, inter alia, substantially-increased financial requirements for meeting minimum compliance levels, have had a material negative impact on the scorecard rating and made it difficult to achieve and maintain the historical rating

Key risks and impact

Environmental

- The impact of climate change on natural resources through changing weather patterns and increased global temperatures could affect natural and agricultural resources on which the Company is dependent
- Government commitments to emission-reduction targets and associated regulatory costs could have a significant impact on the operating and distribution practices of the Company

Comments

- The Group's activities generally have low environmental impact, and compliance with legislation is good
- Carbon tax is currently relatively low, and work in progress to reduce coal consumption should offset future tax rate increases
- 1&J's fishing and aquaculture activities are well regulated and there is also compliance with a number of industry adopted practices that support sustainable fishing of the hake resource
- The Group continues to evaluate opportunities to invest in alternative power and water sources

Going forward

The Company will continue reporting on sustainability issues in a way that focuses on material issues and provides a balanced view of the economic, social, and environmental aspects of the Company to stakeholders. In particular, the Company:

 Has noted efforts to unify reporting requirements, in particular the White Paper published by the World Economic Forum in September 2020 and titled "Measuring Stakeholder Capitalism: Towards Common Metrics and Consistent Reporting of Sustainable Value Creation", which seeks to "develop a core set of common metrics and disclosures on non-financial factors". The report sets out a core and expanded set of "Stakeholder Capitalism Metrics", which can be used by companies to align their reporting on environmental, social, and governance indicators ("ESG"). The Company will consider the metrics and disclosures with a view to continual improvement of its own reporting and the setting of relevant objectives and targets.

- Will continue focusing on ESG factors that are directly relevant to the Company's business.
- Will, where appropriate, expand its reporting in response to shareholder requests. In this regard, we have reviewed the recommendations of the Task Force on Climate-related Financial Disclosures and included a summary below of risks, opportunities and financial impacts following the framework provided.

Climate-related risks, opportunities and financial impacts

| 1. Cli | imate-related risks: | |
|--------|-------------------------|--|
| a. | Transition risks: | |
| i. | Policy and legal risks: | AVI complies fully with the recent carbon tax legislation and expects to be able to maintain compliance with all existing legislation that relates to consumption of different energy sources as well as emissions, effluent, and waste disposal. The Group has not experienced disruption from its suppliers due to the impact of policy and legislation changes on their businesses, and the majority of our purchase spend is with suppliers who have a strong commercial imperative to meet the climate change credentials required by their customers. Wholesaling and retailing AVI's products to consumers is a low impact activity, nevertheless many of our customers have implemented meaningful programmes that support increases in alternative energy consumption and improved waste recycling. We anticipate that policy changes will continue to support increased use of alternative energy in South Africa, providing further opportunities for the Group to evaluate. |
| ii. | Technology risks: | Typically, the Group is in a position to adopt well-established alternative technologies with low operational and cost risk. To date, the majority of changes made in our own supply chain have been accomplished within normal replacement cycles or with the prospect of reasonable return on investment. |
| iii. | Market risk: | AVI is committed to meeting consumer expectations of how brand owners should respond to climate change. The Group is not a direct participant in the climate change industry of goods and services, or adjacent industries that are likely to be impacted. |
| iv. | Reputation risk: | The Group has a good compliance history and continues to make progress in responding to the impacts of climate change, particularly with regard to energy efficiency and emissions. |
| b. | Physical risks: | |
| i. | Acute risk: | The Group consumes a wide basket of commodities and has always been exposed to events that impact the supply and demand of these items. More frequent and severe climate driven events have the potential to increase physical supply risk and price volatility. |
| ii. | Chronic risk: | Longer-term shifts in climate patterns may impact supply of key commodities and consumer behaviour in time. These risks will be monitored together with other key business risks, and responded to as appropriate. |

2. Climate-related opportunities:

a. Resource efficiency:

- The Group has a continuous improvement approach to energy efficiency. For
 example, many of our sites have been converted to low energy lighting solutions;
 as a matter of course electrical drives are converted from fixed speed to variable
 speed when they are replaced, and fuel consumption of our vehicle and fishing
 fleets is managed against demanding benchmarks.
- b. Energy source:
- Following an initial project to install solar power at the Isando distribution centre, a Group-wide evaluation of other suitable sites is in progress. Some of the manufacturing sites still utilise coal fired boilers and we are evaluating conversion from coal to gas, which will significantly reduce carbon emissions.
- c. Products and services: Given the relatively low impact of the Group's activities, consumers have not expressed climate change concerns related to our products.
- d. Markets:
- The Group is not a direct participant in the climate change industry of goods and services, or adjacent industries that are likely to be impacted.
- e. Resilience, being the capacity to respond and manage the risks and opportunities relating to climate change:
- The Group's activities relating to climate change will develop and mature to keep pace with the environment in which we operate. This will include changes in legislative and reporting requirements, as well as consumer preferences.

3. Financial impacts:

- a. The direct costs of meeting legislative changes, is likely to be material over time. AVI's annual carbon tax is approximately R2,4 million per year at current rates, and the change to fuel requirements for I&J's fishing vessels increased their fuel costs by approximately R10 million per year, although efficiency initiatives have provided a partial offset.
- b. Capital investment costs have not been onerous and will be managed in a balanced way, so that required spend is married to return on investment as far as possible.
- c. Cost pressures from emissions taxes and changing legislation requirements within our own, and our suppliers' supply chains, will be ameliorated by cost savings from lower energy consumption as well as other efficiency improvements.
- d. Increasing physical and price risk of key commodities may lead to additional investment in working capital over time.
- e. AVI will continue to protect the long-term profitability of its categories and so far the consequences of changing legislation have been successfully managed within our overall cost basket.
- f. Additional compliance requirements and operating costs add pressure to an already constrained consumer environment, and it is hoped that government will respond to this reality by adopting reasonable timelines and providing effective subsidies for future changes that are required.

Transformation

The Company recognises the moral, social and economic imperatives to embrace and support transformation in South Africa and to be a valuable participant in the South African economy and society. A transformed company in the South African context is not only one that has a workforce that is representative of the country's racial and gender demographics and that operates with a bias towards broad-based empowerment opportunities, but one that also embraces diversity.

The Company continues to focus on transformation and remains intent on providing a workplace that encourages diversity. Transformation is considered in the context of broad-based black economic empowerment ("BBBEE") and is measured annually by an external verification agency against the generic BBBEE scorecard. A central senior manager actively coordinates the Company's efforts and ensures that the subsidiaries are well educated on the various facets of transformation. The subsidiaries' progress is monitored and they are centrally assisted in their implementation of targets and other initiatives. During the year under review significant time and funds were invested in advancing the transformation plans that had been developed in previous years. The progress of these plans was reviewed at half year and appropriate and revised activities were agreed upon, where necessary.

From F10 to F14, on the original BBBEE Codes of Good Practice, AVI improved its rating from a level 6 contributor (at 53,78%) to a level 4 contributor (at 70,25%). Since 2015 the verifications have been done against the amended Codes and for the first three years the Company consistently achieved a level 7 rating, discounted to level 8. In F18 the Company improved its score and achieved a level 6 rating (78,22 points), which was then discounted to level 7 for failing to achieve the required 40% threshold on supplier development. F19 saw further improvement to a level 5 rating, with no discounting owing to the minimum thresholds for equity ownership, skills development, preferential procurement, supplier development, and enterprise development having been achieved. The consolidated score achieved for F20 was level 6 (at 71,48 points) with no discounting. The main element that contributed to the change from level 5 in 2019 to level 6 in 2020 was Skills Development. This was for two reasons, firstly the inability of the Company to continue with and complete its skills programmes during the COVID-19 lockdown, and secondly a change in the interpretation of the provision relating to the absorption of unemployed learners at the end of their skills programmes. No dispensation was given by the Department of Trade and Industry to take account of the impact of COVID-19. Since F21 the Company has consistently achieved a score of level 5 and met the 40% threshold on all three priority elements, namely ownership, skills development, and enterprise and supplier development.

BBBEE scorecard

A comparison of the scorecard elements for the last five years is set out below.

| Element | 2023 % | 2022 % | 2021 % | 2020 % | 2019 % |
|---|-----------|-----------|-----------|-----------|-----------|
| Ownership | 71,98 | 67,88 | 64,22 | 54,99 | 56,45 |
| Management Control | 42,56 | 41,25 | 40,10 | 32,67 | 29,81 |
| Skills Development (including Bonus Points) | 62,25 | 66,73 | 60,13 | 68,04 | 100,75 |
| Enterprise and Supplier Development | | | | | |
| (including Bonus Points) | 82,30 | 85,56 | 87,87 | 78,38 | 81,61 |
| Socio-Economic Development | 100 | 100 | 100 | 100 | 100 |

EmpowerLogic (Pty) Ltd Reg. No. : 1995/000523/07 BBBEE Verification Agency

Per Gianna Le Roux

Member - Verification Committee

redited (Sanas

This certificate is the result of an independent and impartial verification of the BBBEE status of the measured entity measured against the Codes of Good Practice on Broad Based B Economic Empowement and has been issued in accordance with the EmpowerLogic Verification Certificate Policy. This certificate supersedes any previous certificates issued to

Ownership

The Company achieved an ownership score of 71,98% and met the 40% threshold for net value (one of the sub-elements of equity ownership). The Company also still benefits from continuing recognition of the Company's Black Staff Empowerment Share Scheme ("the Scheme"), which was launched during January 2007. The Scheme terminated in December 2018 but over the life of the Scheme, 18 301 participants benefited from growth in the AVI share price and received a total gross benefit of R841 million, including 1 598 participants who left the Company's employ in a manner that classified them as "good leavers", which good leavers received a total gross benefit of R106,7 million.

At a subsidiary level, the Company remains committed to ensuring that a direct economic benefit flows to I&J employees.

The I&J Black Staff scheme terminated on 22 December 2021 resulting in a payment of R103,0 million to Black staff participants. Over the life of the scheme significant value was generated for Black staff with the scheme delivering R156,3 million in value to participants. Following the expiry of the scheme in December 2021, the Company's Board approved a new Black staff scheme in terms of which 6,25% of Irvin & Johnson Limited ("I&J Limited") will be held by Black staff up to 2035 through the I and J Staff Holding Company (Pty) Ltd. The share rights scheme that has been implemented delivers value against I&J share price appreciation and is an integral part of I&J's compliance for the allocation of long-term fishing rights.

As reported in previous years, the Company and Irvin & Johnson Holding Company (Pty) Ltd ("I&J Holdco") entered into a broad-based black economic empowerment transaction ("BBBEE Transaction") with Main Street 198 (Pty) Ltd ("Main Street") in 2004 in terms of which Main Street held a 20% shareholding in I&J Holdco.

After being extended in 2012, 2018 and 2022, the BBBEE Transaction came to maturity on 1 July 2023 and was terminated in accordance with the agreements. AVI and I&J are proud to have successfully partnered with Main Street over a 19-year relationship which generated significant value for all parties, including over R202 million in net cash flows for Main Street.

AVI and I&J Holdco are fully committed to transformation in South Africa and have finalised a new broad-based black economic empowerment transaction ("New BBBEE Transaction") resulting in Twincitiesworld (Pty) Ltd ("Twincitiesworld"), a 100% black-owned company, acquiring 18,75% of the issued share capital in I&J Limited. The structure of the New BBBEE Transaction aligns with that previously in place and provides Twincitiesworld with the opportunity to participate in the economic benefits of I&J Limited through a material ownership stake.

Together with the 6,25% shareholding owned by I&J employees, 25% of the issued share capital of I&J Limited is held by black shareholders, thus promoting an equitable and sustainable economic participation through the broad-based sharing of value creation to the benefit of all stakeholders.

The New BBBEE Transaction has been registered as a major BBBEE transaction with the BBBEE Commission in accordance with Regulation 18 of the BBBEE Regulations, and the Department of Forestry, Fisheries and Environment has been notified of the change of shareholding in I&J Limited in accordance with clause 6.2 Policy for the Transfer of Commercial Fishing Rights dated 31 July 2009, as promulgated in terms of section 21 of the Marine Living Resources Act, 1998.

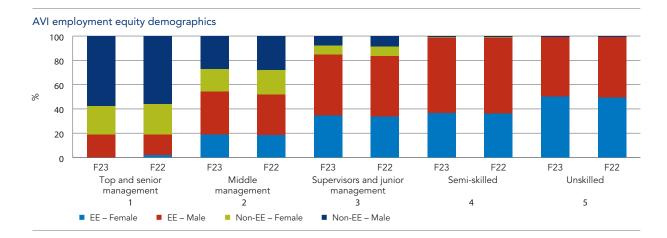

AVI is pleased to have concluded this transaction with partners who are committed to the long-term social upliftment of their communities.

Management control

Management control measures both Board participation and employment equity as one element.

The Company achieved a score of 42,56%. Management control is an area of heightened focus for the Company. The Management Control element measures transformation at the Senior, Top, and Board levels and the Employment Equity element measures transformation at the Junior and Middle Management levels.

Attracting senior Black candidates from their current employment in these less than certain economic times is difficult with employees often being loathe to leave existing employment. The Company nonetheless continues its efforts to appoint, develop, and retain Black employees, especially where representation is required in the middle, senior, and top management bands. The Company's employment equity efforts remain behind training, developing, and mentoring

Black employees with the objective of retaining them and preparing them for more senior roles.

Skills development

Development of the Company's employees remains a priority. Material progress has been made over the years by originating relevant learning opportunities for a broad community of employees, continually reviewing current learning services and requirements, and enhancing their alignment to the Company's needs. This has assisted the Company in the development of its employees in an appropriate manner, and in progressing the Company's transformation agenda.

The amount spent on recorded skills development initiatives in the past financial year was R73,29 million, equivalent to 2,80% of leviable amount, as defined in the Skills Development Levies Act, namely the total amount of remuneration, paid or payable or deemed to be paid or payable by the Company to its employees during any month. 5 465 employees, or 62,07% of the total workforce (including permanent and fixed term contract employees), were trained during the year, 96,21% of whom were Black and 44,67% of whom were female.

The Company achieved a score of 62,25% (including Bonus Points) and met the required 40% threshold.

The Company continues to have strong and credible relationships with five key Sector Education and Training Authorities ("SETA"), including the Food and Beverage SETA, the Wholesale and Retail SETA, the Transport SETA, the MICT SETA, and the Chemical Industries SETA, which enabled the Company to receive mandatory grant payments of R5,37 million and discretionary grant payments of R2,83 million in the year.

The Group Skills Development Facilitator continues to focus on the management of PIVOTAL (Professional, Vocational, Technical and Academic Learning) programmes. During the year the Company had 540 learners (the majority of whom were Black) on such programmes.

Learnership programmes remain a priority throughout the Group. In the past year National Brands supported 259 learners of whom 70 were unemployed disabled persons on key programmes, including End-User Computing Level 3. National Brands has also enrolled 38 apprentices on critical and scarce trades courses.

I&J has made substantial investments in training unemployed youth for the fishing and broader maritime industry. I&J was also the first Group business to participate in the Youth Employment Service (YES programme) initiated by government in F20 in terms of the BBBEE Act and aimed at youth

employment. In F23 I&J registered a further group of 93 unemployed youths on 12-month youth employment contracts, thereby giving them their first opportunity at employment. During the past year I&J invested in the formal training of 131 people (of whom 55 are disabled) on programmes including NQF4 Management and Leadership Development, and NQF3 End User Computing, as well as Apprenticeship programmes for both employed and unemployed individuals.

Indigo Brands trained 17 learners and focused on NQF3 Business Administration and NQF3 End User Computing. For the period F23 Indigo Brands invested in unemployed Disabled Learnerships.

Spitz successfully enrolled 58 people on the NQF5 Retail Chain Store Manager programme with IMM. In addition, 13 store managers participated in the NQF5 Generic Management programme for wholesale and retail and 16 store managers were enrolled on the NQF4 General Management programme. 13 unemployed, disabled learners were enrolled on an NQF3 and NQF4 Generic Management programme. Six employees' higher education studies are being funded by Spitz bursaries.

Ciro enrolled 12 disabled people on the NQF3 End User Computing programme, and a further 10 employees on NQF4 and NQF5 Generic Management programmes, and a Contact Centre Support programme.

Since the inception of the AVI Graduate Programme in F16, students have had various opportunities within the Group. There are currently 31 graduates enrolled on a 24-month programme across I&J, Spitz, and National Brands. 16 are in their first year and 15 are in the final year of the programme. The Company will try and place all graduates who are in their final year into permanent employment at the end of 2023, having proven themselves through their respective programme experiences. 94% of the graduates are Black. All 31 current graduates have had the opportunity to engage in soft skills and business specific training in order to fast track their development. At this stage there will be 21 new graduate positions in 2024 across National Brands and I&J, spanning various fields such as human resources, finance, engineering, planning, sales, quality, procurement, supply chain, and operational management and systems.

The Company remains focused on the development of online training courses in an effort to reduce the cost and complexity of classroom-based programmes, particularly in the retail businesses. In addition to the initial Customer Service and Payment Administration online courses that were run successfully throughout the Spitz business, there are currently over 60 additional online courses on the system to enable efficient, effective, and personalised knowledge transfer for development, governance, and compliance purposes. These have assisted employees to access knowledge from any location, free of charge, and have enabled a view of their progress and achievements.

The Company will continue identifying other appropriate online training programmes, while

continuing to benefit from the holistic view of our talent and succession strategies across and within our businesses.

Enterprise and supplier development

Under the amended Codes this element now comprises preferential procurement, enterprise development, and supplier development.

The Group enterprise and supplier development team, in collaboration with specialist procurers in the Company, and with a focus on favouring local empowering suppliers (as defined in the amended Codes), plays a large role in the Company's enterprise and supplier development strategy. The Company achieved a score of 82,30%. The Company met the 40% threshold in all three elements, namely preferential procurement (93,73%), supplier development (49,55%), and enterprise development (46.05%).

Group enterprise and supplier development work closely with the business unit procurement teams to identify and review potential supplier development projects, both to replace imported raw material/ packaging suppliers and to develop Black-owned suppliers for locally supplied raw materials, services, and/or packaging. Each potential project is reviewed to ensure that the potential supplier meets the criteria stipulated in the Group's Enterprise and Supplier Development Plan and that the project is sustainable. Suitable projects are hard to find and take considerable time to review but once they have been identified and verified as being both commercially viable and contributing towards the sustainable development of local suppliers, agreements are signed and priority given to implementing the projects. Some of the projects that have been implemented and continue to be managed include:

- Early payments to Exempt Micro Enterprises
 ("EME") and Qualifying Small Enterprises ("QSE"),
 which increased by more than 69% compared to the
 previous financial year.
- Funding of select supplier and enterprise
 development initiatives across a wide range of
 sectors in collaboration with reputable third-party
 institutions, such as Inyosi Empowerment and B1SA.
 Among the enterprise development beneficiaries
 being funded through Inyosi Empowerment, are
 Smart Diva Accommodation and Ywaste Solutions,
 both of whom are beneficiaries of low interest loans
 and have been graduated by Ciro and I&J
 respectively, from enterprise development
 beneficiaries to BBBEE suppliers.
- AVI has also directly provided an interest free enterprise development loan to Delta Wholesale, a 100% black-owned business (with 51,8% black female ownership and 18% black youth ownership).
- Partnering with Inyosi and B1SA to provide the Company's QSE and EME suppliers with access to their buyer/supplier networking platforms, namely iHive Procurement Portal and B1Link respectively.
- Continued focus on graduating enterprise development beneficiaries into long-term Group suppliers.
- Engaging non-compliant suppliers and providing them with training on the BBBEE Codes of Good

Practice in order to empower them to improve their BBBEE scores.

 Investment in a QSE with the requisite technical competence to blend and co-package coffee for selected Ciro products, which investment has yielded pleasing results with a consistent annual growth in volumes.

Procurement from local suppliers and service providers remains a strong focus for the Company. Localisation stimulates local production, creates or sustains employment, helps to improve the quality of local production, and enables better lead times with cost reductions. The following outcomes were achieved in F23:

- Specialised paper wax liners for I&J products, a key product for I&J, which are currently imported from Denmark, China, and the United Kingdom, are in development with a local packaging supplier.
- Ciro has sourced a local manufacturer of specialised cleaning chemicals and detergents to replace materials previously sourced from Italy and Switzerland.
- National Brands has been engaging with local tea growers to expand the volumes currently supplied by them, which has the potential to reduce its heavy reliance on teas sourced from Malawi, Kenya, Zimbabwe, Tanzania, and Sri Lanka.
- A supplier development project for a Procurement e-Catalogue that allows buyers to procure low value, high volume products, has progressed well.

Software development has been completed, tested, and integrated with the Group's ERP system, with suppliers loading their content for phase 1 implementation in August 2023, with a view to enabling suppliers, particularly small and medium-sized enterprises, to gain low cost access to purchasers such as the Company.

Currently -

- 86% of local suppliers are BBBEE compliant.
- 10% of the local procurement spend is with EMEs and QSEs.
- 44% of the local procurement spend is with Black-owned vendors.
- 37% of the local procurement spend is with 30% (at least) Black women-owned vendors.

The Company engages with suppliers regarding their transformation needs and requires its suppliers to register on the Department of Trade and Industry IT portal, which provides a single national catalogue of vendors and their BBBEE profiles. In addition, the Company engages with suppliers regarding their empowering supplier status and assists suppliers, where necessary, to achieve this requirement.

The subsidiaries have procurement policies addressing such matters as BBBEE targets, origin of materials, environmental awareness, and sustainability, as well as labour practices and ethics. Potential suppliers are required to undergo a thorough vendor evaluation and selection process and

are required to comply with the AVI Group Supplier Code of Conduct (https://www.avi.co.za/). Wherever possible, locally based suppliers are preferred over international suppliers. The Company makes every effort to ensure that it only does business with suppliers who comply with all applicable legislation and has not identified any of its suppliers where employees' labour and human rights are, or are at risk of, being violated.

Corporate social investment

The Company's corporate social investment ("CSI") programme is aimed at bringing about positive social and economic changes to historically disadvantaged communities in the environments in which the Company operates. The Company again achieved a score of 100% for its socio-economic development in the most recent BBBEE rating. On an annual basis an amount of approximately 1% of the Company's pre-tax profits achieved in the previous year is set aside for this purpose. The areas of focus are broadly education and skills development; health and welfare; and social and community development. Grants are managed through the Company's Community Investment Trust. This trust is served by elected

employees who have shown an interest in CSI and an ability to manage the CSI programme. All material projects are properly vetted and monitored by the trustees to ensure that they achieve what was initially intended. In addition, the Company is always cognisant of the impact, both negative and positive, that its operations could have on local communities and commits to identifying any such communities and to engaging with them regarding the prevention or mitigation of negative impacts. For this reason many of the programmes supported by the CSI funding operate in or near to the communities in which the Company's operations are located.

During the year R23,76 million was available to the Company's CSI programmes.

- 4. Learn to Earn

The greatest portion of the Company's CSI funding was spent on education and skills development projects, as follows:

- The Ikusasa Student Financial Aid Programme ("ISFAP"), whose stated purpose is to provide needs-based assistance to students from poor and working-class families (the "missing middle"). This support enables students to acquire a broad set of knowledge, skills, and character traits that will significantly improve their meaningful participation in the economy. Areas covered include the economy, human development, leadership, ethical behaviour, and broad citizenship. The intention is to advance equal opportunity and equitable income distribution for all South Africans. The Company is supporting 12 students in Engineering and Food Science courses over their four-year degrees. The contribution provides tuition, meals, accommodation, transport, books, and stipends for selected students over the course of their study period. Additional psycho-social support is also provided by the programme, including academic support, social support, life skills training, mentoring, and medical support.
- The Supplementary Education Trust continues to be a meaningful cause. Through their incubator programme, learners from grades 10 to 12 are exposed to high-quality educational materials and they are provided with expert tuition in English, Mathematics, and Science, on Saturdays and during school holidays, with a view to enabling them to successfully complete their final matriculation exams and further their education at a tertiary institution. In addition, learners in grades 8 and 9 are provided with the same support for Mathematics. The Trust also provides necessary study materials, career guidance, life skills training, transport, and food. The programme seeks to upgrade the learners' academic standards to enable them to further their education at a tertiary institution. The Company has to date invested more than R10 million in the Durban and Winterveldt incubator programmes, as it has done since 2013. These programmes include learners from impoverished homes and underperforming schools in areas such as Umlazi, Inanda, Kwa-Mashu, Claremont, and Mabopane.
- The Diepsloot Foundation, which was founded in 2008, provides Adult Basic Education and Vocational Training as a key component of its strategy to uplift and empower the community through education, vocational training, and enterprise development. The key objective is to channel funding, skills, and resources into sustainable projects that will benefit and build the competencies of individuals and groups within Diepsloot. The projects also allow disadvantaged youth over the age of 18 who have not achieved their matric to achieve a matric-equivalent. Over the years funding from the Company has supported the programme in general and enabled the opening of an Early Childhood Development Centre – Khulani (meaning "to grow").
- The Company has supported the Kliptown Youth Programme since 2008. The organisation was

- founded in 2007 and is situated in the Kliptown informal settlement in Soweto. It provides a safe haven and educational support for children and youth in grades 1 to 12. The programme provides food for the children to take to school and offers a free after-school centre with a hot lunch and additional weekend activities.
- The Ruth First Scholarship Programme sponsors disadvantaged girls' attendance at Jeppe High School for Girls, one of the country's foremost public schools for girls, with full tuition, boarding costs, and pocket money, to grade 12. The Company is currently sponsoring 13 girls in different grades.
- The Rapport Education Fund supports young students from disadvantaged communities with bursaries to enable them to gain a tertiary qualification with a view to qualifying as teachers, many of whom are now teaching at schools in under-privileged communities. The Company has been supporting the programme since 2014 and, in 2022, supported another 27 students.
- The St Mary's School Waverley Foundation provides critical resources and opportunities to girls from disadvantaged communities by supporting their education and training, and the funding of community affairs programmes. The Company is currently committed to funding for two girls for the full terms of their secondary school studies. The bursary includes payments for tuition, boarding, study materials, uniforms, and extra-mural activities, including money to provide the necessary equipment for cultural and sporting activities.
- The Learn to Earn foundation trains students in Basic Computer Skills, Office Administration, Sewing, Hospitality, and Barista programmes, across three learning centres in the Western Cape. Students receive core skills training with supplementary life skills training. The foundation also facilitates access to further education and economic opportunities for their students.
- Afrika Tikkun focuses on education, personal development, career development, nutrition, health, family support, skills development, and ultimately, work placement, through its Cradle to Career Model. The programme focuses mainly on young people between the ages of 18 and 29. The goal is to ensure that young graduates of the skills programmes enjoy a better quality of life through access to employment or self-employment.
- Kingsway Centre of Concern operates the Kingsway School and the Thandanani House of Refuge. The school has 13 teachers and caters for 257 learners from grades 00 to grade 7. The school provides high quality early childhood education to disadvantaged pre-school children from the informal settlement of Zandspruit and its surrounding areas. In addition and aided by a well-supported school nutrition programme, the children receive food parcels to take home. The Company partners with the school to provide much needed support to the foundation phase schooling.
- The My Maths Buddy project of the South African Mathematics Foundation is an initiative to promote excellence in mathematics, improving results for

- both teachers and learners. This is done through focused workshops using the My Maths Buddy book. The book is a mathematics dictionary developed to help understand mathematics terminology. Teachers and learners are taught by the My Maths Buddy project to use the book. During 2022 the Company funded delivery of the project to two schools located in Mangangeni in KwaZulu-Natal, and one school in Bronkhorstspruit.
- The Theo Jackson Jeppe Trust provides scholarships for boys from disadvantaged backgrounds at Jeppe High School for Boys. The Company currently sponsors five boys in different grades. The sponsorship covers the full cost of tuition, boarding, study materials, and extracurricular activities.
- The Two Oceans Education Foundation was
 established to promote and expand on the Two
 Oceans Aquarium educational, conservation, and
 research initiatives. The Foundation places
 emphasis on marine sciences and includes free
 environmental education outreach programmes
 through the Marine Sciences Academy, as well as
 online course and classes that were recently
 launched. The Company currently supports, inter
 alia, the Junior Biologist programme and has made
 it possible for bursary opportunities to be provided
 for students to complete the FET CAPS Marine
 Sciences curriculum.
- Just Grace aims to alleviate poverty in the Langa community in Cape Town by supporting education attainment and skills training. They deliver a range of education, community development, and entrepreneurial projects. They identify projects with community members or through partnerships with local organisations. The Company helps to fund the Just Grace Qhubeka programme, which provides participating youths with comprehensive support and guidance over a four-year period (from grade 9 to grade 12) through 10 sub-projects, namely: academic support, social work counselling and psychosocial support, youth opportunity programme, computer training, weekly book club, computer coding/programming, life skills, women's discussion group, job shadowing, and the holiday
- Love Trust grows leaders and delivers excellent, values-based education to early childhood development teachers and, through the Nokuphila School in Midrand, to 380 vulnerable children in grades 000 to grade 7 from, primarily, Ivory Park and Tembisa in Gauteng. Support includes scholar transport and meals. The Love Trust Teacher Training course is SAQA accredited to ensure the teachers are provided with the required skills.
- LEAP Science and Maths Schools provides free education to students from high-need communities, with mathematics, physical science, and English as mandatory subjects. The extended school day is nine hours and special programmes are held on Saturdays and during school holidays. Every LEAP assisted school is partnered with a more privileged school within the surrounding area. The Company currently supports 10 learners in grades 8 to 10 in two Gauteng schools and one Western Cape school.

- The Michaelhouse Community Partnership Trust partners with 18 local public schools between Lions River and Mooi River in the KwaZulu-Natal Midlands to improve their standard of education and to offer teacher development through training and mentorship. The Company provides ongoing funding for the appointment of Edu-helpers who are qualified or qualifying teachers and are recruited to teach, tutor, coach, or assist with any necessary development programmes in the schools supported by the Trust.
- The Swiss-South African Co-Operation Initiative (SSACI) supports a range of training and job creation projects for South African youth. Its purpose is to enable young people to become more employable by aligning a vocational curriculum to industry's needs through workplace learning. The model comprises six to eight months full-time institutional training at an accredited training centre, followed by 18 months of structured, workplace-based training at a commercial company. Thereafter, the apprentice undergoes a further two to four weeks of trade test preparation before being entered for the trade test. A six-month work readiness programme is included towards the end of the practical workplace-based training in order to prepare the apprentice for the world of work. The Company is supporting nine learners who are in their second year of the programme.
- Olico Maths Education provides high quality maths resources and after-school maths tuition, with a view to fundamentally transforming the academic performance of the students. In 2022 the Company sponsored the programme at the Alex High School.
- The Nthuse Foundation was established in 2013 with the aim of assisting young people with disabilities to obtain a tertiary education. The Company is currently supporting four students to embark on studies in commerce and information technology.
- Safe Study started its programme in 2020 to create safe urban spaces in Johannesburg where underprivileged children can engage in foundation learning programmes that combine arts, academic and mental wellness into one educational experience.

Other worthy initiatives that the Company supported during the year were:

• The National Sea Rescue Institute ("the NSRI") of which I&J is a platinum member, and to which the Company makes an annual donation, is staffed by volunteers and has rescue bases along the coast and on inland waters. Over the years I&J has made a substantial contribution to the organisation's infrastructure, building a state-of-the-art rescue station in the Cape Town harbour, donating a number of rescue craft, and supporting the School Drowning Prevention Programme. This programme has, to date, trained 24 000 children and is aimed at teaching children how to recognise and react appropriately to the threats posed by open bodies of water and to assist in helping those in a potential life threatening situation. The Survival Swimming Programme is a practical approach to drowning prevention using a host of basic swimming principles to increase the chances of survival.

- The Red Cross Children's Hospital, where I&J's contributions since 1997 have funded the construction of consultation rooms, a radiology facility in the trauma unit, an isolation ward in the burns unit, the upgrade and expansion of the Paediatric Intensive Care Unit, expansion of the Emergency Centre, and, in collaboration with government and the Red Cross Children's Trust, the establishment of the Child Speech and Hearing Clinic at the Mitchell's Plain Hospital. In the past year the support from the Company was applied to the Orthopaedic Unit.
- The Whale Coast Conservation Trust ("WCCT") was established in 2002 with the mission of unifying. coordinating, and promoting environmentally sustainable living in the Cape Whale Coast region of the Western Cape. I&J has collaborated with the WCCT to inspire environmental learning and an understanding of one-planet/sustainable lifestyles through sponsorship of environmental education programmes. Following completion of the programme, schools are given "eco-school" status. The Company's continuing contributions assisted the Trust to present a series of expos and provide environmental tours, designed to make children aware of the critical ecological role that estuaries play in the Whale Coast area, to schools in the Gansbaai area.
- The Worldwide Fund for Nature is one of the world's largest and most respected independent conservation organisations. The Company contributes directly to the WWF-South African Sustainable Seafood Initiative ("WWF-SASSI"), which is positioned as the interface between civil society, the private sector and government to drive responsible consumption and sustainable practices throughout the seafood supply chain.
- Enactus promotes and supports leadership and professional development for registered students, challenging students to take entrepreneurial action to enable progress in order to ultimately improve the quality of life and standard of living of marginalised communities. Enactus brings together students, academics, and business leaders who are committed to using the power of entrepreneurial action. Guided by the academics and business leaders, the students create and implement community empowerment projects. During the past year the Company continued supporting the Enactus teams at the Durban University of Technology, the University of the Western Cape, the University of the Witwatersrand, and the University of Pretoria.
- St Mary's Outreach Programme started in 2004 as a Catholic mission and now operates in the rural areas of Marianhill in KwaZulu-Natal, catering for destitute and unemployed youth, women, and children. The programme offers a home drop-in centre for orphaned and vulnerable children, psychosocial counselling, a school health programme, community-based developments, income generation projects, and gardening projects.
- The Carel du Toit Centre, operated by the Carel du Toit Trust, offers detection, intervention, and treatment for hearing impaired children to

- enable them to enter mainstream schooling. Support by the Company enables the programme to have five school buses across five transport routes in the Western Cape for children whose parents are unable to pay for transport. The Centre is the only school of its kind in the Western Cape and most of the learners come from far outlying areas. More than 60% of the learners depend on the transport programme to get to school and back home. The Company has also provided funding for the development of a system for testing babies' hearing at birth, including the upskilling of selected persons with an accredited short course in Newborn Hearing Screening, which is a much-needed resource in the public health sector in particular. Parents of new-borns and young children are now able to access this service through community outreach programmes such as Children Hear and Talk (CHAT).
- Heart-Work reaches prisoners who have never been exposed to personal therapy or have never been afforded the opportunity to learn about their personal emotions in a controlled and secure environment, to curb the re-admittance rate that most prisoners experience, and to learn healthy coping mechanisms and integration skills. The Company's support has enabled the programme to be implemented in six correctional centres across Gauteng.
- Little Eden cares for children and adults with profound intellectual disabilities. They are provided with 24-hour nursing care, medicines, therapy, food, clothing, and shelter. The Company has adopted and fully supports five residents at the centre.
- The Domino Foundation partners with establishments such as early childhood development centres to provide meals, and with community organisations to provide relief hampers. The Foundation operates in 10 communities across KZN and provides meals to over 60 establishments. The Company continues contributing towards these activities in KwaZulu-Natal.
- Graceland provides a place for 20 girls over the age
 of 18 to grow and get ready to step into adult life.
 Together with the Menstruation Foundation they
 are also working on ending period poverty through
 the provision of free, locally made, eco-friendly
 pads and the installation of pad vending machines.
 The Company has sponsored the installation and
 monthly restocking of four sanitary pad dispensing
 machines at four high schools in KZN, Gauteng, and
 the Western Cape.
- The KZN Children's Hospital Trust is working in a public-private partnership with the KZN Department of Health to renovate and re-open the hospital, which opened in 1931 but closed in 1984. The Trust has already made significant progress on the project and the Company has provided funding for the next phase of renovations, being the original Old Main Children's Hospital building. This is a heritage building and requires particular care to be taken in the renovations. Once done the building will house a centre for mental health, offering both outpatient and inpatient services and will address a significant gap in child health services in KZN where

- 88% of children with mental health issues do not have access to the appropriate services.
- Rise Against Hunger is a volunteer-based meal packaging programme. The meals consist of highly nutritious dehydrated meals comprised of rice, soya, and vegetables, which only require water and a basic stovetop to cook. The programmes main focus is children between the ages of 1 and 6 and the support is provided through the ECD Connect programme. The Company's support paid for 80 000 meals for ECD centres in the network. In addition, the programme is included in the Company's annual Mandela Day drive, which enables employees to volunteer to pack and deliver meals.
- The Saartjie Baartman Centre for Women and Children opened in 1999 in response to the high rates of violence against women and children on the Cape Flats. To date they have assisted over 260 000 women and children. The Centre provides a multi-disciplinary service to manage and prevent violence and to assist those in need of support. The Company's contribution to the Centre will enable it to continue providing cost-free services, 365 days a year, to abused women and children, while at the same time working on programmes to address the underlying issues.

The Company has also been involved in or made ad hoc donations to a number of other important initiatives, such as the South African Air Force Association, Action for Blind, Hotel Hope Ministry, Buhle Farmers, The Trauma Centre for Survivors of Violence, Save Our School, Cancer Association of South Africa, Caritas Gemeenskapsfokus, Centre of Excellence Bishop Lavis, Focus on iThemba, CHOC Childhood Cancer Foundation SA, Embocraft Training Centre, Farouk Abrahams Goalkeeper Academy, Boost Africa Foundation, Go for Gold Tuition, Knysna Sedgefield Hospice, Ladles of Love, Lesedi La Batho, New Beginninz, Operation Smile, Siyabonga Africa, The Ark Safe Haven, Service Dining Rooms, The Library Project (The Bookery), and Thomson Smillie.

In addition to contributions made to various organisations by the Trust, I&J also contributed just over R1,13 million directly to a number of programmes aimed at the communities in which its employees live and work, such as Service Dining Rooms, The Children's Hospital Trust, Eleven Express Football Club, Seesterretjies Early Childhood Development Centre, Gansbaai Academia, The Homestead Project

for Street Children, Heideveld Rescue Mission, Lifesaving Cape Town, The Trauma Centre for Survivors of Violence, Abraham Kriel Childcare, Blompark Ikamva Early Childhood Development Centre, Masakhane Pre-School, and SA Harvest.

The AVI Graduate CSI Project was launched in F21 in collaboration with the Trust. The Project is aimed at exposing graduates to social challenges in the country and positioning them to become social change leaders and contributors to the communities in which they live. The graduates choose a number of beneficiaries, which each receive R50 000 from the Trust and the graduates engage with them by providing time or key skills. This year the graduates are working with four non-profit organisations, being the Faith & Hope Foundation, the Jumpstart Foundation Trust, the Seesterretjies Early Childhood Development Centre in Gansbaai, and the Durban Child & Youth Care Centre.

At a more personal level, the Company's employees are encouraged to become involved with their local communities on Company sponsored employee volunteer days. All of the projects are selected from organisations with which the Company has established relationships and the Company gives employees time off to provide their services to these projects. In 2023 employees across the Group participated in the Rise Against Hunger meal packing event on Mandela Day. Five teams packed over 15 000 meals which will feed 70 children for an entire year.

Good corporate citizenship

The Company recognises the benefits of being a good corporate citizen with a commitment to contributing to sustainable economic, social and environmental development. This is achieved through working with employees, their families, the local communities and society at large to improve quality of life, and being an organisation with which it is desirous to do business.

During the period under review, approximately 2 889 contractors were employed throughout the Group in terms of substantive agreements with service providers for non-core Group functions, including security, cleaning, and catering. These contractors all have employment agreements with the relevant third-party service providers, who manage all aspects of their remuneration, benefits, working hours, etc. Service providers are required to comply with applicable laws (including those relating to remuneration and employment conditions), as well as the AVI Group Supplier Code of Conduct available on the external Company website (https://www.avi.co.za/).

99% of the employees in the Company's total South African operations are South African citizens. In Namibia, Zambia, and Botswana, 100% of employees are citizens of those countries. 100% of the Company's top and senior management are South African citizens or permanent residents.

Of the Company's permanent employees, 36% are members of recognised trade unions covered by

collective agreements defining the terms of the relationship between the Company, the unions and the members, as well as their engagement on matters ranging from operational changes to annual negotiations on wages and other substantive issues. Union engagement is managed at an executive level within the subsidiaries, with oversight from the Company.

All employees are remunerated based on either external benchmarking and salary surveys or in accordance with collective wage agreements and/or applicable sectoral determinations. Membership of a Group retirement fund is compulsory for all permanent employees (including flexi-time and part-time permanent employees). Such membership includes life and disability cover, with some of the funds also providing funeral benefits. Medical scheme membership is compulsory for all permanent employees within the D, E and F bands and optional for other permanent employees. Fixed term employees are not eligible to join one of the Group's retirement fund or the medical scheme.

All employees are entitled to the leave benefits as provided for in the Basic Conditions of Employment Act, 1997, or the relevant Sectoral Determination, and the AVI Group Leave Policy, including, as applicable, annual leave, maternity leave, parental leave, adoption leave, commissioning parental leave, and family responsibility leave.

The Company requires the subsidiaries to have appropriate policies and procedures to address employee and industrial relations issues and to ensure that these policies and procedures are communicated to all employees and other relevant stakeholders.

The Company commits to and complies with all applicable labour and employment legislation, including legislation pertaining to freedom of association, child labour, and forced and compulsory labour, and is committed to the protection of all employees' human rights, the provision of decent work, and fair and sustainable labour practices. During the year no infringements of these rights or incidents of discrimination were reported.

Health, safety and wellness

The Company provides a healthy and safe work environment to its employees as a basic right and recognises that such a workplace enhances employee morale and productivity. It is also recognised that a healthy and safe workplace is essential particularly in the food handling industry and ensures that consumers are protected and product quality is assured.

Health and safety requirements are firstly monitored and reviewed within the risk management framework of the Company and legislative compliance is required as a minimum standard. The requisite health and safety committees are in place and training occurs on an ongoing basis. These on-site committees deal with issues as and when required, and if necessary they elevate matters to the internal review committees to which they report. If necessary, matters are referred to the Company's Board or Audit and Risk Committee. In addition, the Social and Ethics Committee monitors these matters. There are also various supplementary health and wellness initiatives that form part of the Company's employee engagement framework.

Statistically the Company's safety record is viewed against the industry standard disabling injury frequency rate ("DIFR"), which measures the percentage of employees that suffer a disabling injury for every 200 000 man hours worked. A disabling injury is an injury that causes an employee to miss a shift following the one on which they were injured. The Company experienced 76 disabling injuries. These injuries resulted in 682 lost days for the year, and an achieved DIFR of 0,61 for the year.

The Company categorises all injuries into one of three classes. Class 1 being damage that permanently alters a person's life to class 3 that inconveniences a person's life. During the year under review there were zero class 1 injuries, 11 class 2 injuries, and 65 class 3 injuries. Each injury was properly reported and investigated and remedial and preventative actions taken, including where necessary, additional or

improved employee training or changes to the work environment. Throughout the businesses steps are taken to proactively identify and prevent potentially harmful situations and improve employee training. In response to work-related upper limb disorders caused by repetitive motion, Indigo Brands implemented an ergonomic programme whereby evaluations are conducted by an Occupational Therapist to highlight undesirable ergonomic conditions and practices. The Risk Co-ordinator and employees were trained on good ergonomic practices and additional measures to address poor ergonomic conditions are in the process of being implemented.

The high safety standards adopted by the operations are continually being enhanced by accreditations from independent standard-regulating authorities.

Store robberies in the retail sector remain problematic and both Spitz and Green Cross are taking all practical measures to limit the probabilities of and risks associated with robberies in their stores, including continually updating and improving electronic surveillance, and physical security measures. As staff safety is paramount, staff are trained on how to react in the event of a robbery. In addition, Spitz and Green Cross maintain a close relationship with the AVI Employee Wellness Programme to ensure that affected staff receive counselling after any traumatic event.

All of the National Brands manufacturing facilities maintained their Food Safety System Certification ("FSSC") 22000 V5.1. They also maintained their American Institute of Baking ("AIB") Food Safety Standard certifications, acquired and maintained their annual Certificates of Acceptability (now the R638 certificate) from their local municipal authorities, and maintained their ISO 45001 Occupational Health and Safety Management system certifications.

The Indigo Brands cosmetics and aerosol factories are ISO 9001:2015 (quality management system), ISO 22716:2007 (Cosmetics Good Manufacturing Practice) and SANS 1841 (Control of Quality: Trade Metrology Act) certified. In the year under review Indigo Brands maintained compliance against all of these certifications. Indigo Brands actively works with its suppliers and conducts supplier evaluations in the form of cross-functional workshops and engagements, document verification/traceability and/or quality management system audits. This enhances the businesses' quality management capabilities, thus creating greater reliability regarding incoming raw materials and componentry.

The I&J Woodstock and Valued Added Processing sites have Hazard Analysis and Critical Control Points ("HACCP") accreditation, which is regulated by the National Regulator for Compulsory Specifications. Woodstock achieved an "A" rating with British Retail Consortium for Global Standards ("BRC"), while Value Added Processing achieved an "A+" rating, and both facilities retained Higher Level International Food Standard ("IFS") global food safety certification. Other certifications include Marine Stewardship Council ("MSC") Chain of Custody Certification (a sustainability certification) and SANS 1841 (Control of

Quantity – Trade Metrology Act) certification. The independent Micro laboratory (MICRON) at the Woodstock factory has SANAS 17025 accreditation and the Auckland Cold Store in Paarden Island is ISO 22000 and HACCP accredited, as well as ZA 282 certified (certification by the Department of Agriculture allowing the export of frozen product into the Southern African Development Community). The I&J chicken processing plant is ZA 111 certified (certification by the Department of Agriculture allowing the processing of chicken products). In addition to applying standards to the Company's own operations, the factories continue to make progress through supplier audits with a view to having all their suppliers certified to a recognised Food Safety standard. In accordance with customer requirements, the Amfori BSCI social audit was conducted in April 2022 and an "A" rating was achieved in each performance area with zero non-compliances. In recognition thereof the next audit will only be required in 2024. The Amfori BSCI code of conduct and the SMETA audit refer to international conventions such as the Universal Declaration of Human Rights, the Children's Rights and Business Principles, UN Guiding Principles for Business and Human Rights, OECD Guidelines, UN Global Compact, and International Labour Organisation conventions and recommendations relevant to improve working conditions in the supply chain.

All of the Company's sites are reviewed annually by independent risk management consultants and continual improvement is driven through risk committees at each site, which in turn report their findings to the Company's Audit and Risk Committee, which has the responsibility for the consideration of risk management throughout the Group.

The Company is a Top 50 subscriber to the Food Safety Initiative which operates under the auspices of the Consumer Goods Council of South Africa. It takes all reasonable steps to collaborate with stakeholders to ensure that food produced, distributed, and marketed in South Africa meets with the highest standards of food safety and nutrition, and complies with legal requirements or recognised codes of good practice.

The Company has a formal HIV/AIDS policy which details, inter alia, the Company's philosophy, responsibilities, and support programmes. Flowing from this, policies and practices have evolved over the years that include the placement of permanent clinics at the larger sites; knowledge, attitude and practices surveys; awareness and education programmes; voluntary counselling and testing programmes; individual case management; the provision of universal precautions to prevent accidental transmission in the workplace; and the dispensing of free condoms. From time to time, the businesses also run additional campaigns, such as awareness campaigns via WhatsApp groups and quarterly newsletters.

Following the success of the Company-wide HIV/AIDS voluntary counselling and testing ("VCT") programme that was introduced in 2007, the Company offers this

service at all sites to all employees. The VCT programme achieves the objectives of raising awareness, increasing significantly the number of employees that know their HIV status, and providing the Company with detailed information per site so that its efforts are appropriately focused.

Primary healthcare clinics are located at each of the Company's larger sites, manned on a full-time or part-time basis by appropriate medical professionals. These clinics are well equipped to play a material role in the day-to-day healthcare management of the Company's shop floor employees, and in a number of instances provide basic medication to these employees as well as an outreach programme for immediate family members. They also facilitate the management and distribution of chronic medication to employees with chronic conditions, primarily hypertension, diabetes, and HIV/AIDS. Since 2020 the clinics have also been used for COVID-19 screening and the medical staff perform an essential role in screening and identifying high risk employees to enable appropriate mitigation measures to be implemented. The clinics also perform annual and occupational medical checks for all employees, facilitate VCT programmes, and provide flu vaccines to high-risk employees, all at no cost to the employees.

Utilisation levels of the employee wellness programme, managed by ICAS and introduced throughout the Company during April 2009, remain constant and the programme is well used by the Company's HR community, the Company's employees and their immediate families. The employee wellness programme covers areas that address the entire spectrum of psychosocial stressors in the workplace and at home, lifestyle diseases, and work-life balance by providing an independent, impartial, professional, and confidential counselling and advisory service that extends beyond healthcare and, among other services, gives the Company's employees and their immediate family members access to financial and legal advisory services. The Company and its subsidiaries continue to actively promote the use of the employee wellness programme.

In addition to the formal employee wellness programme, a number of sites hold wellness programmes and days on matters such as diabetes; tuberculosis; HIV/AIDS; eye care; cancer awareness; and generally maintaining a healthy lifestyle.

GRI content index of material issues reported for the period 1 July 2022 to 30 June 2023 with reference to the 2021 GRI Standards

| 2-11 Chair of the board: (a) Whether the chair of the board is also a senior executive (b) If the chair is also a senior executive, explain their function within the organisation's management, the reasons for this arrangement, and how conflicts of interest are prevented and mitigated | 84 – 91 |
| 2-12 Role of the board in overseeing the management of impacts: (a) The role of the board and of senior executives in developing, approving, and updating the organisation's purpose, value or mission statements, strategies, policies and goals related to sustainable development (b) The role of the board in overseeing the organisation's due diligence and other processes to identify and manage the organisation's impacts on the economy, environment, and people, including: whether and how the board engages with stakeholders to support these processes; how the board considers the outcomes of these processes (c) Role of the board in reviewing the effectiveness of the organisation's processes as described in 2-12-b and report the frequency of this review | 84 – 91 |
| 2-13 Delegation of responsibility for managing impacts: (a) How the board delegates responsibility for managing the organisation's impacts on the economy, environment and people, including: whether it has appointed any senior executives for responsibility for the management of impacts; whether it has delegated responsibility for the management of impacts to other employees (b) Process and frequency for senior executives or other employees to report back to the board on the management of the organisation's impacts on the economy, environment, and people | 84 – 91 |
| 2-14 Role of the board in sustainability reporting: (a) Whether the board is responsible for reviewing and approving the reported information, including the organisation's material topics, and, if so, the process for reviewing and approving the information (b) If the board is not responsible for reviewing and approving the reporting information, including the material topics, explain the reason for this | 84 – 91 |
| 2-15 Conflicts of interest: (a) Processes for the board to ensure that conflicts of interest are prevented and mitigated (b) Whether conflicts of interest are disclosed to stakeholders, including, at a minimum, conflicts relating to: cross-board memberships; cross-shareholding with suppliers and other stakeholders; existence of controlling shareholders; related parties, their relationships, transactions, and outstanding balances | 84 – 91 |
| 2-16 Communication of critical concerns: (a) Whether and how critical concerns are communicated to the board (b) Total number and nature of critical concerns communicated to the board during the reporting period | 84 – 91 |
| 2-17 Collective knowledge of the board: Measures taken to advance the collective knowledge, skills, and experience of the board on sustainable development | 84 – 91 |
| 2-18 Evaluation of the performance of the board: (a) Processes for evaluating the performance of the board in overseeing the management of the organisation's impacts on the economy, environment, and people (b) Whether the evaluations are independent or not, and the frequency of the evaluations (c) Actions taken in response to the evaluations, including changes to the composition of the board and organisational practices | 84 – 91 |
| 2-19 Remuneration policies: (a) Describe the remuneration policies for members of the board and senior executives, including: fixed pay and variable pay; sign-on bonuses or recruitment incentive payments; termination payments; clawbacks; retirement benefits (b) How the remuneration policies for members of the board and senior executives relate to their objectives and performance in relation to the management of the organisation's impacts on the economy, environment, and people | 92 – 105 |
| 2-20 Process to determine remuneration: (a) Process for designing remuneration policies and for determining remuneration, including: whether independent board members or an independent remuneration committee oversees the process; how the views of stakeholders (including shareholders) of remuneration are sought and taken into consideration; whether remuneration consultants are involved in determining remuneration and, if so, whether they are independent of the organisation, its board and senior executives (b) Results of votes of stakeholders (including shareholders) on remuneration policies and proposals, if applicable | 92 – 105 |
| 2-21 Annual total compensation ratio: (a) Ratio of the annual total compensation for the organisation's highest-paid individual to the median annual total compensation for all employees (excluding the highest-paid individual) (b) Ratio of the percentage increase in annual total compensation for the highest-paid individual to the median percentage increase in annual total compensation for all employees (excluding the highest-paid individual) (c) Contextual information necessary to understand the data and how the data has been compiled | 92 – 105 |

| Disclosure | Reference |
|---|----------------|
| GRI 2: General Disclosures | |
| 2-22 Statement on sustainable development strategy: Statement from the board or most senior executives about the relevance of sustainable development to the organisation and its strategy for contributing to sustainable development | 6 – 9, 32 – 67 |
| 2-23 Policy commitments: (a) Policy commitments for responsible business conduct, including: authoritative intergovernmental instruments that the commitments reference; whether the commitments stipulate conducting due diligence; whether the commitments stipulate applying the precautionary approach; whether the commitments stipulate respecting human rights (b) Policy commitment to respect human rights, including: internationally recognised human rights that the commitment covers; categories of stakeholders, including at-risk and vulnerable groups, that the organisation gives particular attention to in the commitment (c) Links to the policy commitments if publicly available or, if the policy commitments are not publicly available, explain the reason for this (d) Level at which each of the policy commitments was approved within the organisation, including whether this is the most senior level (e) Extent to which the policy commitments apply to the organisation's activities and its business relationships (f) How the policy commitments are communicated to workers, business partners, and other relevant parties | 32 – 67 |
| 2-24 Embedding policy commitments: How the organisation embeds each of its policy commitments for responsible business conduct throughout its activities and business relationships, including: how it allocates responsibility to implement the commitments across different levels within the organisation; how it integrates the commitments into organisational strategies, operational policies, and operational procedures; how it implements its commitments with and through its business relationships; training provided on implementing the commitments | 32 – 67 |
| 2-25 Processes to remediate negative impacts: (a) Commitments to provide for or cooperate in the remediation of negative impacts that the organisation identifies it has caused or contributed to (b) Approach to identify and address grievances, including the grievance mechanisms that the organisation has established or participates in (c) Other processes by which the organisation provides for or cooperates in the remediation of negative impacts that it has identified or contributed to (d) How the stakeholders who are the intended users of the grievance mechanisms are involved in the design, review, operation, and improvement of these mechanisms (e) How the organisation tracks the effectiveness of the grievance mechanisms and other remediation processes, and reports examples of their effectiveness, including stakeholder feedback | 32 – 67 |
| 2-26 Mechanisms for seeking advice and raising concerns: Describe the mechanisms for individuals to: seek advice on implementing the organisation's policies and practices for responsible business conduct; raise concerns about the organisation's business conduct | 32 – 67 |
| 2-27 Compliance with laws and regulations: (a) Total number of significant instances of non-compliance with laws and regulations during the reporting period and a breakdown of this total by: instances for which fines were incurred; instances for which non-monetary sanctions were incurred (b) Total number and monetary value of fines for instances of non-compliance with laws and regulations that were paid during the reporting period, and a breakdown of this total by: fines for instances of non-compliance with laws and regulations that occurred in the current reporting period; fines for instances of non-compliance with laws and regulations that occurred in previous reporting periods (c) Significant instances of non-compliance (d) How the organisation has determined significant instances of non-compliance | 45 and 46 |
| 2-28 Membership associations : Industry associations, other membership associations, and national or international advocacy organisations in which the organisation participates in a significant role | 34 and 35 |
| 2-29 Approach to stakeholder engagement: Approach to engaging with stakeholders, including: categories of stakeholders and how they are identified; purpose of the stakeholder engagement; how the organisation seeks to ensure meaningful stakeholder engagement | 34 |
| 2-30 Collective bargaining agreements: (a) Percentage of total employees covered by collective bargaining agreements (b) For employees not covered by collective bargaining agreements, whether the organisation determines their working conditions and terms of employment based on collective bargaining agreements that cover its other employees or based on collective bargaining agreements from other organisations | 65 |

| Disclosure | Reference |
|--|-----------------------------|
| GRI 201 – Economic Performance | |
| 201-1 Direct economic value generated and distributed: (a) Direct economic value generated and distributed (EVG&D) on an accruals basis, including the basic components for the organisation's global operations. If data is presented on a cash basis, report the justification for this decision in addition to reporting the following basis components: direct economic value generated: revenues; economic value distributed: operating costs, employee wages and benefits, payments to providers of capital, payments to government by country, and community investments; economic value retained: 'direct economic value generated' less 'economic value distributed' (b) Where significant, report EVG&D separately at country, regional, or market levels, and the criteria for defining significance | 27 and 28 |
| 201-2 Financial implications and other risks and opportunities due to climate change: (a) Risks and opportunities posed by climate change that have the potential to generate substantive changes in operations, revenue, or expenditure, including: a description of the risk or opportunity and its classification as either physical, regulatory, or other; a description of the impact associated with the risk or opportunity; the financial implications of the risk or opportunity before action is taken; the methods used to manage the risk or opportunity; the costs of action taken to manage the risk or opportunity | 39 – 45, 51 – 53 |
| 201-3 Defined benefit plan obligations and other retirement plans: (a) If the plan's liabilities are met by the organisation's general resources, the estimated value of those liabilities (b) If a separate fund exists to pay the plan's pension liabilities: the extent to which the scheme's liabilities are estimated to be covered by the assets that have been set aside to meet them; the basis on which that estimate has been arrived at; when that estimate was made (c) If a fund set up to pay the plan's pension liabilities is not fully covered, explain the strategy, if any, adopted to work towards full coverage, and the timescale, if any, by which the employer hopes to achieve full coverage (d) Percentage of salary contributed by employee or employer (e) Level of participation in retirement plans | 128 and 129, 152 and 153 |
| 201-4 Financial assistance received from government: (a) Total monetary value of financial assistance received by the organisation from any government during the reporting period, including: tax relief and tax credits; subsidies; investment grants, research and development grants, and other relevant types of grant; awards; royalty holidays; financial assistance from Export Credit Agencies (ECAs); financial incentives; other financial benefits received or receivable from any government for any operation (b) The information in 201-4-a by country (c) Whether, and the extent to which, any government is present in the shareholding structure | 132 and 133 |
| GRI 202: Market Presence | |
| 202-1 Ratios of standard entry level wages by gender compared to local minimum wage: (a) When a significant proportion of employees are compensated based on wages subject to minimum wage rules, report the relevant ratio of the entry level wage by gender at significant locations of operation to the minimum wage (b) When a significant proportion of other workers (excluding employees) performing the organisation's activities are compensated based on wages subject to minimum wage rules, describe the actions taken to determine whether these workers are paid above the minimum wage (c) Whether a local minimum wage is absent or variable at significant locations of operation, by gender. In circumstances in which different minimums can be used as a reference, report which minimum wage is being used (d) The definition used for 'significant locations of operation' | Not reported* |
| 202-2 Proportion of senior management hired from the local community: (a) Percentage of senior management at significant locations of operation that are hired from the local community (b) The definition used for 'senior management' (c) The organisation's geographical definition of 'local' (d) The definition used for 'significant locations of operation' | Not reported* |
| GRI 203: Indirect Economic Impacts | |
| 203-1 Infrastructure investments and services supported: (a) Extent of development of significant infrastructure investments and services supported (b) Current or expected impacts on communities and local economies, including positive and negative impacts where relevant (c) Whether these investments and services are commercial, in-kind, or pro bono engagements | Not reported |
| 203-2 Significant indirect economic impacts: (a) Examples of significant identified indirect economic impacts of the organisation, including positive and negative impacts (b) Significance of the indirect economic impacts in the context of external benchmarks and stakeholder priorities, such as national and international standards, protocols, and policy agendas | Not reported |

| Disclosure | Reference |
|---|-----------|
| GRI 204: Procurement Practices | |
| 204-1 Proportion of spending on local suppliers: (a) Percentage of the procurement budget used for significant locations of operations that is spent on suppliers local to that operation (b) Organisation's geographical definition of 'local' (c) Definition used for 'significant locations of operation' | 58 – 59 |
| GRI 205: Anti-Corruption | |
| 205-1 Operations assessed for risks related to corruption: (a) Total number and percentage of operations assessed for risks related to corruption (b) Significant risks related to corruption identified through the risk assessment | |
| 205-2 Communication and training about anti-corruption policies and procedures: (a) Total number and percentage of governance body members that the organisation's anti-corruption policies and procedures have been communicated to, broken down by region (b) Total number and percentage of employees that the organisation's anti-corruption policies and procedures have been communicated to, broken down by employee category and region (c) Total number and percentage of business partners that the organisation's anti-corruption policies and procedures have been communicated to, broken down by type of business partner and region. Describe if the organisation's anti-corruption policies and procedures have been communicated to any other persons or organisations (d) Total number and percentage of governance body members that have received training on anti-corruption, broken down by region (e) Total number and percentage of employees that have received training on anti-corruption, broken down by employee category and region | |
| 205-3 Confirmed incidents of corruption and actions taken: (a) Total number and nature of confirmed incidents of corruption (b) Total number of confirmed incidents in which employees were dismissed or disciplined for corruption (c) Total number of confirmed incidents when contracts with business partners were terminated or not renewed due to violations related to corruption (d) Public legal cases regarding corruption brought against the organisation or its employees during the reporting period and the outcomes of such cases | |
| GRI 206: Anti-competitive Behaviour | |
| 206-1 Legal actions for anti-competitive behaviour, anti-trust, and monopoly practices: (a) Number of legal actions pending or completed during the reporting period regarding anti-competitive behaviour and violations of anti-trust and monopoly legislation in which the organisation has been identified as a participant (b) Main outcomes of completed legal actions, including any decisions or judgments | None |
| GRI 207: Tax | |
| 207-1 Approach to tax: A description of the approach to tax, including: whether the organisation has a tax strategy and, if so, a link to this strategy if publicly available; the governance body or executive-level position within the organisation that formally reviews and approves the tax strategy, and the frequency of this review; the approach to regulatory compliance; how the approach to tax is linked to the business and sustainable development strategies of the organisation | 36 |
| 207-2 Tax governance, control, and risk management: (a) A description of the tax governance and control framework, including: the governance body or executive-level position within the organisation accountable for compliance with the tax strategy; how the approach to tax is embedded within the organisation; the approach to tax risks, including how risks are identified, managed, and monitored; how compliance with the tax governance and control framework is evaluated (b) Description of the mechanisms to raise concerns about the organisation's business conduct and the organisation's integrity in relation to tax (c) Description of the assurance process for disclosures on tax including, if applicable, a link or reference to the external assurance report or assurance statement | 36 |
| 207-3 Stakeholder engagement and management of concerns related to tax: Description of the approach to stakeholder engagement and management of stakeholder concerns related to tax, including: the approach to engagement with tax authorities; the approach to public policy advocacy on tax; the processes for collecting and considering the views and concerns of stakeholders, including external stakeholders | 36 |

Reference

| Disclosure | Reference |
|--|--------------|
| GRI 207: Tax | |
| 207-4 Country-by-country reporting: (a) All tax jurisdictions where the entities included in the organisation's audited consolidated financial statements, are resident for tax purposes (b) For each tax jurisdiction: names of the resident entities; primary activities of the organisation; number of employees and the basis of calculation of this number; revenues from third-party sales; revenues from intra-group transactions with other tax jurisdictions; profit/loss before tax; tangible assets other than cash and cash equivalents; corporate income tax paid on a cash basis; corporate income tax accrued on profit/loss; reasons for the difference between corporate income tax accrued on profit/loss and the tax due if the statutory rate is applied to profit/loss before tax (c) The time period covered by the information reported in this disclosure 207-4 | 107 – 180 |
| GRI 301: Materials | |
| 301-1 Materials used by weight or volume: Total weight or volume of materials that are used to produce and package the organisation's primary products and services during the reporting period, by: non-renewable materials used; renewable materials used | 36 – 45 |
| 301-2 Recycled input materials used: Percentage of recycled input materials used to manufacture the organisation's primary products and services | 36 – 45 |
| 301-3 Reclaimed products and their packaging materials: (a) Percentage of reclaimed products and their packaging materials for each product category (b) How the data for this disclosure has been collected | 36 – 45 |
| GRI 302: Energy | |
| 302-1 Energy consumption within the organisation: (a) Total fuel consumption from non-renewable sources, in joules or multiples, and including fuel types used (b) Total fuel consumption from renewable sources, in joules or multiples, and including fuel types used (c) In joules, watthours or multiples, the total: electricity consumption; heating consumption; cooling consumption; steam consumption (d) In joules, watthours or multiples, the total: electricity sold; heating sold; cooling sold; steam sold (e) Total energy consumption in joules or multiples (f) Standards, methodologies, assumptions and/or calculation tools used (g) Source of the conversion factors used | 40 |
| 302-2 Energy consumption outside of the organisation: (a) Energy consumption outside the organisation, in joules or multiples (b) Standards, methodologies, assumptions and/or calculation tools used (c) Source of the conversion factors used | Not reported |
| 302-3 Energy intensity: (a) Energy intensity ratio for the organisation (b) Organisation-specific metric chosen to calculate the ratio (c) Types of energy included in the intensity ratio: whether fuel, electricity, heating, cooling, steam, or all (d) Whether the ratio used energy consumption within the organisation, outside of it, or both | 40 |
| 302-4 Reduction of energy consumption: (a) Amount of reductions in energy consumption achieved as a direct result of conservation and efficiency initiatives, in joules or multiples (b) Types of energy included in the reductions; whether fuel, electricity, heating, cooling, steam, or all (c) Basis for calculating reductions in energy consumption, such as base year or baseline, including the rationale for choosing it (d) Standards, methodologies, assumptions and/or calculation tools used | 40 |
| 302-5 Reductions in energy requirements of products and services: (a) Reductions in energy requirements of sold products and services achieved during the reporting period, in joules or multiples (b) Basis for calculating reductions in energy consumption, such as base year or baseline, including the rationale for choosing it (c) Standards, methodologies, assumptions, and/or calculation tools used | 40 |
| GRI 303: Water and Effluents | |
| 303-1 Interaction with water as a shared resource: (a) Description of how the organisation interacts with water, including how and where water is withdrawn, consumed, and discharged, and the water-related impacts the organisation has caused or contributed to, or that are directly linked to its operations, products, or services by its business relationships (e.g., impacts caused by run-off) (b) Description of the approach used to identify water-related impacts, including the scope of assessments, their time frame, and any tools or methodologies used (c) Description of how water-related impacts are addressed, including how the organisation works with stakeholders to steward water as a shared resource, and how it engages with suppliers or customers with significant water-related impacts (d) Explanation of the process for setting any water-related goals and targets that are part of the organisation's approach to managing water and effluents, and how they relate to public policy and the local context of each area with water stress | 38 and 40 |

Disclosure

| Disclosure | Reference |
|--|-----------|
| GRI 303: Water and Effluents | |
| 303-2 Management of water discharge-related impacts: Description of any minimum standards set for the quality of effluent discharge, and how these minimum standards were determined, including: how standards for facilities operating in locations with no local discharge requirements were determined; any internally developed water quality standards or guidelines; any sector-specific standards considered; whether the profile of the receiving waterbody was considered | 40 – 46 |
| 303-3 Water withdrawal: (a) Total water withdrawal from all areas in mega-litres and a breakdown of this total by the following sources, if applicable: surface water; groundwater; seawater; produced water; third-party water (b) Total water withdrawal from all areas with water stress in mega-litres and a breakdown of this total by the following sources, if applicable: surface water; groundwater; seawater; produced water; third-party water, and a breakdown of this total by the withdrawal sources listed before (c) Breakdown of total water withdrawal from each of the sources listed in disclosures 303-3-a and 303-3-b in mega-litres by the following categories: freshwater (< 1 000 mg/L Total Dissolved Solids); other water (> 1 000 mg/L Total Dissolved Solids) (d) Any contextual information necessary to understand how the data has been compiled such as any standards, methodologies, and assumptions used | 40 – 46 |
| 303-4 Water discharge: (a) Total water discharge to all areas in mega-litres, and a breakdown of this total by the following types of destination, if applicable: surface water; groundwater; seawater; third-party water, and the volume of this sent for use to other organisations, if applicable (b) Breakdown of total water discharge to all areas in mega-litres by the following categories: freshwater; other water (c) Total water discharge to all areas with water stress in mega-litres, and a breakdown of this total by the following categories: freshwater; other water (d) Priority substances of concern for which discharges are treated, including: how priority substances of concern were defined, and any international standard, authoritative list, or criteria used; the approach for setting discharge limits for priority substances of concern; number of incidents of non-compliance with discharge limits (e) Any contextual information necessary to understand how the data has been compiled, such as standards, methodologies, and assumptions used | 41 – 46 |
| 303-5 Water consumption: (a) Total water consumption from all areas in mega-litres (b) Total water consumption from all areas with water stress in mega-litres (c) Change in water storage in mega-litres, if water storage has been identified as having a significant water-related impact (d) Any contextual information necessary to understand how the data has been compiled, such as any standards, methodologies, and assumptions used, including whether the information is calculated, modelled, or sources from direct measurements and the approach taken for this, such as the use of any sector-specific factors | 40 |
| GRI 304: Biodiversity | |
| 304-1 Operational sites owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas: (a) For each operational site owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas, the following information: geographic location; subsurface and underground land that may be owned, leased, or managed by the organisation; position in relation to the protected area (in the area, adjacent to, or containing portions of the protected area) or the high biodiversity value area outside protected areas; type of operation (office, manufacturing or production, or extractive); size of operational site in km² (or another unit, if appropriate); biodiversity value characterised by the attribute of the protected area or area of high biodiversity value outside the protected area (terrestrial, freshwater or maritime ecosystem); biodiversity value characterised by listing of protected status | 36 – 39 |
| 304-2 Significant impacts of activities, products and services on biodiversity: (a) Nature of significant direct and indirect impacts on biodiversity with reference to one or more of the following: construction or use of manufacturing plants, mines, and transport infrastructure; pollution (introduction of substances that do not naturally occur in the habitat from point and non-point sources); introduction of invasive species, pests, and pathogens; reduction of species; habitat conservation; changes in ecological processes outside the nature range of variation (such as salinity or changes in groundwater level) (b) Significant direct and indirect positive and negative impacts with reference to the following: species affected; extent of areas impacted; duration of impacts; reversibility or irreversibility of the impacts | 36 – 39 |

| Disclosure | Reference |
|---|--------------|
| GRI 304: Biodiversity | |
| 304-3 Habitats protected or restored: (a) Size and location of all habitat areas protected or restored and whether the success of the restoration measure was or is approved by independent external professionals (b) Whether partnerships exist with third parties to protect or restore habitat areas distinct from where the organisation has overseen and implemented restoration or protection measures (c) Status of each area based on its condition at the close of the reporting period (e) Standards, methodologies, and assumptions used | 36 – 39 |
| 304-4 IUCN Red List species and national conservation list species with habitats in areas affected by operations: Total number of IUCN Red List species and national conservation list species with habitats in areas affected by the operations by level of extinction risk: critically endangered; endangered; vulnerable; never threatened; least concern | 36 – 39 |
| GRI 305: Emissions | |
| 305-1 Direct (Scope 1) GHG emissions: (a) Gross direct (Scope 1) GHG emissions in metric tonnes of CO2 or equivalent (b) Gases included in the calculation (c) Biogenic CO2 emissions in metric tonnes of CO2 equivalent (d) Base year for the calculation, if applicable, including: the rationale for choosing it; emissions in the base year; the context for any significant changes in emissions that triggered recalculations of base year emissions (e) Source of the emission factors and the global warming potential (GWP) rates used, or a reference to the GWP source (f) Consolidation approach for emissions; whether equity share, financial control, or operational control (g) Standards, methodologies, assumptions, and/or calculation tools used | 40 |
| 305-2 Energy indirect (Scope 2) GHG emissions: As required in 305-1 | Not reported |
| 305-3 Other indirect (Scope 3) GHG emissions: As required in 305-1 | Not reported |
| 305-4 Emissions intensity : (a) GHG emissions intensity ratio for the organisation (b) Organisation-specific metric (denominator) chosen to calculate the ratio (c) Types of GHG emissions included in the intensity ratio; whether direct (Scope 1), energy indirect (Scope 3), and/or other indirect (Scope 3) (d) Gases included in the calculation | 40 |
| 305-5 Reduction of GHG emissions: (a) GHG emissions reduced as a direct result of reduction interventions, in metric tonnes of CO2 equivalent (b) Gases included in the calculation (c) Base year or baseline, including the rationale for choosing it (d) Scopes in which reductions took place; whether direct (Scope 1), energy indirect (Scope 2), and/or other indirect (Scope 3) (e) Standards, methodologies, assumptions, and/or calculation tools used | 40 |
| 305-6 Emissions of ozone-depleting substances (ODS): (a) Production, imports and exports of ODS in metric tonnes of CFC-11 equivalent (b) Substances included in the calculation (c) Source of the emission factors used (d) Standards, methodologies, assumptions, and/or calculations used | Not reported |
| 305-7 Nitrogen oxides (NOx), sulphur oxides (SOx), and other significant air emissions: (a) Significant air emissions, in kilograms or multiples, for each of the following: NOx; SOx; persistent organic pollutants; volatile organic compounds; hazardous air pollutants; particulate matter; other standard categories of air emissions identified in relevant legislation (b) Source of the emission factors used (c) Standards, methodologies, assumptions, and/or calculation tools used | Not reported |
| GRI 306: Effluents and Waste | |
| 306-1 Waste generation and significant waste-related impacts: For significant actual and potential waste-related impacts, a description of: the inputs, activities, and outputs that lead or could lead to these impacts; whether these impacts relate to waste generated in the organisation's own activities or to waste generated upstream or downstream in its value chain | 39 – 46 |
| 306-2 Management of significant waste-related impacts: (a) Actions, including circularity measures, taken to prevent waste generation in the organisation's own activities and upstream and downstream in its value chain, and to manage significant impacts from waste generated (b) If the waste generated by the organisation in its own activities is managed by a third party, a description of the processes used to determine whether the third party manages the waste in line with contractual or legislative obligations (c) The processes used to collect and monitor waste-related data | 39 – 46 |
| 306-3 Significant spills (2016 standard): (a) Total number and volume of recorded significant spills (b) Additional information for each spill that was reported in the financial statements: location of spill; volume of spill; material of spill, categorised by: oil spills, fuel spills, spills of wastes, spills of chemicals, other (all whether soil or water surfaces) (c) Impacts of significant spills | 45 and 46 |

| Disclosure | Reference |
|--|-----------|
| GRI 306: Effluents and Waste | |
| 306-3 (2018) Waste generated: (a) Total weight of waste generated in metric tonnes, and a breakdown of this total by composition of the waste (b) Contextual information necessary to understand the data and how the data has been compiled | 39 – 46 |
| 306-4 Waste diverted from disposal: (a) Total weight of waste diverted from disposal in metric tonnes, and a breakdown of this total by composition of the waste (b) Total weight of hazardous waste diverted from disposal in metric tonnes, and a breakdown of this total by the following recovery operations: preparation for reuse; recycling; other recovery operations (c) Total weight of non-hazardous waste diverted from disposal in metric tonnes, and a breakdown of this total by the following recovery operations: preparation for reuse; recycling; other recovery operations (d) For each of the recovery operations listed in disclosures 306-4-b and 306-4-c a breakdown of the total weight in metric tonnes of hazardous waste and non-hazardous waste diverted from disposal: onsite; offsite (e) Contextual information necessary to understand the data and how the data has been compiled | 39 – 46 |
| 306-5 Waste directed to disposal: (a) Total weight of waste directed to disposal in metric tonnes, and a breakdown of this total by composition of the waste (b) Total weight of hazardous waste directed to disposal in metric tonnes, and a breakdown of this waste by the following disposal operations: incineration (with energy recovery); incineration (without energy recovery); landfilling; other disposal operations (c) Total weight of non-hazardous waste directed to disposal in metric tonnes, and a breakdown of this waste by the following disposal operations: incineration (with energy recovery); incineration (without energy recovery); landfilling; other disposal operations (d) For each disposal operation listed in disclosures 306-5-b and 306-5-c, a breakdown of the total weight in metric tonnes of hazardous waste and of non-hazardous waste directed to disposal: onsite; offsite (e) Contextual information necessary to understand the data and how the data has been compiled | 39 – 46 |
| GRI 308: Supplier Environmental Assessment | |
| 308-1 New suppliers that were screened using environmental criteria: Percentage of new suppliers that were screened using environmental criteria | 58 and 59 |
| 308-2 Negative environmental impacts in the supply chain and actions taken: (a) Number of suppliers assessed for environmental impacts (b) Number of suppliers identified as having significant actual and potential negative environmental impacts (c) Significant actual and potential negative environmental impacts identified in the supply chain (d) Percentage of suppliers identified as having significant actual and potential negative environmental impacts with which improvements were agreed upon as a result of assessment (e) Percentage of suppliers identified as having significant actual and potential negative environmental impacts with which relationships were terminated as a result of assessment, and why | 58 and 59 |
| GRI 401: Employment | |
| 401-1 New employee hires and employee turnover: (a) Total number and rate of new employee hires during the reporting period, by age group, gender and region (b) Total number and rate of employee turnover during the reporting period, by age group, gender and region | 63 – 66 |
| 401-2 Benefits provided to full-time employees that are not provided to temporary or part-time employees: (a) Benefits which are standard for full-time employees but are not provided to temporary or part-time employees by significant locations of operation, including, as a minimum: life insurance; healthcare; disability and invalidity coverage; parental leave; retirement provision; stock ownership; others (b) The definition used for 'significant locations of operation' | 63 – 66* |

Directorships: AVI Limited, Nahana Communications Group (Pty) Ltd.

Maserame was a Group Executive Director at Old Mutual Limited, where she led the company's marketing, public affairs, and sustainability function across 13 markets in Sub Sahara Africa. Prior to joining Old Mutual Limited, she worked for Coca-Cola Africa, Unilever, and Kellogg's. Maserame was appointed to the AVI Board on 1 August 2023.

corporate governance report

Framework

AVI Limited ("the Company") is a public company incorporated in South Africa under the provisions of the Companies Act 71 of 2008, as amended and the Regulations thereto ("the Companies Act") and is listed on the JSE Limited ("the JSE").

The Company's Board of directors ("the Board") is committed to ensuring that the Company is governed appropriately. The Board recognises the responsibility of the Company to conduct its affairs with prudence, transparency, accountability, fairness and in a socially and environmentally responsible manner. The Board is satisfied that the Company complies with the provisions of the Companies Act, the JSE Listings Requirements, the Company's Memorandum of Incorporation and the principles of the Code of Corporate Governance Principles and Practices as recommended in the King IV Report on Governance for South Africa 2016 ("King IV").

Board governance structure

The general powers of the Board and the directors are conferred in the Company's Memorandum of Incorporation. Terms of reference for the Board are set out in the Company's Board charter which is reviewed periodically. The charter covers the powers and authority of the Board and provides a clear and concise overview of the responsibilities and accountability of Board members, collectively and individually. It includes the policy and procedures for appointments to the Board as assisted by the Remuneration, Nomination and Appointments Committee. Appointments to the Board are done in a formal and transparent manner and are a matter for the Board as a whole. The Board charter is available on request from the Company Secretary.

To ensure conflicts of interest are avoided Board members annually provide a general disclosure of their personal financial interests in terms of Section 75 of the Companies Act 2008, and are reminded at the commencement of each Board and Board committee meeting that they are required to declare any material personal financial interests that they may have in contracts entered into or authorised by the Company or in any matters to be discussed at the meeting, as well as any changes to their interests as previously declared.

The Board has adopted a unitary structure and no individual member of the Board has unfettered powers of decision making. The responsibility for running the Board and executive responsibility for the conduct of the business are differentiated in the Board charter. Accordingly, the roles of the Chairman of the Board and of the Chief Executive Officer are separated, with Gavin Tipper and Simon Crutchley, respectively, holding these positions for the year under review. In accordance with King IV, Abe Thebyane is the Lead Independent director.

Directorate

During the year under review the Board comprised three executive directors and between six and seven non-executive directors. All of the non-executive directors are independent as defined by King IV and have the required knowledge, skills and independence of thought to pass sound judgement on the key issues relevant to the business of the Company, independently of the Company's management. Tailored induction programmes are run to familiarise newly appointed directors with the Group's operations. Particulars of the directors are set out in the Board of directors' section of this Integrated Annual Report.

Gavin Tipper resigned as Chairman and non-executive director with effect from 30 June 2023. Mike Watters was appointed to the Board as an independent non-executive director with effect from 1 June 2023, and as Chairman of the Board effective 1 July 2023. Mike Bosman, Busi Silwanyana and James Hersov resigned as non-executive directors with effect from 30 January 2023, 27 June 2023 and 4 July 2023, respectively. Steve Robinson was appointed to the Board as an independent non-executive director and as Chairman of the Audit and Risk Committee with effect from 1 March 2023. Maserame Mouyeme was appointed to the Board as an independent non-executive director and as a member of the Audit and Risk Committee with effect from 1 August 2023.

As required by paragraph 3.84(i) of the JSE Listings Requirements, the Board has adopted a formalised policy on the promotion of broader diversity at Board level. The Nomination Committee considers the policy when recommending the appointment of directors to the Board.

At least one-third of the Board's members retire each year at the Annual General Meeting in terms of the Company's Memorandum of Incorporation. Retiring directors are eligible for re-election.

Board and director assessment

The Board is required to assess its performance against its charter on an annual basis. The assessment was done and it was found that in all material respects the Board had complied with the applicable requirements. The Chairman continued to monitor and manage the participation of the Board's members, and considered the development requirements, if any, of each director.

The Board assessed the independence of Abe Thebyane, who has served on the Board for more than nine years, and was satisfied that he acts with independence of mind and in the best interests of the Company and satisfies the requirements of King IV in regard to being considered as independent.

In addition, during the year under review, the Board, through the Remuneration, Nomination and Appointments Committee, independently considered the performance of the Chairman and Chief Executive Officer. The Chairman and the Chief Executive Officer did not participate in the Committee's discussions regarding their own performance.

Board meetings

During the year under review the Board met formally on four occasions to conduct the normal business of the Company. Attendance at these meetings is summarised in the table below.

| Name | 02/09/2022 | 16/11/2022 | 03/03/2023 | 08/06/2023 |

Key: $\sqrt{=}$ in attendance; X =not in attendance;

= resigned; ■ = not a member

In addition to these formal meetings and as a prelude to the Board meeting of 8 June 2023, the Board met with the executive management of the Company's major subsidiaries and divisions, reviewed their performance for the past year and considered their objectives, strategies and budgeted performance for the year ahead.

Company Secretary

The Company Secretary for the year under review was Sureya Scheepers.

All directors have unlimited access to the advice and services of the Company Secretary, who is accountable to the Board for ensuring that Board procedures are complied with and that sound corporate governance and ethical principles are adhered to.

The Company Secretary's principal responsibilities to the Board and to individual directors are to:

- Guide them in the discharge of their duties, responsibilities and powers;
- Provide information, advice and education on matters of ethics and good governance; and
- Ensure that their proceedings and affairs, and those of the Company, are properly administered in compliance with all relevant legislation and regulations, in particular the Companies Act 2008 and the JSE Listings Requirements.

As required by the JSE Listings Requirements, the Board assessed and satisfied itself at the Board meeting of 1 September 2023, as to the competence, qualifications and experience of the Company Secretary, and that she has maintained an arm's length relationship with the Board and the directors.

Board committees

The Board is assisted in the discharge of its duties and responsibilities by the Audit and Risk Committee, the Remuneration, Nomination and Appointments Committee and the Social and Ethics Committee. The ultimate responsibility at all times for Board duties and responsibilities, however, resides with the Board and it does not abdicate its responsibilities to these committees

These committees act within formalised terms of reference which have been approved by the Board and which reflect the Company's application, where appropriate, of the principles embodied in King IV, the statutory requirements of the Companies Act and the JSE Listings Requirements. The terms of reference set out the committees' purpose, membership requirements, duties, and reporting procedures. Relevant legislative requirements, such as those incorporated in the Companies Act, are incorporated in the committee charters. Board committees, and the members thereof, may take independent professional advice at the Company's expense.

When appropriate, ad hoc committees are formed to facilitate the achievement of specific short-term objectives.

There is full disclosure, transparency and reporting from these committees to the Board at each Board meeting, and the chairpersons of the committees attend the Annual General Meeting to respond to relevant shareholder queries.

Audit and Risk Committee ("Audit Committee")

During the year under review the Audit Committee comprised Mike Bosman (the Chairman), Steve Robinson (Chairman), Alex Muller and Busi Silwanyana, all of whom are independent non-executive directors. Mike Bosman resigned as Chairman with effect from 30 January 2023. Steve Robinson was appointed a member and Chairman of the Committee with effect from 1 March 2023. Busi Silwanyana resigned as a member of the Committee with effect from 27 June 2023 and Maserame Mouyeme was appointed to the Committee with effect from 1 August 2023. In compliance with the Companies Act, shareholders will be asked at the Annual General Meeting on 8 November 2023 to elect the members of the Audit Committee.

The Company's external auditors, the Chairman of the Board, the Chief Executive Officer, the Chief Financial Officer, the Group's head of internal audit and other senior executives attend the Audit Committee meetings by invitation.

Each operating subsidiary has an internal review committee which monitors risk management and compliance activities. These committees are chaired by the Company's Chief Financial Officer and meet at least twice a year with the external auditors and the Group's head of internal audit, with the relevant financial and managing directors in attendance. Audit Committee members can attend the subsidiary internal review meetings by open invitation. There is a formal reporting line from the various internal review committees into the Audit Committee via the Company's Chief Financial Officer.

corporate governance report continued

The Audit Committee met formally twice during the year under review. The attendance of the members is reflected in the table below:

| Name | 01/09/2022 | 02/03/2023 |
|---------------|------------|------------|
| MJ Bosman | $\sqrt{}$ | |
| SG Robinson | | V |
| A Muller | $\sqrt{}$ | V |
| BP Silwanyana | $\sqrt{}$ | V |

Key: $\sqrt{\ }=$ in attendance; X= not in attendance;

= resigned; ■ = not a member

The Audit Committee is responsible for the consideration of key financial and operating control risks and in particular assists the Board in the following matters:

- Monitoring the financial reporting process;
- Recommending the appointment of an independent registered auditor, determining the terms of engagement and approving fees for audit and non-audit work undertaken;
- Monitoring the operation and effectiveness of internal control systems, including information technology controls;
- Overseeing the internal audit function, monitoring its effectiveness, and reviewing corrective action in relation to findings;
- Overseeing the implementation and effective operation of a structured risk management process that incorporates insurance, health and safety, and environmental issues;
- Implementing sound corporate governance policies;
- Reviewing and recommending to the Board for approval the interim and annual financial statements, the going concern status of the Company, interim and final dividends and other special payments to shareholders; and
- · Considering and satisfying itself, on an annual basis, of the expertise and experience of the Chief Financial Officer.

Shareholders will be requested to approve the appointment of Ernst & Young Inc. as the Company's external auditors at the Company's Annual General Meeting on 8 November 2023. With specific reference to the non-audit services provided by the external auditor, and at the recommendation of the Audit Committee, the Board has resolved that the auditors

- Function in the role of management;
- Audit their own work; and
- Serve in an advocacy role for the Company.

In accordance with the requirements of the Companies Act all non-audit specific service engagements with the external auditors were pre-approved by the Audit Committee.

During the year under review dedicated internal audit resources were provided via a service provision arrangement with KPMG Inc.

The Audit Committee discharged the functions ascribed to it in terms of the Companies Act and the JSE Listings Requirements as reported in the Directors' Report. It also complied in all material respects with its mandate and the responsibilities prescribed to it in the Audit Committee charter.

Remuneration, Nomination and Appointments Committee ("Remcom")

During the year under review the members of Remcom were Abe Thebyane (the Chairman) and Gavin Tipper, both of whom are independent nonexecutive directors. Gavin Tipper resigned as a member of Remcom with effect from 30 June 2023 and Mike Watters was appointed as a member of Remcom with effect from 1 July 2023. The Company's Chief Executive Officer and Business Development Director attend relevant parts of Remcom meetings by invitation.

Remcom met formally four times during the year under review and the attendance detail is reflected in the table below:

| Name | 02/08/2022 | 01/09/2022 | 15/11/2022 | 07/06/2023 |
|-------------|------------|------------|------------|------------|
| AM Thebyane | $\sqrt{}$ | $\sqrt{}$ | $\sqrt{}$ | $\sqrt{}$ |
| GR Tipper | V | √ | √ | √ |

Remcom assists the Board by overseeing the following

- Ensuring that the Company's directors and the Group's senior executives are competitively rewarded for their individual contributions to the Group's overall performance. Remcom ensures that the remuneration of the senior executive members of the Group is set by a committee of Board members who have no personal interest in the outcomes of their decisions and who will give due regard to the interests of shareholders and to the financial and commercial health of the Company;
- Succession planning for, and approving the appointment of, senior executives within the Group;
- Assessing the performance of the Chief Executive Officer and reviewing his assessment of senior management's performance;
- Recommending an appropriate remuneration and reward framework (including salaries, benefits, share options and incentive schemes) to ensure that the Group's employees are appropriately engaged and retained. The framework includes guaranteed remuneration, short-term and long-term incentives, and benefits;
- Reviewing the composition of the Board and its committees with respect to size, diversity, skills and experience; and
- Recommending the appointment of directors to the Board and shareholders.

In the interests of efficiency, the Remuneration Committee and the Nomination Committee are combined. The Chairman of the Board chairs discussions pertaining to agenda items related to Nomination Committee matters.

Remcom complied in all material respects with its mandate and the responsibilities prescribed in its charter.

Social and Ethics Committee

During the year under review the Social and Ethics Committee comprised one independent non-executive director, namely Alex Muller (the Chair), as well as executive members, Simon Crutchley and Justin O'Meara. In addition, the Company's Chairman, Group asset protection manager and Group legal executive attend the meetings by invitation.

The Social and Ethics Committee met formally twice during the year under review and the attendance detail is reflected in the table below:

| Name | 01/09/2022 | 02/03/2023 |
|--------------|------------|------------|
| A Muller | $\sqrt{}$ | $\sqrt{}$ |
| SL Crutchley | $\sqrt{}$ | $\sqrt{}$ |
| JC O'Meara | √ | √ |

The Social and Ethics Committee assists the Board in the following matters:

- Monitoring the Company's activities with regard to social and economic development; good corporate citizenship; the environment, health and public safety; consumer relationships; and labour and employment;
- Drawing matters within its mandate to the attention of the Board as the occasion requires;
- Ensuring that the Company's ethics are managed effectively; and
- Reporting to the shareholders at the Company's Annual General Meeting on the matters within its mandate.

The Social and Ethics Committee discharged the functions ascribed to it in terms of the Companies Act. It also complied in all material respects with its mandate and the responsibilities prescribed in its charter.

Dealings in JSE securities

The Company and its directors comply with the JSE Listings Requirements regarding trading in Company shares. In terms of the Company's closed-period policy, all directors and staff are precluded from dealing in Company shares during closed periods, namely from 31 December and 30 June of each year, until the release of the Group's interim and final results, respectively. The same arrangements apply to other closed periods declared during price-sensitive transactions, for directors, officers and participants in the share incentive schemes and staff who may have access to price-sensitive information. A pre-approval policy and process for all dealings in Company shares by directors and selected key employees is strictly followed. Details of directors' and the Company Secretary's dealings in Company shares are disclosed through the Stock Exchange News Service ("SENS") in accordance with the JSE Listings Requirements.

The Company Secretary regularly disseminates written notices to brief the directors, executives, and employees on insider trading legislation, and to advise them of closed periods.

Further, in accordance with the JSE Listings Requirements, the Company's non-disclosure and confidentiality agreement in use for suppliers and other third parties, contains provisions and undertakings regarding the disclosure of price sensitive information and insider trading.

Investor relations and communication with stakeholders

The Company identifies key stakeholders with legitimate interests and expectations relevant to the Company's strategic objectives and long-term sustainability, and strives to have transparent, open and clear communications with them. Reports, announcements and meetings with investment analysts and journalists, as well as the Company's website, are useful conduits for information. Further detail of these key stakeholders and the Company's engagements with them is set out in the Sustainable Development Report.

The Chairmen of the Board and the Board committees are expected to attend the Company's Annual General Meeting, and shareholders can use this opportunity to direct any questions they may have. A summary of the proceedings of general meetings and the outcome of voting on the items of business is available on request.

Keeping abreast of legislative requirements

The Company's internal legal advisers keep the Company abreast of generic and industry specific legislative and regulatory developments, both pending and apparent, and ensure that the Board, management and employees are informed of and, where necessary, trained on these developments and the implementation thereof.

Participation in industry forums

The Company and its subsidiaries participate in various forums that represent the interests of an industry or sector of the economy, including the Consumer Goods Council of South Africa, the Rooibos Council, the Aerosol Manufacturers' Association of South Africa, the Cosmetic, Toiletry and Fragrance Association of South Africa, the Responsible Fisheries' Alliance, the Association of Food and Science Technology, the White Fish Technical Committee (a sub-committee of the Deep-Sea Fishing Industry Association) and the Abalone Farmers' Association of South Africa. Care is taken to ensure that proceedings at these forums do not contravene competition regulations.

corporate governance report continued

King IV application register

In compliance with the JSE Listings Requirements, the Company discloses hereunder details pertaining to its compliance with the principles of King IV. In addition to these specific disclosures, statements are included throughout the Integrated Annual Report dealing with these principles.

Leadership, ethics and corporate citizenship

Principle 1: The governing body should lead ethically and effectively.

The Board operates within the powers conferred on it in the Memorandum of Incorporation and Board charter; bases deliberations, decisions and actions on strategic objectives and ethical and moral values; considers the legitimate interests of all stakeholders; and aligns its conduct to drive the Company's business accordingly.

The directors hold one another accountable for acting in the best interest of the Group. This entails the discharge of duties with integrity, competence, responsibility, accountability, fairness and transparency.

Principle 2: The governing body should govern the ethics of the organisation in a way that supports the establishment of an ethical culture.

The Board has adopted a Group Code of Conduct and Ethics, which is communicated internally and externally and the importance of ethical behaviour is emphasised in all of the Company's engagements. Ethical issues are considered by risk committees, internal review committees, the Company's Audit and Risk Committee and Social and Ethics Committee, and at Board level.

Mechanisms are in place for the reporting of instances of fraud, theft, corruption, unethical behaviour and irregularities. The Company's management is responsible for the implementation and execution of the Group Code of Conduct and Ethics and ongoing oversight of the management of ethics. Management will report material breaches to the Audit and Risk Committee, the Social and Ethics Committee and the Board.

Principle 3: The governing body should ensure that the organisation is and is seen to be a responsible corporate citizen.

The Board is responsible for economic, social and environmental performance and reporting, and the Company has credible and well-coordinated programmes in respect of social and environmental issues and stakeholder engagement.

The Social and Ethics Committee ensures that the Group's business operations are conducted in a manner that is sensitive to social, economic and environmental factors.

The Company maintains high standards of corporate governance and reporting.

Strategy, performance and reporting

Principle 4: The governing body should appreciate that the organisation's core purpose, its risks and opportunities, strategy, business model, performance and sustainable development are all inseparable elements of the value creation process.

The Board determines the strategy and the long-term direction of the Company necessary for it to achieve its objectives as a business enterprise, while satisfying itself that the strategy and business plans are aligned with the purpose of the Company, the value drivers of the Company's business and the legitimate interests and expectations of the Company's stakeholders and do not give rise to risks that have not been thoroughly assessed by management. The Board annually reviews the Company's objectives, strategies, risks and performance.

Principle 5: The governing body should ensure that reports issued by the organisation enable stakeholders to make informed assessments of the organisation's performance, and its short, medium and long-term prospects.

All corporate governance disclosures, integrated annual reports, annual financial statements and other reports, including press releases and SENS announcements, are published on the website and other platforms as required by legislation. Half-year financial results are also published in the press.

The Board, through the Audit Committee, ensures that the necessary controls are in place to verify and safeguard the integrity of the annual financial statements, interim reports and any other disclosures.

The Board and its committees review and approve the various reports that are included in the Integrated Annual Report.

Governing structures and delegation

Principle 6: The governing body should serve as the focal point and custodian of corporate governance in the organisation.

The Board is the focal point and custodian of corporate governance within the Group. The Board has adopted a Board charter that ensures its roles, responsibilities and accountability are documented and adhered to, which includes responsibilities relating to corporate governance. The Board is supported by its committees, which have delegated responsibilities.

Principle 7: The governing body should comprise the appropriate balance of knowledge, skills, experience, diversity and independence for it to discharge its governance role and responsibilities objectively and effectively.

The Remuneration, Nomination and Appointments Committee strives to maintain the optimal mix of knowledge, skills, experience, diversity and independence on the Board and its sub-committees. The Board has adopted a broader diversity policy, which the Nomination Committee considers when recommending the appointment of directors to the Board.

The Board comprises a majority of non-executive directors. All of the non-executive directors are independent.

The Chair of the Board is an independent non-executive director.

In accordance with King IV, a lead independent director has been appointed to fulfil the responsibilities envisaged in King IV.

Principle 8: The governing body should ensure that its arrangements for delegation within its own structures promote independent judgement, and assist with balance of power and the effective discharge of its duties.

The Board has delegated certain responsibilities, without abdicating responsibility, to the Audit and Risk Committee; the Remuneration, Nomination and Appointments Committee; the Social and Ethics Committee; and, from time to time, ad hoc committees are appointed to deal with specific matters. In particular, the functions of the Risk Committee are incorporated into the Audit and Risk Committee, and the functions of the Nomination Committee are incorporated into the Remuneration, Nomination and Appointments Committee.

Each committee operates under the Board's approved terms of reference which set out the committee's role, responsibilities, authority and composition.

The Board annually reviews the Board charter and the committees' terms of reference.

Principle 9: The governing body should ensure that the evaluation of its own performance and that of its committees, its chair and its individual members, support continued improvement in its performance and effectiveness.

The Board, committees and directors are evaluated annually and the results of the evaluations of executive directors are considered in determining their remuneration and benefits.

Principle 10: The governing body should ensure that the appointment of, and delegation to, management contributes to role clarity and the effective exercise of authority and responsibilities.

The Board is responsible for the appointment of the Chief Executive Officer. The role and responsibilities of the Chief Executive Officer are set out in the Board charter. The Chief Executive Officer's notice period as stipulated in his employment contract is three months.

All Board authority conferred on management is delegated through the Chief Executive Officer, so that the authority and accountability of management is regarded as the authority and accountability of the Chief Executive Officer insofar as the Board is concerned. The Chief Executive Officer is responsible for leading the implementation and execution of the Group's strategy, policies and operational plans and reports to the Board.

The Board is satisfied that the delegation of authority framework sufficiently sets out the effective exercise of authority and responsibilities throughout the Group.

A Company Secretary has been appointed in compliance with the Companies Act, the JSE Listings Requirements and the recommendations of King IV.

corporate governance report continued

Governance functional areas

Principle 11: The governing body should govern risk in a way that supports the organisation in setting and achieving its strategic objectives.

In terms of the Board charter, the Board is responsible for the governance of risk, which is delegated to the Audit and Risk Committee but without abdicating the Board's responsibility. Risks are reviewed and prioritised by the Board on a regular basis.

Management has responsibility for implementation of the risk management plan in accordance with the Board approved policy and framework.

Management continuously identify, assess, mitigate and manage risks as part of normal operational management processes.

Technology and information governance

Principle 12: The governing body should govern technology and information in a way that supports the organisation setting and achieving its strategic objectives.

In terms of the Board charter, the Board is responsible for the governance of information technology ("IT").

Management has the responsibility for the implementation of the IT governance framework.

Management continues to prioritise the mitigation of cyber security risks.

Compliance governance

Principle 13: The governing body should govern compliance with applicable laws and adopted, non-binding rules, codes and standards in a way that supports the organisation being ethical and a good corporate citizen.

In terms of the Board charter, the Company is committed to compliance with applicable laws and the Company remains informed on and complies with all applicable laws, and considers adherence to relevant non-binding rules, codes and standards.

Compliance risk forms part of the Company's risk management framework, the implementation of which is delegated to management and overseen by the Audit and Risk Committee.

The Social and Ethics Committee has also been mandated to monitor the effectiveness of compliance management.

There were no material penalties, sanctions, fines for contraventions of or non-compliance with regulations during the period under review.

Remuneration governance

Principle 14: The governing body should ensure that the organisation remunerates fairly, responsibly and transparently so as to promote the achievement of strategic objectives and positive outcomes in the short, medium and long term.

The Remuneration Report sets out the Company's remuneration and reward philosophy, policy and practices for non-executive directors, executive directors, executives and senior managers. The Remuneration Report, including the implementation report and the remuneration policy, are set out on pages 92 to 105 of this Integrated Annual Report.

Shareholders approve non-executive directors' fees at the Company's Annual General Meeting.

The remuneration policy and implementation report will be placed before shareholders at the Company's Annual General Meeting for non-binding approval votes.

In the event that 25% or more of the voting rights exercised at the Annual General Meeting are cast against the remuneration policy or the implementation report, or both, the Board will invite dissenting shareholders to engage with the Company on their concerns, in line with the provisions of the JSE Listings Requirements.

Assurance

Principle 15: The governing body should ensure that assurance services and functions enable an effective control environment, and that these support the integrity of information for internal decision-making and the organisation's external reports.

The Board has established an internal audit function to assist the Audit and Risk Committee and the Board in exercising good corporate governance by providing independent, objective assurance that key operating and financial risks are adequately identified, managed, and controlled by risk management, internal control and governance processes put in place by management. The internal audit function is outsourced to an independent professional firm.

The assurance activities of management, internal and external audit are coordinated with each other, with the relationship between the external assurers and management monitored by the Audit and Risk Committee.

Stakeholder relationships

Principle 16: In the execution of its governance role and responsibilities, the governing body should adopt a stakeholder-inclusive approach that balances the needs, interests and expectations of material stakeholders with the best interests of the organisation over time.

Stakeholder engagement is an important aspect of the Company's responsibilities and it formally identifies and recognises material stakeholders with legitimate interests with whom it engages on relevant issues.

Management is responsible for proactively dealing with stakeholder relationships and engagements.

All holders of the same class of shares, including minorities, are treated equitably in accordance with the preferences, rights, limitations and other terms applicable to such shares and any other relevant provisions of the Companies Act and the JSE Listings Requirements.

Disputes with stakeholders are addressed in the appropriate forum and steps are taken to ensure that such disputes are resolved as effectively, efficiently and expeditiously as possible.

The Company communicates with stakeholders in a variety of forms as more fully set out in this Integrated Annual Report on pages 34 and 35.

remuneration report

In order to align this report to the King IV Code on Corporate Governance for South Africa ("King Code"), the report consists of three parts, namely this background statement, an overview of the Company's remuneration policy, and an implementation report.

PART 1: BACKGROUND STATEMENT

A critical factor in AVI's sustained progress over many years has been the Company's ability to attract and retain a community of competent senior managers in a highly competitive skills market. This has been fostered by the application of a remuneration framework that aligns management with shareholders and provides sufficient financial reward to motivate and retain them.

During F22 Remcom instructed 21st Century to assist the Company with a review and benchmarking of the Company's long-term reward frameworks. In particular, 21st Century were instructed to consider concerns that had been raised regarding the achievement of the stated objectives of the existing Revised AVI Limited Executive Share Incentive Scheme and the AVI Limited Deferred Bonus Share Plan, both of which were approved by shareholders in November 2016, particularly the objectives of executive remuneration, reward, and retention.

This exercise included research on the Company's peers to obtain insight into how their long-term incentive schemes were structured to address retention. The King IV report on Corporate Governance for South Africa acknowledges the dual role played by long-term incentives in driving an organisation's performance while also serving as a retention mechanism and to align shareholder interests. The King IV report also highlights the need for performance conditions to be included in longterm incentive schemes. 21st Century identified that the Revised AVI Limited Executive Incentive Share Scheme offers limited retention value for executive, as well as talented and high-impact Company employees, and that whilst the Deferred Bonus Share Plan could be seen as shoring-up the Company's retention strengths, it is based on the short-term incentive earned and, if no short-term incentive is earned, retention is further diluted. It was concluded that if the Deferred Bonus Share Plan is the main source of retention, the Company exposes itself to significant retention risks.

Pursuant to the review, 21st Century recommended to the Remuneration Committee that the existing approved Revised AVI Limited Executive Share Incentive Scheme and the approved AVI Limited Deferred Bonus Share Plan be terminated in accordance with their rules and replaced with a forfeitable share scheme.

The forfeitable share plan was proposed to shareholders in the 2022 notice of Annual General Meeting. Owing to low shareholder voting on these resolutions, they were withdrawn at the Annual General Meeting and not voted on.

With an ever-increasing focus on executive remuneration and many different views on what is acceptable or not, it is impossible to fully meet every shareholder or stakeholder's expectations within a single framework, sometimes leading to a lack of support for changes or the remuneration policy because of relatively small differences. The remuneration and reward policy and philosophy are reviewed annually by the Remuneration Committee ("Remcom") and changes are made as appropriate. No changes were made during the year under review but Remcom remains concerned that the policy is not achieving its stated objectives and will continue to investigate viable alternatives which align with shareholder interests. In the interim, Remcom will continue using the existing remuneration structures to appropriately reward and retain executive management until such time as appropriate changes are approved by shareholders.

At the Annual General Meeting held on 9 November 2022 and in accordance with the recommendations of the King Code, shareholders were presented with a non-binding advisory resolution to endorse the Company's remuneration policy and implementation report.

A total of 61,23% (against 53,35% in 2022) of votes received were in favour of the remuneration policy and 60,87% (against 56,62% in 2022) in favour of the implementation report.

In accordance with the King Code, following the Annual General Meeting the Company invited dissenting shareholders to forward their concerns or questions on the remuneration policy and the implementation report to the Company Secretary and appropriate engagements were held to address all legitimate and reasonable objections and concerns raised. The Public Investment Corporation, along with some other shareholders, provided their reasons for voting against both the remuneration policy and the implementation report, which reasons were considered and incorporated into the policy and report, where appropriate.

This report sets out the Company's remuneration and reward philosophy, policies and practices for non-executive directors, executive directors, executives, and senior managers. It also provides details of the remuneration paid to and share options acquired by non-executive directors and executive management during the financial year ended 30 June 2023.

This report can be accessed electronically at www.avi.co.za.

PART 2: OVERVIEW OF THE REMUNERATION POLICY

Remuneration and reward philosophy

The objective of the Company's remuneration and reward framework is to attract, retain and motivate the most talented people available to the Group to align with its determination to deliver superior returns to shareholders.

The reward framework is designed to:

- attract and recruit talented people from a shrinking pool of talent;
- retain competent employees who enhance business performance;
- retain employees with potential through their development cycle;
- direct employees' activities towards business priorities;
- recognise and reward employees for superior performance;
- support a high performance environment; and
- support the Company's transformation agenda.

During the year under review the Company's remuneration and reward practices played a material role in retaining key talent and supporting the achievement of the Company's objectives.

Composition of remuneration and rewards

In the year under review, the remuneration packages of executive directors and senior management continued to comprise:

- a guaranteed remuneration package (structured as the employee's total cost to the Company);
- an annual bonus based on business and individual performance;
- long-term incentive plans; and
- access to retirement fund and medical aid benefits funded from their guaranteed remuneration package.

No contractual obligations exist that may give rise to payments on termination of employment other than such payments that are statutorily required to be paid. The rules of the Company's short and long-term incentive schemes contain termination provisions that govern payments made to employees who leave the Company's employ either as "good leavers" (no-fault terminations) owing to death, ill health, disability, injury, retrenchment, retirement, or the sale of a subsidiary company, or "bad leavers" (fault terminations) owing to resignation or dismissal on grounds of misconduct, poor performance, dishonest behaviour or fraudulent conduct, or abscondment.

Guaranteed remuneration

Remcom reviews the salaries of the executive directors and executive management annually, and benchmarks them against the market median in similar sized companies and industries.

Assessments against the market are done in respect of total remuneration as well as the component parts using, inter alia, the PricewaterhouseCoopers ("PwC") REMchannel benchmarking tool, which determines a competitive and reasonable market benchmark against which to measure AVI executive and senior management remuneration.

The Company remunerates its employees who are regarded as established performers within reasonable proximity to the market median, subject to their experience and individual contribution to the Company. Employees who are clear out-performers may be remunerated from the median to within reasonable proximity of the upper quartile, while employees who are regarded as under-performers are paid below the median and are actively managed. This approach recognises the market forces in play and the heightened requirement to attract and retain talented employees. The Company has often found that it is necessary to offer to remunerate executives with proven track records at the upper quartile to attract them to the Company.

Executive Security

During F23, the Board considered security and risk mitigation measures that may need to be taken to ensure the safety of key executive management, who may be exposed to elevated personal risk because of, inter alia, their employment, and high-profile status. In some instances senior executives have received direct threats potentially related to forensic work being done, and deteriorating conditions in many areas have created heightened risks in some retail store locations, requiring senior executives visiting these stores for business purposes to be accompanied by personal security.

South Africa is a country with heightened security risks arising from, inter alia, kidnapping, political protests and demonstrations, crime (particularly violent crime), vehicle hijacking and robberies, and power cuts.

Security professionals conducted a comprehensive personal security assessment ("PSA") and developed an overall mitigation/security plan. On completion, the results were discussed with Remcom and a plan of action was developed.

The Board is of the view that the costs associated with executive security are a small price to pay for safety.

The Board accordingly authorised Remcom to consider and approve a personal security benefit, which amount is taxable in the hands of the key executives but is not included in their variable remuneration calculations. The value of the benefit authorised was R1,9 million and R0,4 million was paid in the year under review.

remuneration report continued

Short-term incentive schemes

Annual or short-term incentives are based on a combination of performance targets, including operating profit, headline earnings and capital employed, and a set of non-financial targets, measured after the finalisation of the audited year-end results. The more an employee is able to influence the financial performance of a subsidiary, due to their role and levels of responsibility, the more their annual incentive is aligned with the financial performance of that subsidiary. Executive management recommends annual incentives to Remcom for approval. Remcom retains the absolute discretion to authorise incentives.

The annual incentives payable to executive and other management, for targeted levels of performance, range between 15% and 80% of an employee's guaranteed remuneration package, depending on roles, responsibilities and individual contributions, determined with reference to market norms and as deemed appropriate by Remcom. The actual incentive payment for the year under review for executive and other management was R176,5 million which was 28,2% of the total remuneration cost to the Company of this group of employees, excluding the cost of the incentives.

Earning potentials

The maximum potential bonus awards for short-term incentives for the Chief Executive Officer, executive directors and management executives are as follows:

| | On-target bonus (TCTC) | Bonus range (TCTC) | Company performance portion of bonus | Individual performance portion of bonus |
|-----------------------|---------------------------|-----------------------|--|---|
| Category of employee | % | % | % | % |
| CEO | 80 | 0 – 180 | 75 | 25 |
| Executive directors | 55 | 0 – 124 | 75 | 25 |
| Management executives | 50 | 0 – 112,5 | 50 – 75 | 25 – 50 |

Weighting of short-term incentive measures

The measures and weightings used for the Chief Executive Officer, executive directors and management executives for the year ended 30 June 2023 were:

| | Weightings |
|--|------------|
| Financial measure: | 75% |
| Profit and capital employed achieved relative to target* | |
| Individual KPIs, comprising:** | 25% |
| Effective management and delivery of core responsibilities | |
| Attraction and retention of key talent | |
| Effective brand development activity | |
| Successful execution of key projects | |
| Achievement of transformation objectives and targets | |
| Progress made on medium-term programmes | |

^{*} Actual targets not provided in this policy as these are linked to budget, and constitute commercially sensitive information

^{**} Individual KPIs are aligned to the long-term business strategy

The range of values that the short-term incentive schemes could yield for the Group of executive management as identified later in this report, is as follows:

Executive directors

| Range | Value R'000 |
|--------------------------------|----------------|
| Minimum financial performance | 3 853 |
| Targeted financial performance | 17 451 |
| Maximum financial performance | 39 774 |

Other executive management

| Range | Value R'000 |
|--------------------------------|----------------|
| Minimum financial performance | 4 842 |
| Targeted financial performance | 13 160 |
| Maximum financial performance | 28 058 |

Retention payments

During the year under review, the uncertainty created by the prolonged negotiations with Mondeléz regarding a potential transaction, prompted Remcom to consider its executive retention strategy. The strategy considers recognition and reward, the impact of change, other opportunities being offered to top talent, flexibility, and executive well-being.

The daily demands of the Group executives coupled with the potential changes that could arise from a successful transaction, alternatively the uncertainty that could arise from a failed transaction, created a situation in which Remcom believed there was a heightened risk of losing key executives before the negotiations could be finalised. Alternatively, in the event of a successful transaction, key executives could be lost before the transaction could be finally implemented, which it was anticipated would take a significant amount of time.

The risks to the business were carefully considered and, after discussion and with the approval of the Board, it was decided to implement a once-off special retention bonus for key individuals, over and above the approved, annual, performance-related bonuses. These special retention bonuses were paid to those individuals who remained in the Group's employ as at 31 December 2022. The amount paid to the executive directors and key management was R63,7 million, details of which appear in the executive management remuneration tables under Part 3 of this report below.

Long-term incentive schemes

Long-term share incentive schemes remain a material part of the Group's reward framework. The schemes are designed to ensure that appropriate employees are retained over a medium to long-term period, are rewarded responsibly for their efforts, and that their interests are aligned with the interests of shareholders.

The share incentive schemes currently in operation at the Company were all approved by shareholders. There are currently three share incentive schemes in place – the AVI Limited Revised Executive Share Incentive Scheme, the AVI Limited Deferred Bonus Share Scheme and the AVI Limited Out-Performance Scheme.

The performance conditions, employment conditions, level of the participants in the share incentive schemes, and the extent of their participation, are benchmarked against the market and are approved by Remcom.

The nature and key characteristics of the various schemes are summarised in the following table:

| | Title and nature | Participants | Allocation method | Performance conditions | Vesting period | Exercise period |
|----|---|--|---|--|-----------------------------|--|
| 1. | The Revised AVI Limited Executive Share Incentive Scheme (A share appreciation rights scheme that delivers value against share appreciation while limiting the dilution impact of share issuances) First allocation made in November 2016 | Executive and senior management of the Company and shared services | A percentage of remuneration (between 35% and 235%) determined by Remcom, based on seniority and contribution | The employee must remain employed by the Group throughout the vesting period The employee must maintain agreed individual performance targets aligned to the annual short-term incentive measures The share price on exercise must be greater than the allocation price Average return on capital employed over the vesting period ahead of the weighted average cost of capital | Three years from grant date | Within two years from vesting date |

remuneration report continued

| | Title and nature | Participants | Allocation method | Performance conditions | Vesting period | Exercise period |
|----|---|---|--|--|-----------------------------------|--|
| 2. | The AVI Limited Deferred Bonus Share Plan (Awards shares based on historical performance) | Executive and senior management of the Company, and high-impact employees, at Remcom's discretion | A percentage of remuneration (between 0% and 112,5%), determined by Remcom, based on an allocation multiple in relation to the individual's EVA bonus multiple achieved during the relevant financial year | Linked to performance entry criteria for the short-term incentive scheme during the relevant financial year The employee must remain employed by the Group throughout the vesting period | Three years from grant date | On the vesting date |
| 3. | Various Phantom Share Schemes (Notional share option schemes that deliver value against the subsidiaries' performance and the Company's price earnings ratio) | Executive and senior management of the subsidiaries | A percentage of remuneration (between 35% and 165%), determined by Remcom, based on seniority and contribution | The employee must remain employed by the Group throughout the vesting period The employee must maintain agreed individual performance targets aligned to the annual short-term incentive measures The share price on exercise must be greater than the allocation price | Three years from grant date | Within two years from vesting date |
| 4. | The AVI Limited Out-Performance Scheme (A share grant scheme that delivers value dependent upon the Company's performance relative to its peers, being, in respect of each tranche, 32 companies listed on the JSE which are selected annually by Remcom, in its discretion, to constitute the peer group for such tranche and against the Total Shareholder Return ("TSR") of which, the AVI TSR for such tranche will be measured). TSR is defined as the increase in value over the measurement period (expressed as a percentage) of the AVI shares after the notional reinvestment of all distributions made in respect of such shares, using the closing price of the shares on the JSE on the trading day after the date of such distributions) | Directors of the Company and select executives of the Company and subsidiaries | Annual, percentage of remuneration (between 50% and 60%), determined by Remcom, based on seniority and contribution, subject to sacrifice of incentive plan instruments under the Executive or Phantom Share Incentive Schemes | The employee must remain employed by the Group throughout the vesting period The employee must maintain agreed individual performance hurdles aligned to the annual short-term incentive measures The Company must meet TSR performance thresholds relative to its peers Zero vesting below median TSR performance | Three years from grant date | On the vesting date |

| | Title and nature | Participants | Allocation method | Performance conditions | Vesting period | Exercise period |
|----|---|--|--|--|---|--|
| 5. | The AVI Black Staff Empowerment Share Scheme (A share rights scheme that delivers value against share price appreciation) | Black employees (as defined in terms of the Broad Based Black Economic Empowerment Act of 2003) of the Group | On appointment and on promotion over the period 1 January 2007 to 31 December 2011, between 70% and 200% of remuneration, based on seniority | The employee must remain employed by the Group throughout the vesting period | In equal portions on five, six and seven years from grant date | Up to year seven from grant date |

The first tranche of shares in the AVI Black Staff Empowerment Share Scheme, being one-third of the total allocation made on 1 January 2007, vested on 1 January 2012, and the final tranche of shares vested on 31 December 2018. The Scheme has now terminated. Over the life of the Scheme to date, 18 301 participants benefitted from the Scheme with a total gross benefit of R841 million, including 1 598 participants who left the Company's employ in a manner that classified them as "good leavers", and which good leavers received a total gross benefit of R106,7 million.

| 6. | I and J Staff Holding Company (Pty) Ltd (An I&J share rights scheme that delivers value against I&J share price appreciation and is an integral part of I&J's compliance for the allocation of long-term fishing rights) | Black employees (as defined in terms of the Broad Based Black Economic Empowerment Act of 2003) of I&J | All existing black employees from inception of the scheme on 21 December 2021 and annually thereafter all new employees up to the closing date (which will be no less than 14 years from inception date) | The employee must remain employed by I&J up to the redemption date | The current vesting cycle matures during the 2035 financial year | None |
|----|---|---|---|--|---|------|
|----|---|---|---|--|---|------|

The various long-term share incentive schemes do not permit rights or options to be issued at a discount to their value at the grant date and they do not permit rights and options to be re-priced.

Set out in the following table is a summary of the AVI shares currently authorised for use in the approved share schemes and the remaining authorised but not issued number:

| Scheme name | Authorised number | % of total issued share capital* | Remaining authorised but not issued number |
|--|------------------------|--|--|
| Revised AVI Limited Executive Share Incentive Scheme (share appreciation rights plan) AVI Limited Deferred Bonus Share Plan | 5 213 369 5 213 369 | 1,5 1,5 | 5 199 954 1 806 235 |
| AVI Limited Out-Performance Scheme | 6 915 158 | 2,0 | 4 428 128 |
| Total | 17 341 896 | 5,0 | 11 434 317 |

^{*} As at 30 June 2023.

No participant in the schemes is entitled to acquire shares and/or options, which would in total equate to more than 2% (two percent) of the total issued share capital of the Company, which, at 30 June 2023, amounts to 6 763 838 shares, unless otherwise agreed by the Board and sanctioned by the Company in general meeting in accordance with the JSE Listings Requirements.

Malus and clawback

In order to align with stakeholder expectations and best practice, in 2019 Remcom adopted a malus and clawback policy for variable executive remuneration, including both long and short-term incentives, which policy applies prospectively to all participants.

Malus provisions allow for an ex ante adjustment of variable pay on the occurrence of specific trigger events; and clawback provisions create an ex post obligation for participants to repay amounts to the Company on the occurrence of specific trigger events.

This policy was communicated to all participants in the affected schemes and acceptance of the policy is a condition of all future participation in the incentives.

remuneration report continued

Benefits

Retirement fund contributions

Defined contribution pension and provident fund arrangements exist throughout the Group. Retirement funding contributions are charged against expenditure when incurred. Executive and management employees are remunerated on a total cost to company basis and therefore all funding requirements for retirement benefits are borne by these employees. The assets of retirement funds are managed separately from the Group's assets by boards of trustees. The trustees are both Company and employee elected, and where appropriate the boards have pensioner representation. The boards of trustees oversee the management of the funds and ensure compliance with all relevant legislation.

Medical aid contributions

The Anglovaal Group Medical Scheme, a restricted membership scheme, offers medical benefits for the employees of participating employers in the Group. The scheme is managed by a board of trustees elected by members (including pensioners) and employer companies and is administered by Discovery Health. The board of trustees is assisted by an audit and investment committee and a committee of management. As with the Group's retirement funds, the assets of the scheme are managed separately from those of the Group. The board of trustees ensures compliance with all relevant legislation and, in particular, manages the relationship with the Council of Medical Schemes. Executive and management employees are remunerated on a total cost to company basis and therefore all funding requirements for this scheme are borne by employees.

Fair and responsible remuneration

The King Code emphasises the need for executive remuneration that is fair and responsible in the context of overall employee remuneration. The Board and Remcom regard this as an important issue that requires careful consideration and discussion with a view to understanding the criteria for determination of "fair and responsible" remuneration and how this can be assessed and, if appropriate, adjusted.

Non-executive directors' emoluments

Non-executive directors are remunerated in line with market-related rates for the time required to discharge their ordinary responsibilities on the Board and its sub-committees. A portion of the fees is paid as a retainer with the balance being paid for attendance of normal scheduled meetings. For extraordinary ad hoc services rendered that fall outside their ordinary duties, the non-executive directors are remunerated by way of a market-related hourly fee, subject to authorisation by the Remuneration Committee ("Remcom").

During F22 the Remuneration Committee reviewed current market remuneration practices for non-executive directors, which vary widely depending on the role, size of the organisation, sector and industry. The time required to perform the role is also an important consideration, together with responsibilities, such as membership of a Board committee. The Company's existing remuneration practices for non-executive directors do not create differentiation for competence, individual contribution, or experience (including tenure).

It has become increasingly necessary to ensure that the Company is able to retain and recruit the most competent and experienced non-executive directors. In order to improve the Company's opportunity to do this, a remuneration framework needs to recognise experience (outside, as well as inside the Company), and make an assessment of individual contribution and performance. To this end the Remuneration Committee resolved to implement a non-executive director remuneration framework incorporating a base fee together with internal and external experience fees, all of which will be assessed annually against individual performance with potential for payment of a performance fee as a percentage of the base fee.

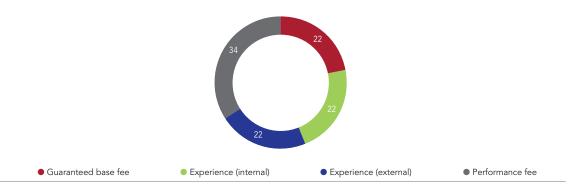

Formal evaluations will be conducted annually in respect of each non-executive director in an open and constructive manner. Each director will be required to meet with Remcom for purposes of their own evaluation and will be afforded an opportunity to address Remcom. The Chairman's evaluation will be conducted by the Board, led by the Lead Independent director. If deficiencies are identified, plans will be developed and implemented for the director/s in question to acquire the necessary skills or attributes or behaviour. The evaluations will be done at the end of each financial year and will dictate the level of remuneration for each director for the following year, up to the maximum potential remuneration approved annually by shareholders.

The evaluations will consider and score experience and the performance of each non-executive director on the following rating matrix:

| | Maximum | Target | Minimum |
|---|---------|--------|---------|
| Rating matrix | score | score | score |
| Experience rating matrix | | | |
| External experience score (/10) | 10 | 7 | 0 |
| Internal experience score (/10) | 10 | 7 | 0 |
| Total experience rating | 20 | 14 | 0 |
| Performance score matrix | | | |
| Comprehensive understanding of AVI's business strategy and internal risk environment (/5) | 5 | 3,5 | 0 |
| Care, skill and diligence in discharge of all relevant duties (/5) | 5 | 3,5 | 0 |
| Board meeting engagement and contribution (/5) | 5 | 3,5 | 0 |
| Relevant insights into Macro/Political realities and translation into | | | |
| appropriate risk cognisant strategies for AVI (/5) | 5 | 3,5 | 0 |
| Total performance score (/20) | 20 | 14 | 0 |

The current split of total fees being paid as a combination of a fixed retainer and the balance for attendance at formally convened meetings will continue, with the proposed fee composition expected to be as follows:

Shareholders were asked to vote at the 2022 Annual General Meeting on the increase in fees for each role, based on this amended framework. More than 50% of shareholders voted in favour of the fees but, as these were special resolutions requiring a vote of 75%, no increases in non-executive remuneration were approved for F23 other than an increase in the fees payable to non-executive directors from R385 506 to R500 000 (which was subsequently reduced by the Board to R450 000). It was apparent to the Company from shareholder queries received prior to the Annual General Meeting that more information and engagement was needed in order to explain and motivate the new framework and attendant fee increases. To that end, the table set out below provides examples of how the framework would be applied in the event of a hypothetical: (a) maximum 100% experience and performance fee; (b) on-target experience and performance fee; and (c) minimum 0% experience and performance fee. It is apparent from this that, under the new framework, non-executive directors with less experience and/or who underperform, risk earning less than they do under the current framework of a fixed retainer and attendance fee.

This year shareholders are again asked to vote on an increase in fees based on the new framework, but are also provided with an alternative remuneration proposal, which is based on the existing framework with an inflation-linked increase. This will ensure that, if shareholders are inclined to vote against the new framework fees they are given the opportunity to vote for an inflation-linked increase which will enable the Company to, at least, ensure that its non-executive directors' fees remain competitive and non-executive directors are fairly remunerated for their efforts. The Company remains strongly of the view that implementing the new framework and fees will reward and motivate the appropriate behaviours and enable the Company to attract and retain the most competent non-executive directors. Shareholders are encouraged to engage with the Company before making their decision.

During F23 the Company appointed two new non-executive directors as set out in the governance report at page 84. This included the appointment of a foreign non-executive director. Shareholders are asked to approve these fees, including fees to be paid to the foreign non-executive director as Chairman of the Board and a member of the Audit Committee, the Remuneration, Nominations and Appointments Committee, and the Social and Ethics Committee, should he be appointed to these committees. The proposed fees have been benchmarked against the 2022 UK Spencer Stuart Board Index.

PART 3: IMPLEMENTATION REPORT

Executive management remuneration

The following disclosure is made in accordance with the King IV recommendation on disclosure of remuneration paid to executive management (being the executive Board members and management executives, as defined in the Companies Act), for the year under review:

Executive directors

| | 2023 | | | | | | | | | | |
|---|--------------------------|--|----------------------------------|---|---|----------------------------|---|----------------------------|--|--|--|
| Executive directors | Salary R'000 | Bonus and performance- related payments* R'000 | Pension fund contributions R'000 | Gains on exercise of share incentive instruments** R'000 | Other benefits and allowances*** R'000 | Termination benefits R'000 | Gains on early exercise of share options owing to termination R'000 | Total 2023 R'000 | | | |
| SL Crutchley JC O'Meara M Koursaris | 13 102 4 084 6 104 | 36 944 6 670 11 692 | 1 034 382 760 | 2 699 105 820 | 613 166 46 | - - - | - - - | 54 392 11 407 19 422 | | | |

^{*} Includes special retention bonuses paid to identified Group executive management by approval of Remcom, as follows: SL Crutchley – R13,3 million JC O'Meara – R3,5 million

The expense for the year in respect of share options granted to executive directors, determined in accordance with IFRS 2 – Share-Based Payments, was R21,67 million (2022: R10,81 million).

The executive directors of the Company receive no emoluments from the subsidiaries of the Company.

M Koursaris – R5,3 million

^{**} Gains on exercise of share incentive instruments represent the actual gain received by the director on exercising vested share incentive instruments.

^{***} Includes expenses refunded, taxable allowances (including car and security allowances), and Company contributions to medical schemes.

Bonus and performance-related payments for executive management for F22 were determined as follows:

| Executive directors | Percentage of F22 salary* % | Financial measures – percentage of total bonus paid % | Individual KPI – percentage of total bonus paid % | Financial factor achieved (multiple of on-target bonus) % | Individual KPI rating achieved % |
|---------------------|-----------------------------------|--|---|---|---|
| SL Crutchley | 179 | 84 | 16 | 2,50 | 95 |
| JC O'Meara | 78 | 84 | 16 | 2,29 | 90 |
| M Koursaris | 122 | 84 | 16 | 2,50 | 92 |

^{*} Excludes special retention bonuses paid.

The emoluments of key management executives who report to the executive directors are as follows:

| | | | | 2 | 023 | | | |
|--------------------------|-----------------|---|--|--|---|----------------------------------|--|------------------------|
| | Salary R'000 | Bonus and performance- related payments R'000 | Pension fund contributions R'000 | Gains on exercise of share instruments R'000 | Other benefits and allowances* R'000 | Termination benefits R'000 | Gains on early exercise of share options owing to termination R'000 | Total 2023 R'000 |
| Management executive 1** | 6 393 | 9 690 | 492 | 1 058 | 26 | _ | _ | 17 659 |
| Management executive 2 | 4 635 | 2 980 | 331 | 412 | 140 | _ | _ | 8 498 |
| Management executive 3** | 3 485 | 4 822 | 268 | 130 | _ | _ | _ | 8 705 |
| Management executive 4** | 2 577 | 3 653 | 202 | 164 | 61 | _ | _ | 6 656 |
| Management executive 5** | 2 912 | 4 021 | 327 | 190 | 72 | _ | _ | 7 522 |
| Management executive 6** | 3 286 | 4 524 | 328 | 98 | 141 | _ | _ | 8 376 |
| Management executive 7** | 2 211 | 3 120 | 191 | 70 | 359 | _ | _ | 5 950 |

Bonus and performance-related payments for key management executives for F22 were determined as follows:

| | | Financial | Individual | Financial | |
|------------------------|---------------|------------|------------|--------------|------------|
| | | measures – | KPI – | factor | |
| | | percentage | percentage | achieved | Individual |
| | Percentage of | of total | of total | (multiple of | KPI rating |
| | F22 salary* | bonus paid | bonus paid | on-target | achieved |
| | % | % | % | bonus) | % |
| Management executive 1 | 58 | 71 | 29 | 1,39 | 90 |
| Management executive 2 | 63 | 75 | 25 | 1,25 | 84 |
| Management executive 3 | 38 | 60 | 40 | 0,61 | 80 |
| Management executive 4 | 48 | 46 | 54 | 1,09 | 87 |
| Management executive 5 | 33 | 46 | 54 | 1,09 | 85 |
| Management executive 6 | 30 | 44 | 56 | 1,09 | 92 |
| Management executive 7 | 29 | 45 | 55 | 1,09 | 88 |

^{*} Excludes special retention bonuses paid.

Key management emoluments

Key management, as defined in International Accounting Standard 24 – Related Party Disclosures are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity.

The directors of the Company, directors of its subsidiaries and business unit management with executive responsibility have been identified as the key management personnel of the Group.

^{*} Includes expenses refunded, taxable allowances (including car allowances), and Company contributions to medical schemes.
** Includes special retention bonuses paid to identified Group executive management by approval of Remcom, details of which are set out below.

remuneration report continued

The following disclosure includes the total emoluments paid to key management personnel across the AVI Group:

| | 2023 | 2022 |
|--|---------|---------|
| | R'000 | R'000 |
| Salary and other benefits and allowances | 110 017 | 105 903 |
| Bonuses and performance-related payments | 65 072 | 44 879 |
| Special retention bonuses | 63 650 | _ |
| Pension fund contributions | 8 757 | 8 208 |
| Gains on exercise of share instruments | 7 299 | 31 976 |
| Sub-total Sub-total | 254 795 | 190 966 |
| Termination benefits* | _ | 1 388 |
| Gains on early exercise of share instruments owing to termination* | _ | 389 |
| Total | 254 795 | 192 743 |

^{*} In F22 the termination benefits arose from resignations and agreed terminations other than retrenchments.

Unexercised options, share appreciation rights and bonus shares
The following table reflects the status of unexercised options, share appreciation rights and bonus shares held by executive management as at 30 June 2023:

Executive directors:

| Name | Scheme | Options granted | Date granted | Vesting date | Issue price (R) | Allocation value (R) | Price at 30 June 2023 (R) | Vesting multiple at 30 June 2023 (as applicable) | Value at 30 June 2023 (R) |

Key:

RESIS – Revised AVI Executive Share Incentive Scheme AVI OPP – AVI Out-Performance Scheme AVI DBSP – AVI Deferred Bonus Share Plan Phantom – Various Phantom Share Schemes

Remcom is satisfied that executive remuneration for the year under review was in compliance with the Company's remuneration policy and that there were no deviations.

No events were identified that triggered the application of malus and clawback provisions on short or long-term incentives.

Non-executive directors' emoluments

At the Annual General Meeting held on 9 November 2022 shareholders approved the fees payable to resident non-executive directors for their services to the Board and other Board committees for the 2023 financial year as R500 000 per annum, which amount was subsequently revised downwards by the Board to R450 000.

Shareholders voted against the proposed increase in the fees payable to the Chairman of the Board as well as the Chairmen and members of the Board committees, which remained unchanged for the 2023 financial year as follows:

| Chairman of the Board | R1 435 929 |
|---|------------|
| Chairman of the Audit Committee | R310 749 |
| Members of the Audit Committee | R144 998 |
| Chairman of the Remuneration, Nomination and Appointments Committee | R287 297 |
| Members of the Remuneration, Nomination and Appointments Committee | R131 923 |
| Chairman of the Social and Ethics Committee | R144 998 |
| Members of the Social and Ethics Committee | R97 182 |

Non-binding advisory resolutions

At the next Annual General Meeting, in accordance with the recommendations of the King Code, shareholders will be able to vote separately on the remuneration policy and the implementation report. In the event that either the remuneration policy or the implementation report, or both, should be voted against by more than 25% of the voting rights exercised, the Company will engage with the dissenting voters with a view to addressing legitimate and reasonable objections and concerns raised.

AVI LIMITED

ISIN: ZAE000049433 Share Code: AVI Registration Number: 1944/017201/06 ("AVI" or "the Group" or "the Company")

For more information please visit our website: www.avi.co.za

The financial statements of AVI Limited have been audited in compliance with section 30 of the Companies Act No. 71 of 2008, as amended, and have been prepared under the supervision of Justin O'Meara, CA(SA), the AVI Group Chief Financial Officer.

These consolidated annual financial statements were published on Monday, 4 September 2023.

The annual financial statements of the Company are presented separately from the consolidated annual financial statements and were approved by the directors on 1 September 2023, the same date as these consolidated annual financial statements. The separate annual financial statements are available on the Company's website www.avi.co.za and at the Company's registered office.

directors' responsibility statement

The directors are responsible for the preparation and fair presentation of the consolidated annual financial statements of AVI Limited, comprising the balance sheet at 30 June 2023 and the statements of comprehensive income, changes in equity and cash flows for the year then ended, the accounting policies and the notes to the financial statements, which include explanatory notes in accordance with International Financial Reporting Standards ("IFRS") and the requirements of the Companies Act of South Africa, and the Directors' Report.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and for maintaining adequate accounting records and an effective system of risk management.

The directors have made an assessment of the Company and its subsidiaries' ability to continue as going concerns and have no reason to believe that they will not be going concerns in the year ahead.

The auditor is responsible for reporting on whether the consolidated annual financial statements are fairly presented in accordance with the applicable financial reporting framework.

ceo and financial director responsibility statement

Each of the directors, whose names are stated below, hereby confirm that-

- (a) the annual financial statements set out on pages 110 to 180, fairly present in all material respects the financial position, financial performance and cash flows of the issuer in terms of IFRS;
- (b) to the best of our knowledge and belief, no facts have been omitted or untrue statements made that would make the annual financial statements false or misleading;
- (c) internal financial controls have been put in place to ensure that material information relating to the issuer and its consolidated subsidiaries have been provided to effectively prepare the financial statements of the issuer;
- (d) the internal financial controls are adequate and effective and can be relied upon in compiling the annual financial statements, having fulfilled our role and function as executive directors with primary responsibility for implementation and execution of controls;
- (e) where we are not satisfied, we have disclosed to the audit committee and the auditors deficiencies in design and operational effectiveness of the internal financial controls, and have taken steps to remedy the deficiencies; and
- (f) we are not aware of any fraud involving directors.

Chief Executive Officer

JC O'MEARA

Chief Financial Officer Designated Financial Director

1 September 2023

Extract from JSE guidance letter on directors' responsibility on financial controls dated 17 July 2020 to note for information purposes:

Materiality

In terms of the JSE Listings Requirements ("the Requirements") financial information must be prepared in accordance with IFRS. The application of materiality is an important concept dealt with by IFRS. The reference to materiality in paragraph (a) of the CEO and FD signoff must be interpreted in the context of IFRS.

The second obligation under the CEO and FD sign off rule (as detailed in (b)) must be read in the context of paragraph (a). The term 'no' does not mean a one hundred percent factual correctness but rather that after due, careful and proper consideration the directors agree that no facts have been omitted or untrue statements made that would make the Annual Financial Statements ("AFS") materially false or materially misleading in terms of IFRS.

approval of annual financial statements

The consolidated annual financial statements of AVI Limited, which appear on pages 110 to 117 and 122 to 180, were authorised for issue by the Board of directors on 1 September 2023 and are signed on their behalf.

MJ WATTERS

Non-executive Chairman Authorised director

Chief Executive Officer Authorised director

certificate of the company secretary

In terms of section 88(2)(e) of the Companies Act No. 71 of 2008, as amended, I certify that, to the best of my knowledge and belief, the Company has lodged with the Companies and Intellectual Property Commission, for the financial year ended 30 June 2023, all such returns required of a public company in terms of the Companies Act No. 71 of 2008, as amended, and that all such returns are true, correct and up to date.

S SCHEEPERS

Company Secretary Illovo, Johannesburg 1 September 2023

directors' report

Business of the Group

AVI Limited ("the Company"), which is registered and incorporated in the Republic of South Africa with a primary listing on the JSE Limited ("JSE") and a secondary listing on A2X, is a branded consumer products company. The Company registration number is 1944/017201/06. The Group comprises trading subsidiaries that manufacture, process, market and distribute branded consumer products in the food, beverage, footwear, apparel and cosmetics sectors.

Financial

The results of operations for the year are set out in the statement of comprehensive income on page 139.

Revenue and operating profit before capital items were as follows:

| | 2023 | 2022 |
|---------------------------------------|----------|----------|
| | R'm | R'm |
| Revenue | 14 919,6 | 13 845,3 |
| Operating profit before capital items | 2 714,8 | 2 540,1 |

Further details are provided in the segmental report, which follows the Independent Auditor's Report.

A five-year summary of the Group's consolidated balance sheet, income statement and cash flow statement is presented on pages 29 to 31.

Impact of load-shedding, COVID-19 and July 2021 civil unrest

The financial environment remained difficult with high levels of load-shedding negatively affecting our manufacturing, distribution and retail operations. The impact was mitigated through back-up power solutions but nonetheless added R58,5 million to direct operating costs for the financial year. The Company has invested in back-up power options for a number of years and continues to do so.

COVID-19 has had a limited impact to our business both in the current and prior years. All business units have been able to operate throughout the year.

Included in the prior year results, are the effects of the civil unrest, which primarily impacted KwaZulu-Natal and Gauteng in July 2021, and disrupted trading with all of AVI's facilities and retail stores closed for several days to safeguard our staff. While operations were able to return to normal this was at lower demand levels due to extensive damage to many malls, lower consumer footfall and compromised logistics networks. The Group suffered physical damage and loss to its inventories, fixed assets and cash on hand at stores. The Group had adequate South African Special Risk Insurance ("SASRIA") and general insurance cover for material damage to assets, inventory and business interruption. The effects of the asset losses as well as the proceeds on the insurance claims have been recognised in these results, with all claims paid by SASRIA.

The table below summarises the Group impact of direct costs incurred and insurance proceeds recognised in respect of the civil unrest for the year ended 30 June 2022:

| | 2023 R'm | 2022 R'm |
|--|-------------|-------------|
| Cost of sales – stock written off | - | (31,6) |
| Gross profit Selling and administrative expenses, including other income | - | (31,6) |
| – SASRIA insurance proceeds | _ | 66,7 |
| – Store restoration and other costs | _ | (4,6) |
| Operating profit before capital items | _ | 30,5 |
| Capital items | _ | 1,1 |
| – Disposal of capital items | _ | (1,9) |
| – SASRIA insurance proceeds | _ | 3,0 |
| Profit before taxation | _ | 31,6 |
| Taxation | _ | (8,9) |
| Net impact on profit for the period | - | 22,7 |

The Group remains cash generative, with sufficient borrowing facilities to manage disruptions to operational cash flows and to continue to support its business units.

Going concern

The Group earned a net profit for the year ended 30 June 2023 of R1 836,9 million (2022: R1 751,2 million) and as of that date, its total assets exceeded its total liabilities by R5 116,9 million (2022: R4 793,7 million).

The trading environment remains particularly challenging given the volatility around currency, significant inflation, rising interest rates, the impact of load-shedding as well as the financial state of South Africa's consumers. Through this, the Group is focused on driving recovery and growth in its underlying businesses. We have seen improvements in most key performance indicators.

As part of preparing the financial results, the Group has performed a detailed going concern assessment. This assessment has relied on the Group's 2024 budget and has considered the profitability and solvency projections over the budget period. The budget for the year ahead was presented in the context of a challenging local economic environment, with the impacts thereof continuing to affect our customers through 2023 and 2024. Even under these conditions, the budget delivered shareholder value creation while maintaining stable capital and solvency positions throughout the cycle. As part of the budget process, a downside scenario was considered that examined a protracted inflation scenario in the midst of continuing infrastructure failures which will fuel inflation and reduce economic activity. The assessment shows that the Group remains sufficiently capitalised with appropriate levels of liquidity and no material uncertainty in relation to the going concern has been identified in the base budget as well as the downside scenario.

Based on the above, no material uncertainties that would require disclosure have been identified in relation to the ability of the Group to remain a going concern for at least the next 12 months. The directors therefore consider it appropriate for the going concern basis to be adopted in preparing the consolidated annual financial statements.

Share capital

Details of the Company's authorised and issued share capital are given in Note 11 to the financial statements, on page 150.

Corporate activity

There have been no significant changes to investments during the year.

Issues and redemptions during the year

A summary of the movement in the number of ordinary shares in issue during the year is given in Note 11 to the financial statements, on page 150.

General authority for the Company to acquire its own shares

The directors consider that it will be advantageous for the Company to have a general authority to acquire its own shares. Such authority will be utilised if the directors consider that it is in the best interests of the Company and shareholders to effect such acquisitions having regard to prevailing circumstances and the cash resources of the Company at the appropriate time. Accordingly, shareholders will be asked to approve such general authority at the Annual General Meeting on 8 November 2023.

Dividends

Dividends, paid and proposed, are disclosed in Note 30 to the financial statements on page 159.

Directorate

Mr GR Tipper resigned as Chairman and non-executive director with effect from 30 June 2023. Mr MJ Watters was appointed to the Board as an independent non-executive director with effect from 1 June 2023, and as Chairman of the Board effective 1 July 2023.

Mr MJ Bosman, Ms BP Silwanyana and Mr JR Hersov resigned as non-executive directors with effect from 30 January 2023, 27 June 2023 and 4 July 2023 respectively. Mr SG Robinson was appointed to the Board as an independent non-executive director and as Chairman of the Audit and Risk Committee with effect from 1 March 2023.

Ms MR Mouyeme was appointed to the Board as an independent non-executive director and as a member of the Audit and Risk Committee with effect from 1 August 2023.

There were no other changes to the Board for the year under review.

In terms of the Company's Memorandum of Incorporation, Mr M Koursaris and Mrs A Muller retire at the forthcoming Annual General Meeting. All of the retiring directors, being eligible, offer themselves for re-election.

In terms of the Companies Act, the appointments of Mr SG Robinson (Chairman), Mrs A Muller and Ms MR Mouyeme to the Audit and Risk Committee need to be approved at the forthcoming Annual General Meeting.

directors' report continued

Directors' service contracts

Standard terms and conditions of employment apply to executive directors, which, inter alia, provide for notice of termination of three months. Non-executive directors conclude service contracts with the Company on appointment. Their term of office is governed by the Memorandum of Incorporation which provides that one-third of the aggregate number of directors will retire by rotation at each Annual General Meeting, but may, if eligible, offer themselves for re-election.

Share schemes

Particulars of the Group's various share incentive schemes are set out in Note 32, on page 160 of the financial statements.

Directors' interests

The interests of the directors in the issued listed securities of the Company, being ordinary shares of 5 cents each, as at 30 June 2023 and 30 June 2022, are as follows:

| | Direct number | Beneficial indirect number | % of total |
|-------------------------|------------------|----------------------------------|---------------|
| At 30 June 2023 | | | |
| SL Crutchley | 840 201 | _ | 0,25 |
| JC O'Meara ¹ | 1 454 | _ | 0,00 |
| M Koursaris | 57 500 | _ | 0,02 |
| GR Tipper ² | 11 000 | - | 0,00 |
| Total | 910 155 | _ | 0,27 |
| At 30 June 2022 | | | |
| SL Crutchley | 840 201 | _ | 0,25 |
| OP Cressey ³ | 40 000 | _ | 0,01 |
| JC O'Meara ¹ | _ | _ | _ |
| M Koursaris | 57 500 | _ | 0,02 |
| GR Tipper ² | 11 000 | _ | 0,00 |
| Total | 948 701 | _ | 0,28 |

There has been no change to the directors' interests reflected above since the reporting date. Mr MJ Watters was appointed as Chairman of the Board on 1 July 2023, following Mr GR Tipper's resignation. Mr MJ Watters holds no securities of the Company.

Material shareholders

The Company does not have a holding company.

Ordinary shares

The beneficial holders of 3% or more of the issued ordinary shares of the Company at 30 June 2023, according to the information available to the directors, were:

| | Number of ordinary shares | % |
|---|---------------------------------|------|
| Government Employees Pension Fund Allan Gray | 70 158 403 20 999 204 | 20,7 |
| Vanguard Investment Management | 12 515 465 | 3,7 |

¹ Appointed 1 January 2022. ² Resigned 30 June 2023.

³ Resigned 31 December 2021.

Special resolutions passed by the Company and registered by the Registrar of Companies

The following special resolutions have been passed by the Company since the previous Directors' Report dated 2 September 2022 to the date of this report:

- To approve the fees payable to the current non-executive directors, excluding the Chairman of the Board.
- To authorise, by way of a general approval, the Company or any of its subsidiaries to acquire ordinary shares issued by the Company in terms of the Companies Act and Listings Requirements of the JSE.
- To authorise the Company, in terms of section 45 of the Companies Act, to provide direct or indirect financial assistance by way of loan, guarantee, the provision of security or otherwise, to any of its present or future subsidiaries and/or any other company or entity that is or becomes related or inter-related.

Post-reporting date events

The shareholder arrangement with Main Street 198 (Pty) Ltd ("Main Street"), the minority shareholder at I&J Holding Company (Pty) Ltd ("'l&J HoldCo"), matured on 1 July 2023. The 19-year relationship between Main Street and the Group generated significant value, including over R202,0 million in net cash to Main Street. In terms of the agreements, and on the maturity date, AVI Limited exercised its call option over the shares held by Main Street in I&J HoldCo and the preference shares held by AVI Limited in Main Street were redeemed.

In line with our commitment to sustainable transformation, a broad-based sharing of Broad-based Black Economic Empowerment ("BBBEE") economic value and the codes, the Company and I&J implemented a new BBBEE transaction with effect from 1 July 2023 in terms of which Twincitiesworld (Pty) Ltd ("Twincitiesworld"), a 100% black-owned company, acquired an 18,75% interest in I&J Limited. I&J's employees own 6,25% of I&J Limited resulting in 25% of the issued share capital of I&J Limited being held by previously disadvantaged shareholders.

The mechanics of the replacement structure align closely with the terms of the expiring relationship with Main Street and is financed through a preference share investment at the I&J HoldCo level. The preference share funding will be settled through dividend flows with 90% of normal dividends received applied against the funding with 10% available as a trickle-through. Furthermore, a put and call option is in place between I&J Holdco and Twincitiesworld, the exercise price of which is determined by a fixed formula based on I&J Limited's earnings. The exercise date of the put and call option is December 2036.

The replacement scheme will be recognised as a liability in the Group's financial statements, with a concomitant day 1 income statement impact on 1 July 2023.

Other than the transaction noted above, no material events that meet the requirements of IAS 10 have occurred since the reporting date.

Senior management are eligible to participate in an earnings-linked performance share option scheme which is accounted for in terms of IAS 19 – *Employee Benefits* as the benefit payment is based on the Company's headline earnings. All instruments vest three years after award date. These share options can be exercised after a three year vesting period, at which point participants receive the benefit in cash determined as the difference between the notional share price calculated on vesting date and the award date share price. Upon vesting, the options become unrestricted in the hands of participants and lapse two years and 91 days after vesting date. Refer to Note 14 for details on the total liability at year end.

audit committee report

The Audit Committee is pleased to present its report for the financial year ended 30 June 2023 in terms of section 94(7)(f) of the Companies Act No. 71 of 2008, as amended ("the Companies Act").

The Audit Committee has adopted formal terms of reference, delegated to it by the Board of directors, as its charter. The charter is in line with the Companies Act, the King IV Report on Corporate Governance for South Africa 2016 ("King IV") and the JSE Listings Requirements. The committee has discharged the functions delegated to it in terms of its charter. The Audit Committee's process is supported by the operating subsidiary companies which have internal review committees that monitor risk management and compliance activities. There is a formal reporting line from the various internal review committees into the Audit Committee via the Group's Chief Financial Officer.

During the year under review the committee performed the following statutory duties:

- 1. Reviewed and recommended for adoption by the Board such financial information as is publicly disclosed which for the year included:
 - The interim results for the six months ended 31 December 2022; and
 - The annual financial statements for the year ended 30 June 2023.
- 2. Considered and satisfied itself that the external auditors Ernst & Young Inc. are independent.
- 3. Approved the external auditor's budgeted fees and terms of engagement for the 2023 financial year.
- 4. Determined the non-audit related services which the external auditors were permitted to provide to AVI and reviewed the policy for the use of the external auditors for non-audit related services. All non-audit related service agreements between the AVI Group and the external auditors were pre-approved.
- 5. Satisfied itself that the necessary documentation and confirmations in terms of the JSE Listings Requirements were obtained from the external auditors.
- 6. Resolved that KPMG Inc. would continue to perform the internal audit function during the financial year.
- 7. Reviewed the Audit Committee charter in line with King IV recommendations.
- 8. Reviewed the internal audit charter in line with King IV recommendations.
- 9. Confirmed the internal audit plan for the 2023 financial year.
- 10. Ensured that appropriate financial reporting procedures exist and that they are working.
- 11. Confirmed that adequate whistle-blowing facilities were in place throughout the AVI Group and reviewed and considered actions taken with regard to incident reports.
- 12. Held separate meetings with management, the external and internal auditors to discuss any problems and reservations arising from the year end audit and other matters that they wished to discuss.
- 13. Noted that it had not received any complaints, either from within or outside the Company, relating either to the accounting practices, the internal audits, the content or auditing of the financial statements, the internal financial controls or any other related matter.
- 14. Conducted a self-evaluation exercise into its effectiveness.
- 15. Reviewed the suitability of Ernst & Young Inc., for re-appointment by considering, inter alia, the information stated in paragraph 22.15(h) of the JSE Listings Requirements.
- 16. Recommended to the Board the re-appointment of Ernst & Young Inc. as the external auditors and appointment of Mr A Carshagen as the registered auditor responsible for the audit for the year ending 30 June 2024, which will be considered at the forthcoming Annual General Meeting.
- 17. Evaluated and satisfied itself as to the appropriateness of the expertise and experience of the Company's financial director.
- 18. Satisfied itself as to the expertise, resources and experience of the Company's finance function.
- 19. Evaluated the underlying assessment performed by the CEO and financial director to support their declaration required in terms of section 3.84(k) of the JSE Listings Requirements and are satisfied that it supports the declaration made.

On behalf of the Audit Committee

SG ROBINSON Audit Committee Chairman

1 September 2023

independent auditor's report

To the shareholders of AVI Limited Report on the audit of the consolidated annual financial statements Opinion

We have audited the consolidated annual financial statements of AVI Limited and its subsidiaries ("the Group") set out on pages 114 to 116 and 122 to 177, which comprise the consolidated balance sheet as at 30 June 2023, the Directors' Remuneration Report, the segment reporting, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated annual financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated annual financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 30 June 2023, and its consolidated financial performance and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated annual financial statements section of our report. We are independent of the Group in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors ("IRBA Code") and other independence requirements applicable to performing audits of financial statements of the Group and in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits of the Group and in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated annual financial statements of the current year. These matters were addressed in the context of our audit of the consolidated annual financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated annual financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated annual financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated annual financial statements.

Key audit matter

How the matter was addressed in the audit

Impairment assessment of intangible assets and

Management performs an impairment test on the recoverability of the intangibles as well as the goodwill as required by International Financial Reporting Standards which is subjective in nature due to the estimates having to be made of future performance.

A significant portion of the Group's goodwill and trademarks' value relates to its footwear and apparel businesses.

Refer to Note 3 – Intangible assets and goodwill.

As disclosed in Note 3 to the consolidated annual financial statements (Intangible assets and goodwill), the Group uses a discounted cash flow model to determine the value in use for each cash-generating

During the financial year, certain macro-economic factors have had a negative impact on the spending patterns of consumers which continues to evolve between various products and regions.

As a result, this has created uncertainties around the revenue and growth rate assumptions of the footwear and apparel businesses. These factors have led to continued uncertainty around the timing and amount of future cash flows, when they are already inherently

Given the above, impairment testing, particularly in the retail businesses, required significant auditor attention in the current year and the involvement of our valuation specialists.

Our audit procedures included, among others:

- We involved the internal valuation specialists in our team to assist in evaluating management's impairment methodology and key assumptions used in the impairment calculations;
- Together with the internal valuation specialists we performed the following:
 - Assessed management's impairment methodology by comparing it to best practises and the requirements of IAS 36: and
 - Calculated independent weighted average cost of capitals ("WACCs") to compare to management's WACCs. Our independent WACC recalculation was based on publicly available market data for comparable companies for each of the material cash-generating units ("CGUs");
- For assumptions based on historical results, we compared the cash flow forecasts to past performance (particularly as it relates to historical working capital levels and gross profit margins);
- For assumptions based on future trends and where the risk of a weakened economy was present:
 - We vouched CPI assumptions to current market information, which we obtained externally;
 - We stress tested the footwear and apparel businesses' revenue cash flows by determining the impact of delayed economic growth, by pushing the cash flow forecasts out by one year; and
 - We have considered the actual trading results of the footwear and apparel businesses post year end in our assessment of the reasonability of the revenue cash flow projections.
- We have performed sensitivity analyses around all the key assumptions used in the impairment model. We did this by increasing and decreasing the following assumptions in the model to determine the impact on the headroom between the value of the recorded assets of the CGU and the value in use as calculated by the impairment calculation model:
 - The WACC used to discount the cash flows;
 - Revenue, overhead and terminal value growth rates;
 - Gross profit margins; and
 - Working capital requirements.
- We also performed extended sensitivity testing and stress tests of the impairment model with different economic recovery scenarios to determine whether there was a significant impact on the value in use calculated in the model;
- We assessed the historical reliability of cash flow forecasts prepared by management through a review of actual past performance compared to previous forecasts to understand management's ability to accurately estimate future cash flows;
- We assessed historical forecasts obtained and compared these to forecasts obtained in the current year to determine management's ability to forecast accurately taking into consideration circumstances and events which arose during the financial year which were not known or present in prior years; and
- We assessed the disclosures relating to goodwill and trademarks in terms of IAS 36.

independent auditor's report continued

Other information

The directors are responsible for the other information. The other information comprises the information included in the 188-page document titled "AVI 2023 Integrated Annual Report", which includes the Directors' Report, the Audit Committee's Report and the Certificate of the Company Secretary as required by the Companies Act of South Africa, which we obtained prior to the date of this report, and the Integrated Annual Report, which is made available to us after that date. The other information does not include the consolidated annual financial statements and our auditor's reports thereon.

Our opinion on the consolidated annual financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated annual financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated annual financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the consolidated annual financial statements

The directors are responsible for the preparation and fair presentation of the consolidated annual financial statements in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of consolidated annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated annual financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated annual financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated annual financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated annual financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated annual financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated annual financial statements, including the disclosures, and whether the consolidated annual financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated annual financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions to eliminate threats or related safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the consolidated annual financial statements of the current period and are therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such

Report on other Legal and Regulatory Requirements

In terms of the IRBA Rule published in Government Gazette Number 39475 dated 4 December 2015, we report that Ernst & Young Inc. has been the auditor of AVI Limited for six years.

segment reporting continued

Basis of segment presentation

The segment information has been prepared in accordance with IFRS 8 – Operating Segments ("IFRS 8") which defines the requirements for the disclosure of financial information of an entity's operating segments. The standard requires segmentation based on the Group's internal organisation and internal accounting presentation of revenue and operating profit.

Identification of reportable segments

The Group discloses its reportable segments according to the entity components that management monitor regularly in making decisions about operating matters. The reportable segments comprise various operating segments primarily located in South Africa.

The revenue and operating assets are further disclosed within the geographical areas in which the Group operates. Segment information is prepared in conformity with the basis that is reported to the CEO, who is the chief operating decision maker, in assessing segment performance and allocating resources to segments. These values have been reconciled to the consolidated annual financial statements. The basis reported by the Group is in accordance with the accounting policies adopted for preparing and presenting the consolidated annual financial statements.

Segment revenue excludes Value Added Taxation and includes intersegment revenue. Revenue from contracts with customers represents segment revenue from which intersegment revenue has been eliminated. Sales between segments are made on a commercial basis.

Segment operating profit before capital items represents segment revenue less segment operating expenses, excluding capital items included in Note 23.

Segment expenses include direct and allocated expenses. Depreciation and amortisation have been allocated to the segments to which they relate.

The segment assets comprise all assets that are employed by the segment and that either are directly attributable to the segment, or can be allocated to the segment on a reasonable basis.

The number of employees per segment represents the total number of permanent and full time equivalents at year end.

Reportable segments

National Brands

Entyce Beverages

Revenue in this segment is derived from the sale of tea, coffee and creamer, primarily in South Africa and neighbouring countries.

The coffee category includes the supply of premium ground coffee and beverage service solutions to the out-of-home consumption market including hotels, caterers, restaurants and corporates.

Snackworks

The principal activity within this segment is the sale of a full range of sweet and savoury biscuits and baked and fried potato and maize snacks, primarily in South Africa and neighbouring countries.

I&J

I&J catches fish in South African waters and processes, markets and distributes premium quality value-added seafood in local and international markets.

Fashion brands

Fashion brands provide personal care and footwear and apparel offerings.

Personal Care

Indigo Brands, which forms the base for the personal care segment, creates, manufactures and distributes leading body spray, fragrance, cosmetics and body lotion products. These products are sold primarily in South Africa and neighbouring countries.

Footwear and Apparel

Spitz, Kurt Geiger, Green Cross and Gant make up the footwear and apparel segment and retail a portfolio of owned and licensed footwear and apparel brands in South Africa.

Reportable segments continued Corporate

The corporate office provides strategic direction, as well as financial, treasury and legal services to the largely autonomous subsidiaries.

Other entities in this segment comprise the various staff share scheme trusts.

Geographical information

The Group's operations are principally located in South Africa.

Major customers

The Group's most significant customers, being two South African retailers, individually contribute more than 10% of the Group's revenue (R3 938,5 million in the current year and R3 558,6 million in the previous year) in the National Brands, I&J and Personal Care segments.

| | 2023 | | 2022 | |
|---|----------|-------|----------|-------|
| Segmental revenue by market | R'm | % | R'm | % |
| The Group's consolidated revenue by geographic market, regardless of where goods were produced, was as follows: | | | | |
| South Africa | 11 944,5 | 80,1 | 11 106,7 | 80,2 |
| Other African countries | 1 338,0 | 9,0 | 1 234,5 | 8,9 |
| Europe** | 1 136,1 | 7,6 | 1 001,7 | 7,2 |
| Rest of the world | 501,0 | 3,3 | 502,4 | 3,7 |
| Total segmental revenue | 14 919,6 | 100,0 | 13 845,3 | 100,0 |
| Analysis of non-current assets* by geographic area | | | | |
| South Africa | 4 560,1 | 98,9 | 4 458,6 | 99,5 |
| Other African countries | 45,8 | 1,0 | 16,3 | 0,4 |
| Europe** | 3,2 | 0,1 | 3,9 | 0,1 |
| Rest of the world | _ | - | _ | _ |
| | 4 609,1 | 100,0 | 4 478,8 | 100,0 |

Comprises non-current assets less deferred tax assets and other long-term assets.

^{**} The disclosure of revenue by geographical market was enhanced in the current year by further disaggregating Europe as a geographical market. Europe was included in the "Rest of the world" segment in previous reports.

accounting policies

AVI Limited ("the Company") is a South African registered company. The consolidated annual financial statements of the Company for the year ended 30 June 2023 comprise the Company and its subsidiaries (together referred to as "the Group" or "AVI") and the Group's interest in joint ventures.

Statement of compliance

The consolidated annual financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), in compliance with JSE Listings Requirements, the interpretations adopted by the International Accounting Standards Board ("IASB"), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, and the requirements of the Companies Act of South Africa. The consolidated annual financial statements were approved for issue by the Board of directors on 1 September 2023.

Basis of preparation

These consolidated annual financial statements are prepared in millions of South African Rands ("R'm"), which is the Company's functional currency, on the historical cost basis, except for the following assets and liabilities which are stated at their fair value:

- · derivative financial instruments;
- biological assets; and
- liabilities for cash-settled share-based payment arrangements.

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that may affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision only affects that period, or in the period of the revision and future periods if the revision affects both current and future periods.

In particular, information about areas of estimation that have the most significant effect on the amounts recognised in the financial statements are described in the following notes:

Note 1 - useful lives and residual values of property, plant and equipment;

Note 3 – useful lives and impairment tests on intangible assets;

Note 6 – utilisation of tax losses;

Note 8 – valuation of biological assets;

Note 13 – lease terms applied in calculating lease liabilities;

Note 14 - measurement of defined benefit obligations; and

Note 33 - measurement of cash-settled share-based payment liabilities relating to BBBEE transactions.

The accounting policies set out below have been applied consistently in the periods presented in these consolidated annual financial statements. There are no new, revised or amended accounting standards, effective 1 July 2022, applicable to the Group.

New standards and interpretations in issue not yet effective

Standards, amendments and interpretations issued but not yet effective have been assessed for applicability to the Group. Management has concluded that they are either not applicable, or do not have a material impact to the business of the Group, and will therefore have no impact on future financial statements.

Basis of consolidation

Subsidiaries

The consolidated annual financial statements include the financial statements of the Company and its subsidiaries. Where an investment in a subsidiary is acquired or disposed of during the financial year its results are included from, or to, the date control commences or ceases. Any surplus or deficit arising on the loss of control is recognised in profit or loss.

Subsidiaries are those entities controlled by the Company. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Losses applicable to non-controlling interests in a subsidiary are allocated to the non-controlling interest even if doing so causes the non-controlling interest to have a deficit balance.

Joint arrangements

Joint arrangements are those entities in respect of which there is a contractual agreement whereby the Group and one or more other parties undertake an economic activity, which is subject to joint control.

A joint venture is an arrangement over which the Group has joint control, where the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

The Group's participation in joint ventures is accounted for using the equity method. They are recognised initially at cost, which includes transaction costs. Subsequent to initial recognition, until the date on which joint control ceases, the consolidated annual financial statements include the Group's share of profit or loss and other comprehensive income of the equity-accounted investees offset by dividends received.

Eliminations on consolidation

Intra-group balances and transactions, and any unrealised gains or losses arising from intra-group transactions, are eliminated in preparing the consolidated annual financial statements. Unrealised gains arising from transactions with joint ventures are eliminated to the extent of the Group's interest in these enterprises. Unrealised losses on transactions with joint ventures are eliminated in the same way as unrealised gains except that they are only eliminated to the extent that there is no evidence of impairment.

Goodwill

All business combinations are accounted for by applying the "acquisition method", as at acquisition date, which is the date on which control is transferred to the Group. The Group measures goodwill as the fair value of the consideration transferred including the recognised amount of any non-controlling interest in the acquiree, less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed, all measured as at the acquisition date.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration and share-based payment awards of the acquiree that are replaced mandatorily in the business combination. If a business combination results in the termination of pre-existing relationships between the Group and the acquiree, then the lower of the termination amount, as contained in the agreement, and the value of the off-market element is deducted from the consideration transferred and recognised in profit or loss.

Goodwill is stated at cost less accumulated impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment. In respect of equity-accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment, and an impairment loss on such an investment is not allocated to any asset, including goodwill, that forms part of the carrying amount of the equity-accounted investee.

A bargain purchase gain arising on an acquisition is recognised directly in profit or loss as a capital item.

Transaction costs that the Group incurs in connection with a business combination are expensed as incurred.

Premiums and discounts arising on subsequent purchases from, or sales to, non-controlling interests in subsidiaries

Following the presentation of non-controlling interests in equity, any increases and decreases in ownership interests in subsidiaries without a change in control are recognised as equity transactions in the consolidated annual financial statements. Accordingly, any premiums or discounts on subsequent purchases of equity instruments from, or sales of equity instruments to, non-controlling interests are recognised directly in the equity of the parent shareholder.

accounting policies continued

Basis of consolidation continued

Broad-Based Black Economic Empowerment ("BBBEE") transactions

Where BBBEE transactions involve the disposal or issue of equity interests in subsidiaries, although economic and legal ownership of such instruments may have transferred to the BBBEE participant, the derecognition of such equity interests sold or recognition of equity instruments issued in the underlying subsidiary by the parent shareholder is postponed whilst the parent shareholder is deemed to control the underlying subsidiary per the requirements of IFRS 10 – Consolidated Financial Statements.

Where BBBEE transactions involving equity instruments issued to external parties are expected to be settled in cash, a cash-settled share-based payment liability is recognised at the fair value of the amount expected to vest to BBBEE participants.

Where BBBEE transactions involving equity instruments issued to employees are expected to be settled in cash, an employee benefit liability is recognised at the present value of future cash flows expected to vest to participants, measured using the projected unit credit method.

Borrowing costs

Borrowing costs that are directly attributable to the acquisition or construction of an asset, that requires a substantial period of time to prepare for its intended use, are capitalised. Interest is capitalised over the period during which the qualifying asset is being acquired or constructed and where expenditure for the asset and borrowings have been incurred. Capitalisation ceases when the construction is interrupted for an extended period or when the qualifying asset is substantially complete. All other borrowing costs are recognised in profit or loss using the effective interest method.

Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise cash balances on hand, deposits held on call with banks, net of overdrafts forming part of the Group's cash management, all of which are available for use by the Group unless otherwise stated.

Capital items

Capital items are items of income and expenses relating to the acquisition, disposal or impairment of investments, businesses, property, plant and equipment and intangible assets.

Capital items relate to separately identifiable remeasurements (not adjusted for related taxation and related non-controlling interests) other than remeasurements specifically included in headline earnings as defined in Circular 01/2023 – *Headline earnings*.

Dividends payable

Dividends payable are recognised in the period in which such dividends are declared.

Employee benefits

Short-term employee benefits

The cost of all short-term employee benefits is recognised in profit or loss during the period in which the employee renders the related service.

The accruals for employee entitlements to salaries, performance bonuses and annual leave represent the amounts which the Group has a present obligation to pay as a result of employees' services provided to the reporting date. The accruals have been calculated at undiscounted amounts based on current salary levels at the reporting date.

Defined contribution plans

The Group provides defined contribution plans for the benefit of employees, the assets of which are held in separate funds. These funds are funded by payments from employees and the Group. The Group's contributions to defined contribution plans are charged to profit or loss in the year to which they relate.

Defined benefit obligations

The Group's obligation to provide post-retirement medical aid benefits is a defined benefit obligation. The projected unit credit method is used to measure the present value of the obligation and the cost of providing these benefits.

Current service costs and interest costs are recognised in profit or loss in the period incurred.

Remeasurements, comprising actuarial gains and losses, are recognised immediately through other comprehensive income in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Employee benefits continued

Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits other than post-retirement and pension plans is the amount of future benefit that employees have earned in return for their services in the current and prior periods.

That benefit is discounted to determine its present value and the fair value of any related assets is deducted. The calculation of benefits is performed using the projected unit credit method. Any actuarial gains or losses are recognised in profit or loss in the period in which they arise.

Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw from the offer of those benefits and when the Group recognises costs for a restructuring. If the benefits are payable more than 12 months after the reporting date, they are discounted to their present value.

Share-based payment transactions

Group share-based payment transactions

Transactions in which a parent grants rights to its own equity instruments directly to the employees of its subsidiaries are classified as equity-settled in the financial statements of the parent. The subsidiary classifies these transactions as equitysettled in its financial statements where it has no obligation to settle the share-based payment transaction.

The subsidiary recognises the services acquired as a result of the share-based payment as an expense and recognises a corresponding increase in equity as a capital contribution from the parent for those services acquired. The parent recognises in equity the equity-settled share-based payment and recognises a corresponding increase in the investment in subsidiary.

Equity-settled

The fair value of share options granted to Group employees is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and expensed over the period during which the employee becomes unconditionally entitled to the equity instruments. The fair value of the instruments granted is measured using generally accepted valuation techniques, taking into account the terms and conditions upon which the instruments are granted. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest except where forfeiture is due only to market conditions not being met.

BBBEE transactions

Where goods or services are considered to have been received from black economic empowerment partners as consideration for equity instruments of the Group, these transactions are accounted for as share-based payment transactions, even when the entity cannot specifically identify the goods or services received.

accounting policies continued

Fair value measurement

The Group measures financial instruments, such as derivatives, at fair value at each balance sheet date.

Fair value is the price that would be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- · In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use, or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

Fair value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are summarised in the following notes:

- Note 8 Biological assets
- Note 36 Financial assets and liabilities

Financial instruments

Financial instruments are recognised on the Group's balance sheet when the Group becomes a party to the contractual provisions of the instrument.

Financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs when the Group becomes a party to the contractual arrangements. Subsequent to initial recognition, these instruments are measured in accordance with their classification as set out below:

Financial asset classification and measurement

Financial assets are classified into the following three principal categories: financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and debt instruments at amortised cost. The classification depends on the contractual cash flow characteristics and the business models for managing the financial assets, and is determined at the time of initial recognition.

The Group does not have any financial assets at fair value through other comprehensive income.

Financial instruments continued

Debt instruments, derivatives and equity instruments at fair value through profit or loss ("FVTPL")

Financial assets are classified as at FVTPL when the financial asset is (i) held for trading, or (ii) it is designated as FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- · on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss.

Debt instruments at amortised cost

Debt instruments at amortised cost (including trade and other receivables, bank balances and cash) are measured at amortised cost using the effective interest method, less any impairment.

Amortised cost is calculated considering any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

The Group measures financial assets at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- · the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial liability classification and measurement

Financial liabilities are classified as either financial liabilities at fair value through profit or loss or other financial liabilities.

Financial liabilities at fair value through profit or loss ("FVTPL")

Financial liabilities are classified as at FVTPL when the financial liability is (i) held for trading, or (ii) it is designated as FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss.

Other financial liabilities

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

Offset

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet when the Group has a legally enforceable right to set off the recognised amounts, and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

accounting policies continued

Financial instruments continued

Derivative instruments

The Group uses derivative financial instruments to manage its exposure to risks arising from operational, financing and investment activities. The Group does not hold or issue derivative financial instruments for trading purposes.

Subsequent to initial recognition, derivative instruments are measured at fair value through profit or loss. Fair value is determined by comparing the contracted rate to the current rate of an equivalent instrument with the same maturity date. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged.

Hedging

Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probable forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in other comprehensive income and presented in the cash flow hedging reserve in equity. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss.

When the hedged firm commitment or forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the cumulative amount recognised in equity up to the transaction date is adjusted against the initial measurement of the asset or liability. For other cash flow hedges, the cumulative amount is recognised in profit or loss in the period when the commitment or forecast transaction affects profit or loss.

Where the hedging instrument or hedge relationship is terminated or no longer meets the criteria for hedge accounting but the hedged transaction is still expected to occur, the cumulative unrealised gain or loss at that point remains in equity and is recognised in profit or loss when the underlying transaction occurs. If the hedged transaction is no longer expected to occur, the cumulative unrealised gain or loss is recognised in profit or loss immediately.

Where a derivative financial instrument is used to hedge economically the foreign exchange exposure of a recognised monetary asset or liability, no hedge accounting is applied and any gain or loss on the hedging instrument is recognised in profit or loss.

Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

Foreign currencies

Foreign currency transactions

Transactions in foreign currencies are translated to South African Rand, being the functional currency of the Company, at the rates of exchange ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to South African Rand at the exchange rates ruling at that date. Gains or losses on translation are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currency are translated using the exchange rate at the date of the transaction.

Foreign operations

The assets and liabilities of all foreign operations, including goodwill and fair value adjustments arising on consolidation, are translated to South African Rand at foreign exchange rates ruling at the reporting date. The revenues and expenses of foreign operations are translated to South African Rand at approximate foreign exchange rates ruling at the date of the transactions. Foreign exchange differences arising on translation are recognised in other comprehensive income and presented in the foreign currency translation reserve in equity. The foreign currency translation reserve applicable to a foreign operation is released to profit or loss upon disposal of that foreign operation.

Government grants

Government grants are only recognised when there is reasonable assurance that the grants will be received and that the Group will comply with the conditions attaching to them.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the related costs, which the grants are intended to compensate, are expensed. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire depreciable assets, are deducted from the cost of the related assets in calculating their carrying amounts, and are recognised in profit or loss over the useful life of the assets as a reduced depreciation expense.

Government grants continued

Government grants relating to expenses or losses already incurred and where no future expenses or losses are expected, are recognised when they become receivable.

Impairment of non-financial assets

The carrying amounts of the Group's assets other than deferred tax assets, biological assets, inventories and financial assets which are separately assessed and provided against where necessary, are reviewed at each reporting date to determine whether there is any indication of impairment. If there is any indication that an asset may be impaired, its recoverable amount is estimated.

For goodwill and intangible assets that have an indefinite useful life the recoverable amount is estimated at least annually.

The recoverable amount of assets is the greater of their fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit ("CGU") to which the asset belongs. Subject to an operating segment ceiling test (before aggregation of segments), for the purposes of goodwill impairment testing, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes. Impairment losses are recognised in profit or loss as a capital item, when the carrying amount exceeds the recoverable amount.

Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating units and then to reduce the carrying amount of the other assets in the unit on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed if there has been a change in the estimates used to determine a higher recoverable amount.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised, and when the indication of impairment no longer exists.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Group considers a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts, taking into account credit enhancements that are part of the contractual terms and that are not recognised separately by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

For trade receivables the Group applies a simplified approach in calculating ECLs. The Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Intangible assets

Intangible assets, excluding goodwill, acquired by the Group are stated at cost less accumulated amortisation and impairment losses. Amortisation is charged to profit or loss on a straight-line basis over the estimated useful lives of intangible assets unless such lives are indefinite. Where the useful life of an intangible asset is assessed as indefinite, the intangible asset is not amortised, but is tested annually for impairment.

Subsequent expenditure on acquired intangible assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

accounting policies continued

Intangible assets continued

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, and expenditure on internally generated goodwill and brands, is recognised in profit or loss as an expense when incurred.

Inventories

Inventories are stated at the lower of cost and net realisable value.

The cost of inventories is based on the first-in-first-out method or a weighted average cost basis, whichever is applicable, and includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of overheads based on normal operating capacity. The cost of items transferred from biological assets is their fair value less costs to sell at the date of transfer.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Biological assets

Biological assets are stated at fair value less estimated costs to sell, with any resultant gain or loss recognised in profit or loss. Costs to sell include all costs that would be necessary to sell the assets, excluding costs necessary to get the assets to market.

Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. An identified asset is physically distinct, or if not physically distinct, the lessee has the right to use substantially all of the capacity of the asset during the lease term. If a contract contains more than one lease component, or a combination of leasing and selling transactions, the consideration is allocated to each of the lease and non-lease components on conclusion, and on each subsequent measurement, of the contract on the basis of their relative stand-alone selling prices.

Lessee

Leases are accounted for based on a right-of-use model. The model reflects that, at the commencement date, a lessee has a financial obligation to make lease payments to the lessor for its right to use the underlying asset during the lease term. The lessor conveys that right to use the underlying asset at lease commencement, which is the time when it makes the underlying asset available for use by the lessee.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The lease term also takes into account the likelihood of exercising a renewal option.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment regarding purchase of the underlying asset.

Lease liabilities continued

Variable lease payments

Variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

Certain of the Group's retail outlets are subject to contingent rentals which are determined with reference to the respective store's annual turnover. Turnover rentals are calculated as a percentage of the value of sales that exceed agreed targets, and expensed as part of variable lease payments when incurred.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Lessor

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the leasee. All other leases are classified as operating leases.

The Group currently does not have any finance leases.

Operating lease payments are recognised as income on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as income in the period in which they are earned.

Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment (including leasehold improvements), are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items. Any gain or loss on disposal of an item of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Vessels

Major vessel reconstructions are capitalised where such reconstructions extend the useful life of a vessel. The reconstruction is written off over the remaining expected useful life of the vessel.

Depreciation

Depreciation is calculated on the depreciable amount, which is the cost of an asset less its residual value, over the estimated useful life. Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful life of each part of an item of property, plant and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Depreciation of an item of property, plant and equipment begins when it is available for use and ceases at the earlier of the date it is classified as held-for-sale or the date that it is derecognised upon disposal. Land is not depreciated.

The estimated useful lives for the current and comparative periods are as follows:

40 - 50 years Buildings 3 – 20 years Plant and machinery • Vehicles – trucks 3 - 8 years - other 3 - 5 years Vessels – hull 35 - 45 years 15 – 18 years aircraft – other components 5 - 10 years 3 - 10 years Furniture and equipment

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

accounting policies continued

Property, plant and equipment continued

Derecognition

The gain or loss arising from the derecognition of an item of property, plant and equipment, being the difference between the carrying amount and any proceeds received, is included in profit or loss when the item is derecognised.

Provisions

A provision is recognised in the balance sheet when the Group has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation, and where a reliable estimate can be made of the amount of the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Revenue recognition

Revenue from contracts with customers mostly comprise the sale of goods, as well as the provision of services. Revenue is recognised when control of the goods or services is transferred to customers.

Revenue from the sale of goods is recognised at the point in time when control of the goods is transferred to the customer, which is generally on delivery of the goods. However, for export sales, the transfer of control often takes place once goods are handed over to the shipping company.

Revenue from service transactions is recognised as the service is performed and control is transferred.

Revenue is measured at the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised goods or services, net of value added tax and any consideration payable to customers for returns, discounts, rebates, cooperative advertising and other allowances.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated, however contracts generally comprise a single performance obligation. Where more than one performance obligation exists, the Group allocates the transaction price based on the relative stand-alone selling price of each performance obligation.

Based on payment terms agreed with customers, the Group expects to receive payment within less than a year of transferring goods or services, and therefore no significant financing component exists.

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods or services to the customer. Discounts, rebates, cooperative advertising and other allowances are treated as variable consideration. The variable consideration is estimated at contract inception based on the most likely amount and adjusted for in the transaction price accordingly. Variable consideration is mostly applicable to contracts for the sale of goods which include a right of return or volume rebate allowance. The variable consideration is calculated based on historical data and on trading terms contained in signed agreements with customers, along with the value of sales which have taken place over the relevant period.

Consideration payable to customers that is not distinct or separable from the goods or services in the contract is accounted for as a reduction of the transaction price. The Group in turn accounts for amounts payable to customers for returns, discounts, rebates, cooperative advertising and other trade allowances as a deduction against revenue, with recognition of a concomitant liability.

For expected returns, in addition to the recognition of a refund liability, a right-of-return asset (and corresponding adjustment to cost of sales) is recognised for the right to recover products from customers.

In terms of laybye arrangements and the sale of gift cards within the Group's retail businesses, consideration is received from customers before the transfer of goods. In these instances, the consideration received is recorded as a contract liability, and later recognised as revenue when the Group performs under the contract.

When another party is involved in providing goods or services to customers, the Group determines whether it is a principal or an agent in these transactions by evaluating the nature of its promise to the customer. The Group is a principal and records revenue on a gross basis if it controls the promised goods or services before transferring them to the customer. However, if the Group's role is only to arrange for another entity to provide the goods or services, then the Group is an agent and records revenue at the net amount that it retains for its agency services. In the majority of contracts with customers, the Group is the principal and records revenue on a gross basis.

Recognition of income from investments

Interest is recognised on a time proportion basis at an effective interest rate that takes into account the yield on the asset.

Share capital

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

Preference share capital

Preference share capital is classified as equity if it is non-redeemable and any dividends are discretionary, or is redeemable but only at the Company's option. Dividends on preference share capital classified as equity are recognised as distributions within equity.

Preference share capital is classified as a liability if it is redeemable on a specific date or at the option of the shareholders, and if dividend payments are not discretionary. Dividends thereon are recognised in profit or loss as an interest expense.

Repurchase of share capital

When share capital recognised as equity is repurchased, the amount of the consideration paid, including directly attributable costs, net of any tax effects, is recognised as a change to equity. Repurchased shares held by subsidiaries are classified as treasury shares and presented as a deduction from total equity. The consideration received when own shares held by the Group are re-issued is presented as a change to equity and no profit or loss is recorded.

Taxation

Taxation on the profit or loss for the year comprises current and deferred taxation. Taxation is recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in other comprehensive income or equity.

Current taxation

Current taxation comprises tax payable calculated on the basis of the estimated taxable income for the year, using the tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable for previous years.

Deferred taxation

Deferred taxation is provided using the liability method based on temporary differences. Temporary differences are differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax base. The amount of deferred taxation provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using tax rates enacted or substantively enacted at the reporting date.

Deferred taxation is charged to profit or loss except to the extent that it relates to a transaction that is recognised directly in other comprehensive income or equity, in which case it is recognised in other comprehensive income or equity, or a business combination that is an acquisition, in which case it is recognised as an adjustment to goodwill. The effect on deferred taxation of any changes in tax rates is recognised in profit or loss, except to the extent that it relates to items previously charged or credited directly to other comprehensive income or equity.

A deferred taxation asset is recognised to the extent that it is probable that future taxable profits will be available against which the associated unused tax losses and deductible temporary differences can be utilised. Deferred taxation assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Dividend withholding tax

Dividend withholding tax is a tax on shareholders receiving dividends. Shareholders who are not exempt from paying dividend tax are subject to dividend withholding tax at a rate of 20%. In terms of dividend tax legislation, the dividend tax amount is withheld and paid over to the South African Revenue Services by nominee companies, stockbrokers or the relevant Central Securities Depository Participant on behalf of shareholders. Dividends are recognised at the gross amount directly in equity.

Uncertainty over income tax treatments

Where there is uncertainty regarding the tax treatment of an item, the Group discloses the judgements made in determining the respective tax position as well as information regarding any assumptions and estimates made. The Group recognises liabilities for anticipated uncertain positions based on the best estimate of whether additional income taxes will be due.

Earnings per share

The Group presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding (adjusted for own shares held) during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise convertible redeemable preference shares, share options and equivalent equity instruments granted to employees, and Black Economic Empowerment ("BEE") transactions that have not yet met the accounting recognition criteria.

| Land comprises: Freehold | 86,6 | 86,6 | _ | | | |

• The current estimated useful lives of property, plant and equipment are reflected under accounting policies on page 135.

Expenditure on property, plant and equipment in the course of construction and included above at 30 June 2023 was R187,6 million (2022: R87,7 million).

• R1,9 million of disposals in the prior year was directly related to the July 2021 civil unrest, the total cost of which has been recovered from insurers (Note 23).

Impairment losses of R2,2 million arose due to identified obsolescence of, damage to and underperformance

of items of plant and machinery. No impairment losses arose in the prior year.

• A register containing details of properties is available for inspection by shareholders or their duly authorised agents during business hours at the registered office of the Company.

The estimated useful lives and residual values are reviewed annually, taking cognisance of forecast commercial and economic realities, historical usage of similar assets and input from original equipment manufacturers on plant and machinery.

2. Right-of-use assets

| | | Other | |
|---|------------|------------|---------|
| | | commercial | |
| | Retail | and | |
| | stores and | industrial | |
| | storerooms | sites | Total |
| 2023 | R'm | R'm | R'm |
| Carrying value at 1 July 2022 | 220,0 | 204,9 | 424,9 |
| Effect of movement in exchange rates | _ | 1,8 | 1,8 |
| Additions for new leases and lease renewals | 157,9 | 58,8 | 216,7 |
| Depreciation | (119,4) | (40,8) | (160,2) |
| Carrying value at 30 June 2023 | 258,5 | 224,7 | 483,2 |

| | | Other | |
|---|------------|------------|---------|
| | | commercial | |
| | Retail | and | |
| | stores and | industrial | |
| | storerooms | sites | Total |
| 2022 | R'm | R'm | R'm |
| Carrying value at 1 July 2021 | 194,3 | 57,4 | 251,7 |
| Additions for new leases and lease renewals | 144,7 | 2,3 | 147,0 |
| Impact of lease modifications and remeasurements ¹ | 1,5 | 172,3 | 173,8 |
| Depreciation | (120,5) | (27,1) | (147,6) |
| Carrying value at 30 June 2022 | 220,0 | 204,9 | 424,9 |

The remeasurement in the prior year relates to the reassessment of the extension option of a lease in which I&J is the lessee.

Right-of-use assets mostly relate to retail stores which are leased by the Group's retail businesses. The Group also leases a number of other commercial and industrial sites. Right-of-use assets are effectively ceded as security for concomitant lease liabilities (Note 13) as the rights to the leased assets revert to the lessor in the event of default.

^{*} Capitalisation of fishing rights application costs, computer software, purchase of trademarks and trademark registration costs.

Useful lives

The fishing rights are amortised over a period of 15 years.

Computer software is amortised over a period of 2 to 10 years.

The majority of trademarks are deemed to have indefinite useful lives, with the exception of trademark registrations, with a net book value of R10,4 million (2022: R10,3 million), which are amortised over their respective useful lives of between 5 and 10 years.

Intangible assets and goodwill continued 3.

Cash-generating units containing goodwill and trademarks

The following units have significant carrying amounts of goodwill and trademarks, net of impairment losses:

| | Goo | dwill | Trade | marks | То | tal |

^{*} In the prior year, the Group concluded the purchase of Exclamation and Gravity from Coty International B.V.

Goodwill arises on the acquisition of assets that did not meet the criteria for recognition as intangible assets at the date of acquisition.

Impairment tests

The carrying amounts of goodwill and trademarks with indefinite useful lives are reviewed at least annually for impairment. The recoverable amount of goodwill and trademarks is their value in use which is calculated using the discounted cash flow model, taking into account the forecast profits of the cash-generating units they form part of. Management forecasts typically cover a five-year period and thereafter a reasonable rate of growth is applied based on market conditions. Revenue and profit growth assumptions are based on budgets, business plans and historical performance, taking into account the economic and political environment. Discount rates used in the discounted cash flow models are based on a weighted average cost of capital of similar businesses in the same sector and of similar size and range between 13,2% and 17,4% (2022: 12,4% and 16,9%) depending on the business' risk profile. Perpetuity growth rates were set between 5,5% and 6,0% (2022: 5,5%). No impairment losses arose in the current year or in the prior year.

| Unused tax losses | (23,9) | (22,8) |
| | 370,0 | 404,1 |
| Reflected as: | | |
| Deferred taxation asset | 35,6 | 37,8 |
| Deferred taxation liability | 405,6 | 441,9 |

^{*} On 23 February 2022, the Minister of Finance announced a reduction of the corporate tax rate from 28% to 27% for companies with years of assessment ending on/after 31 March 2023. As a result, the tax rate applied to temporary differences in the prior year was 27% as this was viewed to be substantively enacted. The rate is applicable to the current year and therefore both the current and deferred tax rate is 27%.

Deferred tax assets recognised on unused tax losses, except as noted below, were recognised as management considered it probable that future taxable profits will be available against which they can be utilised. The probable utilisation of the losses, based on budgeted and forecast results of subsidiary companies, is within three to five years depending on the stability of the businesses. The tax losses do not expire under current tax legislation.

| | 2023 | 2022 |
|--|-------|-------|
| | R'm | R'm |
| The estimated losses which are available for the reduction of future taxable | | |
| income | 140,5 | 145,5 |
| Less: Estimated losses taken into account in calculating deferred taxation | 88,6 | 84,5 |
| Shareholders' interest in the estimated tax losses not yet recognised | 51,9 | 61,0 |

Deferred tax assets have not been recognised in respect of those losses where it is not probable, under current circumstances, that future taxable income will be available to utilise the benefits in the foreseeable future.

for the year ended 30 June 2023

7. Inventories

| | 2023 | 2022 |
|---|---------|---------|
| | R'm | R'm |
| Raw materials | 698,9 | 749,9 |
| Consumable stores | 371,8 | 352,1 |
| Work in progress | 42,6 | 65,1 |
| Manufactured finished goods | 672,0 | 621,9 |
| Merchandise – finished goods purchased for resale | 919,1 | 725,6 |
| | 2 704,4 | 2 514,6 |

There were no material inventory write-offs in the current year. In the prior year, R31,6 million of inventory was stolen and destroyed during the July 2021 civil unrest. This was recognised in cost of sales in the prior year. The total cost was recovered from insurers (Note 19). The inventory stolen related to the following businesses within the Group:

| | | 2023 R'm | 2022 R'm |

| | Balance at end of year | 348,2 | 306,1 |
| | | Kilograms | Kilograms |
| | Standing volume | 684 755 | 678 814 |
| | Volume harvested in current year | 432 067 | 442 236 |

Biological assets comprise abalone farmed by I&J. The relaxation of the COVID-19 lockdown restrictions as well as improving demand and prices in the key China and Hong Kong markets, has contributed to an increase in fair value of stock.

Measurement of fair value

The fair value measure for abalone of R348,2 million (2022: R306,1 million) has been categorised as a Level 3 fair value based on the inputs to the valuation techniques used. The valuation technique used in measuring fair value, as well as the significant unobservable inputs used are as follows:

Valuation technique

The Group adopts a combination of the market comparison and cost techniques in determining the fair value of abalone, based on the marketable size of the animal. The market comparison model is based on the current market price of abalone which takes cognisance of the animal size, less costs to sell. In the case of smaller animals where no active market exists, the cost technique is adopted and considers the cost per animal taking into account operational costs incurred and the number of animals in the smaller class range.

Significant unobservable inputs

- Cost per animal in the smaller range, determined by the operational costs and the number of animals in the smaller class range;
- Current market price for the size classes where a principal active market exists;
- The current stock holding in tonnes of the different size classes;
- The changes in the operational costs to sell; and
- Growth rates of abalone determined on a monthly moving average in millimetres to gram ratio.

Inter-relationship between key unobservable inputs and the fair value measurement

The estimated fair value would increase/(decrease) if:

- the current market price of abalone were higher/(lower);
- the size and volume of abalone, which are based on growth rates and/or harvest volumes were higher/(lower).

8. Biological assets continued

Risk management strategy related to aquaculture activities

Currency risks

I&J is subject to changes in the exchange rate as abalone sales prices are denominated in US Dollars and biological assets are measured at fair value which is also based on the US Dollar market price. The Group's currency risk management is described in Note 35.5.

Process risks

Abalone farming relies on a living environment which simulates natural conditions. This calls for a continuous supply of water and oxygen to the growing areas. A potential shortage of electrical supply to drive the key equipment is mitigated by failsafe back-up power generators.

Critical equipment such as pumps for water flow and fans for oxygen are monitored by sophisticated alarm systems.

Extensive security measures are in place to protect against theft while abalone is growing, being processed and being transported.

Comprehensive fixed asset insurance is in place, whilst livestock insurance covers losses due to theft, accident or transport claims from the point of harvest.

Disease risks

Disease risk is mitigated via a comprehensive biosecurity protocol applied at all levels on the farm. The farm is divided into separate flow-through zones which allows for quarantine and separation should such a risk arise.

Daily monitoring of the water condition and organisms is part of the biosecurity plan.

I&J Dangerpoint farm is part of a specialist vet health monitoring programme where frequent assessments are done to verify the condition of the abalone stock and potentially to provide an early warning of disease risk.

Natural seasonal events could give rise to algal blooms in the ocean, which can be a potential risk to animal health. This is mitigated by an algal bloom protocol, which includes the activation of a recirculation and filtration plan to dilute the algal bloom concentration.

9. Trade and other receivables

| | 2023 | 2022 |
|--|---------|---------|
| | R'm | R'm |
| Trade receivables | 1 736,5 | 1 554,4 |
| Indirect taxation | 91,0 | 57,3 |
| Prepayments | 60,1 | 49,7 |
| Short-term portion of straight-line asset (Note 5) | _ | 0,2 |
| Other receivables | 53,5 | 53,4 |
| | 1 941,1 | 1 715,0 |
| The trade receivables balance is made up of: | | |
| Gross trade debtors consideration | 2 412,2 | 2 114,6 |
| Allowances for credit notes, discounts and other trading terms | (670,9) | (554,4) |
| Impairment loss allowance | (4,8) | (5,8) |
| | 1 736,5 | 1 554,4 |

Refer to Note 35.3 for a reconciliation of the impairment loss allowance.

Trade accounts are non-interest bearing and are generally on terms of 30 to 90 days.

|--|-------------|-------------|
| | Number | Number |
| The number of ordinary shares in issue is as follows: | | |
| Total issued shares | 338 191 889 | 336 001 990 |
| Less: Shares held by the Company's share trusts and subsidiary, and restricted | | |
| shares held by participants of the AVI Deferred Bonus Share Plan (Note 32) | (7 568 115) | (5 484 569) |
| | 330 623 774 | 330 517 421 |

^{*} The Company's wholly-owned subsidiary, AVI Financial Services Proprietary Limited ("AVI Financial Services"), held 969 501 ordinary shares in the Company at 30 June 2021.

On 15 December 2021, AVI Financial Services effected a distribution in specie of these shares to the Company, in its capacity as the holding company of AVI Financial Services. The subsequent delisting and cancellation of the 969 501 ordinary shares, as approved by the JSE, was effected on 22 December 2021.

The shares cancelled represented 0,29% of the issued share capital of the Company immediately prior to the cancellation.

The delisting and cancellation of shares resulted in a R75,1 million reduction in the treasury shares balance of which R75,1 million was allocated to the share buy-back reserve and the balance to share capital, with no impact on earnings or earnings per share.

12. Reserves

| | 2023 R'm | 2022 R'm |
|---------------------------------------|-------------|-------------|
| The balance at end of year comprises: | | |
| Cash flow hedging reserve | (19,5) | 33,5 |
| Actuarial reserve | 45,6 | 38,5 |
| Foreign currency translation reserve | (26,7) | (39,8) |
| Share-based payment reserve | 608,2 | 550,4 |
| Share buy-back reserve | (373,5) | (373,5) |
| | 234,1 | 209,1 |

Cash flow hedging reserve

The reserve represents the Group's portion of the cumulative net change in the fair value of cash flow hedging instruments relating to hedged transactions falling due in the future.

Actuarial reserve

The reserve comprises the cumulative actuarial gains/losses in respect of the Group's post-retirement medical aid liability which have been recognised directly in other comprehensive income after taxation. Realisation of this reserve will not be reclassified to profit or loss.

Foreign currency translation reserve

The reserve comprises the cumulative foreign exchange differences arising as a result of translation of foreign operations.

Share-based payment reserve

The reserve comprises the fair value of equity instruments granted to Group employees, net of tax on deductible recharges. The fair value of the instruments are measured at grant date using generally accepted valuation techniques after taking into account the terms and conditions upon which the instruments were granted.

Share buy-back reserve

The reserve represents the reversal of share premium relating to the delisting and cancellation of treasury shares.

13. Lease liabilities

| | 2023 | 2022 |
|--|---------|---------|
| | R'm | R'm |
| Lease liabilities | 543,7 | 472,2 |
| Less: portion repayable within one year included in current borrowings (Note 15) | (130,9) | (118,1) |
| Lease liabilities (Non-current portion) | 412,8 | 354,1 |

Lease liabilities mostly relate to the Group's retail businesses which lease all their retail stores. The Group also leases a number of other commercial and industrial sites. Lease liabilities represent the financial obligation of the Group to make lease payments to landlords to use the underlying leased premises, or right-of-use assets, during the lease term. The majority of retail leases cover a period of three to five years and some include an option to renew on expiry. The lease term includes this renewal period if the Group is reasonably certain it will exercise the renewal option, taking into account factors such as store location, historical store performance and the value of lease payments in the renewal period. Further to this, the likelihood of exercising a termination option, if applicable, is considered in determining the lease term.

The discount rate used to determine the present value of future lease payments is generally based on the lessee's incremental borrowing rate, as in most instances, the interest rate implicit in the lease cannot be readily determined. The discount rate applied to new leases concluded during the year varied between 6,54% and 10,35% (2022: 5,59% and 6,95%).

for the year ended 30 June 2023

13. Lease liabilities continued

Total cash outflow for leases in the current period

| | 2023 R'm | 2022 R'm |
|---|---------------|---------------|
| Finance costs (Note 21) Capital portion | 36,5 147,2 | 25,7 158,1 |
| Total cash outflow for leases | 183,7 | 183,8 |

The cost relating to variable lease payments, short-term leases and leases of low-value assets is disclosed as part of Note 19.

No commitments for variable lease payments have been disclosed due to these being subject to the fulfilment of specific conditions which are uncertain at reporting date.

Lease liabilities are effectively secured as the rights to the leased asset revert to the lessor in the event of default.

14. Employee benefit liabilities

| | 2023 R'm | 2022 R'm |
|---|-------------|-------------|

| Earnings-linked performance bonus liabilities | 31,6 | 8,3 |
| I&J Black Staff Employee Benefit Scheme liability (Note 33) | _ | 0,4 |
| | 334,7 | 316,2 |
| Amount payable within one year included in trade and other payables (Note 17) | (48,0) | (33,9) |
| | 286,7 | 282,3 |
| Post-retirement medical aid obligation | | |
| Reconciliation of benefit obligation recognised on the balance sheet | | |
| Balance at beginning of year | 307,5 | 348,2 |
| Recognised in profit or loss – operating profit | 35,3 | 34,0 |
| – Current service cost | 0,7 | 0,8 |
| - Interest cost | 34,6 | 33,2 |
| Actuarial gain recognised in other comprehensive income | (9,7) | (46,6) |
| Contributions paid | (30,0) | (28,1) |
| Balance at end of year | 303,1 | 307,5 |
| Actuarial gain recognised directly in other comprehensive income | | |
| Net cumulative amount at beginning of year | (38,5) | (4,4) |
| Recognised during the year | (9,7) | (46,6) |
| Deferred tax thereon | 2,6 | 12,5 |
| Net cumulative amount at end of year | (45,6) | (38,5) |

The Group has an obligation to provide certain post-retirement medical aid benefits to certain eligible employees and pensioners. The entitlement to these benefits for current employees is dependent upon the employee remaining in service until retirement age. The post-retirement medical aid contributions liability is based on an actuarial valuation.

The principal actuarial assumptions used were: Discount rate 12,00% (2022: 12,00%)

Medical inflation 8,40% (2022: 8,40%)

14. Employee benefit liabilities continued

Assumed healthcare cost inflation rates have a significant effect on the actuarially determined defined benefit obligation. A one percentage point change in assumed healthcare cost inflation rates would have the following effects:

| | One | One |
|--|------------|------------|
| | percentage | percentage |
| | point | point |
| | increase | decrease |
| | R'm | R'm |
| Increase/(decrease) in the present value of the actuarially determined defined | | |
| benefit obligation | 24,5 | (21,3) |
| Increase/(decrease) in the aggregate service and interest cost | 3,1 | (2,6) |

15. Current borrowings including short-term portion of lease liabilities

| | 2023 | 2022 |
|--|---------|---------|
| | R'm | R'm |
| Short-term borrowings | 1 701,0 | 1 395,6 |
| Current portion of lease liabilities (Note 13) | 130,9 | 118,1 |
| | 1 831,9 | 1 513,7 |

Interest on short-term borrowings is calculated daily at the daily borrowing rate applicable and payable monthly.

16. Other financial assets/liabilities including derivatives

| | 2023 R'm | 2022 R'm |
|--|--------------|-------------|
| Forward exchange contract derivative assets Fuel swap derivative assets | 44,3 0,1 | 72,2 - |
| Other financial assets including derivatives | 44,4 | 72,2 |
| Forward exchange contract derivative liabilities Fuel swap derivative liabilities | 79,4 12,9 | 10,7 0,3 |
| Other financial liabilities including derivatives | 92,3 | 11,0 |

17. Trade and other payables

| | 2023 R'm | 2022 R'm |
|---|-------------|-------------|
| Trade payables | 1 247,3 | 1 116,2 |
| Customer contract liabilities | 30,9 | 30,2 |
| Employee benefits falling due within one year (Note 14) | 48,0 | 33,9 |
| Other payables and accrued expenses | 648,1 | 662,2 |
| | 1 974,3 | 1 842,5 |

Terms and conditions of significant trade and other payables:

- Trade accounts are non-interest bearing and are normally settled within one month.
- Other payables and accrued expenses are non-interest bearing and are normally settled within six months.

Customer contract liabilities relate to cash received in advance from customers for laybye sales and gift card purchases within the Group's retail businesses. Total revenue recognised from completed laybye sales and redeemed gift cards for the year is R386,2 million (2022: R326,5 million).

for the year ended 30 June 2023

18. Revenue

| | 2023 R'm | 2022 R'm |
|--|-------------|-------------|
| Revenue from contracts with customers comprises the following: | | |
| – Sale of goods | 14 714,8 | 13 663,3 |
| – Services, fees, commissions and royalties | 204,8 | 182,0 |
| Total | 14 919,6 | 13 845,3 |

Disaggregation of revenue

Disaggregation of revenue from contracts with customers ("revenue") into categories that depict the nature, amount, timing and uncertainty of revenue.

The following table sets out revenue by geographical market:

| | 2023 | | | | | |
|--|----------------------------|-------------------------|--------------------------|-------------------------|------------------------------|--------------------------------|
| Geographical market | Entyce Beverages R'm | Snackworks R'm | I&J R'm | Personal Care R'm | Footwear & Apparel R'm | Total R'm |
| South Africa Other African countries Europe* | 3 728,8 512,7 6,7 | 4 578,6 658,0 9,0 | 838,1 46,1 1 120,4 | 1 120,2 103,1 | 1 678,8 18,1 – | 11 944,5 1 338,0 1 136,1 |
| Rest of the world | 3,4 | 15,6 | 482,0 | _ | _ | 501,0 |
| Total | 4 251,6 | 5 261,2 | 2 486,6 | 1 223,3 | 1 696,9 | 14 919,6 |

| | | | 202 | 22 | | |
|-------------------------|-----------|------------|---------|----------|-----------|----------|
| | Entyce | | | Personal | Footwear | |
| | Beverages | Snackworks | I&J | Care | & Apparel | Total |
| Geographical market | R'm | R'm | R'm | R'm | R'm | R'm |
| South Africa | 3 480,5 | 4 074,8 | 970,2 | 1 085,5 | 1 495,7 | 11 106,7 |
| Other African countries | 492,2 | 599,5 | 36,5 | 91,0 | 15,3 | 1 234,5 |
| Europe* | 1,8 | 7,8 | 994,4 | - | - | 1 004,0 |
| Rest of the world | 7,1 | 20,3 | 472,7 | - | - | 500,1 |
| Total | 3 981,6 | 4 702,4 | 2 473,8 | 1 176,5 | 1 511,0 | 13 845,3 |

The majority of revenue comprises revenue from the sale of goods. Less than 2% (2022: less than 2%) of total revenue comprises income arising from service agreements, rental agreements and trademark licence agreements.

^{*} The disclosure of revenue by geographical market was enhanced in the current year by further disaggregating Europe as a geographical market. Europe was included in the "Rest of the world" segment in previous reports.

19. Operating profit before capital items

| | 2023 R'm | 2022 R'm |
|--|---------------|----------------|
| In arriving at operating profit before capital items, the following have been | | |
| taken into account: | | |
| Selling and administrative expenses include, among others: | | |
| Amortisation | 17,3 | 18,1 |
| – fishing rights | 0,5 | 0,3 |
| – computer software | 14,4 | 15,7 |
| - trademarks | 2,4 | 2,1 |
| Depreciation of property, plant and equipment | 389,8 | 388,3 |
| - buildings | 19,3 | 18,6 |
| – plant, equipment and vehicles | 297,5 | 297,4 |
| - vessels | 73,0 160,2 | 72,3 |
| Depreciation of right-of-use assets – retail stores and storerooms | 119,4 | 147,6 120,5 |
| - other commercial and industrial sites | 40,8 | 27,1 |
| Total depreciation (included in both cost of sales and selling and | 40,0 | 27,1 |
| administrative expenses) | 550,0 | 535,9 |
| Total depreciation and amortisation | 567,3 | 554,0 |
| Auditor's remuneration | | |
| – fees for audit | 11,6 | 10,7 |
| – fees for other services | 0,5 | 3,3 |
| - taxation services and consultations | 0,2 | 0,6 |

| | – Special tax allowances | (0,2) | (0,2) | |
| | - Withholding tax | 0,4 | 0,3 | |
| | - Effect of foreign tax rate differential | (0,1) | (0,1) | |
| | - Change in tax rate | _ | (0,6) | |
| | Effective rate of taxation for the year | 27,5 | 27,8 | |

25. Cash generated by operations

| | 2023 R'm | 2022 R'm |
|---|-------------|-------------|
| Profit before tax | 2 535,1 | 2 426,2 |
| Adjusted for: | | |
| - Interest received | (8,0) | (4,6) |
| – Finance costs | 198,9 | 115,5 |
| - Share of equity-accounted (earnings)/losses of joint ventures | (2,1) | 0,8 |
| – Capital items | (9,1) | 2,2 |
| - Depreciation of property, plant and equipment | 389,8 | 388,3 |
| – Depreciation of right-of-use assets | 160,2 | 147,6 |
| - Amortisation of intangible assets | 17,3 | 18,1 |
| – Foreign currency translations | 23,8 | 0,2 |
| – Equity-settled share-based payments | 58,0 | 37,2 |
| – Movement in provisions and other non-cash items ¹ | 68,4 | (4,7) |
| Cash generated by operations before working capital changes | 3 432,3 | 3 126,8 |
| Changes in working capital ² : | (352,6) | (127,4) |
| Increase in inventories and biological assets | (253,7) | (321,6) |
| (Increase)/decrease in trade and other receivables | (215,3) | 1,7 |
| Increase in trade and other payables | 116,4 | 192,5 |
| Cash generated by operations | 3 079,7 | 2 999,4 |

Includes non-cash movements in biological assets, fuel swap derivatives, operating lease straight-line assets, inventory obsolescence provisions, impairment loss allowances and bonus and leave pay accruals, offset by related cash payments.
 The net movement in working capital has been adjusted to take account of the foreign exchange differences and other non-cash items.

26. Taxation paid

| | 2023 R'm | 2022 R'm |
|---|-------------|-------------|
| Amount owing at beginning of year | 70,5 | 48,3 |
| Amount prepaid at beginning of year | (11,4) | (16,7) |
| Net amount owing at beginning of year | 59,1 | 31,6 |
| | 715,4 | 674,9 |
| Charge per profit or loss | 698,2 | 675,0 |
| Deferred taxation included therein (Note 6) | 17,2 | (0,1) |
| Effect of movement in foreign exchange rates | 0,6 | 1,0 |
| Net amount owing at end of year | (77,7) | (59,1) |
| Amount owing at end of year | (81,3) | (70,5) |
| Amount prepaid at end of year | 3,6 | 11,4 |
| Amount paid during year | 697,4 | 648,4 |
| Other cash flows from investments | | |
| Cash flow (to)/from Enterprise and Supplier Development initiatives | (2,9) | 1,2 |

for the year ended 30 June 2023

28. Changes in liabilities arising from financing activities

| | | Cash flows* | | | Non-cash changes | | | | |
|-----------------------------------|-------------------------------------|----------------|-----------------|--|----------------------|--|---|----------------------------|--------------------------------------|
| | Balance at 1 July 2022 R'm | Capital R'm | Interest R'm | Effect of movement in exchange rates R'm | New leases R'm | Impact of changes in accounting policies R'm | Impact of lease modifications and remeasurements R'm | Interest accrued R'm | Balance at 30 June 2023 R'm |
| Short-term borrowings Lease | 1 395,6 | 305,4 | (162,4) | - | - | - | - | 162,4 | 1 701,0 |

| Termination benefits | 8,4 | 12,5 |
| Retirement benefits | 179,6 | 169,7 |
| Post-retirement medical aid costs | 35,3 | 34,0 |
| Share-based payments – equity-settled | 58,0 | 37,2 |
| Movement in provisions for long-term earnings-linked performance bonuses | 24,9 | 2,7 |
| I&J Black Staff Employee Benefit Scheme | (0,4) | 16,3 |

32.1 Retirement benefits

The Group provides retirement benefits for its eligible employees. Of the Group's 9 220 (2022: 9 315) employees, 7 908 (2022: 8 104) are members of defined contribution Group pension and provident funds or state-administered funds in other jurisdictions. South African funds are governed by the Pension Funds Act 1956, as amended. Other funds are governed by the respective legislation of the countries concerned. The contributions paid by the Group companies for retirement benefits are charged to profit or loss as they are incurred, and amounted to R179,6 million (2022: R169,7 million).

32. Employee benefits continued

32.2 Share incentive schemes

The interests of the directors are given on page 114 in the Directors' Remuneration Report.

A summary of the movements in share incentive instruments is set out in the tables below.

The Revised AVI Executive Share Incentive Scheme

The Revised AVI Executive Share Incentive Scheme was approved by shareholders at the Annual General Meeting held on 3 November 2016 and replaced the AVI Executive Share Incentive Scheme. Eligible participants are awarded share appreciation rights, which vest after the completion of a three-year service period, subject to the satisfaction of a performance condition, namely that the AVI return on capital employed over the period exceeds the weighted average cost of capital. Upon vesting, participants are entitled to exercise their awards by receiving AVI shares equal to the increase in value of their awards between award date and exercise date. The cost of these AVI shares is funded by way of contributions from employer companies in respect of participants who are their employees.

| Date of award | Award price per instrument R | Instruments outstanding at 30 June 2022 number | Awarded number | Exercised/ Lapsed number | Relinquished ¹ / Forfeited number | Instruments outstanding at 30 June 2023 number |

| Weighted average a Weighted average e on date of exercise (| xercise price | 77,26 | 68,62 | 101,78 - | 80,92 | 73,26 |

The weighted average remaining contractual life of instruments outstanding as at 30 June 2023 is 1,3 years (2022: 1,4 years).

The share appreciation rights are available to be exercised in their entirety three years after the effective date of granting of awards, subject to the performance condition being met. Any rights not exercised by the fifth anniversary of such date will lapse. Exercises in any period prior to vesting in the third year represent the portion allowed to be exercised on retirement, death, disability or retrenchment.

The AVI Out-Performance Scheme

Eligible participants are awarded notional shares, which vest after the completion of a three-year service period, and are converted to AVI shares subject to AVI's performance against an identified peer group over the vesting period.

The scheme is based on a total shareholder return ("TSR") measure. TSR is the increase in value of shares after the notional reinvestment of all distributions. Allocations of notional shares are made in conjunction with the identification of the peer group against which that tranche will be measured.

¹ The number of relinquished instruments represents instruments sacrificed in favour of AVI Out-Performance Scheme options in terms of the rules of the AVI Out-Performance Scheme.

for the year ended 30 June 2023

32. Employee benefits continued

32.2 Share incentive schemes continued

At the measurement date in respect of each tranche:

- AVI's TSR and the TSR of each peer in the peer group for that tranche will be determined;
- the TSR of each peer in the peer group will be ranked in ascending order in 10 performance deciles;
- depending on the peer group decile within which AVI's TSR is ranked, a vesting multiple of between 0 times and 3,6 times will be applied to the notional shares to determine the number of shares allocated to the participant upon vesting. No shares vest if AVI's TSR is ranked below the 50th peer group percentile.

Upon vesting, each participant will receive the AVI shares due to them. The cost of the AVI shares is funded by way of contributions from employer companies in respect of participants who are their employees.

As the allocation of awards is a notional allocation, the notional shares so allocated will not attract any dividends or voting rights in the hands of participants until vested.

| | Award price per instrument | Instruments outstanding at 30 June 2022 | Awarded | Exercised/ Lapsed | Forfeited | Instruments outstanding at 30 June 2023 |
|--|----------------------------------|--|---------|----------------------|-----------|--|

The weighted average remaining contractual life of instruments outstanding as at 30 June 2023 is 1,3 years (2022: 1,3 years).

All notional shares vest three years after award date. Notional shares are converted to AVI shares only if the performance requirements are met on the vesting date.

The AVI Deferred Bonus Share Plan

The AVI Deferred Bonus Share Plan was approved by shareholders at the Annual General Meeting held on 3 November 2016. The value of the awards allocated is determined with reference to each eligible participant's annual bonus (earned under the Group's short-term bonus incentive framework). A portion of the annual bonus is paid in cash while the deferred element is settled in equity as AVI shares and is subject to a three-year service period before vesting, during which period the bonus shares remain restricted. These shares are held by an escrow agent on behalf of participants during this vesting period. Participants are, however, eligible to receive dividends and vote at shareholder meetings.

| Date of award | Award price per instrument R | Instruments outstanding at 30 June 2022 number | Awarded number | Exercised number | Forfeited number | Instruments outstanding at 30 June 2023 number |
|--|---------------------------------------|--|-------------------|---------------------|---------------------|--|
| 1 October 2019 | 83,91 | 105 942 | _ | (105 075) | (867) | _ |
| 1 October 2020 | 74,52 | 149 694 | _ | (627) | (3 735) | 145 332 |
| 1 October 2021 | 86,04 | 236 957 | _ | (253) | (7 465) | 229 239 |
| 1 October 2022 | 73,43 | _ | 611 800 | (398) | (10 062) | 601 340 |
| 1 June 2023 | 63,58 | _ | 1 677 534 | _ | - | 1 677 534 |
| | | 492 593 | 2 289 334 | (106 353) | (22 129) | 2 653 445 |
| Weighted average aw | ard price (R) | 82,08 | 66,21 | 83,82 | 78,28 | 68,35 |
| Weighted average shadate of exercise (R) | are price on | | | 73,33 | | |

The weighted average remaining contractual life of instruments outstanding as at 30 June 2023 is 2,5 years (2022: 1,5 years).

Upon vesting, the shares become unrestricted in the hands of participants. The cost of the AVI shares is funded by way of contributions from employer companies in respect of participants who are their employees.

The vesting of shares prior to the completion of the three-year restriction period represents the portion allowed to vest on retirement, death, disability or retrenchment.

32. Employee benefits continued

32.2 Share incentive schemes continued

The AVI Black Staff Empowerment Scheme

The AVI Black Staff Empowerment Scheme was established to provide certain full-time black employees of the Group with the opportunity of acquiring shares in the capital of the Company, and has been incorporated within the AVI Black Staff Empowerment Scheme Holding Trust ("the Trust"). The purchase of shares by the Trust for the purpose of the scheme was funded by way of loans from employer companies in respect of participants who are their employees.

Participants were granted a right to purchase ordinary AVI shares equal to the number of options awarded in three equal tranches after the fifth, sixth and seventh anniversaries of acceptance of the offer by the participant. The right to purchase was subject to the settlement of the exercise price by the participant and the express condition that the participant was still an employee at the relevant exercise date. The final allocation was made in December 2011 and the final tranche vested on 31 December 2018. The scheme established in terms of the Trust deed has terminated and no further allocations will be made.

The remaining share options at 30 June 2023 in respect of good leavers have lapsed in terms of the scheme rules. These options remain unexercised despite ongoing attempts to trace the affected participants. The Trustees have, however, resolved to allow these participants to exercise their share options should they be traced in future.

| | 2023 | 2022 |
|-------------------------|--------|--------|
| | Number | Number |
| Remaining share options | 40 124 | 40 124 |

Restrictions

Ordinary shares in the authorised and unissued capital of the Company were placed under the control of the directors with specific authority to allot and issue them in terms of the Company's existing share incentive schemes ("the schemes"). The total number of share instruments, options or instruments convertible into ordinary shares which may be allocated for purposes of the schemes are detailed in the table below.

| Share incentive scheme | Authorised number | % of total issued share capital* | Remaining authorised but not issued number |
|--|----------------------|----------------------------------|---|
| Revised AVI Executive Share Incentive Scheme | 5 213 369 | 1,5 | 5 199 954 |

| Total | 17 341 896 | 5,0 | 11 434 317 |

^{*} As at date authority was granted.

for the year ended 30 June 2023

32. Employee benefits continued

32.3 Share-based payments

The fair value of the equity instruments is measured as follows:

Revised AVI Executive Share Incentive Scheme Black-Scholes valuation model

AVI Out-Performance Scheme Black-Scholes and Monte Carlo valuation methodology

AVI Deferred Bonus Share Plan Award date market price of shares

The contractual life of the equity instruments is used as an input into the model. The equity instruments are granted under a service condition and expected attrition is considered in estimating the number of options expected to vest.

The fair value of the estimated number of options expected to vest is expensed over the vesting period of the underlying equity instrument. In the event of accelerated vesting, the remaining fair value of the vested instruments is expensed in the period of vesting.

| Assumptions applied in arriving at fair value of instruments issued during the year | 2023 | 2022 |
|---|-----------------|-----------------|
| Equity instruments issued by the Revised AVI Executive Share | | |
| Incentive Scheme | | |
| Fair value at grant date | R11,53 – R11,83 | R12,42 - R17,01 |
| Share price | R51,21 – R56,51 | R55,79 - R71,20 |
| Exercise price | R66,48 - R73,34 | R69,23 - R86,04 |
| Expected volatility | 20,3% – 23,7% | 26,2% - 28,1% |
| Option life | 3,5 years | 3,5 years |
| Dividend yield | 2,92% - 3,06% | 1,70% – 2,75% |
| Risk-free interest rate | 10,77% – 11,06% | 7,60% – 8,10% |
| Equity instruments issued by the AVI Out-Performance Scheme | | |
| Fair value at grant date | R49,99 | R42,22 |
| Share price | R72,99 | R79,98 |
| Option life | 3 years | 3 years |
| Dividend yield | 6,8% | 5,4% |
| Risk-free interest rate | 10,77% | 7,60% |
| Expected mean TSR performance | 6,4% | 6,6% |
| Equity instruments issued by the AVI Deferred Bonus Share Plan | | |
| Share price | R63,58 – R73,43 | R86,04 |

The expected volatility is based on the average volatility over a period of six months prior to grant date or measurement date.

The GSAB 10-year index (2022: R186 bond rate) was used to determine a risk-free interest rate at grant date or measurement date.

| | 2023 R'm | 2022 R'm |

| AVI Out-Performance Scheme | 19,4 | 13,2 |
| AVI Deferred Bonus Share Plan | 24,7 | 12,6 |
| | 58,0 | 37,2 |

33. Broad-Based Black Economic Empowerment ("BBBEE") transactions Irvin & Johnson Holding Company Proprietary Limited ("I&J HoldCo")

The Company sold 20% of its shareholding in I&J HoldCo to Main Street 198 Proprietary Limited ("Main Street") in November 2004. Main Street is jointly owned by Mast Fishing Investment Holdings Proprietary Limited ("Mast Fishing") and Tresso Trading 946 Proprietary Limited ("Tresso Trading"), two broad-based black empowered companies with strong commitments to the South African fishing industry. The proceeds on disposal amounted to R160,8 million and the consideration was funded by the Company subscribing for cumulative redeemable preference shares in Main Street.

The Main Street Memorandum of Incorporation allows for the payment of ordinary dividends to Main Street's shareholders out of dividends received by Main Street from I&J HoldCo, with the balance paid as preference dividends to the Company. Furthermore, the I&J HoldCo shareholders' agreement provides for put and call options between the Company and Main Street, the exercise price of which is determined by a fixed formula based on I&J HoldCo's earnings.

During June 2018, the exercise date of the put and call options was extended from July 2018 to July 2022. As part of the extension, a minimum guaranteed exercise price of R106,8 million was agreed with Main Street based on the application of the fixed formula at 30 June 2018. R65,0 million of this minimum guaranteed amount was paid to Main Street in June 2018, and a further R9,0 million paid in September 2021 with the balance payable on exercise of the put and call options.

During June 2022, the exercise date of the put and call options was further extended from July 2022 to July 2023. As part of the extension, it was agreed that the remainder of the minimum guaranteed amount of R32,8 million was paid to Main Street in July 2022. The remaining value of R23k was payable to Main Street on exercise of the put and call options, and was settled on 3 July 2023 (see below).

The Company further increased the BBBEE shareholding in I&J HoldCo by donating 1% and selling 4% of its shareholding in I&J HoldCo to a company owned by the South African black employees of I&J HoldCo and its subsidiaries, Richtrau No. 53 Proprietary Limited ("Richtrau"), on 1 May 2005. On completion of the first vesting cycle and settlement of the gains due to I&J HoldCo's black employees, the scheme was extended through the introduction of the I&J Black Staff Holding Company Proprietary Limited ("I&J Black Staff HoldCo"), a company owned by the South African black employees of I&J HoldCo and its subsidiaries, which acquired 100% of the issued share capital of Richtrau. The consideration paid by the I&J Black Staff HoldCo amounted to R15,3 million and was funded by AVI Limited subscribing for cumulative redeemable preference shares in the I&J Black Staff HoldCo. Effective 22 December 2021, the Company exercised its call option, which resulted in the payout of R103,0 million to I&J's black employees.

Following the exercise of the call option in December 2021, an updated staff scheme was implemented at I&J Limited (a subsidiary of I&J HoldCo). Through the introduction of this scheme 6,25% of the shareholding in I&J Limited was issued to the I&J Staff Holding Company Proprietary Limited ("I&J Staff HoldCo"), a company owned by the South African black employees of the I&J Group and its fellow subsidiaries. As part of the implementation of the replacement scheme, I&J Staff HoldCo obtained notional vendor finance ("NVF") from I&J Limited to fund the purchase consideration of R38,5 million.

As a result of the above arrangements the effective direct BBBEE shareholding in I&J HoldCo is 20% (2022: 20%) and I&J Limited 25% (2022: 25%).

The Group has adopted the following principles in accounting for the transactions referred to above:

Accounting recognition of the non-controlling interests in I&J HoldCo

Notwithstanding that the BBBEE transactions have been completed and that the BBBEE shareholders have beneficial ownership and voting control over their 25% shareholding, the accounting recognition in the Group's consolidated annual financial statements of a non-controlling interest in respect of shares held by the BBBEE companies in I&J HoldCo is deferred until such shares in I&J HoldCo are regarded as issued outside of the Group in terms of the control principles of IFRS 10 - Consolidated Financial Statements. Payments made to the Main Street shareholders are reflected directly against equity.

Main Street

The sale of the 20% interest to Main Street was an equity instrument that was considered to have fully vested in the hands of the participants before 1 January 2005. Under the exemption offered by IFRS 1 – First-time Adoption of IFRS the transaction was not accounted for as a share-based payment.

The extension of the arrangement in June 2018 was treated as a modification within the scope of IFRS 2 – Sharebased Payment. Prior to the extension, the Company could elect to settle the transaction in either shares or cash. The inclusion of the minimum guaranteed amount, however, resulted in the modification of the transaction from an equity-settled share-based payment transaction to a cash-settled share-based payment transaction. The payment of R65,0 million and the present value of the remaining minimum guaranteed amount were recorded directly against equity as part of the modification of the previous equity-settled arrangement. The cash-settled share-based payment liability as at 30 June 2023 is R23k (2022: R34,8 million), which was settled on 3 July 2023.

for the year ended 30 June 2023

33. Broad-Based Black Economic Empowerment ("BBBEE") transactions

Main Street continued

There remains no further minimum guaranteed amount, nor dividends, payable post 3 July 2023. The fair value of any potential incremental value over and above the minimum guaranteed amount upon final vesting was estimated to be nil at 30 June 2023 considering that the calculation of the minimum guaranteed amount was based on a period of high earnings.

No derivative asset or liability is recognised on consolidation for the put and call options as the Company is deemed to control Main Street in terms of the principles of IFRS 10 – *Consolidated Financial Statements* while the preference shares remain outstanding.

Following the exercise of the call option on 1 July 2023 (post-reporting date), a replacement strategic partner scheme was implemented at I&J Limited. Through the introduction of this scheme, 18,75% of the shareholding of I&J Limited was issued to Twincitiesworld (Pty) Ltd for a market value of R115,5 million and the consideration was funded by I&J HoldCo subscribing for cumulative redeemable preference shares in Twincitiesworld (Pty) Ltd (Note 37).

This, together with I&J Staff HoldCo's 6,25% ownership interest, equates to 25% black ownership in I&J Limited.

I&J Black Staff HoldCo

The I&J Black Staff HoldCo shareholders' agreement provided for the payment of ordinary dividends equal to 10% of dividends received from I&J HoldCo, through the shareholding in Richtrau, to the I&J Black Staff HoldCo's shareholders (who are employees of I&J HoldCo) on an annual basis. Furthermore, the I&J Black Staff HoldCo Memorandum of Incorporation provided for a call option whereby the Company could acquire the shareholding in I&J Black Staff HoldCo from the shareholders (who are employees of I&J) from 1 July 2021, and a put option whereby the shareholders of I&J Black Staff HoldCo could require the Company to purchase their shareholding in I&J Black Staff HoldCo from 28 December 2021. The Company exercised its call option on 22 December 2021 (prior year). The exercise price was determined by a fixed formula per the shareholders' agreement, largely based on I&J HoldCo's earnings performance and the remaining redeemable preference share liability. An amount of R103,0 million was paid to shareholders on this date. The arrangement was accounted for as an employee benefit liability within the scope of IAS 19 – Employee Benefits in the consolidated annual financial statements as ultimately the obligation was to the employees of the Group.

I&J Staff HoldCo

The I&J Staff HoldCo shareholders' agreement provides for the payment of ordinary dividends equal to 10% of dividends received from I&J Limited, to the I&J Staff HoldCo's shareholders (who are employees of I&J Limited and its subsidiaries) on an annual basis. Furthermore, the I&J Staff HoldCo Memorandum of Incorporation provides for a call option whereby I&J HoldCo can acquire I&J Staff HoldCo's shareholding from I&J Limited from 1 July 2038, and a put option whereby the shareholders of I&J Staff HoldCo could require the Company to purchase their shareholding in I&J Staff HoldCo from 28 December 2038. The exercise price is determined by a fixed formula per the shareholders' agreement largely based on I&J Limited's earnings performance and the remaining value of the NVF loan balance. The arrangement has been accounted for as an employee benefit liability within the scope of IAS 19 – *Employee Benefits* in the consolidated annual financial statements as ultimately the obligation is to the employees of the Group. The liability (Note 14 – Rnil (2022: R0,4 million)) has been measured using the projected unit credit method and an income of R0,4 million (2022: expense of R0,4 million) has been recognised in the current year.

Directors of the Company

Directors' emoluments

The individual directors' emoluments paid in respect of the financial period under review are set out in the Directors' Remuneration Report on page 10.

Directors' service contracts

Standard terms and conditions of employment apply to executive directors, which provide for notice of termination of three months. Non-executive directors conclude service contracts with the Company on appointment. Their term of office is governed by the Memorandum of Incorporation, which provides that one-third of the aggregate number of directors will retire by rotation at each Annual General Meeting, but may, if eligible, offer themselves for re-election.

Transactions with key management personnel

The directors of the Company, directors of its subsidiaries and business unit management with executive responsibility have been identified as the key management personnel of the Group.

The key management personnel costs are as follows:

| | 2023 | 2022 |
|------------------------------|-------|-------|
| | R'm | R'm |
| Short-term employee benefits | 238,7 | 150,8 |

 $[\]hbox{* Gains on settlement of long-term earnings-linked performance bonuses.}$

Executives also participate in the Company's share incentive schemes, details of which are provided in Note 32.

for the year ended 30 June 2023

35. Financial risk management

35.1 Overview

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing financial risk, and the Group's management of capital. Further quantitative disclosures are included throughout these financial statements.

The Board of directors has overall responsibility for the establishment and oversight of the Group's financial risk management framework. The AVI Group Treasury, together with the relevant business unit executives, is responsible for developing the relevant financial risk management policies and for monitoring risk.

The Group's financial risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to identify and review changes in market conditions and the Group's activities. The Group aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees management's monitoring of compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the financial risks faced by the Group. The Group Audit Committee is assisted in its oversight role by internal audit.

35.2 Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain the future development of the business. The Board of directors monitors the return on average capital employed, which the Group defines as operating profit before capital items from continuing operations, after taxation, divided by average total shareholders' equity plus net debt.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The Group's target, which is determined by the AVI Board, is to achieve a return on average capital employed of at least 120% of the weighted average cost of capital, which was estimated at 11,9% (2022: 11,1%). In 2023 the return was 29,5% (2022: 29,1%). In comparison, the weighted average interest expense on interest-bearing borrowings (excluding liabilities with imputed interest) was 7,85% (2022: 4,90%).

From time to time the Group purchases its own shares in the market under general authority granted by shareholders; the timing of these purchases depends on market prices. Primarily the shares are repurchased as part of a programme to return capital to shareholders, but some may be used for issuing shares under the Group's incentive schemes. Buying decisions are made under specific mandates from the executive directors.

There were no changes to the Group's approach to capital management during the year.

The AVI Group is subject to and complies with the following financial covenants required by some of the Group's bankers:

- consolidated net debt to EBITDA less than 2,5; and
- consolidated EBITDA to net interest paid greater than 3,5.

Internal debt limits used by executive management on a day-to-day basis are more conservative than the above.

35.3 Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers, cash and cash equivalents, loan receivables and other investments.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Geographically there is concentration of credit risk in the South African market.

The Group has established a credit policy under which each new customer is analysed individually for creditworthiness before payment and delivery terms and conditions are offered. The Group's review includes external ratings, when available, and in some cases bank references. Purchase limits are established for each customer, which represent the maximum open amount; these limits are reviewed annually or when conditions arise that warrant a review. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.

35. Financial risk management continued

35.3 Credit risk continued

Trade and other receivables continued

Most of the Group's customers have been transacting with the Group for over three years, and losses have occurred infrequently. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or a legal entity, whether they are a wholesale, retail or end-user customer, geographic location, industry, ageing profile, maturity, existence of previous financial difficulties and existence of current financial difficulties. Trade and other receivables relate mainly to the Group's retail and wholesale customers. Customers that are graded as "high risk" are placed on a restricted customer list, and future sales are made on a prepayment basis. Overdue accounts are put on hold until payments are received to return them to within limits.

Most goods sold are subject to retention of title clauses, so that in the event of non-payment the Group may have a secured claim. The Group does not require collateral in respect of trade and other receivables.

The Group establishes an impairment loss allowance for expected credit losses in respect of trade and other receivables by applying the simplified approach of IFRS 9, measuring the impairment loss allowance based on lifetime expected credit loss. Further to this, as a practical expedient, the Group applies a provision matrix assessing historical credit losses per aged bucket of trade debtors, grouped into customer segments with similar loss patterns, and overlays this with the Group's assessment of general economic conditions to estimate expected future losses. The assessment of impairment loss allowance takes into account credit enhancements that are part of the contractual terms and are not recognised separately by the Group. The majority of the debtors balance is insured.

Cash and cash equivalents, loan receivables and other investments

The majority of the Group's investments are in liquid securities with counterparties that have sound credit ratings. Where considered necessary, security is sought. Management does not expect any counterparty to fail to meet its obligations.

Guarantees

The Company's policy is to provide limited financial guarantees in respect of banking facilities for subsidiaries. At 30 June 2023 guarantees were in place for AVI Financial Services Proprietary Limited, National Brands Limited, Irvin & Johnson Holding Company Proprietary Limited, A&D Spitz Proprietary Limited, Indigo Brands Proprietary Limited, Hampton Sportswear Proprietary Limited, Green Cross Manufacturers Proprietary Limited, Ciro Full Service Beverage Company Proprietary Limited, Irvin & Johnson Aquaculture Proprietary Limited and Irvin & Johnson Property Holding Company Proprietary Limited (2022: AVI Financial Services Proprietary Limited, National Brands Limited, Irvin & Johnson Holding Company Proprietary Limited, A&D Spitz Proprietary Limited, Indigo Brands Proprietary Limited, Hampton Sportswear Proprietary Limited, Green Cross Manufacturers Proprietary Limited, Ciro Full Service Beverage Company Proprietary Limited, Irvin & Johnson Aquaculture Proprietary Limited and Irvin & Johnson Property Holding Company Proprietary Limited). There have been no draw downs of the above mentioned guarantees in the current and prior year.

In addition, the Company provides limited sureties for subsidiaries in relation to outstanding debt under the cash management agreement for Group subsidiary companies that participate in the Group's cash management agreement.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

| | Carrying amount | |
|------------------------------|-----------------|-------------|
| | 2023 R'm | 2022 R'm |
| Long-term receivables | 19,9 | 17,0 |
| Derivatives | 44,4 | 72,2 |
| Trade and other receivables* | 1 790,0 | 1 608,0 |
| Cash and cash equivalents | 494,9 | 191,4 |
| Total | 2 349,2 | 1 888,6 |

^{*} Excludes prepayments and VAT receivables.

for the year ended 30 June 2023

35. Financial risk management continued

35.3 Credit risk continued

The maximum exposure to credit risk for trade receivables** for the Group at the reporting date by geographic region was:

| | Carrying | amount |
|----------------|-------------|-------------|
| | 2023 R'm | 2022 R'm |
| South Africa | 1 298,2 | 1 170,5 |
| Europe | 242,9 | 195,6 |
| Australasia | 9,1 | 21,9 |
| Rest of Africa | 164,5 | 133,0 |
| Other | 26,6 | 39,2 |
| Total | 1 741,3 | 1 560,2 |

^{**} Net of allowances for credit notes, discounts and other trade terms.

The maximum exposure to credit risk for trade receivables for the Group at the reporting date by type of customer was:

| | Carrying | ı amount |
|-------------------------------------|----------|----------|
| | 2023 | 2022 |
| | R'm | R'm |
| Wholesale customers | 742,8 | 675,7 |
| Retail customers | 882,6 | 785,8 |
| End-user customers and direct sales | 115,9 | 98,7 |
| Total | 1 741,3 | 1 560,2 |

The Group's most significant customers, being two South African retailers, accounted for 33,9% of the carrying amount of trade receivables at 30 June 2023 (2022: 31,7%).

Impairment losses

The ageing of trade receivables at the reporting date was:

| | Gross R'm | 2023 Impairment loss allowance R'm | Expected credit loss rate % | Gross R'm | 2022 Impairment loss allowance R'm | Expected credit loss rate % |
|----------------------------|--------------|--|-----------------------------|--------------|--|-----------------------------|
| Not past due | 1 715,5 | - | | 1 503,6 | (0,5) | 0,0 |
| Past due 0 – 30 days | 3,3 | (0,1) | 3,0 | 35,1 | (0,3) | 0,9 |
| Past due 31 – 120 days | 18,8 | (2,1) | 11,2 | 16,6 | (1,0) | 6,0 |
| Past due 121 days – 1 year | 2,3 | (1,2) | 52,2 | 1,9 | (1,0) | 52,6 |
| Past due more than 1 year | 1,4 | (1,4) | 100,0 | 3,0 | (3,0) | 100,0 |
| Total | 1 741,3 | (4,8) | 0,3 | 1 560,2 | (5,8) | 0,4 |

The majority of trade receivables not past due relate to credit extended to large South African retailers and wholesalers, considered to be of a high credit grade.

Based on historical default rates, the Group believes that a nominal impairment loss allowance is appropriate in respect of trade receivables not past due.

The movement in the impairment loss allowance in respect of trade receivables during the year was as follows:

| | 2023 | 2022 |
|--|-------|-------|
| | R'm | R'm |
| Balance as at 1 July | (5,8) | (6,6) |
| Impairment loss recognised in profit or loss | (1,2) | (0,4) |
| Effect of movement in exchange rates | _ | (0,1) |
| Impairment loss utilised | 2,2 | 1,3 |
| Balance as at 30 June | (4,8) | (5,8) |

35. Financial risk management continued

35.3 Credit risk continued

The Group establishes an impairment loss allowance for expected credit losses in respect of trade and other receivables by applying the simplified approach of IFRS 9, measuring the impairment loss allowance based on lifetime expected credit loss. Further to this, as a practical expedient, the Group applies a provision matrix assessing historical credit losses per aged bucket of trade debtors, grouped into customer segments with similar loss patterns, and overlays this with the Group's assessment of general economic conditions to estimate expected future losses. The assessment of impairment loss allowance takes into account credit enhancements that are part of the contractual terms and are not recognised separately by the Group. The majority of the debtors balance is insured.

The assumptions used to calculate the expected credit loss allowance include, among others, insurance cover in place, past impairment provisions and bad debts written off as well as management's assessment of the fast moving consumer goods environment.

The allowance for impairment in respect of trade receivables is used to record expected credit losses unless the Group is satisfied that no recovery of the amount owing is possible at that point, the amount is considered irrecoverable and is written off against the financial asset directly.

The carrying amounts represent the maximum exposure to credit risk.

35.4 Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group actively manages short-term funding requirements via the Group Treasury with regular forecasts. Typically the Group ensures that it has sufficient liquidity to meet expected operational expenses for a period of eight weeks, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

In addition, the Group maintains R3,7 billion of committed borrowing facilities with banks. These are a combination of short- and medium-term facilities. These facilities provide the Group with access to sufficient funding to maintain its strong financial position.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

| | Carrying amount R'm | Contractual cash flows R'm | 1 year or less R'm | +1 – 2 years R'm | +2 – 5 years R'm | More than 5 years R'm |
|--------------------------------------|---------------------------|----------------------------|--------------------------|---------------------|---------------------|-----------------------------|
| 30 June 2023 | | | | | | |
| Non-derivative | | | | | | |
| financial liabilities | | | | | | |

35.5 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and commodity input prices, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising returns.

The Group buys foreign currency derivatives in order to manage foreign exchange risks. Such transactions are carried out within the guidelines set by the Group Treasury. Generally the Group seeks to apply hedge accounting in order to manage volatility in profit or loss.

The Group also enters into fuel swaps to manage a portion of its exposure to fluctuations in oil prices.

The Group does not enter into commodity contracts other than to meet the Group's expected usage requirements; such contracts are not net settled.

Currency risk

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of Group entities. The Group is primarily exposed to the Euro, the US Dollar and the Australian Dollar.

Generally the Group hedges 25 to 75 percent of its estimated foreign currency exposure in respect of forecast sales and purchases over the following 12 months. The Group hedges between 75 and 100 percent of all trade receivables, trade payables and firm and ascertainable commitments denominated in a foreign currency. The Group uses forward exchange contracts to hedge its currency risk, all with a maturity of less than one year from the reporting date. When necessary, forward exchange contracts are rolled over at maturity.

35. Financial risk management continued

35.5 Market risk continued

In respect of transactions not covered by forward exchange contracts or other monetary assets and liabilities denominated in foreign currencies that arise in the normal course, the Group ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary.

The Group's investments in foreign subsidiaries are not hedged as those currency positions are considered to be long term in nature.

Exposure to currency risk

The Group's exposure to significant foreign currency risk was as follows, based on nominal amounts:

| | Trade receivables | Cash and cash equivalents | Trade payables | Borrowings (including lease liabilities) | Balance sheet exposure | Estimated forecast sales* | Estimated forecast purchases* | FECs on sales/receivables | FECs on purchases/ payables | Net forecast FC exposure |
|---------------------------------|-------------------|---------------------------|-------------------|---|------------------------------|---------------------------|-------------------------------|---------------------------|-----------------------------------|--------------------------------|
| | FC'm | FC'm | FC'm | FC'm | FC'm | FC'm | FC'm | FC'm | FC'm | FC'm |
| Net exposure as at 30 June 2023 | | | | | | | | | | |

for the year ended 30 June 2023

35. Financial risk management continued

35.5 Market risk continued

Sensitivity analysis

A 10 percent weakening of the Rand against the following currencies at 30 June applied against the net forecast foreign currency exposure for the next 12 months would result in the following changes to operating profit over a 12 month period. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis as 2022.

| | Profit/(loss) and equity | | |
|-------------------|--------------------------|--------|--|
| | 2023 | 2022 | |
| | R'm | R'm | |
| Australian Dollar | 22,7 | 12,0 | |
| Botswana Pula | 6,7 | 8,0 | |
| Euro | 160,5 | 41,3 | |
| US Dollar | (106,7) | (54,4) | |
| Zambian Kwacha | 4,7 | 4,6 | |
| | 87,9 | 11,5 | |

A 10 percent strengthening of the Rand against the above currencies at 30 June would have had an equal but opposite effect to the amounts shown above. This analysis assumes that all other variables, in particular interest rates, remain constant.

Interest rate risk

The Group, being strongly cash generative, adopts a policy of ensuring that most of its exposure to changes in interest rates on borrowings is on a floating rate basis. Where economical, interest rate swaps may be entered into on a portion of debt.

Profile

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments was:

| | Carryin | Carrying amount | |
|---------------------------------|-----------|-----------------|--|
| | 2023 | 2022 | |
| | R'm | R'm | |
| Variable rate instruments | | | |
| – financial assets ¹ | 494,9 | 191,4 | |
| – financial liabilities² | (1 701,0) | (1 395,6) | |
| | (1 206,1) | (1 204,2) | |

¹ Includes cash and cash equivalents.

Fair value sensitivity analysis for fixed rate instruments

The Group accounts for fixed rate instruments on an amortised cost basis and therefore a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

An increase of 100 basis points in interest rates at the reporting date, calculated on the closing balances and using simple interest for 12 months, would have decreased profit by the amounts shown below. A decrease of 100 basis points would have had an equal but opposite effect to the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2022.

| | Profit/(loss) | Profit/(loss) and equity | |
|---------------------------|---------------|--------------------------|--|
| | 2023 | 2022 | |
| | R'm | R'm | |
| Variable rate instruments | | | |
| - financial assets | 4,9 | 1,9 | |
| – financial liabilities | (17,0) | (14,0) | |
| Net cash flow sensitivity | (12,1) | (12,1) | |

² Includes current borrowings.

36. Financial assets and liabilities

Accounting classifications and fair values

The table below sets out the Group's classification of each class of financial assets and liabilities, including their levels in the fair value hierarchy (if applicable).

| | | Carrying amount | | Fair value hierarchy | | | |
|--|-------------|--|--|----------------------|---------|---------|--|
| | Assets | Debt instruments, derivatives and equity instruments at fair value through profit or loss | Debt instruments at amortised cost | Level 1 | Level 2 | Level 3 | |
| | Liabilities | Financial liabilities at fair value through profit or loss | Financial liabilities at amortised cost | | | | |
| 30 June 2023 | R'm | R'm | R'm | R'm | R'm | R'm | |
| Financial assets measured at fair value | 44,4 | 44,4 | - | - | 44,4 | - | |
| Forward exchange contract derivative assets | 44,3 | 44,3 | - | | 44,3 | | |
| Fuel swap derivative assets | 0,1 | 0,1 | - | | 0,1 | | |
| Financial assets not measured at fair value | 2 304,8 | - | 2 304,8 | - | - | - | |

| Financial liabilities measured at fair value | (11,0) | (11,0) | 171,4 | _ | (11,0) | |
| Forward exchange contract derivative liabilities | (10,7) | (10,7) | | _ | (10,7) | |
| Fuel swap derivative liabilities | (0,3) | (0,3) | _ | | (0,3) | |
| Financial liabilities not measured at fair value | (3 676,4) | (0,3) | (3 676,4) | _ | (0,3) | |
| Current borrowings | (1 395,6) | | (1 395,6) | | | |
| Lease liabilities | (472,2) | _ | (472,2) | | | |
| Trade and other payables | \ · · · -/-/ | | \ · · · - / - / | | | |
| - Trade payables | (1 116,2) | _ | (1 116,2) | | | |
| - Other payables | (692,4) | _ | (692,4) | | | |

Management has assessed that the fair values of cash and cash equivalents, trade and other receivables, trade and other payables and current borrowings approximate their carrying amounts largely due to the short-term maturities of these instruments.

The different levels as disclosed in the table above have been defined as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Measurement of fair value

The following table shows the valuation techniques used in measuring Level 2 fair values, as well as the significant unobservable inputs used.

Financial instruments measured at fair value

| Туре | Valuation technique | Significant unobservable inputs | Inter-relationship between significant unobservable inputs and fair value measurements |
|---|--|---------------------------------------|--|
| Derivative assets and liabilities at fai value: used for hedging | Market comparison technique: The fair value of rforeign currency contracts and fuel swaps (used for hedging) are marked-to-market by comparing the contracted forward rate to the present value of the current forward rate of an equivalent contract with the same maturity date. | Not applicable | Not applicable |

There were no transfers between Levels 1,2 or 3 of the fair value hierarchy for the years ended 30 June 2023 and 30 June 2022.

37. Post-reporting date events

The shareholder arrangement with Main Street 198 (Pty) Ltd ("Main Street"), the minority shareholder at I&J Holding Company (Pty) Ltd ("I&J HoldCo"), matured on 1 July 2023. The 19-year relationship between Main Street and the Group generated significant value, including over R202,0 million in net cash to Main Street. In terms of the agreements, and on the maturity date, AVI Limited exercised its call option over the shares held by Main Street in I&J HoldCo and the preference shares held by AVI Limited in Main Street were redeemed.

In line with our commitment to sustainable transformation, a broad-based sharing of economic value and the Broad-based Black Economic Empowerment ("BBBEE") codes, the Company and I&J implemented a new BBBEE transaction with effect from 1 July 2023 in terms of which Twincitiesworld (Pty) Ltd ("Twincitiesworld"), a 100% black-owned company, acquired an 18,75% interest in I&J Limited. I&J's employees own 6,25% of I&J Limited resulting in 25% of the issued share capital of I&J Limited being held by previously disadvantaged shareholders.

The mechanics of the replacement structure align closely with the terms of the expiring relationship with Main Street and is financed through a preference share investment at the I&J HoldCo level. The preference share funding will be settled through dividend flows with 90% of normal dividends received applied against the funding with 10% available as a trickle-through. Furthermore, a put and call option is in place between I&J Holdco and Twincitiesworld, the exercise price of which is determined by a fixed formula based on I&J Limited's earnings. The exercise date of the put and call option is December 2036.

The replacement scheme will be recognised as a liability in the Group's financial statements, with a concomitant day 1 income statement impact on 1 July 2023.

Other than the transaction noted above, no material events that meet the requirements of IAS 10 have occurred since the reporting date.

38. Going concern

The Group earned a net profit for the year ended 30 June 2023 of R1 836,9 million (2022: R1 751,2 million) and as of that date, its total assets exceeded its total liabilities by R5 116,9 million (2022: R4 793,7 million).

The trading environment remains particularly challenging given the volatility around currency, significant inflation, rising interest rates, the impact of load-shedding as well as the financial state of South Africa's consumers. Through this, the Group is focused on driving recovery and growth in its underlying businesses. We have seen improvements in most key performance indicators.

As part of preparing the financial results, the Group has performed a detailed going concern assessment. This assessment has relied on the Group's 2024 budget and has considered the profitability and solvency projections over the budget period. The budget for the year ahead was presented in the context of a challenging local economic environment, with the impacts thereof continuing to affect our customers through 2023 and 2024. Even under these conditions, the budget delivered shareholder value creation while maintaining stable capital and solvency positions throughout the cycle. As part of the budget process, a downside scenario was considered that examined a protracted inflation scenario in the midst of continuing infrastructure failures which will fuel inflation and reduce economic activity. The assessment shows that the Group remains sufficiently capitalised with appropriate levels of liquidity and no material uncertainty in relation to the going concern has been identified in the base budget as well as the downside scenario.

Based on the above, no material uncertainties that would require disclosure have been identified in relation to the ability of the Group to remain a going concern for at least the next 12 months. The directors therefore consider it appropriate for the going concern basis to be adopted in preparing the consolidated annual financial statements.

notice of annual general meeting

AVI Limited

(Incorporated in the Republic of South Africa) (Registration number 1944/017201/06) Share code: AVI ISIN: ZAE000049433 ("AVI" or "the Company" or "the Group")

NOTICE OF ANNUAL GENERAL MEETING

INCORPORATING A FORM OF PROXY FOR THE USE OF HOLDERS OF CERTIFICATED ORDINARY SHARES AND DEMATERIALISED ORDINARY SHARES WITH "OWN NAME" REGISTRATION ONLY.

Notice is hereby given that the seventy-ninth Annual General Meeting of members of the Company will be held at 2 Harries Road, Illovo, Johannesburg, on Wednesday, 8 November 2023 at 11:00 for the following purposes:

To consider and if deemed fit, to pass with or without modification, ordinary resolutions 1 to 10. In terms of the Companies Act 71 of 2008, as amended ("the Companies Act"), for an ordinary resolution to be adopted, it must be supported by more than 50% of the total number of votes exercised on the resolution by the shareholders present or represented by proxy at this meeting and entitled to vote thereon.

- 1. "That the annual financial statements for the year ended 30 June 2023, together with the reports of the directors, the independent auditors, and the Audit and Risk Committee, be and are hereby adopted."
- 2. "That Ernst & Young Inc. be and are hereby appointed as the external auditors of the Company."
- 3. "That Mrs A Muller, who will retire by rotation in accordance with the Company's Memorandum of Incorporation and who, being eligible, offers herself for re-election, be and is hereby re-elected as a director of the Company."*
- 4. "That Mr M Koursaris, who will retire by rotation in accordance with the Company's Memorandum of Incorporation and who, being eligible, offers himself for re-election, be and is hereby re-elected as a director of the Company."*
- 5. "That Mr MJ Watters be and is hereby elected as a non-executive director of the Company."*
- 6. "That Mr SG Robinson be and is hereby elected as a non-executive director of the Company."*
- 7. "That Ms MR Mouyeme be and is hereby elected as a non-executive director of the Company."*
- 8. "That Mr SG Robinson, subject to his election as a non-executive director in terms of ordinary resolution 6 above, be and is hereby elected as a member and the Chairman of the Audit and Risk Committee."*
- 9. "That Mrs A Muller, subject to her re-election as a non-executive director in terms of ordinary resolution 3 above, be and is hereby elected as a member of the Audit and Risk Committee."*
- 10. "That Ms MR Mouyeme, subject to her election as a non-executive director in terms of ordinary resolution 7 above, be and is hereby elected as a member of the Audit and Risk Committee."*

To consider and if deemed fit, to pass with or without modification, special resolutions 11 to 18, alternatively special resolutions 19 to 26. In terms of the Companies Act for a special resolution to be adopted, it must be supported by at least 75% of the total number of votes exercised on the resolution by shareholders present or represented by proxy at this meeting and entitled to vote thereon.

Non-executive directors are remunerated in line with market-related rates for the time required to discharge their ordinary responsibilities on the Board and its sub-committees. A portion of the fees is paid as a retainer with the balance being paid for attendance of normal scheduled meetings. For extraordinary ad hoc services rendered that fall outside their ordinary duties, the non-executive directors are remunerated by way of a market related hourly fee, subject to authorisation by the Remuneration Committee ("Remcom").

It has become increasingly necessary to ensure that the Company is able to retain and recruit the most competent and experienced non-executive directors. In order to improve the Company's opportunity to do this the remuneration framework needs to recognise experience (external, as well as, internal), and make an assessment of individual contribution and performance.

During F22 the Remuneration Committee reviewed current market remuneration practices for non-executive directors, which vary widely depending on the role, size of the organisation, sector, and industry. The time required to perform the role is also an important consideration, together with responsibilities, such as membership of a Board committee. The Company's existing remuneration practice for non-executive directors does not create differentiation for competence, individual contribution, or experience (including tenure). In order to improve the Company's opportunity to attract and retain the most competent and experienced non-executive directors a remuneration framework needs to recognise experience (outside, as well as, inside the Company), and make an assessment of individual contribution and performance. To this end the Remuneration Committee resolved to implement a non-executive director remuneration framework incorporating a base fee together with experience fees, all of which will be assessed annually against individual performance with potential for payment of a performance fee as a percentage of the base fee. This framework, with the annual individual performance review, will dictate the level of remuneration for each non-executive director for the following year. The current split of total fees being paid as a combination of a fixed retainer and the balance for attendance at formally convened meetings will continue.

^{*} Brief CVs of the directors appear on pages 82 and 83 of the Integrated Annual Report.

Formal evaluations will be conducted annually by Remcom in respect of each non-executive director in an open and constructive manner. Each director will be required to meet with Remcom for purposes of their own evaluation and will be afforded an opportunity to address Remcom. The Chairman's evaluation will be conducted by the Board, led by the Lead Independent director. If deficiencies are identified plans will be developed and implemented for the director/s in question to acquire the necessary skills or attributes or behaviour. The evaluations will be done at the end of each financial year and will dictate the level of remuneration for each director for the following year.

Shareholders were asked to vote at the 2022 Annual General Meeting on the increase in fees for each role based on this amended framework. More than 50% of shareholders voted in favour of the fees but, as these were special resolutions requiring a vote of 75%, no increases in non-executive remuneration were approved for F23 other than an increase in the fees payable to non-executive directors from R385 506 to R500 000 (which was subsequently reduced by the Board to R450 000). It was apparent to the Company from shareholder queries received prior to the Annual General Meeting that more information and engagement was needed in order to explain and motivate the new framework and attendant fee increases. To that end, the tables set out on pages 99 and 100 of the Annual Report provide examples of how the framework would be applied in the event of a hypothetical: (a) 100% experience and performance fee; (b) on-target experience and performance fee; and (c) 0% experience and performance fee. It is apparent from this that, under the new framework, non-executive directors with less experience and/or who underperform, risk earning less than they do under the current framework of a fixed retainer and attendance fee.

This year shareholders are again asked to vote on an increase in fees based on the new framework, but are also provided with an alternative remuneration proposal, which is based on the existing framework with an inflation-linked increase. This will ensure that, if shareholders are inclined to vote against the new framework fees they are given the opportunity to vote for an inflation-linked increase which will enable the Company to, at least, ensure that its non-executive directors' fees remain competitive and non-executive directors are fairly remunerated for their efforts. The Company remains strongly of the view that implementing the new framework and fees will reward and motivate the appropriate behaviours and enable the Company to attract and retain the most competent non-executive directors. Shareholders are encouraged to engage with the Company before making their decision.

Resolutions 11 to 18: New framework proposal

- 11. "That with effect from 1 July 2023 the total potential maximum fees payable to the current non-executive directors, excluding the Chairman of the Board and the foreign non-executive director, Mr MJ Watters, be increased from R450 000 per year to R611 782 per year."
- 12. "That with effect from 1 July 2023 the total potential maximum fees payable to the Chairman of the Board be increased from R1 435 929 per year to R2 675 000 per year."
- 13. "That with effect from 1 July 2023 the total potential maximum fees payable to the members of the Remuneration, Nomination and Appointments Committee, excluding the Chairman of the committee, be increased from R131 923 per year to R179 352 per year.
- 14. "That with effect from 1 July 2023 the total potential maximum fees payable to the members of the Audit and Risk Committee, excluding the Chairman of the committee, be increased from R144 998 per year to R196 950 per year."
- 15. "That with effect from 1 July 2023 the total potential maximum fees payable to the non-executive members of the Social and Ethics Committee, excluding the Chairman of the committee, be increased from R97 182 per year to R132 121 per year."
- 16. "That with effect from 1 July 2023 the total potential maximum fees payable to the Chairman of the Remuneration, Nomination and Appointments Committee be increased from R287 297 per year to R390 585 per year."
- 17. "That with effect from 1 July 2023 the total potential maximum fees payable to the Chairman of the Audit and Risk Committee be increased from R310 749 per year to R422 468 per year."
- 18. "That with effect from 1 July 2023 the total potential maximum fees payable to the Chairman of the Social and Ethics Committee be increased from R144 998 per year to R196 950 per year."

In the event that shareholders do not vote in favour of any of resolutions 11 to 18 above, shareholders are asked to alternatively vote on resolutions 19 to 26 below: CPI-linked increase

- 19. "That with effect from 1 July 2023 the fees payable to the current non-executive directors, excluding the Chairman of the Board and the foreign non-executive director, Mr MJ Watters, be increased from R450 000 per year to R486 000 per year."
- 20. "That with effect from 1 July 2023 the fees payable to the Chairman of the Board be increased from R1 435 929 per year to R1 550 803 per year."
- 21. "That with effect from 1 July 2023 the fees payable to the members of the Remuneration, Nomination and Appointments Committee, excluding the Chairman of the committee, be increased from R131 923 per year to R142 477 per year.
- 22. "That with effect from 1 July 2023 the fees payable to the members of the Audit and Risk Committee, excluding the Chairman of the committee, be increased from R144 998 per year to R156 598 per year."
- 23. "That with effect from 1 July 2023 the fees payable to the non-executive members of the Social and Ethics Committee, excluding the Chairman of the committee, be increased from R97 182 per year to R104 957 per year."
- 24. "That with effect from 1 July 2023 the fees payable to the Chairman of the Remuneration, Nomination and Appointments Committee be increased from R287 297 per year to R310 281 per year."
- 25. "That with effect from 1 July 2023 the fees payable to the Chairman of the Audit and Risk Committee be increased from R310 749 per year to R335 609 per year."

notice of annual general meeting continued

26. "That with effect from 1 July 2023 the fees payable to the Chairman of the Social and Ethics Committee be increased from R144 998 per year to R156 598 per year."

To consider and if deemed fit, to pass with or without modification, special resolutions 27 to 31 relating to foreign non-executive director remuneration. In terms of the Companies Act for a special resolution to be adopted, it must be supported by at least 75% of the total number of votes exercised on the resolution by shareholders present or represented by proxy at this meeting and entitled to vote thereon.

During 2023 the Company appointed two new non-executive directors as set out in the governance report at page 84. This included the appointment of a foreign non-executive director. Shareholders are asked to approve these fees, including fees to be paid to the foreign non-executive director as Chairman of the Board and a member of the Audit Committee, the Remuneration, Nominations and Appointments Committee, and the Social and Ethics Committee, should he be appointed to these committees. The proposed fees have been benchmarked against the 2022 UK Spencer Stuart Board Index and will be subject to the new framework proposal set out above.

Resolutions 27 to 31:

- 27. "That with effect from 1 July 2023 the fees payable to the foreign non-executive director, Mr MJ Watters, are approved as £39 000 per year."
- 28. "That with effect from 1 July 2023 the fees payable to the Chairman of the Board, should the Chairman be a foreign non-executive director, be approved as £100 000."
- 29. "That with effect from 1 July 2023 the fees payable to the members of the Audit and Risk Committee, should the member be a foreign non-executive director, be approved as £10 500."
- 30. "That with effect from 1 July 2023 the fees payable to the members of the Remuneration, Nominations and Appointments Committee, should the member be a foreign non-executive director, be approved as £7 000."
- 31. "That with effect from 1 July 2023 the fees payable to the members of the Social and Ethics Committee, should the member be a foreign non-executive director, be approved as £6 500."

To consider and if deemed fit, to pass with or without modification, special resolution 32. In terms of the Companies Act for a special resolution to be adopted, it must be supported by at least 75% of the total number of votes exercised on the resolution by shareholders present or represented by proxy at this meeting and entitled to vote thereon.

- 32. "That the Company and/or any of its subsidiaries be and are hereby authorised, by way of a general approval in terms of the Listings Requirements of the JSE Limited ("the JSE"), to acquire ordinary shares issued by the Company, upon such terms and conditions and in such amounts as the directors of the Company may from time to time decide, provided that:
 - any such acquisition shall only be made in compliance with the provisions of sections 4 and 48 read with section 46 of the Companies Act;
 - any such acquisition of ordinary shares shall be effected on the open market through the order book operated by the JSE trading system and done without any prior understanding or arrangement between the Company and the counterparty (reported trades being prohibited);
 - any such acquisition of ordinary shares is authorised by the Company's Memorandum of Incorporation;
 - this general authority shall be valid until the Company's next Annual General Meeting, provided that it shall not extend beyond 15 (fifteen) months from the date of passing of this special resolution;
 - the Company and its subsidiaries, may not, in aggregate in any one financial year, acquire in excess of 10% of the Company's issued ordinary share capital as at the date of passing of this special resolution;
 - the Board of directors has passed a resolution authorising the repurchase and confirming that the Company and its subsidiary/ies have passed the solvency and liquidity tests and that, since the tests were performed, there have been no material changes to the financial position of the Group;
 - in determining the price at which ordinary shares issued by the Company are acquired by it or any of its subsidiaries in terms of this general authority, the maximum premium at which such ordinary shares may be acquired will be 10% of the weighted average of the market value at which such ordinary shares are traded on the JSE as determined over the five business days immediately preceding the date of repurchase of such ordinary shares by the Company or any of its subsidiaries;
 - at any point in time, the Company may only appoint one agent to effect any repurchase on the Company's behalf;
 - the Company and/or its subsidiaries may not repurchase any ordinary shares during a prohibited period as defined by the Listings Requirements unless they have in place a repurchase programme where the dates and quantities of ordinary shares to be traded during the relevant period are fixed and which has been submitted to the JSE in writing prior to the commencement of the prohibited period. The Company will instruct an independent third party, which makes its investment decisions in relation to the Company's securities independently of, and uninfluenced by, the Company, prior to the commencement of the prohibited period to execute the repurchase programme submitted to the JSE; and
 - shares held within the AVI Group (so called treasury shares) will not have their votes at general meetings taken account of for Listings Requirements resolution approval purposes."

The directors consider that such a general authority should be put in place in accordance with the Listings Requirements in order to enable the repurchase of the Company's shares should an opportunity to do so, which is in the best interests of the Company and its shareholders, present itself during the year.

Upon cumulatively repurchasing 3% of the initial number of ordinary shares in issue and for each 3% of ordinary shares repurchased thereafter, the Company will make an announcement to such effect not later than 08:30 on the second business day following the day on which the relevant threshold is reached or exceeded.

To consider the non-binding ordinary resolution 33.

33. "That, by way of a non-binding advisory ordinary resolution, the Company's remuneration policy as set out in the Remuneration Report contained in the Integrated Annual Report of which this Notice forms part, be and is hereby endorsed."

The JSE Listings Requirements and King IV, dealing with boards and directors, require companies to table their remuneration policy every year to shareholders by way of a non-binding advisory vote at the Annual General Meeting. This vote enables shareholders to express their views on the remuneration policy adopted.

To consider the non-binding ordinary resolution 34.

34. "That, by way of a non-binding advisory ordinary resolution, the Company's implementation report as set out in the Remuneration Report contained in the Integrated Annual Report of which this Notice forms part, be and is hereby endorsed."

The JSE Listings Requirements and King IV, dealing with boards and directors, require companies to table their implementation report every year to shareholders by way of a non-binding advisory vote at the Annual General Meeting. This vote enables shareholders to express their views on the implementation report.

To consider any other business.

35. "To transact such other business as may be transacted at an Annual General Meeting".

Directors' statement

The directors, having considered the effects of special resolution 32 above, consider that for a period of 12 (twelve) months after the date of this notice:

- the Company and the Group will be able, in the ordinary course of business, to pay their debts;
- the assets of the Company and the Group, fairly valued in accordance with generally accepted accounting practice, will exceed the liabilities of the Company and the Group; and
- the Company and the Group's ordinary share capital, reserves and working capital will be adequate for ordinary business purposes.

General information

The following additional information, some of which may appear elsewhere in the Integrated Annual Report of which this notice forms part, is provided in terms of the Listings Requirements of the JSE for purposes of the general authority to repurchase shares (resolution 32):

- major beneficial shareholders pages 167 and 179 to 180; and
- share capital of the Company page 150.

Directors' responsibility statement

The directors, whose names appear on pages 82 to 83 of the Integrated Annual Report, collectively and individually accept full responsibility for the accuracy of the information pertaining to resolution 32 above and certify that, to the best of their knowledge and belief, there are no facts that have been omitted which would make any statement false or misleading, and that all reasonable enquiries to ascertain such facts have been made and that this notice contains all information required by law and the Listings Requirements of the JSE.

Material changes

Other than the facts and developments reported on in the Integrated Annual Report, there have been no material changes in the affairs or financial position, other than in the ordinary course of business, of the Company and its subsidiaries since the date of signature of the Annual Report and up to the date of this notice.

Record Date

The directors have determined in accordance with sections 59 (1) (a) and (b) of the Companies Act that:

- the record date for the purposes of receiving notice of the Annual General Meeting shall be the close of business on Friday, 29 September 2023; and
- the record date for the purposes of the Annual General Meeting (being the date on which a shareholder must be registered in the Company's share register to participate in and vote at the Annual General Meeting) shall be the close of business on Friday, 3 November 2023. Accordingly, the last day to trade to participate in and vote at the AGM is Tuesday, 31 October 2023.

notice of annual general meeting continued

Identification

In terms of Section 63(1) of the Companies Act, before any person may attend or participate in an Annual General Meeting, that person must present reasonably satisfactory identification and the person presiding at the Annual General Meeting must be reasonably satisfied that the right of the person to participate in and vote at the Annual General Meeting, either as a shareholder, or as a proxy for a shareholder, has been reasonably verified.

Voting and proxies

On a show of hands, every shareholder who is present in person or by proxy at the Annual General Meeting shall have one vote, and on a poll, every shareholder who is present in person or by proxy at the Annual General Meeting or which (being a company or body corporate) is represented, shall have one vote for every ordinary share in the Company of which such shareholder is the holder.

Dematerialised shareholders (who are not "own name" dematerialised shareholders) who wish to attend the Annual General Meeting or to vote by way of proxy, must contact their Central Securities Depository Participant ("CSDP") or broker who will furnish them with the necessary authority to attend the Annual General Meeting or they must provide their CSDP or broker with their voting instructions in terms of the relevant custody agreement entered into between them and their CSDP or broker.

Shareholders entitled to attend and vote at the Annual General Meeting may appoint one or more persons as their proxy to attend, speak and vote in their stead. A proxy need not be a shareholder of the Company.

A form of proxy is attached for the convenience of certificated shareholders and "own name" dematerialised shareholders only, who are unable to attend the Annual General Meeting, but who wish to be represented thereat. For administrative purposes, duly completed forms of proxy should be received by the transfer secretaries of the Company, Computershare Investor Services 2004 (Pty) Limited, Rosebank Towers, 15 Biermann Avenue, Rosebank, 2196 (Private Bag x9000, Saxonwold, 2132) by not later than 11:00 on Monday, 6 November 2023. Any forms of proxy not lodged by this time may be lodged at the Annual General Meeting prior to its commencement.

By order of the Board

AVI Limited

(Incorporated in the Republic of South Africa) (Registration number 1944/017201/06) JSE code: AVI • ISIN: ZAE000049433 ("AVI" or "the Company" or "the Group")

For use only by shareholders holding certificated shares, nominee companies of a Central Securities Depository Participant ("CSDP"), brokers' nominee companies and shareholders who have dematerialised their shares and who have elected "own-name" registration at the seventy-ninth Annual General Meeting of the Company, to be held at 2 Harries Road, Illovo, Johannesburg, 2196 at 11:00 on Wednesday, 8 November 2023 ("Annual General Meeting").

Shareholders who have already dematerialised their shares through a CSDP or broker must not complete this form of proxy but must provide their CSDP or broker with their voting instructions.

Holders of dematerialised shares, other than those with "own name" registration, who wish to attend the Annual General Meeting must inform their CSDP or broker of such intention and request their CSDP or broker to issue them with the necessary authorisation to attend the meeting.

| of (address) | |
|-----------------------|--|
| being the holder/s of | ordinary shares in the Company, do hereby appoint: |
| 1. | or failing him/her, |
| 2. | or failing him/her, |

3. the Chairman of the Annual General Meeting,

as my/our proxy to act for me/us at the Annual General Meeting which will be held for the purpose of considering and, if deemed fit, passing, with or without modification, the resolutions to be proposed thereat and at each adjournment thereof and to vote or abstain from voting on such resolutions in respect of the ordinary shares in the issued capital of the Company registered in my/our name/s in accordance with the following instructions (see note 2):

| | Number of votes (one vote per share | | |

Assisted by me (where applicable)

Each shareholder is entitled to appoint one or more proxies (none of whom need be a member of the Company) to attend, speak and, on a poll, vote in place of that shareholder at the Annual General Meeting.

Please read the notes on the reverse side hereof.

notes to the form of proxy

- A shareholder may insert the name of a proxy or the names of two alternative proxies of the shareholder's choice in the space/s provided, with or without deleting "the Chairman of the Annual General Meeting", but any such deletion must be initialled by the shareholder concerned. The person whose name stands first on the form of proxy and who is present at the Annual General Meeting will be entitled to act as proxy to the exclusion of those whose names follow.
- 2. Please insert an "X" in the relevant spaces according to how you wish your votes to be cast. However, if you wish to cast your votes in respect of a lesser number of shares than you own in the Company, insert the number of ordinary shares held in respect of which you wish to vote. Failure to comply with the above will be deemed to authorise the Chairman of the Annual General Meeting, if he is the proxy, to vote in favour of and any other proxy to vote or to abstain from voting in respect of the resolutions to be considered at the Annual General Meeting as he/she deems fit, in either case, in respect of all the shareholder's votes exercisable thereat. A shareholder or the proxy is not obliged to exercise all the votes exercisable by the shareholder or by the proxy, but the total of the votes cast and in respect whereof abstention is recorded may not exceed the total of the votes exercisable by the shareholder or by the proxy.
- 3. For administrative purposes, duly completed forms of proxy should be received at the office of the transfer secretaries, Computershare Investor Services 2004 (Pty) Limited, Rosebank Towers, 15 Biermann Avenue, Rosebank, 2196 or posted to Private Bag x9000, Saxonwold, 2132 to be received by not later than 11:00 on Monday, 6 November 2023. Any forms of proxy not lodged by this time may be lodged at the Annual General Meeting prior to its commencement.
- 4. The completion and lodging of this form of proxy will not preclude the relevant shareholder from attending the Annual General Meeting and speaking and voting in person thereat to the exclusion of any proxy appointed in terms hereof. The appointment of a proxy or proxies is furthermore revocable, in which case a shareholder may revoke the proxy appointment by cancelling it in writing or making a later inconsistent appointment of a proxy, and delivering a copy of the revocation instrument to the proxy and to the Company.
- 5. Documentary evidence establishing the authority of a person signing this form of proxy in a representative capacity must be attached to this form of proxy unless previously recorded by the Company's transfer secretaries or waived by the Chairman of the Annual General Meeting.
- 6. Any alteration or correction made to this form of proxy must be initialled by the signatory/ies.
- 7. A minor must be assisted by his/her parent or guardian unless the relevant documents establishing his/her legal capacity are produced or have been registered by the transfer secretaries of the Company.
- 8. The Chairman of the Annual General Meeting may accept a form of proxy, which is completed and/or received other than in accordance with these notes if he is satisfied as to the manner in which the shareholder wishes to vote.
- 9. If the instrument appointing a proxy or proxies has been delivered to the Company, as long as that appointment remains in effect, any notice that is required by the Companies Act or the Company's Memorandum of Incorporation to be delivered by the Company to the shareholder must be delivered by the Company to the shareholder, or to the proxy or proxies, if the shareholder has directed the Company to do so in writing and paid any reasonable fee charged by the Company for doing so.
- 10. The appointment of a proxy or proxies remains valid only until the end of the Annual General Meeting subject to any revocation thereof.
